March 1991

LETTER FROM THE EDITOR

The curtain was late in going up on the 1990 baseball season. The major-league owners locked the players out of spring training for 32 days before both sides compromised on a new basic agreement. With the houselights finally dimmed, a number of luminaries lit up the game's stage.

Carlton Fisk of the Chicago White Sox, with more games behind the plate than anyone in American League history, hit his 328th home run to break Johnny Bench's mark for catchers. His batterymate Bobby Thigpen provided plenty of relief with 57 saves.

Second baseman Ryne Sandberg of the Chicago Cubs and shortstop Cal Ripken of the Baltimore Orioles established the standards for fielding excellence with the most consecutive errorless games and chances at their positions. In addition, Sandberg led the National League in home runs (40), the first second baseman since Rogers Hornsby in 1925 to do so. And Ripken extended his consecutivegame streak to 1,411, second to Lou Gehrig's 2,130.

Willie McGee received mixed reviews when he won the National League batting title while finishing the season with Oakland in the American League, where Kansas City's George Brett drew raves by becoming the first player to wear a bat crown in three separate decades. Detroit's Cecil Fielder returned from a stay in Japan to hit 51 home runs, the most in the A.L. since 1961.

At age 43, Nolan Ryan of the Texas Rangers tossed his sixth career no-hitter, defeating Oakland on June 11. A month later, he became the 20th pitcher to win 300 games when he beat the Milwaukee Brewers. He also increased his insurmountable strikeout total to 5,308.

The pitchers, it seemed, were ahead of the batters all year, for an unprecedented nine no-hitters were thrown: by California's Mark Langston with Mike Witt, Seattle's Randy Johnson, Oakland's Dave Stewart and Los Angeles's Fernando Valenzuela (on the same night), New York's Andy Hawkins, Chicago's Melido Perez, Philadelphia's Terry Mulholland, and Toronto's Dave Stieb. Hawkins got the Harvey Haddix award for his when three Yankee errors left him with a defeat. His boss, team owner George Steinbrenner, suffered a more ignominious fate last summer when commissioner Fay Vincent forced him to resign as the Yankees' general partner.

Stewart won 20 games for the fourth consecutive season, but he lost out (again) in the Cy Young balloting to Bob Welch, whose 27 victories were the most in the A.L. since 1968. The pair led the A's to another division title and a sweep of the Boston Red Sox for their third pennant in as many years. They had help from Rickey Henderson, the league's Most Valuable Player. He ran his stolen-base total to 936, two shy of Lou Brock's all-time standard, and extended his own record for home runs by a leadoff batter to 45.

Barry Bonds, whose father, Bobby, had held that record, was the National League MVP. His teammate Doug Drabek earned the Cy Young Award as Pittsburgh won its first division flag in 11 years. But the Pirates fell in six games to the Cincinnati Reds, who brought the curtain down on the season and on Oakland's short-lived dynasty with a stunning four-game sweep in the World Series.

Single copies: in U.S. and possessions. \$3,95, in Canada, \$4.50. We cannot accept responsibility for unsolicited manuscripts or artwork. Any material submitted must include return postage.

Letters

Expanded Coverage

In the past few years, I have preferred purchasing your publication over other college football publications because you have provided excellent coverage and schedules of Division II and III. Unfortunately, while this year's edition is interesting, it is also a big disappointment due to the severe cutback in coverage of these two divisions.

Without this coverage, your publication is no better than the rest and I hope that next year, you will return to once again giving us the in-depth coverage these two divisions so

rightfully deserve.

JUNE E. COOLEY, San Jose, CA We had to eliminate all but the Division I-A and I-AA previews in our 1990 edition in order to accommodate the special 50th anniversary features, but we plan to have a comprehensive preview of Division II next year as well as some recap of Division III and the NAIA.

Dream Team

As a regular reader of both your Pro and College Football issues (I have all the College issues dating back to 1968), I noticed while reading the 50th anniversary issue article on the Dream Team by Larry Felser that a blackand-white photo of former Penn State star and Heisman Trophy winner John Cappelletti is featured. After not seeing his name on the first team, I looked at the second team. Again no mention of Cappelletti. Last chance, Honorable Mention...guess what? No name listed. Did I miss something or what? Please explain.

DAVID ROCKWELL, Pittsburgh, PA No, you did not miss anything, but we certainly did. John Cappelletti should have been included as a member of the Dream Team. We regret the oversight in not recognizing the Nittany Lions' outstanding running back and the 1973 Heisman Trophy winner.

I am somewhat surprised that you chose to ignore Brian Bosworth as a selection on your College Football "Dream Team." As an all-Big 8, All-America, Butkus Award winner, and a starter on Oklahoma's 1985 national championship team, the Boz is more than entitled to be named as one of the greats over the past 50 years. Whether he rates a spot on your first or second team is just a matter of opinion. But a list of accomplishments like those of the Boz rate him at least a spot on the honorable mention list.

GREGORY WORRELL, Daniels, WV

I have just finished reading your 50th anniversary College Football issue and especially enjoyed the cover and the Dream Team article. I was appalled, though, at Larry Felser's picks at running back. I am sure that Archie Griffin, Herschel Walker, O.J. Simpson, Tony Dorsett, Earl Campbell, and Glenn Davis are all deserving enough, but how could Barry Sanders be left off? Mr. Felser obviously made his choices on the basis of the individuals'

collegiate career, but Barry's spectacular season in 1988 is without equal! He broke 13 rushing records playing for Oklahoma State. Among the single-season marks:

- Most rushing yards (2,628)
- Most 300 yard games (4)
- Most points (234)
- Most touchdowns (39)

Also, Sanders erased the oldest record in the NCAA books. His 295.5-yard-per-game average surpassed the 246.3 set by Colorado's Byron "Whizzer" White in 1937. It is my belief that if Barry had not been behind All-America Thurman Thomas on the OSU depth chart his first two years, he would have eclipsed many of the career rushing and scoring records as well.

Terry Dark, Inola, OK Barry Sanders certainly had a spectacular junior season at Oklahoma State, for which he was honored with the Heisman Trophy as the best player in the country. And he was selected to our 50th Anniversary Dream Team as an honorable mention.

Bravo to you all! Your 50th anniversary issue of College Football was your best yet. I consider myself an authority because I've had the pleasure of reading every issue. I'm still kicking myself for not saving them. I know every fan will have something to say about your Dream Team, but surely there must have been a place—any place—for such fabled names as quarterback Ken (Snake) Stabler of Alabama and running backs Felix (Doc) Blanchard of Army, Jon Arnet of USC, and Emil (Red) Sitko of Notre Dame. I'm looking forward to your 100th anniversary issue.

JAMES W. ORR, Seattle, WA

Cover Stories

I would like to know the name of the individual whose picture is on the front cover of the 1945 College Football issue.

RALPH J. THOSS JR, Charlotte Hall, MD Bob Jenkins of Navy

As a Notre Dame college football fan, I was very interested in the cover of your 1990 edition. While I have a copy of every issue since 1940, I do not have a copy of every issue featuring a Notre Dame player on the cover. Could you please send me a list of the Notre Dame players who have appeared on your midwest covers?

DAN PIENNETTE, Fresno, CA Bob Kelly (1944), George Connor (1947), Ralph Guglielmi (1954), Terry Brennan, George Izo, and Joe Kuharich (1959), Phil Sheridan (1965), Terry Hanratty (1965), Tom Clements (1974), Ken MacAfee (1977), Bob Crable (1981), Tim Brown (1987), and Tony Rice (1989)

I thoroughly enjoyed the 50th anniversary issues of both Baseball and College Football. Of course there is always a difference of opinion when so many greats are involved. Growing up in the late '40s and early '50s, my favorites were Stan Musial and Warren Spahn in baseball and Glenn Davis and Doc Blanchard in football. I only wish you had named who was on the cover of all those issues. It would have brought back more pleasant memories.

HERB S. McFarland, Venice, CA

I must compliment you on the anniversary issues for Street & Smith's College Football and Baseball. I have collected many of the old issues dating back to late 1940s and the early '50s, though I have lost some. I also am hoping you will be using the same format for the Basketball preview in October. It would be very informative to your readers if they were able to identify the players on the covers of the yearly issues. Many times those players were judged to be among the best in their sport. Naturally, many of the players are readily identifiable to the avid sports fan, but I'm certain some people forget names but remember the faces as time goes by.

If it isn't asking too much, I'd like to have a listing of the College Football and Baseball cover subjects of the past 50 years.

ROBERT HAYES, Syracuse, NY For a complete list of past cover subjects, send a postage-paid return envelope.

College Basketball Schedules

Prep Basketball magazine, as I have for the last 20 years. I spent my lunch hour looking for the college schedules, which is one of the main reasons I buy your magazine. I realize that it is very difficult to be correct, as you folks wish to be, with the schedules, but you could still have them in your magazine with a disclaimer that they might not be 100 percent accurate. I save all the annuals in football and basketball every year. Get the schedules back so I can continue as a loyal customer.

KIT WILLIAMSON, Altoona, IA

I was disappointed when I began reading the 1990 College/Prep Basketball edition. It's true the schedules were not completely accurate, but even the large dailies such as the Los Angeles Times get the schedules screwed up, too. I say resume the schedules. All true fans know they're not always accurate. They give a viewer an idea of the strength of the team's schedule. Even with a schedule only half correct, you're still 50 percent more correct than Dick Vitale ever is.

DON BIDNICK, Bell Gardens, CA The consensus of our readers is that you would rather have the schedules, even if some of the dates get changed after they are released to us, than no schedules at all. We're sorry we disappointed so many of you. They will be in our next edition, we promise.

Michael Jordan Is Super

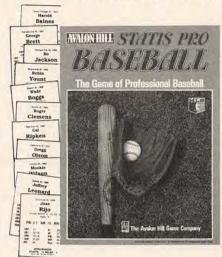

The reason I bought the Street & Smith's Pro Basketball magazine was because my favorite player, Michael Jordan, was on the cover. I like how you display your articles and sectional reports. I especially liked the article on Jordan because I was very impressed that he took time off his busy schedule to meet with Adam Ference, a fan of his who was recovering from a scrape with death. I also learned from other sources that Jordan is not just a great athlete, but also a great person.

JERRY SVORONOS, Astoria, NY

3 GREAT BASEBALL GAMES

As much fun to play SOLITAIRE as head to head!

Statis Pro Baseball ... complete with an individual card for every major league player of the 1990 season; yours to manage through an entire pennant race. No, sir, not just another stat game with dice like those advertised elsewhere in this magazine! Play is super realistic. And faster! Because you don't spend time looking up results on a whole lot of cumbersome charts. The secret to authenticity is in the Fast Action Cards, which eliminate the need for dice. "It's the perfect blend of managerial skill with realistic player performances", claim devotees who have played Statis Pro Baseball every season for over a decade. As manager, you select the lineups, you make all the changes, you call all the strategy, you control all the events. Everything our competitors claim, you can do...and more! And Statis Pro Baseball's unique design makes it as much fun playing it alone as against another person. That's why more stores carry Statis Pro Baseball than any other game of its kind. Comes in two versions: a red version containing all American League Players; a blue version with all National League Players. Suggested retail, \$25 each version.

Past Seasons Also Available

Statis Pro Baseball is never out of date! To play past seasons, simply order the Player Cards only. See coupon below!

Great Teams Baseball...plays just like Statis Pro Baseball. Only difference is you get individual Player Cards for what is considered 10 great teams from out of the past. Each player, star and reserve alike, has been computer analyzed for hitting, fielding, pitching, base-stealing, bunting, game-winning hits, strengths and weaknesses, even staminaour guarantee that each player should perform just as he did in real life. The teams you'll get are: '86 Mets, '84 Tigers, '76 Phillies, 75 Reds and A's, '69 Orioles, '65 Twins, '62 Giants and Dodgers, and '61 Yankees. Each won 100 or more games in a season, yet didn't live up to their greatness (like the '76 Phillies which didn't even get into the World Series). Find out why! Here's your chance to prove your managerial skills. Match up the "big red machine" against the powerhouse Mets...or, play the '61 Yankees against the '84 Tigers to see if current players have less ability, as many old-timers claim. You determine the lineups, pull pitchers at the right time, and make all the strategic decisions top managers are supposed to do in real life. Designed for solitaire play in addition to playing against a friend, Great Teams Baseball can be an outstanding training ground for those interested in a managerial career in baseball...it's that realistic!

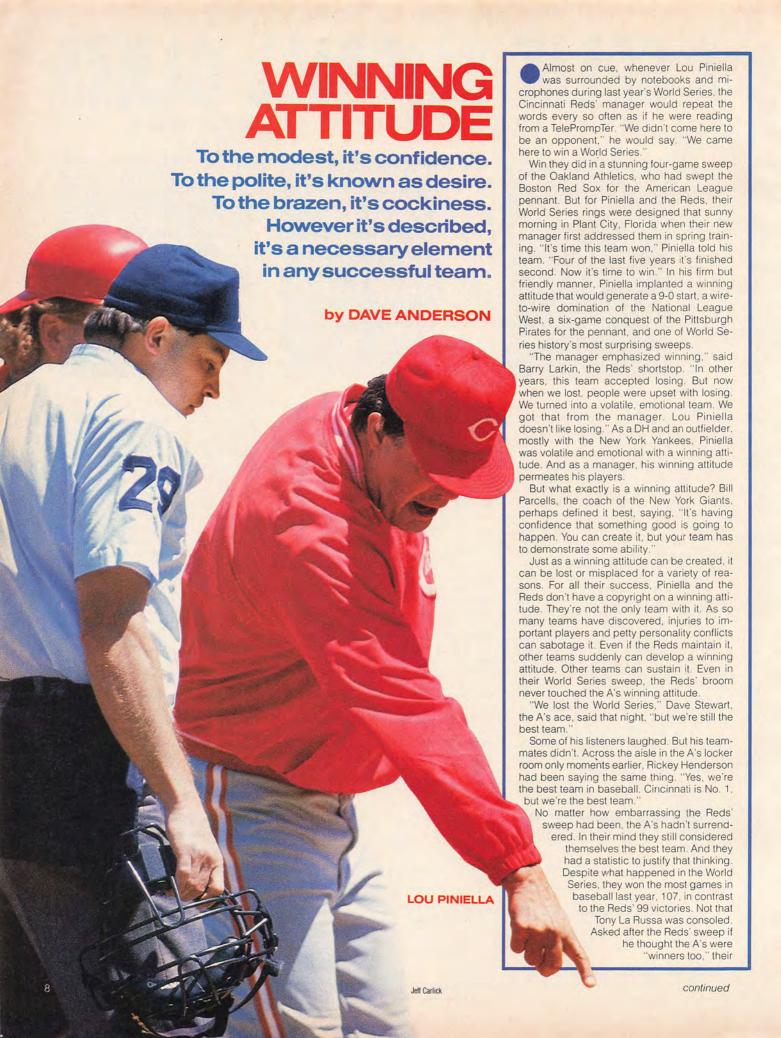

Superstar Baseball...the game that lets YOU manage great stars of different eras from out of the past...to see how they would perform against each other! Could Tv Cobb hit Bob Feller? Would Babe Ruth even see a Bob Gibson pitch much less take him downtown? How often would Dizzy Dean whiff Ted Williams? The possibilities are unlimited. Match the greatest American Leaguers against National Leaguers...or, the homerun hitters against the pitching immortals. You get 96 of the greats, including Hank Aaron, Yogi Berra, Roberto Clemente, Lou Gehrig, Rogers Hornsby, Walter Johnson, Al Kaline, Mickey Mantle, Juan Marichal, Willie Mays, Stan Musial, Brooks Robinson, Frank Robinson, Jackie Robinson, Duke Snider, even Cy Young...many, many more-yours to match up in dream games that once and for all might settle the question of who were really the greatest players of all time position by position. With statistics compiled by Sports Illustrated Magazine, each player should play up to his real-life potential. Solitaire or headto-head, Superstar Baseball will test your managerial genius.

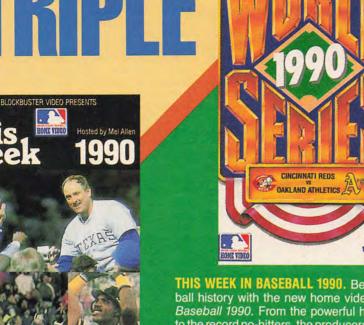

Additional Stars Also Available Separately Superstar Set II, with 48 more All-Stars such as Bench, Morgan, Palmer, and Ryan, now in stock. See coupon below!

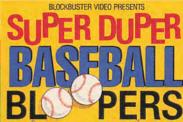

Look for them wherever games are sold. If not available locally, feel free to order direct. TOLL FREE 1-800-999-3222

WINNING ATTITUDE

manager shook his head. "Two winners? I don't agree with that," he said, "I feel we lost, But there's a difference between saying you're a loser and saying you lost. I don't think the Oakland A's are losers.

The difference is that a team without a winning attitude will almost always be a loser. But a World Series or a League Championship Series is a clash of teams with winning attitudes. Just because one team loses doesn't mean it lost its winning attitude. Misplaced it temporarily, perhaps, but not lost it. But the primary ingredient for a winning attitude is a team's or an individual's talent. Without talent, it's merely a nice try.

Sometimes a winning attitude in a team's front office is as important as a winning attitude in the clubhouse. As the Athletics' front office showed in acquiring Harold Baines, an experienced DH, and Willie McGee, whose .335 average with the St. Louis Cardinals would win the N.L. batting title, late last sea-

Ken Levine / Allsport USA

son and Rickey Henderson in mid-

season the year before.

"When you see the front office

do something to make sure

A's relief ace, "it increases your will to win." It also deflates the will of a team's rivals. Although the Chicago White Sox weren't con-

sidered capable of overtaking the A's last season, Oakland's acquisition of Baines and McGee ended whatever dream Jeff Torborg's

you should win," said Dennis Eckersley, the

The A's got Baines and McGee," said Ozzie Guillen, the White Sox shortstop. "We got Minnie Minoso and Jerry Hairston.

Guillen was joking. Now 68 years old, Minoso, who joined the White Sox in 1949, hoped to go to bat once late last season in order to appear in his fifth decade. But the White Sox were ordered by commissioner Fay Vincent not to use him. The 40-year-old Hairston, once an outfielder and DH with the White Sox, had been placed on the September roster to provide him with additional working days toward his pension benefits

But the essence of humor is truth. The truth of Guillen's wisecrack was that the A's front office, in adding Baines and McGee for the stretch drive and the postseason games, had displayed a winning attitude. To the polite, it's known as desire. To the modest, it's confidence. To the brazen, it's cockiness. However it's described, it's a necessary element in any winning team. Take the Pirates, a franchise that appeared in disarray and on its way out of Pittsburgh in 1985 but is now defending the N.L. East title.

'Back in '85," said Sid Bream, the Pirates' first baseman last season, "we had some individuals, all they came to the ballpark for was their paycheck every two weeks. Their desire to win wasn't there.

In the Pirates' race with the Mets last year, the desire was there. When the Pirates swept the Mets in a threegame series in Pittsburgh in early September, third baseman Wally Backman understood the psychology of the situation. "All season the Mets heard everybody saying they

were the team to beat," Backman said. "But now they finally realize we're the team to beat.'

In the end, the Mets couldn't beat them. For all their touted talent, the Mets haven't had a winning attitude since the departure of Keith Hernandez and Gary Carter, the pillars of their 1986 World Series triumph. Before joining the Los Angeles Dodgers as a \$20 million free agent last November, Darryl Strawberry talked about how "this team got too comfortable and laid-back." But to some of his teammates. Strawberry was the most comfortable and laid-back Met of all. Especially when he missed the final week of the season while complaining of back spasms.

"The way Straw didn't want to play in a pennant race," Tim Teufel said, "obviously he was not going to jeopardize anything going into the offseason as a free agent. He was thinking totally of himself, not the team. We still had a chance to win and Darryl just wouldn't play."

Of all the injuries in sports, an ailing back is the most mysterious, if not the most invisible. X-rays don't necessarily show what's wrong. It was Darryl Strawberry's back. Only he knew how much it prevented him from swinging a bat. But according to Teufel, "There are steps you take if you've got an injury like that," meaning treatment in the trainer's room. "Darryl didn't take those steps." Even when the Mets desperately needed a pinch hitter with a

WINNING ATTITUDE

home-run swing on the final weekend, he didn't offer to take his bat out of the rack.

Now, coincidentally, Strawberry is expected to implant the Dodgers with a wining attitude while replacing Kirk Gibson as their most feared slugger. Kirk Gibson, who hit one of the most dramatic home runs in World Series history while wobbling on damaged legs against the A's in the 1988 opener, inspiring the Dodgers' five-game triumph. Kirk Gibson, who implanted a winning attitude in the Dodgers that year by storming off the field before their first spring exhibition game after he realized that his new teammates had put eye black inside his blue Dodger cap.

"Are you guys here to play jokes?" Gibson snarled. "Or are you here to try to win?"

His message had been delivered. It also would be accepted. When the votes for the N.L. Most Valuable Player Award were counted later that year, Gibson won. His regular-season stats had not been that sensational: .290, 25 homers, 76 runs batted in. But he had enhanced his value to the Dodgers by creating a winning attitude that carried them through their World Series upset of the A's.

Gibson's reputation for having a winning attitude contributed to the Kansas City Royals' signing him as a free agent. For all the millions the Royals invested in free agents Mark Davis and Storm Davis a year ago, they thudded into sixth place, the flop of the American League West. But now the Royals are hoping that Gibson can do for them what he did for the Dodgers in 1988.

Until their recent skid into the depths of the American League East, the Yankees' almost perennial success defined a winning attitude. From the teams with Babe Ruth and Lou Gehrig through those with Joe DiMaggio and Mickey Mantle to those with Reggie Jackson and Ron Guidry.

"I think Reggie Jackson on your ball club is a show of force...of power," said the slugger known as Mr. October for his postseason theatrics. "I help to intimidate the opposition just because I'm here. That's part of my role."

Jackson dominated the 1977 World Series against the Dodgers with a record five homers, including three in the sixth-game finale. The next year, Guidry, a slender left-hander with a sizzling fastball, had a 25-3 record as the Yankees overtook the Red Sox in the final weeks before entering a one-game playoff. Asked the day before that playoff if he would have preferred a best-two-of-three playoff, Guidry shook his head. "One's enough," he said with a firm smile. "I can only pitch one game."

The Yankees won, 5-4, on homers by Bucky Dent and Jackson as Goose Gossage preserved the victory in the ninth inning by inducing Carl Yastrzemski to pop up to third baseman Graig Nettles with runners on third and second. But the Yankees had impressed the Red Sox with their winning attitude early that September by sweeping a four-game series in Boston after Jackson had spent 48 hours in the hospital for a back ailment.

"The Yankees are together, nine guys giving their all," Boston shortstop Rick Burleson said after that sweep. "Us? We come to the ballpark and one guy's dizzy, another guy's hand hurts. That's bull! The Yankees have one

guy who comes out of the hospital to play. That's how much this series meant to them."

It's the same in other sports. In the National Basketball Association, the Detroit Pistons have an opportunity this year to be the first team to win a third consecutive championship since the Boston Celtics put together eight consecutive titles from 1959 through 1966. During last year's NBA playoffs, the Pistons' quiet leader, Joe Dumars, talked about how we want to prove that we deserve to be world champions again. Once you win, you get selfish. You want to go through all those ceremonies. You want to get that feeling again." That feeling that only a championship team knows because of a winning attitude. Or that only a championship competitor in an individual sport knows because of a winning attitude.

Take Jack Nicklaus, for example. In the days before the 1986 Masters golf tournament, Nicklaus was asked to rate the three toughest shots on the back nine at Augusta National during Sunday's final round with the title at stake.

"I'm not going to answer that question," Nicklaus said politely but firmly. "I don't want to be standing over a shot out there Sunday with the tournament at stake and start thinking that I told somebody that this was the toughest shot on the back nine."

As it turned out, Nicklaus, then 46 years old, emerged that Sunday as the oldest Masters champion, with a record-tying score of 30 on the back nine, six under par. In retrospect, Nicklaus hadn't answered that question about the toughest shots because he didn't want any negative thoughts seeping into his mind in that final round.

Just as Nicklaus always has a winning attitude, some baseball players carry a winning attitude as if it were a bag of favorite bats. Don Baylor was like that. As a DH with the Red Sox, the Minnesota Twins, and the A's during the 1986, 1987, and 1988 seasons, he was in the World Series each year. Just by his presence in the clubhouse, he had a reputation as "the designated difference" in each of those teams winning a pennant.

"Don knew what he was talking about and he wasn't afraid to speak his mind," said Frank Viola, the World Series MVP of that Minnesota team. "He wasn't afraid to tell a guy to get his head out of his shorts."

Now the Milwaukee Brewers' batting coach, Baylor will be a major-league manager sooner or later. When he is, his team will be informed of the importance of a winning attitude, the importance of "priorities," as Baylor discovered last season when some of the Brewer players were watching football games on television in the clubhouse.

"Their enthusiasm is unbelievable," he said at the time. "They know who's hurt and who can't play. But you ask them who's pitching [against them] the next day, and they don't know. Get your priorities in line and maybe you can win a championship."

No baseball team has ever won the World Series or a pennant or a divisional title without having their priorities in line, without a winning attitude, without a feeling among its best players that their team can't be beaten, that their team is better than any other team. And that the team is the thing.

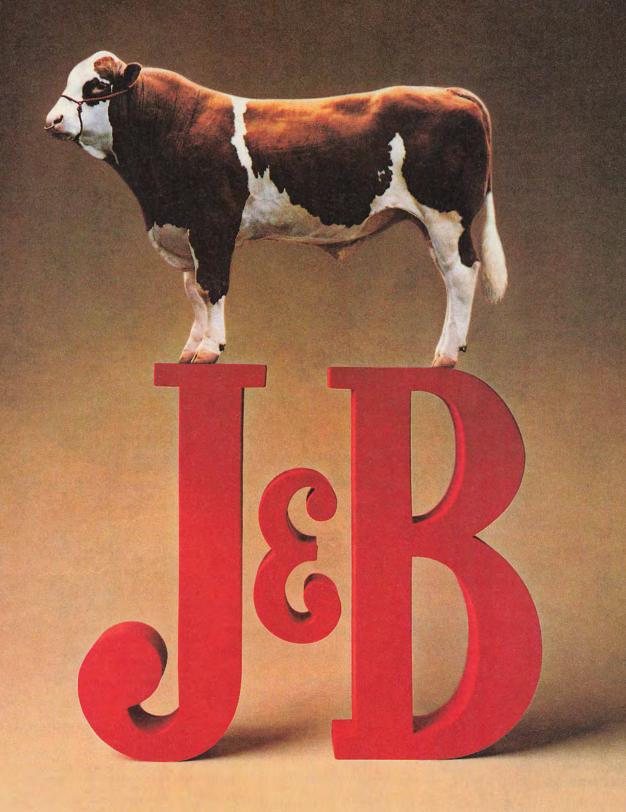

Few players have exemplified the team philosophy better than Joe Morgan did. Now a Hall of Fame second baseman, he played on six divisional champions, five in Cincinnati with the Big Red Machine that also won the 1975 and 1976 World Series and one with the Philadelphia Phillies that won the 1983 pennant. "I accumulated my stats for the team, not for myself," Morgan said. "There are a lot of things more important than a home run."

Morgan's knowledge of the game was such that Sparky Anderson, his manager for most of his career, never flashed him a sign. "I understood just about everything Sparky wanted me to do," Morgan said. "Bunt, steal, hit and run—whatever was needed."

In sweeping the World Series last year, the New Red Machine in Cincinnati found a way to do whatever was needed. And this season it will try to keep its machine humming with the same winning attitude. It's never easy. No team has won the World Series in consecutive years since the Yankees of 1977 and 1978, but only an hour after the Reds completed their sweep, Lou Piniella already was thinking about how to sustain that winning attitude.

"In spring training," the Reds' manager said, "I'm going to tell the players, 'Let's put it back together and show people we can repeat."

Meet over a JEB.

Rickey Henderson went home again to Oakland in the summer of 1989 and helped lead the Athletics to the World Series. With the A's from the start last season, he had a .325 batting and a .577 slugging average, second-best in the American League. He was No. 1 in runs (119), on-base percentage (.439), and steals (65), hit 28 homers, and placed in the top 10 in nearly every A.L. offensive category as Oakland won its third straight pennant. All of that helped Henderson earn 14 first-place votes and 317 points to outpoll Detroit's Cecil Fielder (10 firsts and 286 points), who hit 51 home runs, for the Most Valuable Player Award.

Barry Bonds received all but one first-place ballot to edge his Pirate teammate Bobby Bonilla for MVP honors in the National League. A left fielder, as is Henderson, Bonds also demonstrated a combination of power (33 homers, 114 RBIs, and .565 slugging) and speed (52 stolen bases and 104 runs), batted .301, and won a Gold Glove as Pittsburgh captured its first division title in 11 years.

"Strikeout King", Nolan Ryan, on specially commissioned Vernon Wells portrait cards. Ryan follows Reggie Jackson as our second "Baseball Hero."

UPPER DECK. THE MVP OF BASE-BALL CARDS, TWO YEARS IN A ROW.

The readers of Baseball Hobby News voted us "Card Set of the Year" two years in a row.

1991 has new subsets like "Top Prospects"; our picks for the upand-comers. Solid gold favorites like

"Star Rookies." Fun specials like "Stolen Base Leaders", and an Upper Deck Exclusive: The Michael Jordan Baseball Card. All this and our exciting collector features: action photos. clear stats.

counterfeit-proof cards. tamper-proof packaging, random sequencing and the quality the other guys just can't match!

UPPER DECK IS GOING, GOING...

1991 Upper Deck has the kind of excitement

that makes you cheer and shout.

But just like the best games, Upper Deck soon comes to an end--when the last pack is sold. Hurry to your neighbor-

hood store for Upper Deck's limited edition

baseball cards.

Baseball's biggest winners in 1990 came out triumphant in the Cy Young Award balloting. Bob Welch won 27 games for the Oakland A's, the highest total in the American League in 22 years; Doug Drabek had 22 victories for the Pittsburgh Pirates.

Welch, 34, had never won more than 17 games in any one of his 12 previous seasons, the first 10 of which he spent with the Los Angeles Dodgers. He was traded in 1988 to the A's, who have been in the World Series ever since, thanks in large part to Welch's 61 victories. But last year was his most rewarding by far. He was first in the league in winning percentage (.818 on his 27-6 record) and among the leaders in ERA (2.95), starts (35), and innings (238).

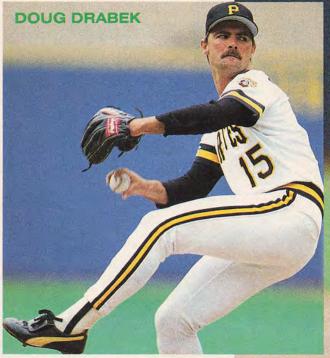

Welch collected 15 of the 28 first-place votes and 107 points. Roger Clemens of Boston was the runner-up, with eight firsts and 77 points. Dave Stewart of Oakland had three firsts and 43 points and Bobby Thigpen of Chicago two firsts and 20 points. Rounding out the election were Dennis Eckersley of Oakland and Dave

Eckersley of Oakland and Dave Stieb of Toronto (2 apiece) and Chuck Finley of California (1).

Drabek, 28, became the first Pirate to lead the league in victories since Bob Friend in 1958. He arrived in Pittsburgh in late '87 after a trade from the New York Yankees and has improved measurably ever since, lowering his ERA each year. His .786 percentage (22-6 record and 2.76 ERA) was tops in the N.L.; more importantly, Drabek was the stabilizer for the Eastern Division champions, winning 19 of his last 22 decisions.

Drabek received all but one of the 24 firstplace votes and 118 points. Ramon Martinez of Los Angeles had the remaining vote for first and 70 points. He was followed by Frank Viola (19 points) and Dwight Gooden (8) of New York and Randy Myers of Cincinnatti (1).

Otto Greule / Allsport USA

Now it's time for your career to take off.

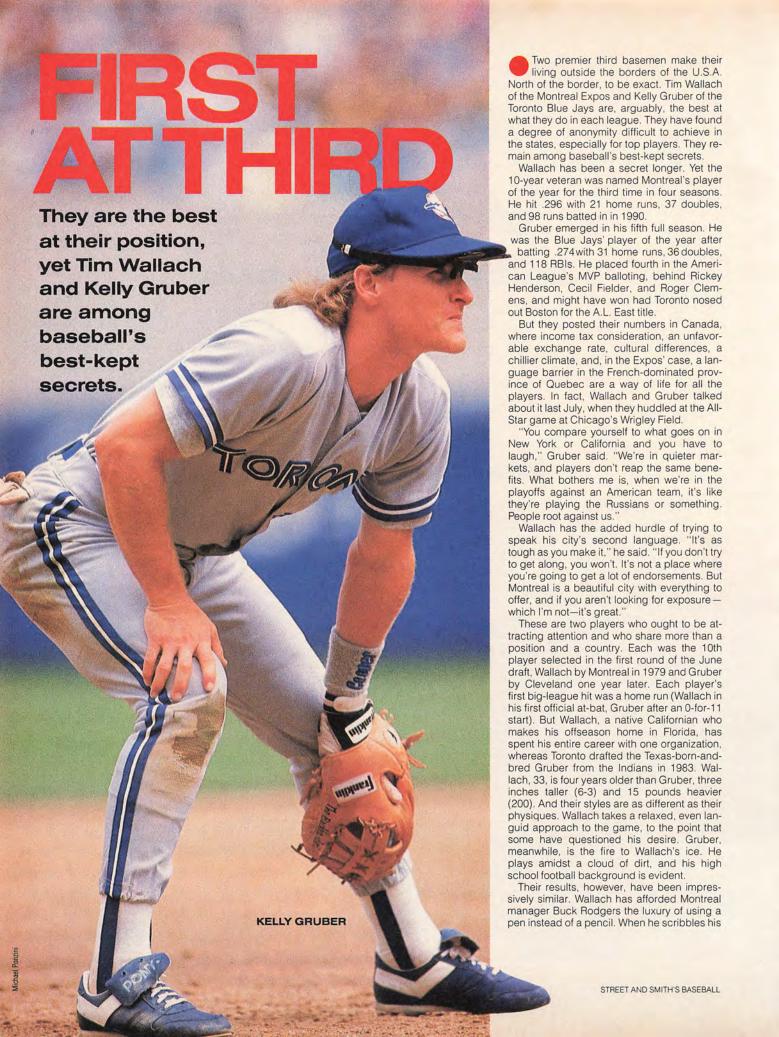

You were always talented. A few lines, a few folds, and you made a plain piece of paper soar. Too bad you couldn't fly out the classroom window on it.

So you finished school. And you're ready to see your career take off. You can do it all: work with and around aircraft, and get the training you need, in the Air Force Reserve.

Take advantage of programs that can put your career in high gear. Earn income and receive educational benefits, including the GI Bill that pays over \$5,000 toward your college expenses, credits through the Community College of the Air Force, and training that gives you plenty of time to study. Choose one from hundreds of career positions, from pilot, to engineer, to medical technician. Serve your country, and share the camaraderie, world-wide travel, and adventure.

Don't give up the dreams of childhood. Make them work for you, and America, in the Air Force Reserve. For information, call **1-800-257-1212**.

third baseman's name onto the Expos' lineup card, he rarely has to worry about erasing. "The best thing you can say about Tim Wallach is he's there," Rodgers said. His consistency has been matched only by his durability. Wallach, known as "Eli" to his teammates, has not spent a day on the disabled list. He has averaged 154 games per season and has played more games at third (1,374) since 1982 than any major leaguer. No Expos' player has appeared in more games. Last season, Wallach appeared in 161 games and batted 626 times, career bests.

Wallach was signed as a first baseman from Cal State-Fullerton, where he was chosen the 1979 college player of the year after reaching the College World Series in Omaha. Jim Fanning, Montreal's special consultant of baseball operations and the Expos' farm director in '79, saw him play three games one weekend and was sold. "He hit the ball so far, you didn't even have to wonder what he'd do without an aluminum bat," Fanning said. Unfortunately, the Expos had another first-base prospect in Dave Hostetler, a rawboned slugger who made his mark briefly with Texas in 1982. For a time, the two players flip-flopped, sharing first base and DH for Montreal's Double-A club in Memphis. Then Wallach was tried in right field and, finally, at third.

Wallach's bat was never in doubt. After playing in 71 games in 1981, he broke out with 28 home runs and 97 RBIs in 1982. He posted solid numbers in the next four seasons, then challenged former teammate Andre Dawson for MVP honors in 1987 by hitting .298 with 26 homers, 42 doubles, and 123 RBIs, Last year, Wallach tied Los Angeles's Eddie Murray with a league-leading 58 multi-hit games. He ranked fourth in doubles, eighth in RBIs, sixth in extra-base hits (63), and tied for fourth in hits (185). On May 13, Mother's Day, he tied a team record with eight RBIs. Then he sent flowers to his wife. Lori, Since the departure of Hubie Brooks, Wallach has anchored the cleanup spot in the Expos' order and has developed into what general manager Dave Dombrowski called a "professional RBI man."

"I always liked hitting with guys on base, but I've learned there are other ways to get a run in than trying to pull the ball," Wallach said. "You can be more effective sometimes by flar-

ing it the other way.

Frank Viola, the Mets' left-hander who has faced both Wallach and Gruber, said, "The way Wallach stands way off the plate, you'd expect him to be stepping into outside pitches. But you try to sneak a pitch inside on his hands and he's quick enough to turn on it."

Wallach's greatest strides have come in the field. Like Gruber, he won a Gold Glove in 1990. It was Wallach's third.

"He's made himself into a Gold Glover who really takes pride in his defense," Rodgers said. "He's not one of those guvs who just wants to get the bat in his hand. He came up with a reputation as a 'stick,' but he outgrew that a long time ago.'

Said Fanning, "He's the best I've ever seen at going down the foul line with his back to the plate for a pop-up. We used to marvel at his phenomenal instincts.

Making people marvel was part of the challenge, Wallach said. "When I first started, it wasn't pretty. I never expected a Gold Glove. But I felt that everyone figured, 'If he's just average at third, we'll be fine.' I didn't want to be just average. I had to work at it hard.

A dedicated family man with two sons, Matthew (5) and Brett (2), Wallach also is a sports fanatic who seldom strays far from his satellite dish. When he does, he wears a special sports beeper for the latest scores.

Beginning the second season of a threeyear, \$5 million contract, Wallach now has status as a "10-and-5" player. Despite rumors in the past, the Expos never seriously considered trading him. One reason was that the farm system hasn't produced a suitable replacement. A bigger reason is that Wallach's production made him too valuable. "Everybody wants him, but now it's a foregone conclusion that he's staying," Rodgers said. "People say, 'What about Wallach?' We say, 'Forget about Wallach.'

What once was a love-hate relationship with Expos fans has smoothed over, too, As much as they appreciated his contributions,

some wondered about his hustle. The Expos' brass tried to change him when he was at Memphis, to no avail. "I talked to him a few times about getting it revved up a little bit," said Fanning, "then he'd go out and play the exact same style. The fans in Montreal used to feel he wasn't aggressive enough, but they've learned. Now I don't hear anything. All I know is, when the ball's hit to him, you don't see the Tim Wallach who walks easily to his

position or to the plate.

Bob Gebhard, Minnesota's vice president of player personnel, previously worked for the Expos. "I was with a bright baseball executive who said Wallach wouldn't make it because he's 'too lazy,' " he said. "But that's his makeup. Trying to change him would be like telling someone who's very

emotional to slow to a snail's crawl. It wouldn't work."

Wallach has defended his nonchalance before. "That's part of growing up and understanding what your capabilities are," he said. "Your mental attitude is really important, not being too up or too down, because you can bury yourself in this game. My personality is fairly quiet. People have said laid-back. That's how I keep my emotions under control."

Gruber doesn't even try to keep his emotions under control. "I think all-out

is the only way to go," he likes to say. All-out is the way Gruber started last season. Never having hit more than 18 home runs in a full season, he hit seven in his first 17 games in 1990. He was Toronto's top player in April and May, and by the All-Star break was hitting .296 with 20 home runs, 66 RBIs, and 58 runs. Gruber finished strong, too, batting .352 in September, and wound up hitting a club-record 23 home runs at home. But don't give all the credit to the SkyDome.

"The thing he had to learn was that he had enough strength to utilize the whole field,"

said Al LaMacchia. the Jays' vice president and the man who scouted Gruber. Said Viola, "He's a lot like Wallach. Both are gap hitters with power to the alleys and both can pull the ball to go deep. Gruber suffered one bad slump in 1990 and it had only a little to do with baseball. He struggled immediately before and after the All-Star break, at one point going 2-for-22 in a home stand. But his real troubles started on July 3, when he took a Bert Blyleven fastball off his left hand. The next day, his wife, Lynn, gave birth to their first child, son Kody Robert. "On July 5," Gruber said, "I went into [manager Cito Gaston's] office and said. 'I'm not at continued on

BASICS TRAINING

In baseball, the fundamental things still apply.

by MURRAY CHASS

NEW YORK TIMES

Joe Sparks will not be recorded in base-ball history alongside the men who made an impact on the game, men such as Alexander Cartwright and Abner Doubleday, Babe Ruth and Cy Young, John McGraw and Casey Stengel, Joe DiMaggio and Ted Williams, Earl Weaver and Sparky Anderson, Marvin Miller and Richard Moss, Reggie Jackson and Dave Stewart. But with a revolutionary idea that he tried briefly last year, Joe Sparks called attention to a development in baseball that many people acknowledge but few try to do anything about.

Sparks, a long-time minor-league manager, served as a coach with the New York Yankees last year as long as Bucky Dent lasted as their manager. That was not too long, of course, so Sparks did not have long to work on the idea he implemented. For 15 minutes before each day's batting practice, Sparks would conduct a work session on fundamentals, teaching and refining the players' ability to execute the little things that can mean a lot in games. The program was unique in the major leagues. Teams sometimes work on fundamentals in spring training, but certainly no one takes the time or asks the extra effort from the players to practice them during the season.

"Bucky and I talked about my program during the winter," Sparks said of the plan that he had initiated a few years earlier with Indianapolis of the American Association. "I told him I thought it would be a big part of our winning close games if we could find the time to do it."

What are fundamentals? They are offensive and defensive plays that, as the word suggests, are so basic to the playing of the game of baseball that everyone, certainly those on the professional level, is supposed to be able to execute them routinely. They are bunting, hitting and running, squeezing a runner home from third base, hitting to the right side of the field to move a runner from second to third with no one out, hitting a ground ball when the infield plays back or otherwise a fly ball with a runner at third and less than two outs, a pitcher covering first base on a grounder to the right side of the infield, an outfielder hitting the relay man or throwing the ball so it can be caught by the cutoff man, the relay or cutoff man being properly positioned, the fielders correctly executing a rundown.

"Fundamentals begin when you're seven years old," said Joe McIlvaine, the new general manager of the San Diego Padres. "But we're getting players in professional baseball who don't know how to execute the fundamentals. Unfortunately. we're also getting players in the major leagues without rock-solid fundamentals."

Execution of fundamentals can mean the difference between winning and losing a game. Deion Sanders, the self-styled flash whose nicknames "Neon" and "Prime Time" belied his baseball performance, provided various examples last season of how a lack of

knowledge or understanding of good fundamental baseball can be costly.

In the seventh inning of a game the Yankees were losing to the Chicago White Sox, 4–3, Sanders walked with two out and stole second. He then tried to steal third but was thrown out. He had committed the cardinal baseball sin of making the third out at third base, and the Yankees wound up losing.

In another game, against the Boston Red Sox, Sanders entered as a pinch runner at second base in the seventh inning of a 3–3 tie. Randy Velarde hit a ground ball to shortstop, but Luis Rivera threw wildly to first base. Sanders, assuming the Red Sox would easily pick up the third out, loped (loafed?) to third base instead of running hard. By the time he realized he could score on the error and began running hard, he had lost valuable seconds. Carlos Quintana, the first baseman, retrieved the ball and fired home, where Tony Pena tagged Sanders. Instead of the tiebreaking run, Sanders was the third out. As it

turned out, Bucky Dent managed only one more game before he was fired as the Yankees' manager. Joe Sparks's 15-minute drills on fundamentals obviously hadn't helped Sanders or Dent.

"Some of these guys haven't done some of these things since Double A," Sparks had said, explaining the rationale for his unusual program. "I'll bet some of them haven't bunted or squeezed in five or six years. The game has gotten so complex, you really have to get the edge somewhere. The way to get the edge is to execute, and to be able to execute, you have to work at it."

In the case of a Deion Sanders, McIlvaine offered an explanation. Using two other former college football players as examples, he said, "Kirk Gibson and Bo Jackson have great skills, but when you watch them play the outfield and run the bases, they don't have good instincts. Instincts are different from fundamentals, but a lot of baseball players come from other sports. Kids get into football and basketball. When they see they're not good enough for the NFL or the NBA and come

back to baseball, they've had a gap in their education. They've never learned things."

As far as many baseball people are concerned, though, the Gibsons, Jacksons, and Sanders aren't alone in their knowledge gaps. Even players who begin at the lowest level of the minor leagues and proceed through the system reach the major leagues without having a firm grounding in the basics.

"It's pretty obvious that they don't learn their lessons well at the minor-league level," said Dallas Green, a former farm director, manager, and general manager. "We're in that period of rush-up baseball and we don't have time to teach them. Their one object is to get to the major leagues and make the big bucks. That approach doesn't lend itself to learning their lessons very well."

Fundamentals, on the other hand, are so ... well, fundamental that it would seem kids should learn them from the time they begin playing baseball. And if they don't learn them from their youth-league coaches, they certainly should learn them on their high school and college teams. Somehow, though, many, per-

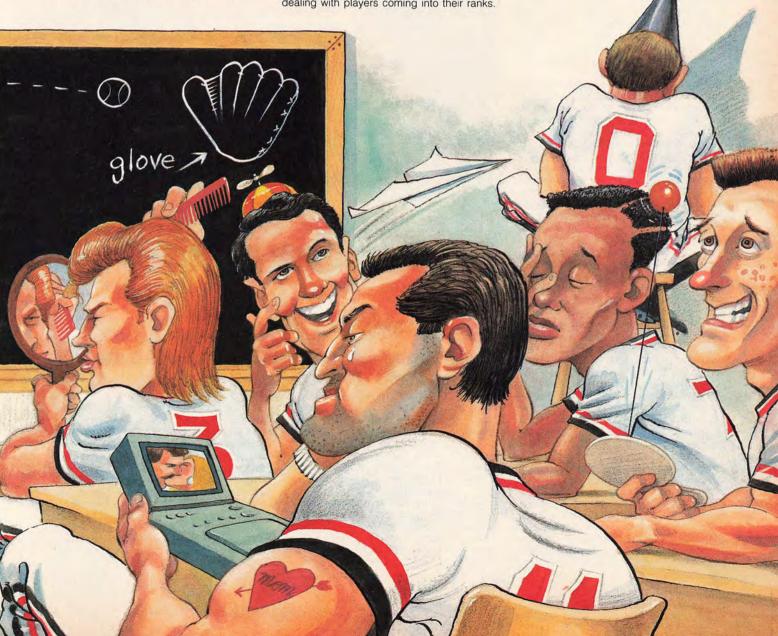

haps most, players get beyond those levels without having learned their lessons. It's not unlike students graduating from high school or college still not knowing proper spelling or grammar. It seems like it shouldn't be possible, but it's rampant.

Green thinks the problem stems from the overorganization of youth baseball. In pre-Little League time, he said, kids played baseball for hours and hours each day, every day. Today they adhere to the league schedule, playing their two games a week but little else. "They're so structured," he said, "they can't do this and they can't do that. They can only play Tuesdays and Thursdays. Those kinds of things have eaten into the game because you can't learn success and failure. In Little League, too many games are walks and strikeouts. No one besides the pitcher and catcher gets involved in the game. Baseball is so complex that unless you experience it, feel it, go through it time and again, you can't learn how to play it.

McIlvaine says professional baseball instructors should be guided by two rules when dealing with players coming into their ranks. "Assume they know nothing and have patience, he said. "On rule No. 1 you're usually right. Whether they come from the biggest baseball college in the country or the jungles of South America, there are always gaps in their education."

Frank Robinson, who as a player was as skilled at fundamentals as he was at the rest of the game, uses a differently worded guideline in expressing the same thought as McIlvaine. "You take nothing for granted in this game," the Baltimore Orioles' manager said. He means that for amateur players turning professional, for minor leaguers becoming major leaguers, and for major leaguers returning from a lazy winter.

"In spring training," Robinson said, "it looks boring and repetitious when you have pitchers covering first base three days in a row. But you have to reprogram pitchers so they act instinctively. You have to enjoy executing funcontinued on page 38

by MARTY NOBLE

NEWSDAY

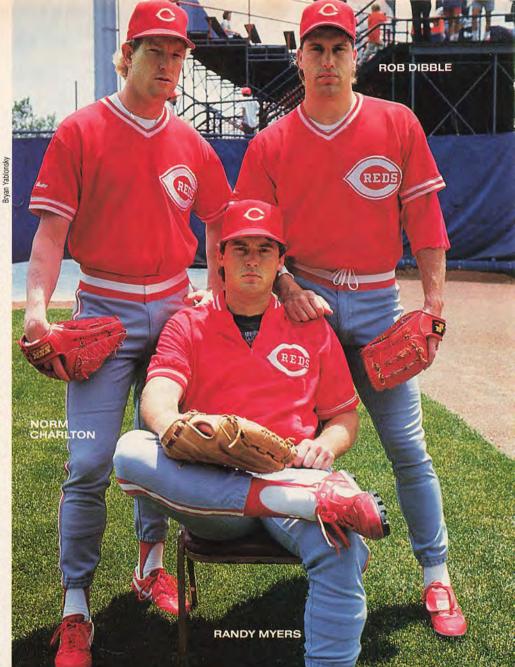

Of all the many unnecessary, ill-advised, 😹 and cockamamie personnel moves the Yankees made during the reign of George M. Steinbrenner, three continue to warrant special attention. Willie McGee for Bob Sykes was bad, and Fred McGriff for Dale Murray was worse-given McGriff's Yankee Stadium stroke. Both misguided deals have had a negative impact on the Yankees. But it is a third trade that stands alone as the worst Steinbrenner and/or his imaginary baseball people ever completed. Early in the 1982 season, Steinbrenner shipped Ron Davis, Greg Gagne, and Paul Boris to the Twins for Roy Smalley. The deal lives in infamy because of how it damaged the Yankees' bullpen.

Forget that the Yankees already had the sure-handed Bucky Dent at shortstop and no need for Smalley. Forget that Gagne had been groomed to replace Dent. The point here has nothing to do with what Smalley did or didn't do for the Yankees, or that Gagne went on to play for a World Series champion while the Yankees searched for a shortstop, or that Boris never developed, or that Davis served as the Twins' primary relief pitcher for the next four seasons.

The blunder was that Steinbrenner had given away his set-up relief pitcher when there was no need to do so. The move was the first domino in the collapse of the Yankees, an unforgivable mistake and another indication that Steinbrenner didn't grasp the game. In dealing Davis, Steinbrenner blindly undermined Rich Gossage, the Yankees' closer and, with Reggie Jackson gone, their most dominant force. The bullpen that had served the Yankees so well through their championship seasons (1976–1981) had been dealt a blow from which it never recovered.

"Goose was still a great pitcher while I was there," Davis would say eight years later. "But I think when they traded me, it took a year or two off Goose's career. They worked him hard that year and the next year. I remember him telling me that. They didn't have a guy who did what I did for him. He didn't throw a lot more innings. But without me, they got him up a little earlier, and they used him one or two batters more than they would have if I had still been there. I know he said he threw a lot more in the pen than he did when I was there."

The Yankees had prospered when Davis was in the bullpen serving in what became known as the "pre-Gossage" role. Even though each threw right-handed and essentially was a power pitcher, the total effect of Davis and Gossage was greater than the sum of the parts. Davis's presence, not to mention his prowess, allowed the Yankees to accomplish two things. It reduced Gossage's workload and reduced the game to six or seven innings. An opponent might see left-handers Ron Guidry, Dave Righetti (he was a starting pitcher then), or Tommy John for six innings. Then Davis would be summoned to provide an inning or two of his combination of rising and sinking fastballs. And finally, Gossage

WHATA RELIEF

The Nasty Boys put the finishing touch on a Reds'October by shutting out Oakland in the World Series.

would bring in his notorious scowl and ferocious fastball to blow away the last remnants of resistance.

Does that scenario seem somewhat familiar? It should. The formula the Yankees used in parts of 1979, in 1980 and 1981, and until Steinbrenner interfered in '82 is basically what Reds' manager Lou Piniella employed throughout last season and particularly during the Reds' stunning postseason blitz. Through most of the regular season, the Reds were content to make a game a best-of-seven proposition. "Beat our starter in seven innings or concede." That was the implied challenge.

But against the Pirates in the playoffs and Athletics in the World Series, they were even more aggressive. With all three Nasty Boys working from the bullpen, the Reds, in effect, reduced the nine-inning game by a third, increasing the pressure on the opponents' offense. So dominant were the Nasties that, in a way, they became an offensive weapon for the Reds. Not only did they prevent and deny; with each fastball, they attacked and inflicted damage. They, as much as Jose Rijo and Billy Hatcher, prevented the A's from summoning Dennis Eckersley in customary fashion. That is, with the lead.

Piniella had seen it all happen previously, in 1980 and 1981, watching Davis and Gossage regularly overwhelm and embarrass opposing batters from his perspective in the Yankees' outfield.

"When we first got Randy Myers [in a trade with the Mets for John Francol, I wasn't exactly sure what we had in personnel," Piniella said. "But when I got to spring training and saw the arms we had, it entered my mind that we could have another fearsome twosome like Goose and Davis. Randy would be like the Goose, the more experienced closer. And we'd bring along [Rob] Dibble the way the Yankees brought Davis along, not to be a set-up guy necessarily, but to be a secondary closer.

"It worked well with the Yankees. Each guy was rested and each guy got enough work. The only difference was that with the Yankees we had two righties and with the Reds we have the lefty and the righty, and we have [Norm] Charlton, too.'

Against the Reds last year, teams were forced to revise strategies to compensate for the reduced offensive opportunity. Just as Rollie Fingers, Bruce Sutter, Sparky Lyle, and Gossage had forced opposing managers to take their best shots-i.e., use their best pinch hitters-before the eighth inning, the Nastv Boys forced their opponents to go to the bench before the seventh, sometimes before the sixth, or at least to think about doing so.

The impact may even touch the other team's pitching. If the Reds had a 4-3 lead in the fifth with Charlton, Dibble, and Myers available to pitch, the opposing manager might remove his own pitcher for a pinch hitter earlier than he would otherwise to try to tie the score before the Nasties went to work.

"You keep their bullpen in the back of your mind like you do with anybody's bullpen." Pirates' manager Jim Leyland said during the playoffs. "But with the Reds, you don't keep it too far back. Lou can bring them in early, especially in a short series with off days.

It wasn't so much that Piniella told his starting pitchers "Go as hard as you can for as long as you can." It was understood that the starter would pitch six and leave the rest to Charlton, Dibble, and Myers (not necessarily in that order). The Reds just went a step further than most teams. All clubs now acknowledge the days of the one-man relief corps are passé. Every team has some reliever-reliable or not-designated as the set-up man. But the Reds had a triple threat for much of the season and throughout the postseason.

"Everyone talked about our bullpen in the playoffs and World Series," Reds' general manager Bob Quinn said during the winter meetings. "But we believe the reason we were able to pull away from the clubs in our division in April and May was because we had the three men in the pen."

Quinn supported his words by pursuing, albeit unsuccessfully, free-agent pitcher Zane Smith in December. The Reds had lost Danny Jackson to free agency and the Cubs, and rather than move Charlton into the rotation and diminish the bullpen, they chose to obtain another starter.

"It was the right formula then," Quinn said. "Why change? Two worked well. Three worked better. I'm not saying we started a trend, but I think a lot of people saw how well we did because of our relievers. You might

see some clubs copying what we did, putting more emphasis on their bullpen depth.

It certainly seemed that way over the winter. Baseball has its fads and phases, like anything else. Speed had been the element to pursue for years, and particularly since Whitey Herzog set his rabbits free in St. Louis in 1982. Stockpiling relievers appears to have replaced acquiring speed as the No. 1 priority. Herzog, to some degree, popularized the ensemble casting in the pen, but the more recent successes of the A's and the Reds have done even more for the relief fraternity.

. The White Sox initially dismissed trade-talk inquiries that involved Barry Jones, Bobby Thigpen's opening act. Jones had emerged as a critical factor in Chicago's unlikely performance last season with 11 victories and a 2.31 earned-run average in 74 innings. With Jones having such an outstanding season, it wasn't coincidental that Thigpen established a major-league record with 57 saves. But in

order to obtain Tim Raines, the Sox were forced to include Jones as part of the trade with Montreal

- The Giants afforded a guaranteed four-year. \$10 million package for Dave Righetti, a 32vear-old reliever who now is more than four vears removed from his best season.
- The Blue Jays already had closer Tom Henke (32 saves) and Duane Ward, who led the league in relief innings (127%). No matter, they invested \$6.3 million in Ken Dayley, the primary left-hander of the Cardinals' famed and now dismantled Bullpen by Committee.
- The Royals guaranteed journeyman reliever Dan Schatzeder \$700,000 in a free-agent contract. Their plan is to use Schatzeder against the tough left-handed batters-as the Orioles have used Kevin Hickey-a highly specialized assignment for someone who will earn more in one year than Gossage earned in any one year for the Yankees.
- The Mets searched for someone to do for Franco what Ed McMahon does for Carson: "He-e-e-e-re's Johnny." They haven't had a §

reliable bullpen tandem since 1987, when Jesse Orosco and Roger McDowell last were a team, and that void has been widely recognized as a primary factor in their failure to realize their potential in the last four seasons.

- The Brewers were resistant to dealing Chuck Crim for fear that losing him would negatively affect Dan Plesac.
- The Dodgers fantasized what a duo of Jay Howell and a recovered Jim Gott would do.
- A number of clubs drooled over the prospects of signing second-look free agent Larry Andersen as their set-up man. He eventually signed with the Padres.

And at the same time, the Pirates were wondering what would become of them with Ted Power returning to Cincinnati via free agency. Cubs' general manager Jim Frey was debating those who had installed his team as the early division favorite. There would have been no argument, he said, if he was certain of his closer and set-up man. He did sign secondlook free agent Dave Smith. The Red Sox still were mindful of how their bullpen couldn't hold the lead until it was time for Jeff Reardon in Game 1 of the American League Championship Series and were looking for help. Even the Reds worried a bit after Smith re-signed with the Pirates. "We're committed to keeping Charlton in the bullpen," Quinn said. "We like the sequence we had."

One man's sequence is another man's parade. "It was like a parade coming out of [the Reds'] bullpen," National League MVP Barry

continued

WHAT A RELIEF Tidrow generally is accepted as the pioneer. ter, two years later, won Cy Young Awards

He set up Sutter for the Cubs in 1979 and 1980 before Sutter was moved to the Cardinals. And Tidrow, an insightful student of the game who nov scouts for the Yankees, had filled the role for Sparky Lyle in 1977. It should not go unnoticed that Lyle, in 1977, and Sut-

> following Tidrow's setup. Tidrow was the assist man. providing a baseball version of the alley-oop, but no one thought enough to identify the role while he pitched for the

Yankees. He was used mostly as a starter in 1978 and was traded to the Cubs-another silly move by Steinbrenner-in May of '79 after he had failed as an understudy during Gossage's extended period to the disabled list. Once Tidrow was moved into the "pre-Sutter" role by manager Herman Franks, the Cubs flourished

"I don't think anyone had a name for what I Tidrow said, "until Jerome Holtzman [then of the Chicago Sun-Times] and Bob Ver-

everyone wants to be a closer. So I guess there is something special about the role. "McDowell did all the heavy work for me when we were with the Mets," deposed manager Davey Johnson said. "He might pitch

three times as many innings as Orosco and get no saves, and Orosco would get three."

outs on line drives, and I'd get the save. There can be some cheap saves. But every team

wants to have a guy to be the closer, and not

The occasional inequity Quisenberry and Johnson saw is even more conspicuous in the way relievers' work is measured. Rolaids, the keeper of relief statistics, rewards closers more than it does set-up relievers, just by the formula it created to track relievers' work. Each save is rewarded with three points, each victory with two; each loss and blown save is a two-point debit. Not that the role of closer is overrated, but perhaps the save is. Even a poor team with a relatively untested closer usually wins at least 90 percent of the games in which it leads after eight innings. And as Ellis once said when the legitimacy of his "five and fly" workday was questioned: "What's so hard about pitching the ninth? It's only one inning, and the batters are all tired.

But of course the bullpen is critical, all facets of it-even mop-up. Someone has to sacrifice his arm in a 14-3 game for the good of the team. Beyond that, relievers were responsible for nearly one third of the innings pitched last season, many because the starting pitchers were ineffective and, more than ever, because managers believe that a change of pitcher, even when not required because of a deficiency of the pitcher on the mound, will benefit his team.

GOOSE GOSSAGE

DAN QUISENBERRY

Bonds said. "I think you're going to see more of that next year. The way things are going, next year you'll have starters going five and the bullpen taking over. You're never going to get more than two looks at a pitcher. They're changing the game and making it tougher on hitters. I liked it the way it used to be.

The way it used to be, as far as Bonds is concerned, goes back all the way to 1987, the year he began his major-league career. His father, Bobby, knew a different look in bullpen. In the early seventies, when Bobby Bonds was ordained by Sparky Anderson as the best player on the planet, bullpens were there to back up the starting pitcher if he failed. Managers wanted their starters to be as thorough as possible. Complete games were not yet on the endangered list, and when players identified the starting philosophy of Pirates' pitcher Dock Ellis as "five [innings] and fly," it wasn't said out of respect.

Certainly that era had its share of noteworthy relievers, most prominently Fingers, who remains the career leader in saves (341) some five years after his final pitch. And when Fingers was doing his mustachioed magic for Charley Finley, he worked alongside Darold Knowles on the A's championship assembly line. But Knowles was more a limited partner than a set-up man. Others worked in relief, but there was no such thing as the "pre-Fingers" role. Relief roles went by other, more mundane and less sophisticated, names: middle relief and, worse, mop-up. And if a pitcher was summoned to bridge the gap between the starter and the closer, if he was assigned to succeed Catfish and precede Rollie, he most probably was described as "the guy who pitched the eighth." Specialization has given us the label "set-up man." Often times, the pitcher given that specific assignment is one too effective to waste in long relief or not equipped to handle the demands of the ninth.

No one can say with any authority who was the first to carry that designation. But Dick di [of the Chicago Tribune] started writing about it." And Sutter's endorsements helped.

"They became an entry," Holtzman says now. "Sutter was recognized first. He was already a name. But when Tidrow got there, everything improved. They worked well together. At first, Sutter got most of the credit, and Tidrow got a lot of the dirty work and just a pat on the back from the manager. But little by little, people started noticing how much Tidrow contributed. That team had quite a bullpen: Sutter, Tidrow, Donnie Moore, Bill Caudill, and Willie Hernandez. But Tidrow was the guy who seemed to make it come together. It wasn't just coincidence that Sutter won the Cy Young that year."

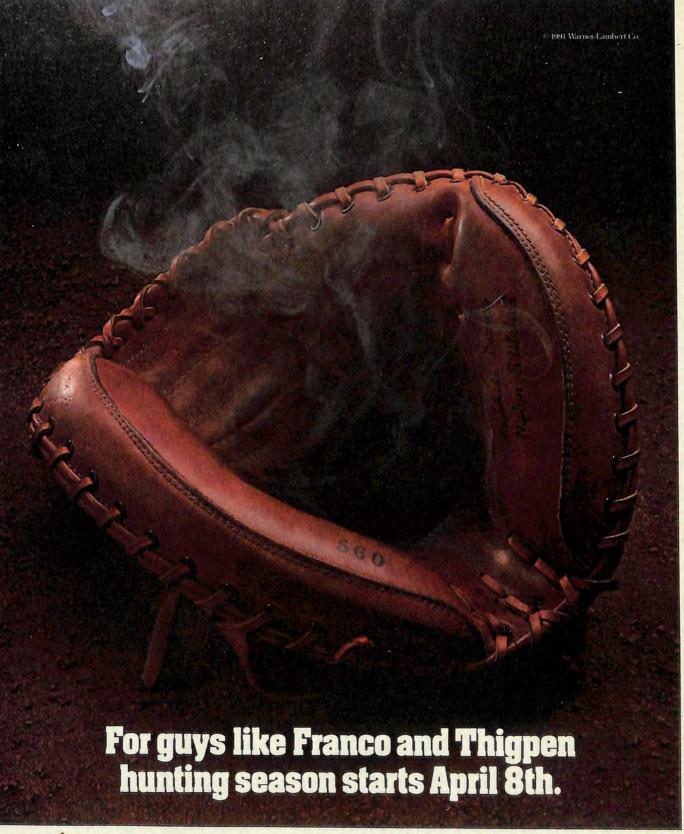

And yet, despite the praise and the conspicuous importance of the role, the set-up man often is underappreciated, his image overshadowed by that of the closer.

'Sometimes, there seems to be some inequity," said Dan Quisenberry, the erstwhile Royals' closer. "When Mike Armstrong was in that role with us, he'd come in with two on and one out in the seventh and get a double play, then pitch the eighth, get the first guy in ninth and walk someone. I'd be brought in, get two

"I know a lot of people have started thinking that the importance of relief has become overstated," Quisenberry said. "Maybe I'm prejudiced, but when I played, nothing brought a team down more than the fear that its bullpen wasn't reliable. If you lose 10-1, you can giggle on the bus. But if you blow [a game] in the ninth, the bus is not a happy place. A good bullpen might not be the most important thing, but a bad one can ruin a team."

The winners of the 1990 Rolaids Relief Man of the Year Award.

National John Franco, New York

American Bobby Thigpen, Chicago On opening day, they start firing. And if you think catching for a great relief pitcher is difficult, try getting a hit off one. At the end of the season,

At the end of the season, the relievers with the most wins and saves receive the Rolaids Relief Man of the Year Award, along with \$20,000 to donate to their favorite charities.

And to all the hitters who will face this year's winners, we're sorry, but you probably won't make it home safe.

The Major League Baseball Players Assoc. supports the Rolaids Relief Man Awards program. The Rolaids Relief Man Award is sponsored annually by the Warner-Lambert Company.

What does Dave Stewart have to do, anyway? He won 22 games in 1990, his highest total ever in the big leagues. He became the first pitcher to win 20 games four seasons in a row since Baltimore's Jim Palmer in 1975–78. He threw a no-hitter. He pitched the Oakland A's into their third straight World Series. But once again, somebody else—A's teammate Bob Welch this time—won the American League Cy Young Award.

Stewart says it doesn't matter. "Guys have been known-to win the Cy Young one year and flop the next," he said. "I've been consistent now for four straight years. That's far better than winning a Cy Young."

But you wonder, even though he's perhaps the straightest shooter in the game, if he's telling the whole truth. Stewart's pride

equals his late-blooming talent. He knows how good he is. And he understands the place he's building in baseball history, a place that just might end up with a Hall of

Fame plaque.

So it has to rankle him at least a little that he has now

become just the fourth pitcher since the inception of the Cy Young Award in 1956 to have four straight 20-victory seasons without winning the award. One of those pitchers, Giants' right-hander Juan Marichal, made the Hall of Fame. The other two, Dave McNally of the Orioles and Wilbur Wood of the White Sox, did not. They are remembered as very good pitchers, not great ones. Twenty years from now, is that how Dave Stewart, the man with the rubber arm and the menacing stare, will be thought of? Those who have seen him work, never missing a start, never yielding an inch no matter the opponent (usually the other team's best pitcher) or the situation, hope not.

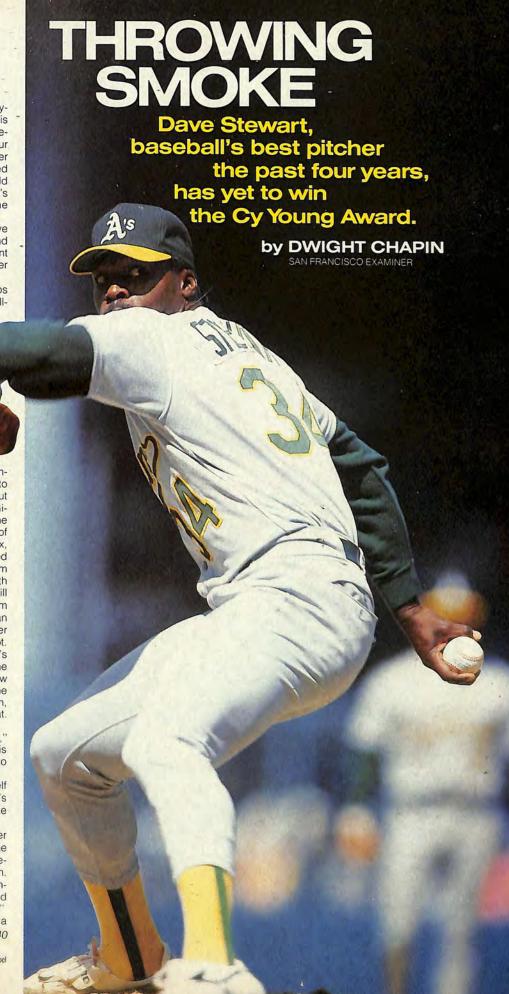

"He has supreme confidence," said A's second baseman Willie Randolph. "When he gets in a tough situation, where he can show people what he can do, he just rises to the occasion. Two other pitchers I played with, Orel Hershiser and Ron Guidry, were like that. There's just something special about them."

"The most important thing about Stewart," said A's pitching coach Dave Duncan, "is his desire to pitch to the best of his ability and to be the best."

"If there's any pitcher I would model myself after on the field and in the clubhouse, it's Dave Stewart," claimed former A's teammate Storm Davis. "Nothing bothers him."

And then there is this from A's manager Tony La Russa: "What Stewart has done the last four years is a tremendous statement, because it gets harder and harder every season. Guys all point for him now. As far as I'm concerned, every year he goes out there and does what he does, it gets more meaningful."

But not yet meaningful enough to warrant a continued on page 40

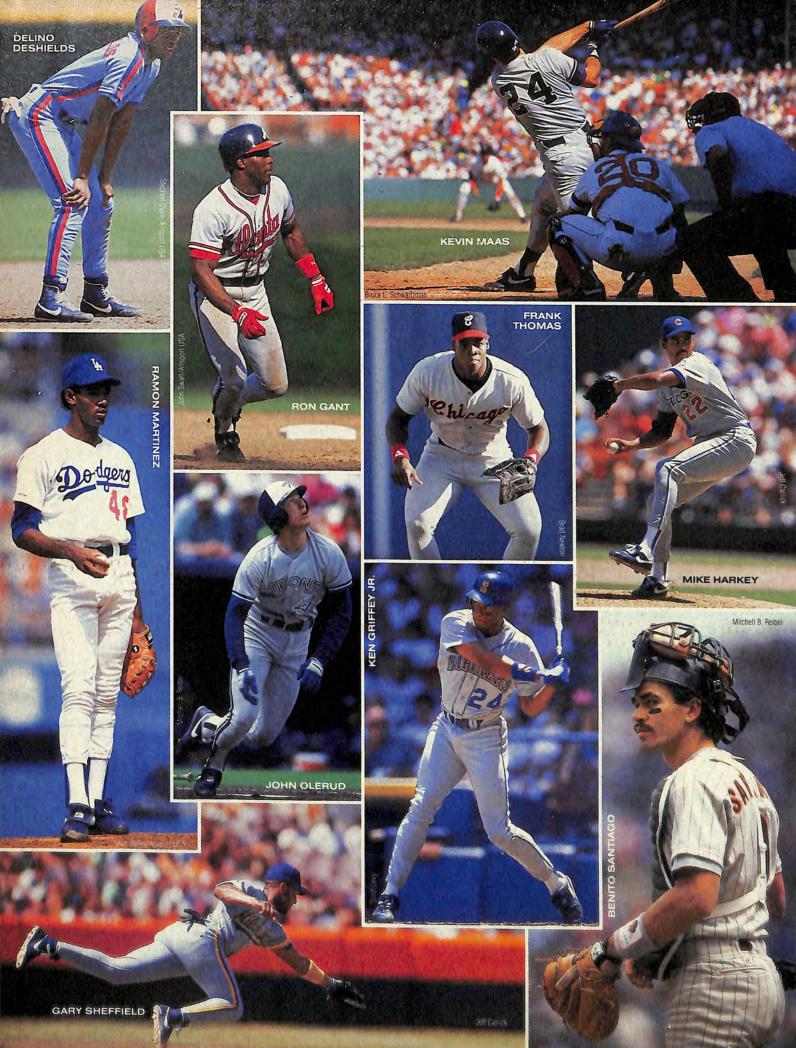

If you're a friend of Jack Daniel's, we hope you'll drop us a line. We promise to write back.

JACK DANIEL'S WHISKEY has been made in Lynchburg, Tennessee for a long, long time.

Our founder, Jack Daniel, built this office in 1866. It was 1912 when his nephew, Lem Motlow, became proprietor. And in 1946, Mr. Lem heired control to his four sons. Today, all but two of these Tennessee Whiskey makers have passed on. But their old office (and their old time methods) are still in place. And Jack Daniel's Whiskey is still made right here... charcoal mellowed and sippin' smooth...in the little town of Lynchburg, Tennessee.

SMOOTH SIPPIN' TENNESSEE WHISKEY

by GLEN MACNOW PHILADELPHIA INQUIRER

The National League will admit two new teams in 1993. Suppose they could select one player off each existing major-league roster!

Imagine yourself as the aspiring owner of the Buffalo Wings or the Miami Enormous Cockroaches or whoever else is awarded one of the two new franchises set to enter the National League in 1993. You plop down your \$95 million entry fee, and what do you get in return? No share of baseball's multimillion dollar TV package for the first year, an opportunity to become a target for local radio call-in shows, but at least, you figure, a chance to stock up on prime talent through the expansion draft of veteran players.

Comes draft day and. . . what's this? Ernie Whitt? Doug Dascenzo? Surely this isn't what N.L. president Bill White had in mind last spring when he vowed that the league would make its new teams "as competitive as possible as quickly as possible." Competitive with

whom? The Madison Muskies?

Once again major-league baseball is expanding, and as sure as Lou Piniella would love to place Schottzie on irrevocable waivers, the established clubs won't dare let the new kids on the block get away with drafting a player who can throw or hit as well as, uh, the New Kids on the Block. Existing clubs will treat the expansion draft like a springtime basement cleaning-sweep out an injured veteran here, dispose of a broken-down head case there, but anything with a semblance of value stays around the house for another year.

Each existing National League team will be allowed to protect 15 players going into the 1993 draft. After one is taken, the team gets to protect three more. Another is plucked and three more come back. And so on until six players are chosen from each roster. Overall, it hardly seems likely that Doc Gooden need worry about setting his watch to the Mountain

Standard Time used in Denver.

If you need historical evidence, just remember the 1977 Toronto Blue Jays. They made their debut with immortals such as Doug Ault, Steve Staggs, and Hector Torres. Or how about the National League's growth venture in 1962? That produced the Mets, perhaps baseball's worst-ever team, but at least gave us Choo Choo Coleman. It hardly seems fair. Some growth-city plutocrat is going to fork over a franchise fee the size of Cecil Fielder, and in return get to watch his investment embarrass itself for the rest of the century

We would do it differently. We would force Bill White to live up to his word. We would demand a competitive team.

And how would we do it? Simple. Just allow us the choice of any one player off each existing roster-and we're including the American League clubs. Maybe that seems a trifle radical but, hey, this is our deal. Just to be fair, we wouldn't draft away revered veterans, fan favorites like Nolan Ryan and Andre Dawson. And we'll avoid the established stars such as Will Clark, Ryne Sandberg, and Jose Canseco because, quite frankly, after shelling out the National League's extortionist cover charge, we can't afford their salaries.

We'll make just one other ground rule for our Expansion Dream Team: We'll limit our picks to guys born no earlier than 1965. Since most players reach their prime around age 28, we'll be joining the league just as most of the squad hits its stride.

We think this team has it all: power, speed, pitching. You may disagree. That's fine. You can take the other expansion team.

OUR CHOICES

Every contending team needs two things: great catching and great controversy. We'll get them both. First, we'll pluck three-time Gold Glover Benito Santiago (.270, 11 HR, 53 RBI in 1990) from San Diego, where his arm is frequently lent out to the Navy as a missile launcher. How valuable is the 26-year-old Benny? Before his left arm was broken by a pitch last June, the Padres were 30-27. During his absence they slumped to 22-35.

The controversy comes with our second catching choice. Sandy Alomar Jr. (.290, 9, 66) spent two years with San Diego waiting for a job behind Santiago. The Padres finally traded him to Cleveland, where he became the 1990 Rookie of the Year. Alomar, 24, has thunder in his arm, can block the plate, call a game, and motivate his pitchers. Plus, he batted .455 with the bases loaded in 1990 and his .376 batting average against lefties was

tops in the American League.

So which catcher starts? We'll leave that open for now, and further muddy the waters by drafting a third receiver for our dream team: Houston speedster Craig Biggio (.276, 4, 42). Yes, we know that Biggio, 25, couldn't throw out John Wockenfuss, that his numbers were down last year, and that the Astros can't even figure out where to play him. But answer this: Who would you rather take from Houston-Tuffy Rhodes? Andujar Cedeno? The cupboard is practically bare.

Indeed, we'd rather bypass Houston entirely and take two youngsters from the Toronto Blue Jays. But since we can't, we'll skip past the other Alomar brother, Roberto, and take 6foot-5 first baseman John Olerud (.265, 14, 48), who could become the Keith Hernandez of the 1990s. Two things especially impress us about the 22-year-old Olerud: (1) his courage in coming back from a life-threatening brain aneurysm in 1989 and (2) his 15-0 record as a college pitcher.

Olerud's hurling prowess could come in handy if our other 6-foot-5 first baseman, Frank Thomas (.330, 7, 31) of the Chicago White Sox, emerges as we expect. In his first half-season in the bigs, Thomas, 22, put up some amazing numbers, especially his .455 on-base percentage. "I want to be like my heroes-Dave Parker and Dave Winfield, said the 240-pounder. "You know, big and intimidating." No argument here.

Both first basemen on this Dream Team appear to be smooth fielders, which will help, since neither of our second sackers is exactly the reincarnation of Bill Mazeroski. Both, however, can hit. The Montreal Expos' Delino De-Shields (.289, 4, 45) stole 42 bases and drew 66 walks in 1990 and finished second to Dave

Justice for Rookie of the Year. Besides, if we ever get an NBA expansion team, DeShields,

22, can play point guard.

There are critics who suggest that Gregg Jefferies (.283, 15, 68) of the New York Mets is a sulking baby who needs a personality transplant, and others who say he will never play second base at the major-league level. We'll take our chances on both counts. Get this 23year-old out of New York, bat him sixth or seventh in the order, keep him at one position, and we think he'll fulfill his promise.

Selecting a third baseman may be the biggest no-brainer of this fantasy draft. After learning to hit the curveball, San Francisco's Matt Williams (.277, 33, 122) showed at age 24 that he has the stuff to become baseball's premier power hitter of the 1990s. We especially like his .331 average with runners in scoring position. In 1991, Williams will win the N.L. Most Valuable Player Award for the Giants. In '93, he'll star for our team.

As a backup, we'll gamble on Detroit phenom Travis Fryman (.297, 9, 27), a smooth fielder who must alter his free-swinging batting style. Everyone keeps tossing the "P" words-power and potential-at this 21-yearold, whose manager rates him the best Tigers' prospect in a decade. "It's going to take a year or two," Sparky Anderson said, "but in '93, he's going to be one of the finest infield players in the game." We'll be waiting.

Shortstop is a problem. Barry Larkin, Ozzie Guillen, and Tony Fernandez all fall outside our age limit, and we're not about to bite on Jeff Blauser. So we'll draft Milwaukee Brewers' third baseman Gary Sheffield (.294, 10, 67) and shift him back to his original position. Doc Gooden's nephew stole 25 bases in 1990 and also made 25 errors. We think the 22year-old has the capacity to hit 25 homers.

Every club needs a great bench guy, a rahrah type to needle the opposition. We'll take Boston's 24-year-old Tim Naehring (.271, .2, 12 in 24 games), who reminds us of another hard-nosed, hustling guy to come out of Cincinnati 27 years ago. Naehring's promotion to the majors last season coincided with the Red Sox's resurgence.

Ken Griffey Jr. The Kid. Center field. Seattle Mariners. All we really need to say . . . O.K., we'll say more: 21 years old, .300 batting average last season, 22 homers, 57 extra-base hits,

and 91 runs. Gold Glove. Great speed. Picturesque swing. Fan favorite. Complete player. Cornerstone. Maybe we could convince the Mariners to toss in his dad as part of the deal.

We'll pluck Texas outfielder Ruben Sierra, 25, the best Puerto Rican export since Roberto Clemente, or at least Geraldo Rivera. Sierra took a lot of grief from Rangers' fans last year for a supposedly down season. Hey, look at the numbers: .280, 16 homers, 96 RBIs, 37 doubles. Sure he's no Gary Pettis in the field, but he's no Gary Pettis at the plate, either. If that's a slump, we'll learn to live with it.

The Yankees don't have much to offer these days, but they do have Kevin Maas (.252, 21, 41), a DH-1B type whom we'd shift to left field. In his first half-season, Maas, 26, averaged one home run per 12.1 at-bats, a ratio that only Cecil Fielder could top. Was it a fluke? Can his tender knees handle the outfield? Will he learn to improve his .164 batting average against lefties? We'll take the risk.

And if Maas can't handle the glove work, we can always give the job to Cardinals' prospect Ray Lankford (.286, 3, 12), another of those St. Louis clones who has limbs the width of Slim Jims, but can bunt, chop, and steal his way to a .300 average and 100 runs a season. The Cards traded Willie McGee to give this 23-year-old lefty a shot and—if you ignore his praying mantis batting stance—it's not hard to understand why.

Ronnie Gant or Dave Justice? Which Atlanta Braves' outfielder would make your expansion dream team? Both have power, hit for average, and play so-so defense. Both had superb seasons after doing nothing in 1989 that suggested imminent stardom. We'll select Gant, 26, based on his speed, and raise this Final Jeopardy answer: The only two major leaguers with at least 30 doubles, homers, and steals in 1990. The question: Who are Ron Gant and Barry Bonds?

There are few questions in our expansion pitching staff. For starters, there's a couple of dandy Dominicans.

Can you believe that Cincinnati righthander Jose Rijo (14-8, 2.79 ERA) is just 25 years old? Somehow it seems that Juan Marichal's son-in-law has been pitching since, well, since Marichal was still around. And he keeps getting better. Here's what we like about the Reds' World Series MVP: He's not concerned about conning hitters. Let the others try curves and changeups. Rijo wants to burn the opposition with a 90-plus fastball and its kid brother, the hard slider.

Of similar temperament—and success—is the right-hander Ramon Martinez (20-6, 2.92) of the Los Angeles Dodgers. He's our second starter because he finished second in the National League in so many areas last season: Cy Young balloting, victories, strikeouts (223), and win percentage (.769). Martinez struck out 18 in one game against Atlanta, prompting the Braves' Jim Presley to suggest, "He throws harder than Roger Clemens." At 28, Clemens is too old for our squad. At 23, Martinez is perfect.

The Baltimore Orioles' 6-foot-7 right-hander, Ben McDonald (8-5, 2.43) hurls a 95-mph fastball and supplements it with a curve so wicked it's named "Big Nasty." That stuff you know. Here's what you don't know: (1) For good luck, McDonald, 23, eats sardines in mustard sauce (2) He can hold seven baseballs in one hand and (3) He catches alliga-

tors with his bare hands. Of such stuff are legends born.

It took a few years for can't-miss kid *Mike Harkey* (12-6, 3.26) to make it, but in 1990 he was among the Chicago Cubs few effective starters. The big (6-foot-5) righty held opposition hitters to a .234 batting average. And he kept himself out of jams. Hitters leading off an inning had just a .254 on-base percentage against him. Harkey, 24, may not have won the Rookie of the Year Award, but he did himself, er, justice.

Our Dream Team staff is leaning a bit to the right, so let's toss in a few left-handers. John Smiley (9-10, 4.64) had less than a blockbuster season for the Pittsburgh Pirates in 1990, but that was partly due to slamming his pitching hand in a car door in May. At the time, his ERA was a decent 3.35. Smiley, 25, still showed control—he walked just 2.2 batters per nine innings. We'll take him, and even provide a chauffeur.

We'll also take another lefty whose numbers declined in 1990, 23-year old *Jim Abbott* (10-14, 4.51) of California. Don't let the stats fool you, Abbott made a lot of progress during his second season. He developed a changeup, so that hitters won't sit on his hard slider and

fastball, and dramatically cut down on his walks. The Angels don't boast many prospects on their roster, but Abbott has the right stuff in his head and his left arm.

Our ideal stopper would be Gregg Olson, but since we nabbed McDonald from the Orioles, we'll have to pass. Instead, we'll pluck 6-foot-5 Jose DeJesus (7-8, 3.74), whom Philadelphia stole for Steve Jeltz last spring. The Phils use DeJesus, 26, as a starter, but he throws smoke and has the makeup to be a closer. A year ago he was just the hardest thrower in the minors, a pitcher totally lacking control. Then, he says, Phils' coach Jim Fregosi showed him the formula: "He said, Jose, just go have some bleeping fun out there," DeJesus recalled. "And I said, "What the heck. I'll go out and relax."

For help, the Dream Team will take Kevin Appier (12-8, 2.76), another flame thrower who discovered the magic last season at age 22. In a different season, Appier might have been Rookie of the Year, but in 1990, the ex-

ploits of Alomar and Maas, coupled with the Royals' collapse, left him largely unnoticed. Not this season: We predict he'll win 18-20 games as Kansas City is resuscitated. For our team, he'll relieve.

And so will Scott Erickson (8-4, 2.87), one of the few bits of good news the Twins can cling to these days. Minnesota got Erickson, 23, in the fourth-round of the 1989 draft, and he proved himself a steal by making the majors just one season later. "He has the fire," said Twins' shortstop Greg Gagne. "He hates getting behind batters or walking people." When Erickson develops a third pitch, he'll blossom into a star.

That gives our Expansion Dream Team nine pitchers, three catchers, eight infielders, and five outfielders—a daunting 25-man roster. But there are 26 major-league teams to draft from. Who's left? The Oakland A's? Here's what we'll do. We'll start a farm system by going after Todd Van Poppel, the legendary Texas schoolboy now toiling in the low minors

in hamlets such as Modesto. It should take another two years to ascertain if Van Poppel, 19, is as good as the scouting reports indicate. At that time, we'll be ready and waiting.

That's our squad. No existing major-league club would be crippled (all right, maybe Seattle) and, under our formula, baseball's newest city receives an instant contender instead of a diamond version of the Miami Heat. Besides that, we've left the likes of Alex Fernandez, Hal Morris, Andy Benes, and Jerome Walton for the other expansion team.

Or maybe they'd rather take Ernie Whitt and Doug Dascenzo.

A few favorites from the old record collection.

Each time a major league ballplayer swings a bat, delivers a pitch or fields a ball, the MLB/IBM Baseball Information System is there to help record it.

Chronicling the hits and runs, homers and strikeouts, wins and losses. Calculating the ERAs, BAs, and OBPs.

In short, making sense of the myriad of statistics that are an integral part of Major League Baseball's enduring tradition.

And though few of them are destined for greatness, it's nice to know that each and every one will be assured its rightful place in history.

of other physical problems that would have forced anyone but Carlton Fisk to retire. He will be 43 when he enters the 1991 season as the catcher for the Chicago White Sox. "The Old Man and the Sea—that's me," he says.

"Success has no short cuts, only a high price of pain and humiliation," Fisk told Peter Gammons of Sports Illustrated. "I may sound like a crusty New Englander, but if you're going to do it, do it right or don't do it at all!"

Fisk does it right morning, afternoon, and night. He has been productive for so long because he puts in year-round training. He's either in the equipment room of his home in Lockport, IL, the upstairs weight room at old Comiskey Park, or Yeager's Fitness Center in suburban Chicago.

"I was amazed by his work ethic when I came over here in '89," Chicago manager Jeff Torborg said. "When I was with other teams, I saw his willingness to pay the price, even more so as he got older. But I never realized how much until I saw it up close. There would be games when I thought I was the guy keeping the parking-lot attendant waiting, but when I was leaving the clubhouse, Pudge would be coming down from the weight room. And that might be an hour and 45 minutes after he'd caught nine innings on a hot day. Marginal players don't stay around this long. You stay around only when you're physically able to produce."

Meet the Producer. Fisk, who broke Yogi Berra's A.L. record for home runs by a catcher in 1987, tied Johnny Bench's major-league record with No. 327 late last season in Kansas City. It was one of only two hits off Tom Gordon, and the White Sox lost. But emotions ran high, particularly when Fisk went from the plate right into the arms of his son, Casey, who was in the dugout for the historic moment. Torborg, a family man with three strapping sons of his own, will never forget it. "I had goose bumps when he hugged his boy," Torborg said. "That was beautiful. It meant so much to those two and that family."

A few days later, Fisk had the record. "It's hard to explain how it feels," he said. "It's a culmination of a lot of years of hard work, [overcoming] obstacles, and perseverance. The only way records are appreciated is that guys like Yogi and Johny have to set the standards to begin with. I guess I can say 'us guys' now."

Like Berra and Bench, there will be no forgetting Fisk when he's gone. He's a certain Hall of Famer, and never mind that Bench hit his 327 homers as a catcher in fewer games. "I'm not your classic home-run hitter," Fisk said. "I'm more of a line-drive hitter. I'm not like Ted Williams, Mike Schmidt, or Jose Canseco, but it's nice to be at the top."

Fisk could not compare his record-breaking homer to his classic 1975 World Series moment, when he waved fair his game-winning homer in the 12th inning of Game 6 against the Cincinnati Reds. "They are different things," he said, an understatement. "I look at that [tape] now and it's like a different person in a different time."

He also looks at 1986 as a different person in a different time. Harrelson and Tony La Russa, then general manager and manager, respectively, of the White Sox, felt a switch to left field would prolong Fisk's career while allowing the club to break in the young catcher Joel Skinner. Players on that team can still see—and hear—Fisk and Harrelson arguing about it on a spring training field in Sarasota.

Harrelson: "We're only trying to help you." Fisk: "Then help me get out of here and

back behind the plate."

He didn't get back behind he plate until mid-May. Before then, he had one of the season's great quotes. Talking with reporters before his first appearance in left field in beloved Boston, he said. "Excuse me, fellas. I have to go turn my back on a good friend." And he ran out to practice in front of the Green Monster in Fenway Park.

There aren't many more records for Fisk to break except, perhaps, most injuries—career. His knee had to be reconstructed in 1974 after a home-plate collision, he caught only 35 games in '79 from an elbow injury, and he had to shut down completely for two months in '84

"Commitment has no offseason."

Carlton Fisk, 1989

with a deep stomach-muscle strain. He also has suffered two sets of cracked ribs, a separated shoulder, a broken arm, two broken hands, and a severe groin injury.

"I can feel the season wearing on me, for sure," Fisk said late last year, when he tied with Lance Johnson for team batting leadership at .285, plus 18 homers and 65 RBIs, while guiding the surprising young White Sox pitching staff. "It doesn't make any difference if you're 42 or 25, it's going to wear on you. It's probably more difficult physically for me, but mentally, it's probably more difficult for the younger guys."

Fisk had a run-in with a younger guy last May in New York when Deion Sanders of the Yankees jogged 20 feet to first base on a popup with a man on third, and stopped. "Run the ball out next time!" Fisk yelled as Sanders trudged back to the dugout. When Sanders said, "What?" Fisk repeated it.

Fisk was ready two innings later when Sanders came to bat again. "I made a point to make eye contact," Fisk said. "Then he mumbled something, so I said, 'What did you say?' He said, 'The days of slavery are over.' "That triggered an in-your-face argument. The man who was playing in his 24th major-league game was being berated by a man who was in his 2.172nd.

"He comes up and wants to make a racial issue," Fisk said. "There's no racial issue involved. It's professional etiquette. I said, 'There's a right way and a wrong way to play this game." Fisk, who had called upon his New England values, was still upset a day later. "Yankee pinstripes, Yankee pride... Some of those guys are rolling over in their graves looking at this. It offended me. I'm playing for the other team, and it offended me." A week later in Chicago, Sanders came to the plate to lead off a game, but before stepping in, he stepped around to offer his hand to Fisk, who shook it. All was forgiven, if not forgotten.

Because he's older, Fisk does not always feel like one of the guys. The only older player still putting up big-league numbers is Nolan Ryan, 44, of the Texas Rangers.

"Nolan and I are a lot alike," Fisk said. "There are times you get embarrassed by all the attention. But he can look around at other pitchers and I can look around at other catchers, and you try to be objective about the comparisons. I wish I knew 15 years ago what I know now, the knowledge of my body and nutritional needs, and the aspects of the game. But your whole career is a learning process that you try to put to use as you go along. You never know it all."

Fisk has seen a parade of know-it-alls in his 19 seasons. He has seen most of them go right through the clubhouse and out the back door. It bothers him that some "don't know the game" when they first come up and "don't try to know the game" while they're playing.

"They don't ask questions; they don't retain from one experience to the next what worked and what didn't." Fisk told the Chicago Tribune's Alan Solomon early last season. "You can talk till you're blue in the face, but until they're ready to look and listen, they have to learn by trial and error. They have to learn by failure. The greatest teacher in this game is the feeling you have when you don't do well. You do anything you can to keep from having that feeling again. But that's how the Ryans, the Don Suttons, the Tom Seavers-the older guys-that's how they put all their successful experiences in that little piggy bank. They know when you get in a situation that this is how you get this type of hitter out."

Still, Fisk gets a good feeling from younger players. He got a real charge from last season's White Sox, whose 94 victories were a 24-game improvement upon 1989.

"The guys could really make it tough on me," he said. "They could call me Old Man or Gramps. Instead, they call me Commander. I like that. You know what they say about commanders, When the ship goes down, he goes with it. But as the Commander, I'm here to say the ship won't go down."

Fisk had both knees arthroscopically cleaned after the season and spent the winter alone in his weight room as he prepared to keep the White Sox afloat in their pursuit of the league champion A's. Son Casey was off to college. "It wasn't the same without him," Fisk said. "I had to ride my bike alone, lift the weights alone."

Then Fisk made a rare concession. Base-ball isn't all work. It only seems that way.

"It's fun to play the game now," he said. "There were times it wasn't so fun. In '86, they said they weren't going to allow me to be the catcher, that I was too old. I don't know if I want to call those fun years. Sometimes people automatically perceive you strictly by your age. I've spent years trying to convince management that I wasn't washed up. People say, 'He can't play anymore. He can't react.' But they don't say anything when you make a great play or throw a guy out or hit a home run or block a pitch in the dirt."

Having made all the plays at the most demanding position for two decades, Fisk has made believers out of all, including those two former teammates Yaz and Harrelson.

third tonight. I'm not in the outfield, I'm not even in the bleachers. I'm in outer space.' All I could think about was my wife and son. I continued to space out until the break."

Gruber flew to Chicago for the All-Star game and tied Willie Mays's record with two stolen bases in the A.L.'s 2-0 victory. But in his first game back, California's Kirk McCaskill drilled him on the same sore hand. Now, Gruber sees his down time as a function of being human. "At the time, I thought, 'Geez, what a great year going to waste.' But now I realize it was a great time in my life, even though I was struggling at my job," he said.

Gruber's emotions, unlike Wallach's, have always been close to the surface. And he plays the same way regardless of the circumstances. For example, in a game early last season, he hurt himself making an off-balance throw on a play that was nearly impossible. Wallach probably would have played it safe and smart. Not Gruber.

"It comes from the way I was brought up," he said. "My father told me, 'A Gruber never quits. Be the best you can be at whatever you try.' I give all the credit to him. Everybody has told me to pace myself. To me, pacing is the wrong word. You can't say, 'Well, it's July, so I'm not going to steal bases.' I play to win. That's the only way I know."

Said LaMacchia, "Anyone who plays like Kelly is going to get hurt. He plays so hard, he can't let up. I don't want to say he's hyper, but it's the only way he knows. What we need to do is get him a day or two of rest every few weeks, maybe DH him before an off day."

Gaston understands that many managers have greater worries than trying to prevent a player from trying too hard. He hopes that, eventually, Gruber will gauge himself. "It's all part of the learning process," Gaston said. "I've always maintained patience is the key."

Patience paid off for the Blue Jays, who failed to draft Gruber when he was first available in 1980. Blame it on a mere 25 cents.

"We had narrowed it down to Kelly and a kid from San Diego named [Garry] Harris," La-Macchia said. "The day I went to see Gruber, I didn't know this but he had gotten into a fist-fight. He had an argument with a kid over a quarter he dropped and when he hit him, he hurt his thumb. It affected his hitting. Harris had an excellent workout, so we took him."

For the record, Harris never got beyond Double A. Cleveland grabbed Gruber, then a shortstop, and plopped him in the minors. He might never have got beyond Triple A if not for Toronto's gamble in December of 1983. It was the darkest period in Gruber's career. He was slogging out another stint of winter ball in the Dominican Republic.

"We were winding through the mountains and, on the back sports page of a three-day old *Miami Herald*, I read Cleveland left me unprotected in the winter draft," Gruber said. "Man, I couldn't believe it. Here I was missing the holidays, missing my family, with my grandmother dying back home... What was I doing there? Five days later, though, I found out Toronto had drafted me and that meant I was headed for the big leagues. Five days after that, my grandmother died, but she knew I was going to the big leagues, and that's pretty well what she was living for."

He cost the Blue Jays just \$25,000. "We

were willing to pay him \$75,000 out of high school, so what was a \$25,000 gamble?" La-Macchia said.

Toronto sent catcher Gino Petralli to Cleveland in exchange for the Indians' permission to ship out Gruber to Syracuse in 1984. He reached the majors to stay in 1986, hitting .196 in 87 games, and fought through a series of injuries to hit .235 while sharing third base with Rance Mulliniks in 1987. But Gruber truly blossomed in 1988, when Mulliniks's knee injury allowed him to play regularly. He hit .278 with 16 home runs and 81 RBIs while playing in 158 games.

"When we brought him up, I was against platooning him," LaMacchia said. "I felt he needed to play every day to develop his skills. When he played every day, he realized he had the ability. You have a little success and everything's easier."

erything's easier."
Said Gruber, "Confidence almost glows upon you. When you're in a groove at the plate, you see the ball like it's the size of a softball. You can't wait to get up there, you can't wait to do something dramatic. When you're not in a groove, it looks like an aspirin. But I saw a lot of softballs last year."

In between carrying the Blue Jays offensively at the start and finish of last season, Gruber was voted Toronto's favorite athlete in a poll by the *Toronto Star*. That's no easy feat for someone who wears spikes instead of skates. Gruber was a constant in the Blue Jays' personnel upheaval during the winter.

Gone are players such as George Bell, Fred McGriff, Tony Fernandez, and Junior Felix. "If we'd have kept George [Bell, who signed as a free agent with the Cubs], we would have won the whole thing," Gruber said. "But that's a big hole to fill."

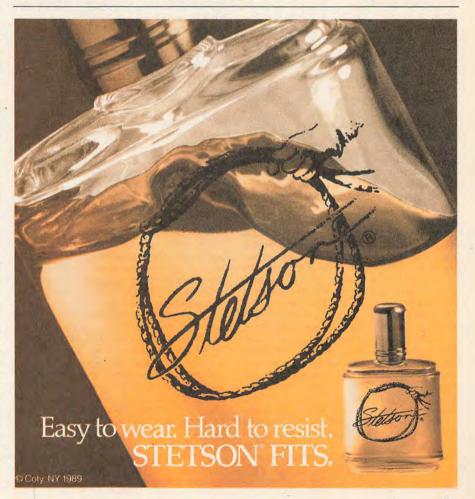

The Blue Jays hope to avoid another big hole next year by signing Gruber to a long-term contract in time for this season. He played last year with a one-year deal worth \$1.15 million, and can become a free agent after this season. Financial security for his family is important to him.

"I never thought I would be making millions and millions," Gruber said. "My goal in life was to make a million dollars and live off the interest. Heck, I thought I could be a millionaire being in the Marines, which is probably the way I would have gone—the army, maybe a police force, maybe a fireman—if it wasn't for baseball."

Beyond the money, however, Gruber's motivation is to win, often enough to reach a World Series. Both he and Wallach have reached the playoffs, but neither has played for the ultimate trophy.

"If I have any long-range goal," Gruber said, "it's the one you've heard a thousand times: the ring on the finger. I figure if I'm striving toward that, all the short-range things will take care of themselves."

Then maybe Kelly Gruber's name, like Tim Wallach's, won't seem so foreign to American baseball fans.

damentals. Just like hitting a home run or getting a hit with the bases loaded, you have to feel good about it. You have to want to do it."

The problem is, few players really want to work on perfecting their execution of fundamentals. Doug Melvin, the Orioles' assistant general manager and the man in charge of their minor-league system, notes that players don't want to expend time and energy on plays they seldom are asked to perform. "Maybe a guy gets in a bunt situation two or three times a year," Melvin said. "Players say, 'Why should I do all that work to bunt two or three times a year?" "Melvin, of course, does not condone that kind of thinking. Rather, he points to examples of players whom others should use as role models.

"When you talk about fundamentals, Cal Ripken Jr. is the first thing that comes to mind," he said. "I'm told he's never missed infield practice before a game in his career. You often see star players not taking infield or a catcher taking it at third base, but here's a guy who not only doesn't miss a game or even an inning, but he takes infield every day. He proves that all that hard work pays off. That's why he makes all the routine plays. When you talk about fundamentals, you talk about practice and a good work ethic."

Melvin also mentions Dwight Evans and Don Mattingly as players who consistently work hard and have mastered the fundamentals. When Evans played right field for the Boston Red Sox, Melvin said, he charged every ground ball hit his way in infield practice and made good crisp throws back to the infield, just as though he were in a game. Mattingly takes ground balls at first base as though he were in a game. "If you didn't hit grounders hard enough, he'd motion for you to hit them harder," recalled Melvin, who formerly served as a batting-practice pitcher for the Yankees. "He'd want it like the ball was coming off Brett's or Boggs's bat. When you do that, you're ready for game situations.

Proper execution of fundamentals wins games; poor execution loses games, sometimes pennants. The Toronto Blue Jays perennially have the best collection of talent in the American League East, but they usually don't win the division championship. Their lack of ability to make the fundamental plays helps undermine their effort. Last season the Blue Jays were notorious for their improper execution. Junior Felix and George Bell, two of their outfielders, often made throws back to the infield that allowed runners to take an extra base, moving into scoring position instead of being at first base. The St. Louis Cardinals, on the other hand, have thrived on the contribution their players make with good execution.

"You can see the difference between teams and organizations," McIlvaine said. "Probably the best example of that in the '80s was the Cardinals. They executed fundamentals better than anybody. They won, and they did all the little things to beat you." McIlvaine does not see that development as a surprise because, he said, the Cardinals for 30 years have had "the best instructor teaching fundamentals." He is George Kissell, and he has worked for the Cardinals for 51 years. He is the man charged with teaching the club's minor-league players.

Baseball people today, Kissell laments, do not care enough or spend enough time on fundamentals. Players are moved around, from one position to another, and they don't have time to learn their job. They aren't taught to think before the play, to know what they are going to do with the ball so they can react instantly instead of thinking first, then reacting. Still, Kissell plods on.

"We have instructors for each position," Kissell said, speaking of the Cardinals' spring regimen. "We have the proper teacher teaching a player at his position. If a guy does something wrong in a game, we send him back to the specialist. It's like taking a test."

Minor leaguers, Kissell explains, are treated the same, no matter what level they have at-

The problem is, few players really want to work on perfecting their execution of fundamentals.

tained. "My wife and I can clean our house in September," he said, "go away and come back in March, and it's dusty, so we have to clean it up. That's the way the mind works. You have to clean it up."

Kissell puts players through repetitive drills as a way of burning into their brains the knowledge he wants them to have and the execution he wants them to make. For example, he said, a second baseman has 11 different types of ground-ball situations he can encounter, so coaches hit the grounders to all of the minor-league second basemen daily. "If you do it every day," he explained, "when you get it in a game, you won't panic."

Not every organization has a George Kissell; nor does every organization spend the time necessary to teach what Kissell teaches. The results show in the majors.

"My own club did a poor job this year in situation hitting," Woody Woodward, GM of the Seattle Mariners, confessed. "Moving runners along, hitting the ball to the right side with a guy at second; a guy on third and getting him in with the infield back. We were awful at that type of hitting. Blame it on the fact that we haven't done a good job in our system of teaching it. We have a lot of young players who have come through our system, and in past years, there was so much turnover in the organization, they didn't develop a consistency in working on it. We're going to work on it."

McIlvaine found a similar shortcoming in the execution of fundamentals upon his arrival in San Diego and plans to correct it immediately. "It's the unpopular thing to do," he said. "Players don't want to sit there learning that stuff. It's boring and tedious. But they're going to stay out there and spend X amount of time on it. They're going to be sick of it, but they're going to do it right during the season. If we don't hear them complaining every day, we're not doing our job. We're going back to basics, where we should've started a long time ago."

Knowledgeable baseball people know that no matter how much fundamentals are stressed during spring training, players need refresher courses during the season to keep them sharp. Robinson painfully and incredulously witnessed last season what can occur when refresher courses are not forced.

"We had five pitchers in the second half of the season not cover first base," he said. "We were very good in 1989 and the first half of 1990, but all of a sudden in the second half of the season, we had that happen. We had two in one game in back-to-back innings, in fact. You should go through a season never seeing a pitcher not cover first base because you drill pitchers on that. The ball is hit to the right side, the pitcher breaks for first."

Did the pitchers offer any explanation for their failure to cover first? "There is no explanation for it," he said. "The pitcher cannot come in and give a reasonable explanation for not covering first."

Interestingly, not all managers hold Robinson's general view on the execution of fundamentals. On pitchers' covering first base perhaps, but not necessarily on the entire range of fundamental plays.

"The manager and the coaches have to insist they're done right," McIlvaine said. "Sometimes the manager differs with what you want to do and [he's] the manager."

He did not expand on his comments, but McIlvaine was alluding to the situation in New York where the previous Mets' manager, Dave Johnson, was not a great believer in fundamentals. Jim Frey, a former coach and manager and now general manager of the Chicago Cubs, sees a different attitude in other managers as well.

"Rather than not knowing fundamentals," Frey said, "there's been a different approach to playing the game on the part of some managers. Every era has a different approach to the game. The approach of managers has changed drastically. Things that were important 40, 50, 60 years ago aren't as important today. Astroturf has changed the approach. Look at the speed of players today. Why would you bunt if you had a Coleman or a Raines or a Henderson? I see those guys sacrificed to second base when they have a 90 percent chance of stealing. I wouldn't do that. In Kansas City I had five or six guys who could steal a base; why would I bunt?"

Frey coached under Earl Weaver, who he said disdained the sacrifice bunt, the squeeze, the hit-and-run. Weaver had other things he did that he thought were more conducive to winning games, "and how can you argue with his record?"

No manager, however, whatever his approach, enjoys seeing an outfielder overthrow a relay man or throw behind a runner who then moves into scoring position with the game tied 1–1 in the ninth inning. Certain fundamentals always will be integral to winning and losing. Certain arguments, too, always will arise. "Ten years ago," Roland Hemond, the Balti-

"Ten years ago," Roland Hemond, the Baltimore general manager, said, "they said the same thing as they say today, that players weren't as fundamentally sound as they used to be. And 10 years before that, they said the same thing."

Or as Frey related, "Guys like to say that players today aren't as good as in our day. But some of the guys who are talking weren't so great in their day."

BASEBA

THE GAME THAT IS REVOLUTIONIZING TABLETOP BASEBALL! THE ONLY GAME THAT OFFERS EVERY MAJOR LEAGUER SINCE 1901!

FAN!

Get ready to play the most REALIS-TIC baseball game on the market today! Imagine MANAGING all your favorite TEAMS and PLAYERS. You'll experience that feeling of being in a real PRO DUGOUT making MAJOR DECISIONS just like the prosl

PITCHING:

True realism! Pitchers are rated in 13 categories. A pitcher will reproduce his real life season stats with astounding accuracy! We at PRO SPORTS ACTION, INC. pride our-selves in reproducing WON and LOST percentages for a pitcher, like NO OTHER GAME AROUND!

HITTING: PRO SPORTS ACTION, INC. uses 14 stat categories to create cards that will give YOU the most realistic hitting that a game could give. You must decide who hits where in the lineup, who pinch hits, and who sits on the bench! Imagine the thrill of your favorite player hitting a GAME WINNING HOMERUN!

FIELDING:

True to life fielding ratings for every player. Watch those BASE HITS become OUTS, and those OUTS become BASE HITS. Run on some outfielders arms, but not on others! As a manager, your fielders will make you feel the AGONY and the **ECSTASY of REAL BASEBALL!**

Cy Young in the minds of those who vote such honors. As Moss Klein wrote in the Sporting News near the end of last season: "Stewart is an outstanding pitcher, a terrific guy, a real credit to the game. But let's stop those sad stories about his failure to win a Cv Young Award. He simply hasn't been the best pitcher in any given season, and that's the case again this year.'

So it seems for now, Dave Stewart may have to settle for respect rather than glory. Which might not be all that bad for a guy who not so long ago didn't even have that. In the early '80s, with the Dodgers, he was for a time an extremely promising young pitcher. But his career stalled, and in 1986, after two seasons in which he failed to win a game for the Rangers or the Phillies, he was waived out of baseball. "It was the ultimate insult," he said in that high-pitched voice that always sounds strange coming out of a strapping athlete.

He reacted typically. Rather than quit, he fought back. The A's gave him a chance, signing him to a minor-league contract. After he joined the major-league team midway through what had been the most disastrous season of his life, La Russa and Duncan plucked him out of the bullpen. "I didn't ask questions. I was grateful for the chance to play for the A's," for whom Stewart won nine games in '86

Adding a devastating forkball to his fastball and curve, he won 20 games in 1987, 21 in 1988 as the A's went to their first World Series since the days of Reggie Jackson and Catfish Hunter, and 21 more in 1989, when he became the only pitcher ever to win two games in the league championship playoffs and two more in the World Series, and was named Series MVP as the A's swept the Giants.

Success only seemed to make him work harder. Or maybe it was fear of failure. "I think about 1985 and 1986 all the time," he admitted. "There isn't a day that goes by that I don't [remember] there were two baseball seasons when I didn't win a game.

He keeps himself in top shape with a yearround workout regimen. Despite a fat contract that pushed his earnings over \$3 million a year, he has stayed hungry and maintained his remarkable competitive edge. He has also become a pitcher, rather than just a hard thrower, as he was with the Dodgers.

The thing that's best about my style of pitching," he said, "is that I can make [immediate] adjustments. I might be throwing the ball harder tomorrow than I am today, so I might go with my fastball. My forkball isn't always dependable, but if it's working, I might go with it. If my curveball is breaking and the forkball isn't working ... well, it just depends on what the situation dictates.'

You can almost see Stewart's brain working above that ever-steely stare that defines his on-field persona. Maybe more than anyone, he is the spirit of an A's team which, before it was dismantled by Cincinnati in the 1990 World Series, looked like a budding dynasty.

Stewart simply loves being a member of the A's. Oakland is-and has been-home. He grew up in a frame house on Havenscourt Avenue, perhaps a mile from the mound at the Oakland Coliseum, and was a three-sport star at Oakland's St. Elizabeth High School. Before that, he was a catcher on a Little League team

that played on Fruitvale Field, just up the way from where he plays now. That Little League team is where he got the nickname "Smoke," because of the strength of his arm.

He sees Oakland in a breadth that goes far beyond sport. He may have given more back to his community than any other player, so much so that he won the 1990 Roberto Clemente Award, given annually to the player who best exemplifies baseball on and off the field. Stewart has long been involved with the Oakland Boys and Girls Clubs. After the 1989 earthquake struck the Bay Area, he lent sustained moral support by visiting the site of the

Stewart, who won the Roberto Clemente Award, has given more to his city than any player.

Nimitz Freeway collapse and the victims' shelters, offering encouragement to workers and survivors, and later appeared at benefits for earthquake victims and relief. He gives time and money to the Oakland Public Library and schools and to the United Way, the Cystic Fibrosis Foundation, the MS Society of Northern California, sickle cell anemia research, and black adoption agencies. He sponsors a girls track team, a dance troupe, and youth softball and baseball teams, in addition to an ongoing involvement with his own KIDSCORPS, which matches youth projects with major companies that support them.

When it all got to be too much, and it did, occasionally, he retreated to the solitude of a new, 39-foot boat. "It's become my own little private spot," he confessed. "There are times I really feel pressed by so many phone calls and things coming from so many directions. My phone at home never stops ringing. The boat doesn't have one.'

Stewart could never remain in isolation for long, though. He seems to have found a balance to his celebrity, so he doesn't need to duck out of the spotlight often. On a slow afternoon, he'll still drive around East Oakland and look for a Little League game. "It doesn't matter if they know who I am," he said. "Sometimes they don't. I just enjoy watching the kids play. Kids make me feel like a kid again."

Stewart is also a reporter's dream. Candid, almost always accessible, he's a throwback to an era when ballplayers and baseball writers were never adversaries. He'll sit at his locker. dissecting the game long after it is over from every angle and perspective. And he keeps his patience even though the questioners come at him in waves, repeatedly asking the same things.

Stewart also has developed a notable penchant for saying what he thinks. He had verbal run-ins with Jack McDowell and Steve Lyons of the White Sox during the pennant race last season. During the World Series, he criticized teammate Jose Canseco for sloppy play. After the Series, in which the Reds beat him twice, he had this to say to Cincinnati reliever Rob Dibble, who charged that Stewart intentionally hit Billy Hatcher in the hand in Game 4:

"Tell [Dibble] I'm a man. I walk down the steet. If he wants me to, I'll come in his clubhouse and kick his butt. We don't need balls, we got hands

Usually, Stewart is more analytical than rancorous, but the unexpected sweep by the Reds obviously hurt. He pitched with notable heart if a bit less than his normal skill in the final game, and could well have won, seeing as how Cincinnati scored its winning runs on two bunts and just one hit that left the infield. But he said, "To me, a loss is a loss, whether you've got two bunts or two home runs.'

There were those who felt La Russa stayed too long with Stewart in that decisive game. But Stewart frequently has been a pitcher who works himself into trouble and then grits his teeth and escapes. As A's relief ace Dennis Eckersley said, "Stew always makes you think he's a hit away from the game being broken up. Then, all of a sudden, he's out of the inning, and if we're down, we're still close enough to come back." That's exactly what the manager was thinking: "Stewart's the guy. He'll get us there." For once, he didn't, but that scarcely lessens all his achievements

There undoubtedly will be more victories and more accolades to come for Stewart, who will be 34 when the 1991 season begins. "I've said it time and time again: If I'm physically able, I will win 20 every year.

Even in defeat, the recognition hasn't stopped. Shortly after the World Series, Stewart was named the best player in baseball, according to computer rankings by the Elias Sports Bureau. He had 95.984 points (on a scale of 100) in the ratings used to determine free-agent compensation. The runner-up, with 95.783 points, ironically, was Boston's Roger Clemens, whom he has beaten in head-tohead competition eight straight times.

Maybe there is hope yet for a Cy Young and for the Hall of Fame, despite the fact that Stewart got a very late start toward Cooperstown. His overall record is only 123-85, but he's 84-45 since he started his 20-victory streak in 1987. Dating back to the turn of the century, just 26 previous pitchers have won 20 games four or more consecutive times, and 21 have Hall of Fame plaques.

"When I first started," Stewart said, "I just wanted to play. Then I wanted to become part of the scheme. When I became part of the scheme, I wanted more. Now I would like to end up in the Hall of Fame."

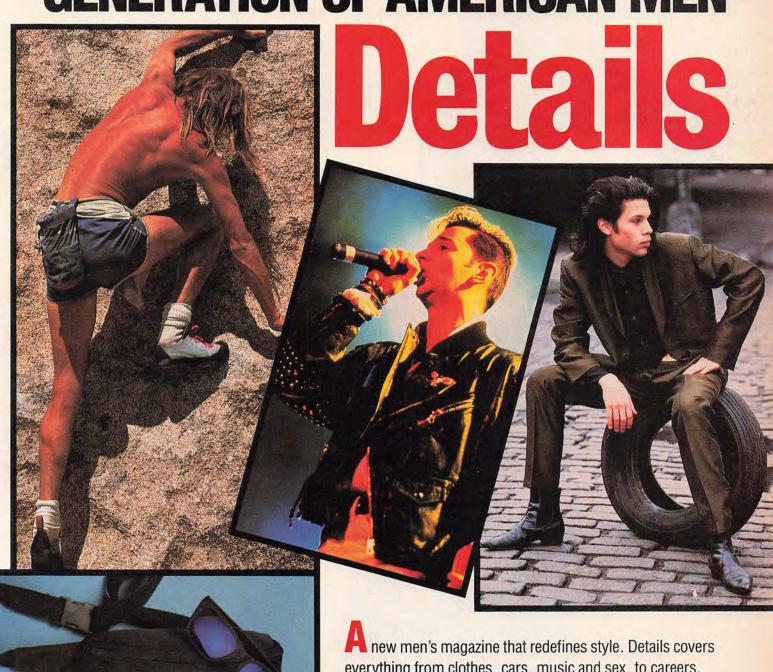

Since he has said he wants to pitch only two more seasons, and since even two more big years would leave him with fewer than 170 victories-well short of the total posted by most Hall of Fame pitchers -it's not too likely he'll get there. But if he does, he'll have no trouble picking the hat he wants shown on his plaque. It won't be from the Dodgers or the Rangers or the Phillies, although he bears none of those former employers any ill will.

"I don't think about vindication against the teams that let me go," he said. "I don't worry about the past-only the present."

It's just that he can't imagine working for better bosses than A's owner Walter Haas and GM Sandy Alderson, or playing for a better organization than his hometown team.

These have been the best times," he said, "and the best people of my career."

HALLOFFAME

Rod Carew became the 22nd player to be elected to the Hall of Fame in his first year of eligibility. He was at the head of the class of 1991, which also included Gaylord Perry and Ferguson Jenkins. They will be inducted on July 21 in Cooperstown, NY.

A total of 333 votes, or 75 percent of the 443 ballots cast, was needed to gain admittance. Carew received 401 (90.5%), Perry 342 (77.2%), and Jenkins 334 (75.4%). Jim Bunning, in his 15th and final year of eligibility, fell short with 282 votes.

Carew broke into the major leagues in 1967 as a second baseman with the Minnesota Twins, for whom he played 12 seasons. He joined the California Angels as a free agent in 1979, played seven more years, and retired in 1985. A left-handed batter with a sharp eye, Carew was a line-drive hitter who made solid contact and an excellent bunter. He batted over .300 15 straight times and finished his career with a .328 average and 3,053 hits. His best season was in 1979, when he compiled a .388 mark with 128 runs, 239 hits, 38 doubles, 16 triples, 14 homers, and 100 RBIs.

Gaylord Perry began his career with the San Francisco Giants in 1962. A decade later, the right-hander began a tour of the big leagues, playing for Cleveland, Texas, San Diego, the New York Yankees, Atlanta, Seattle, and Kansas City, where he finally called it quits in 1983. Along the way, Perry won 314 games, struck out 3,534 batters, and was the only pitcher to win the Cy Young Award in the American (24-16 record and 1.92 ERA with Cleveland in 1972) and the National League (21-6, 2.72 with San Diego in '78).

Ferguson Jenkins won the Cy Young Award in 1971 after he posted a 24-13 record and 2.77 ERA in 325 innings with 263 strikeouts and just 37 walks. That was one of six consecutive 20-victory seasons he enjoyed with the Chicago Cubs. He switched to the American League in 1974 and won 25 games for Texas that year and 17 the next before moving on to Boston for two seasons. Jenkins, a righthander, returned to Texas in '78 and finally finished his 19-year career back in Chicago with 284 victories and 3,192 strikeouts.

1991 HALL OF FAME VOTING

(333 votes necessary for election) Rod Carew...401 Mickey Lolich...33 Gaylord Perry...342 Luis Tiant...32 Ferguson Jenkins...334 Vada Pinson...30 Rollie Fingers...291 Thurman Munson...28 Jim Bunning...282 Rusty Staub...28 Orlando Cepeda...192 Curt Flood...23 Al Oliver...19 Tony Oliva 160 Bill Mazeroski...142 Sparky Lyle...15 Ron Santo...116 Larry Bowa...11 Harvey Kuenn...100 Jerry Koosman...4 Jim Kaat...62 Jeff Burroughs...1 Maury Wills...61 Mike Hargrove...1 Richie Allen...59 Richie Hebner...1 Ken Boyer...58 Burt Hooton...1 Joe Torre...41 Mike Jorgensen...1 Bobby Bonds...39 John Lowenstein...1 Minnie Minoso...38 Ellis Valentine...1

Players who did not receive a vote: Bob Bailor, Al Bumbry, Rich Dauer, Oscar Gamble, Larry Gura, Art Howe, Bruce Kison, Steve Rogers, John Wathan, Pat Zachry, Geoff Zahn.

PLAY 1990 BIG LEAGUE BASEBALL BASEBALL PITCHING HITTING FIELDING RUNNING

Easy to play real thrilling, exciting baseball with STRAT-O-MATIC. Big League players perform according to their actual abilities and your managerial decisions. You, the manager, call all strategy moves for all Major League teams.

You have real control over all Major League players -- who actually hit, pitch, field and run according to their baseball abilities.

Each player has truly individual qualities. He slumps and goes into hot streaks, performs heroics and commits errors. With STRAT-O-MATIC, all qualities of a ballplayer are realistic.

For example, in batting, Cecil Fielder will most certainly be among the leaders in both homeruns and strikeouts. When batting against lefty pitching, Mariano Duncan will be devastating, hitting above .400. However, against righty hurlers, his average will "tumble" more than 180 points.

In pitching, Houston's Mike Scott will display excellent control and will constantly challenge the hitters. However, he will give up many "gopher balls". In fact, Scott's gopher ball problem will be much more obvious when he pitches in Cincinnati's Riverfront Stadium than at the Astrodome in Houston.

In fielding, Gary Pettis will make catches which other outfielders would fail to make. Ozzie Guillen will make fewer errors and take away more would-be base hits than other shortstops. In base running and stealing, also, all players will perform realistically.

STRAT-O-MATIC Baseball is actually two games in one, a basic version for youngsters and an advanced version for adults. The basic game is simple and exciting to play and the advanced game has no equal in realism and play value.

STRAT-O-MATIC COMPUTER BASEBALL

The most unique and exciting computer baseball game available! A totally different concept! Send for our computer brochure and read about this "amazing merger". It really works!

City _____ State ____ Zip ____

star-studded, sun-splashed afternoon last summer. Sandberg, who received the most votes of any National Leaguer in fan balloting. for the 1990 All-Star game at Wrigley, brought the Bleacher Bums to their feet by hitting three home runs on successive swings to lead the N.L. to victory over the American League in the home-run derby.

Trying to hit home runs in certain situations was something former Cubs' manager Jim Frey, now the team's general manager, stressed to Sandberg years before, a story which current Cubs' manager Don Zimmer has told many times.

"In 1983, Sandberg was a contact hitter, a hit-and-run man, but he's a pretty big guy [6-2, 180]," said Zimmer. "Frey watched him in spring training for two weeks. He took him to the side and said, 'You have the strength and the quickness of bat speed to do this: When you get a pitcher 2-0, 3-1, look for a fastball from the middle in. I want you to hit me a tworun homer once in a while, or a three-run homer, because you're capable of doing it."

As Sandberg continued to mature as a major leaguer, Frey's message grew in importance. Sandberg's home-run production slowly increased until he made headlines in 1989 by becoming only the fifth second baseman ever to hit 30 home runs in one season. In 1990, Sandberg became the first second baseman to hit at least 30 homers in back-toback seasons (he hit 40).

In so doing, Sandberg became the first player at his position to lead either league in home runs since Hornsby accomplished the feat in 1925 with the St. Louis Cardinals. The other second basemen to hit 40 homers were Davey Johnson, with 43 for the 1973 Atlanta Braves, and Hornsby, with 42 for the 1922 Cardinals. Sandberg also joined Hank Aaron of the 1963 Milwaukee Braves and Jose Canseco of the 1988 Oakland Athletics as the only players to hit 40 homers and steal 25 bases in the same season

Things haven't always come that easily for Sandberg. In 1982, he went 1-for-32 at the start of the season and eventually was shifted from third base to second in September. Nevertheless, members of the Cubs' organization knew Sandberg was more than just a struggling player. The move to second base resulted in Sandberg's becoming in '83 the first player ever to win a Gold Glove at a new position. He has since been honored with the award for fielding excellence every season.

"He's always had that great first-step reaction," said ex-teammate Larry Bowa. "He reads the ball well off the bat. You can't teach that. He knows when to get to it, when to stay back. "He's very quiet, and that hurt him because some people assumed he didn't have enough drive. I didn't know for sure until '82, when we were together with the Cubs. That's when he was 1-for-32. Most guys would have quit. It's hard to play in that kind of adversity, when everything's going against you. That's when you can tell what a guy's made of.

The following season, Frey gave Sandberg his hitting lesson. Since then, Sandberg has played an integral role in each of the Cubs' two division titles, the franchise's only postseason appearances since World War II.

"Jim Frey told me to swing for power and hit

it out of the ballpark," Sandberg said. "He gave me confidence.

The highest compliment paid to Sandberg may have been given by former St. Louis manager Whitey Herzog after a game in 1984 in which Sandberg hit game-tying home runs in the ninth and tenth innings against Bruce Sutter, then the ace of the Cardinals' bullpen. "The guy is Baby Ruth," Herzog said.

Dedication and diligence are two of Sandberg's traits. He created his own defensive drills and batting-pratice regimen and follows each approach religiously.

'Before each game I'll take 10 grounders at me, 10 to the right and 10 to the left, and a few double plays just to get my body loose," Sandberg said. "Sometimes you see younger players take 100 ground balls. They'll get tired or lackadaisical after so many, and develop bad habits."

At the plate, trying to hit home runs has become an increasingly important part of Sandberg's philosophy.

"I don't know if it'll be a home run or not, but in batting practice, I'll situation-hit," Sandberg said. "Saying that I'm going to turn on this pitch, that it's a 2-0 count, and be a little more aggressive. All I'm trying to do is drive the ball, preferably to left field. Whether I get it up or not is whether it's a home run.

Sandberg's value to the Cubs isn't limited to his contributions on offense. An eight-time Gold Glove winner, he surpassed Morgan's previous record of 91 errorless games by a second baseman during the final days of the 1989 season. Sandberg had his streak end at 123 games, covering 582 chances, on May 18 last season. After a grounder by Houston's Eric Anthony deflected off the glove of first baseman Mark Grace, Sandberg charged the ball and made an off-balance throw which was low and out of Grace's reach. Sandberg's streak would have continued had he decided not to make a throw on the play, but such thinking isn't his style.

"I felt I had a legitimate chance to get the runner," Sandberg said after game. "I just made a bad throw. I knew it was low right away. You can't go out there and play conservatively. I'm sure the record will mean more to me down the road.

Errorless streaks were nothing new to Sandberg, who had his first one while playing shortstop at North Central High School in Spokane, WA. He went 15 games without an error, then committed four in the 16th game while Philadelphia scout Bill Harper was in attendance. Relying on his baseball wisdom, Harper still gave the struggling player high marks because Sandberg covered his position as well as any high school player he had seen. That same athletic ability was one of the reasons Washington State wanted Sandberg to play football and baseball.

"In high school, you get kids who don't want to make an error," said Ken Eilmes, Sandberg's coach at North Central. "Sometimes they do what I call short-legging a ball. It means not going for a ball in fear they're going to make an error on it, as opposed to Ryne, who got to every ball." North Central officials honored Sandberg a few years ago by renaming its athletic stadium after him. Meanwhile, the accolades for Sandberg continue.

"In 42 years in baseball, I've never seen a better second baseman for all-around play," Zimmer said. "Jackie Robinson is the player I'd compare him to.'

"How good is Ryne Sandberg?" said Whitey Lockman, a one-time player and manager for the Cubs who has almost a half-century of experience with major-league clubs. "I've seen second basemen who can do one thing better. Joe Morgan and Joe Gordon had more power. Morgan probably could outrun him. Bill Mazeroski was quicker on the double play. But when you put everything together, Sandberg's the best.

Cubs' shortstop Shawon Dunston agreed. "He's always making me look good. If I miss a sign, he makes sure I've got it. He tells me where to set up. He helps me in a lot of subtle ways. Brag? He doesn't even talk.'

Part of Sandberg's success at the plate and in the field can be attributed to superior handeve coordination. When Sandberg was 12 years old, his mother made him ride his bicycle to take two-hour piano lessons every Saturday morning. It was the kind of routine Sandberg disliked with a passion, despite the fact it obviously helped him in many ways.

"Especially the recitals," he said. "We had two of those every year and one was always two days before Christmas. I had to take piano lessons for four or five years and I could never enjoy Christmas because I was always dreading those recitals. The whole family would be there. There was a lot of pressure.

Unlike successful major-league players who sometimes shun the media for various reasons, Sandberg has proven to be a difficult interview, at times, because of his reluctance to talk about himself. He openly admits he has a lot of emotions inside which he doesn't show. His teammates also mention Sandberg's fiery temper, which is displayed in the clubhouse and never on the field.

"I don't take wins or losses home to my family anymore," Sandberg said. "When I was younger, I would take it out on my wife. Now, I realize it's a game. I'm going to do as much as I can while I'm at the park, but that's where I'm going to leave it."

Said Sandberg's wife, Cindy, "People think he's very shy, but he really isn't. He's quiet, and he's an observer. Some people may not know how to handle his quietness."

Much has been said and written about the escalating salaries in baseball, but at an annual contract of \$2.3 million, Sandberg is one of baseball's biggest bargains. "In my opinion, Ryne Sandberg is the most underpaid player in the history of the game," Grace said. And Dunston added, "I'm not questioning what Will Clark's worth, but he's not worth twice as much money as Ryne Sandberg.'

Sandberg has been applauded for his charitable contributions, such as the \$40,000 donation he and Cindy made to the Red Cross in 1989 for distribution to San Francisco earthquake victims. He also buys 25 season tickets every year which the Cubs give to handicapped and underprivileged fans.

"I don't think Ryne considers himself a superstar," Cindy said. "He's like everybody else, one of the guys."

But when it comes to playing second base, Ryne Sandberg is in a class by himself.

LET'S MAKE A DEAL!

Here are a few modest proposals to improve every team

Let's all pause and say thanks that there is no salary cap in baseball stopping people like Joe McIlvaine and Pat Gillick from locking themselves in a Chicago hotel suite and emerging with a trade that rocks and shocks fans in two leagues and two countries. The kind of heavy-duty business conducted by Trader Mac and (Don't Call Me) Stand Pat at the winter meetings-Fred McGriff and Tony Fernandez moving from Toronto to San Diego in exchange for Roberto Alomar and Joe Carter-is rarely seen in the NBA, where capped-out, stressed-out GMs must match salary slots before they can even begin to discuss names in earnest. The big losers here are the hard-core fans who live for good, oldfashioned swaps

One thing baseball does need to address is the timing of its winter meetings, which in recent seasons, the Padres-Blue Jays block-buster aside, have been dominated by agents of free agents. There was a time when general managers roamed the hotel lobby whispering names and trade combinations that sent wide-eyed reporters racing to their typewriters—if it is possible to actually race with a beverage in one hand—to send the latest big rumor back home.

By following the advice of Whitey Herzog, baseball can revive those long-gone days simply by rescheduling the meetings for a later time. The most logical week would be the one following the Super Bowl, providing maximum exposure in the media. Until then, all we can do is hope that more McIlvaines and Gillicks step forward to put their reputations where their instincts are, and go for the big kill.

Knowing how general managers thrill to the advice of sportswriters, we happily seize this opportunity to propose deals of all shapes and sizes, the idea being to improve each and every club on the landscape. One thing is certain: It is the cheapest counsel the wise men of the grand old game ever will entertain.

Wally Joyner for Andres Galarraga
An even-up swap of quality first basemen gives each club something it is lacking. In Joyner, the Expos obtain a slashing, left-handed-hitting run producer to complement Tim Wallach and the newly acquired Ivan Calderon. Andres the Cat gives the dreary Angels a desperately needed personality transfusion. A superb fielder, Galarraga cuts down on his strikeouts in the American League.

Norm Charlton for John Smiley
Danny Jackson's defection to the Cubs signals the breakup of the Cincinnati's original Nasty Boys anyway, with Charlton possibly ticketed for the rotation. A better idea for the World Series champions is to go get a certified starter, one with star potential. A disappointment last season, Smiley responds to the

touch of Stan Williams, Lou Piniella's superb pitching coach, and recovers his '89 form. Charlton takes his prime heat to Pittsburgh and emerges as The Man in Jimmy Leyland's bullpen, with Stan Belinda supplying balance from the right side in a Steel City version of the Nasties. Replacing Smiley in the rotation is Randy Tomlin, who twisted the Mets in knots late last season to prove that pressure doesn't bother him.

Mike Hartley and John Wetteland for Greg Cadaret

Having acquired at no small expense Darryl Strawberry, Brett Butler, and Kevin Gross, and then Bobby Ojeda in the Hubie Brooks deal with the Mets, Los Angeles is posed to make a big run at the Reds. One piece, however, is still missing: the left-handed hammer to come in and get one out or two. Cadaret, courtesy of the Yankees, is just the guy for the job. Stepping right into the New York rotation is Hartley (76 Ks in 79½ innings), who has been squeezed out of the crowded L.A. picture. Wetteland, believe it or not, was almost as highly regarded as Ramon Martinez as recently as '89. The superior stuff is still there; all Wetteland needs is a place to develop it.

Kevin Mitchell and John Burkett for Lonnie Smith and John Smoltz

This is the big one, the deal that rocks baseball again, a trade on the Toronto-San Diego level. The Giants, with all those aging arms, are in dire need of an anchor for the '90s. Smoltz in San Francisco delivers 17-22 victories a year. Smith (.384 on-base percentage) solves San Francisco's leadoff problem and replaces Mitchell in left. The new Giant cleanup man is RBI champ Matt Williams. Mitchell, a raging terror at the Launching Pad. approaches 50 homers as a Brave. He also gives Ted Turner's superstation a marquee name, joining Rookie of the Year Dave Justice and Ron Gant in a murderers' row. Tom Glavine replaces Smoltz as the Atlanta ace with Burkett moving into the rotation.

Shawon Dunston for Jose Offerman and Alfredo Griffin

The Dodgers hate to give up their most bally-hooed prospect in years, the richly gifted Offerman, but Dunston is just too good to resist for a club that is gearing up to win now. Offerman may be the can't-miss star everyone thinks he is, but he appeared overmatched last season after a home run in his first at-bat, and L.A. can't afford to live through his growing pains in the most competitive division in baseball. Griffin goes along in the package to give the Cubs adequate defense until Offerman is ready. With George Bell joining the already formidable Cubs' lineup, there's no urgent need for big production out of the

shortstop position. Dunston, an electric personality with superstar ability, has been around seemingly forever, but he's still only 27. A gutsy move by Fred Claire, but this is a man who believes in thinking big.

Pedro Guerrero for Sammy Sosa

The Cardinals' signing of Gerald Perry makes Guerrero expendable in a rebuilding program. The acquisition of Tim Raines and Cory Snyder gives Chicago manager Jeff Torborg a redesigned outfield, with Lance Johnson remaining in center. Guerrero was born to DH; when he's in his rhythm, there is no better all-purpose hitter. He's prospered his entire career in hitter-unfriendly parks (Dodger and Busch Stadiums). This is the big weapon the White Sox need to take them up one more notch. Sosa is a swift, slashing-type hitter who can take advantage of Busch's wide-open spaces. He should have no trouble finding a spot in Joe Torre's outfield.

Von Hayes for Allan Anderson

Minnesota likes Hayes's versatility, in the field and in the batting order. Philadelphia certainly can use Anderson, particularly if he reverts to 1988–89 form. His '90 numbers (214 hits, only 39 walks in 188% innings) are evidence he wasn't as bad as his 7-18 record indicates. He's a resourceful lefty whose changeup could confound N.L. hitters (see Frank Viola, his former Twins' mound mate). The Twins are turning their staff over to kids, so they might as well go all the way with the program.

Eddie Whitson for Gary Pettis and Kenny Rogers

McIlvaine is one GM who needs no help, but think about this one, Joe. Pettis shores up the ragged San Diego defense with his Gold Glove in center and Rogers, who closed for the Rangers with Jeff Russell unavailable much of the season, is capable of starting. He replaces Whitson in the rotation. Texas, with all its hard throwers, can use a cutie like Eddie Lee to balance things. Whitson has flourished in San Diego after his Bronx nightmare, and Arlington is just the type of environment he would find appealing. How could any pitcher not jump at the chance to spend some time with the master, Nolan Ryan?

Kevin McReynolds and Sid Fernandez for Ellis Burks

The signing of free agents Danny Darwin and Matt Young helps, but the Red Sox are still a starter short of a pennant. Fernandez, who pitched brilliantly at Fenway in the '86 World Series, fills the bill. McReynolds is in Burks's exalted class as a pure talent, and in the A.L., with all its small parks, he is no liability in center. The Mets have lusted after Burks for a long time, once having come close to landing him

by LYLE SPENCER

THE NATIONAL

in exchange for Lenny Dykstra and Fernandez. They pay heavily to get him, but Burks elevates them. He improves the Mets' defense by leaps and bounds between Vince Coleman and Hubie Brooks.

Danny Tartabull for Bip Roberts and Jerald Clark

McIlvaine gets back into it, completing the outfield overhaul with Tartabull checking into left alongside Pettis and Tony Gwynn. Tartabull, like McGriff, is a San Diego kind of guy. He complements the fearsome Fred beautifully. The Royals settle their second-base predicament with Roberts, who brings speed, daring, and a .375 on-base percentage to the leadoff spot. Clark is a talent who never really made it happen with the Padres and arrives in Kansas City as outfield insurance.

Pete Incaviglia for Brook Jacoby

Cleveland, with Cory Snyder and Candy Maldonado gone, hungers for a thumper and Texas obliges with Incaviglia. Jacoby gives manager Bobby Valentine another professional hitter who can DH and offer protection at third base in the event Steve Buechele hits .215 again. Juan Gonzalez is ready to take flight in the Rangers' outfield.

Paul Molitor for Mike Moore and Don Peters
One established starter and a heat-dispensing prospect might sound like too high a tariff to pay, but there's no way to measure the value Molitor would bring to the Athletics as they try to bounce back from their October hangover. A great player for years, with a personality that shines, Molitor would go a long way toward replacing the intangibles Dave Parker

Mitchill B. Reibel

Note: The service of the servic

took to Milwaukee. Molitor takes over third base for the injured Carney Lansford. Moore's place in the rotation is taken by Reggie Harris, who is ready to bust out. Moore gives Milwaukee a durable starter now, and Peters figures to be ready in a year or two. The Brew Crew thus arms itself without having to sacrifice its superkid, Gary Sheffield.

Ken Caminiti for Luis Aquino and Jeff Conine Houston is desperate for middle relief and Aquino gets the job done. Conine is a muscleman who needs a little more seasoning but could blossom into something useful in a year or two. Caminiti is an excellent glove with some pop. He's expendable with the anticipated emergence of the highly regarded Jeff Bagwell, acquired from Boston in the Larry Andersen swap last summer. Caminiti frees

Kevin Seitzer for a transfer to the Royals' outfield, where he joins Jim Eisenreich and the football players, Bo Jackson and Kirk Gibson.

Jim Abbott for Tony Phillips and Steve Searcy

Abbott comes home and lights up the Detroit skyline, giving Sparky Anderson a quality starter. Phillips's personality and winning background enhance the Angels, along with his versatility. Searcy finally fulfills the promise he had shown in 1988 as the International League pitcher of the year.

Jesse Barfield for Craig Worthington and Mike Devereaux

Barfield gives Frank Robinson another weapon and relieves Dwight Evans of defensive

responsibilities, freeing Dewey to DH full-time. Worthington, who slumped in 1990 after leading all rookies with 70 RBIs in '89, solves the Yankees' third-base problem with his steady glove. Devereaux moves into right field—unless Don Mattingly decides the outfield would cause less wear and tear on his fragile back, freeing first base for Kevin Maas.

Glenallen Hill and Al Leiter for Brian Holman Seattle is reluctant to give up Holman and his no-hit stuff, but the Mariners can't resist the lure of Hill, a talent in the Bo Jackson mold who just needs the opportunity to strut his stuff. Leiter, if healthy, takes Holman's place in the rotation. Holman solidifies the Toronto rotation and makes the Blue Jays co-favorites with Boston in the A.L. East.

There, now, our work is done. The rest is up to baseball's movers and shakers. Get busy, fellas. Don't let McIlvaine and Gillick have all the fun.

Rob Dibble, Rob Dibble, and, oh yeah, Rob Dibble. Mention of this Nasty Boy as being underpaid surprises no one, because Dibble spent most of 1990 telling everyone just how shabbily he had been treated by Reds owner Marge Schott. At \$200,000, Dibble was absolutely right. Problem is, his agent is Eric Goldschmidt, the same man who made Schott so mad when he rightfully barked at her about the Reds' initial refusal to pay for bedridden Eric Davis's \$15,000 flight home aboard a private plane after the World Series.

Ken Griffey Jr. For \$210,000, Seattle got a .300 season plus 22 homers and 80 RBIs out of their 20-year-old center fielder. But that's O.K., because in a few more years he'll probably be the game's highest-paid player.

Matt Williams In these salary-conscious times, it's almost impossible to keep 100 RBIs and \$1 million out of the same sentence, but the Giants' third baseman drove home a league-leading 122 runs and was paid just \$215,000. In the same season that teammates Will Clark and Kevin Mitchell signed matching \$15 million deals, neither had 100 RBIs.

Ramon Martinez For \$150,000, Martinez was the unquestioned pitching bargain of the season, finishing 20-6 with a 2.92 ERA and 223 strikeouts for a Dodger team that struggled.

MOST OVERPAID

Mark Davis was hounded in Kansas City when he failed to live up to his 1989 status as a Cy Young stopper. Mark Langston threw as hard as ever for the Angels, but his heat was remarkably hittable in a 10-17 season after Gene Autry made him yet another failed multimillionaire for California. Fact is, just about everyone in baseball who has made headlines for his salary has failed to live up to the accompanying expectations. But here are a few who really stood out:

Ernie Whitt No offense intended, Ernie. You were, after all, one of the original Blue Jays and an all-time good guy. But you also made \$1.2 million, and you did get released.

Keith Hernandez The latest example of cashing in just before the curtain falls on a stellar career. After six .300 seasons, Hernandez proved his .233 season of 1989 was no fluke, dropping to .200 while being healthy enough for only 130 at-bats with Cleveland. For this, he was paid \$1.75 million. Yes, timing is everything, and maybe someday the Indians will enjoy some.

Bob Boone 40 games, .239, no homers, \$1.9 million. Need we say more?

MOST INTENSE/COMPETITIVE

Roger Clemens Even as mistimed as it was, Clemens's profanity-filled outburst in Game 4 of last year's A.L.C.S. spoke volumes about how lost the two-time Cy Young winner can become during the throes of competition. Clemens's ejection made him look the fool, but let's not forget that the spaciest Boston pitcher since Bill Lee also came roaring back from a shoulder injury in mid-September to take on and defeat Toronto at a time when his team was desperate for his services. In this highcaution age that has developed because of huge salaries, seldom has anyone risked a career and an arm so willingly.

Kirk Gibson His throws from left field sometimes look like putts from the fringe of the green, and the trainer was on permanent call at Dodger Stadium. But even though it happened two years ago, that ninth-inning homer in Game 1 of the 1988 World Series still personifies what Gibson is all about. It doesn't matter if he has to limp or crawl, Gibson is willing to drag his deteriorating body to the plate. And no matter how sorry the condition when it gets there, he just might deliver a piece of history. Or so the Royals hope.

BEST UNDER PRESSURE

Dave Henderson A late-season injury contributed to his .231 World Series effort last year, but aside from that, Oakland's other Hendu has had an unmatched record in the postseason the last few years. His Game 5 homer in the 1986 A.L.C.S. started Boston's comeback and kept Gene Mauch out of the World Series yet again. And though Henderson has finished only one regular season with more than 20 homers, he hit seven in his first 30 postseason games.

Tom Brunansky With five home runs in the final week of Boston's race for the pennant, Brunansky followed up neatly on his .412 performance with Minnesota in the 1987 A.L.C.S. And let's also not forget his game-ending catch in the right-field corner in the Red Sox' division-clinching victory a year ago.

WORST UNDER PRESSURE

Jose Canseco He may well be baseball's best player, but the game's ultimate pressure cooker is the World Series, in which Canseco's performance has had to endure intense

DARREN DAULTON

scrutiny. His .357 showing in the 1989 Series made his 1-for-19 of 1988 seem like a fluke, but in 1990 against the Reds, he was one-hit again, this time in 12 at-bats. He also played right field like a fire hydrant and wasn't ready to start in Game 4. The final insult unfolded in Game 4 when Lou Piniella made a ninth-inning pitching change that he knew would force the A's to pinch-hit with Canseco. Plenty of other superstars have failed in the Series. and in bygone days Canseco likely would be cut more slack for his bad back. Perhaps the toleration level for Canseco would be higher if he weren't always complaining about how the Oakland Coliseum is the only thing standing between him and Roger Maris's home-run record, while conveniently ignoring all the benefits of being in the A's packed lineup.

Mark McGwire Another big hitter whose inclusion here is a factor of his failing to shine in the spotlight. After a 1-for-17 World Series in 1988, this 1984 Olympian rebounded for a .294 Series during the A's 1989 sweep-but was the only member of Oakland's starting lineup who failed to homer. Then, during Cincinnati's sweep last season, McGwire was mired in a 3-for-14 slump. All of that has called for a second look at his amazing record of being the only player to hit at least 30 homers in each of his first four seasons. The reputation that's emerging is one of a slugger who takes advantage of mistakes and mediocre middle relievers, but who also fails to hit the long ball against the premier pitchers.

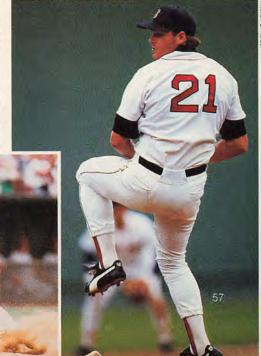

Boston's bullpen Just roll the tapes from the 1990 league championship series.

UNSUNG HEROES

Brett Butler San Francisco's powerful troika of Will Clark, Kevin Mitchell, and Matt Williams grabbed the attention, but the Giants' do-all leadoff hitter was the table-setter with a .309 average and 192 hits at the age of 33. Butler, a second-look free agent, jumped to the Dodgers after the Giants signed Willie McGee.

Kelly Gruber While the Blue Jays tolerated continued

ROGER CLEMENS

RICKEY HENDERSON

MATTERS OF OPINION

George Bell's mood swings, it was Gruber who showed up every day ready to go. He put together his first 100-RBI year, making him one Toronto player who shouldn't have to listen to the continued Canadian woe about unmet expectations. And with better range than Wade Boggs, he's no longer the American League's second-best third baseman.

Mike Scoscia To qualify as an unsung hero. you have to fulfill the cliché about doing the things that don't show up in the box score. and the Dodger catcher does. While still grinding out a full season, no one blocked the plate better, and what other catcher has been such a fine mentor for a young pitching staff?

Jody Reed Ask for a list of the unsung, underrated, or overlooked, and this .289 hitter always makes it. A classic case of the little guy who produces in the clutch.

WHO'S GOING TO COOPERSTOWN

The batting title that made George Brett the first player to win one in three different decades makes Kansas City's favorite sports personality a lock for the Hall of Fame, Carlton Fisk, after out-homering Johnny Bench, surely is on his way. Rickey Henderson also will get there, on his steals alone, as will Nolan Ryan for his strikeouts and no-hitters and Cal Ripken for his consecutive-game streak. On the bubble, but headed in the right direction: Robin Yount and Dave Parker.

AND WHO ISN'T

Fisk's numbers are going to make it tougher for fellow catcher Bob Boone. Having the most games played behind the plate no longer seems like such a compelling statistic. Keith Hernandez could use more .300 seasons, but he's out of them. Dwight Evans's pile of Gold Gloves had him in the hunt, but he needed at least to reach 400 homers. Same for Dale Murphy, who needs a second wind for his career to go with his two MVP Awards.

OVERACHIEVERS

Ryne Sandberg It's tough to call a former MVP winner and a perennial all-star an overachiever, but the fact is Sandberg can rightfully lay claim to having baseball's best season in 1990. Second basemen just aren't supposed to lead the league in home runs-as Sandberg did with a remarkable 40-and save the criticisms about the benefits of playing at Wrigley Field. Until now, the title of the best second baseman since Rogers

Hornsby" was strictly, the property of Hall of Famer Joe Morgan, but that claim today has joint ownership.

Andre Dawson How can one team have the game's two best overacheivers and still lead such a miserable existence? That's what makes them the Cubs, folks. All Dawson ever asked for was a grass outfield to play on, and no one has ever performed better after being put out to pasture. The Hawk was written off yet again after his 2-for-19 gimp through the 1989 National League playoffs, but in 1990 he was back strong with a .310 season and 100 RBIs at the age of 36.

Darren Daulton Perhaps the most overlooked clutch performance in modern baseball-is that of the marginal player who is headed for free agency and musters the salary drive that assures his loved ones of permanent luxury. So it was for Daulton, a .206 career hitter before 1990, whose .268 season behind the plate for Philadelphia made him a \$6 million man. It's more cash than Johnny Bench ever dreamed of, but maybe that's to be expected for a lucky man who married former Playboy centerfold Lynne Austen.

IN THE SHADOWS

Barry Larkin O.K., so Larkin doesn't do backflips and can only make about 98 percent of the plays that Ozzie Smith does. After Larkin's .301 season for the world champs, it's time to get real and recognize that even when the Reds' shortstop is mired in a slump, he's still a bigger offensive threat than Ozzie on a tear. You had a great run, Wiz, but move over and let Larkin have his overdue title as the best shortstop in the National League.

Steve Sax With all the turmoil surrounding the Yankees last season, the 160 hits and 43 stolen bases Sax had for the A.L. doormats were overlooked. And considering that Los Angeles just agreed to stuff \$20.25 million into Strawberry's vault over the next five years, just how much do you think the infield-poor Dodgers are regretting their miserly ways of 1988, when they let Sax slip away because of a measly six-figure disagreement?

Mitchell B. Reibel

WHO TO AVOID IN THE FANTASY LEAGUE

Baseball's most celebrated jinx of the last decade wasn't the one that supposedly belongs to sophomores, but the one that hit most winners of the Cy Young Award. Bret Saberhagen went to extremes to confirm this debilitating circumstance, dropping to 7-12 and 5-9 after his Cy Young seasons of 1985 and 1989. Clemens was an exception, but consider Rick Sutcliffe's fall to 8-8 in 1985, Frank Viola's plummet to 8-12 in 1989, and the sinking feeling Mark Davis had last season when he was 2-7 with a 5.11 ERA. Before adding Oakland's Bob Welch or Pittsburgh's Doug Drabek to your fantasy-league roster, take note.

GET OFF HIS BACK

The first time Cal Ripken suffers one of those 0-for-15 spells that eventually hits all players, the call again will go out for Baltimore's shortstop to get some rest and bring his consecutive-game streak to an end. Boooo! In an era when outfielders have to call their agents to consider the financial ramifications before they crash walls, Ripken is the game's last vestige of the work ethic. Instead of wishing failure upon the most productive shortstop of the last decade, the game's observers ought to be treasuring Ripken's arduous feat. We'll never see another like it.

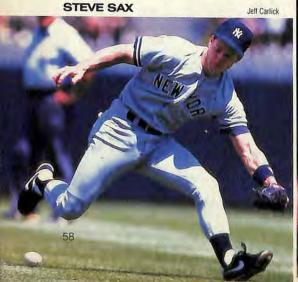

ON THE HOT SEAT

Selecting who would be the first manager fired used to be so easy. All one needed to do was check the nameplate in the skipper's office at Yankee Stadium, then wait for the movers to show up. But as baseball moves into the Life Without George era, it's going to take a little more skill

Tom Trebelhorn When he broke in as Milwaukee's manager, Trebelhorn quickly became every player's friend. But that can work against a man who's supposed to be in charge, and now Trebelhorn has to deal with the growing image of a manager who is too chummy to put his foot down. A quick start will take care of that, but another bad year for Robin Yount or more injuries to Paul Molitor, and Trebelhorn could be job hunting.

John Wathan With John Schuerholz gone as GM, the Royals can't go on blaming the man who made Mark Davis rich for their troubles.

GEORGE BRETT

Should Kansas City stumble out of the gate again, Wathan will get a turn in the toaster.

Tom Kelly Memories of those deafening nights in the Metrodome in 1987, when Minnesota won its first World Series title, are as faded as Twin fans' recollections of Frank Viola. Worse, the Gary Gaetti-Kent Hrbek rift never has been healed, and any time a clubhouse sprouts a line of demarcation, the manager's job is on the line.

Bud Harrelson Strawberry, the franchise's favorite fall guy, is gone, and there are a lot of bad vibrations left over for the team that failed to realize its aspirations of becoming the team of the '80s. And in New York the manager's chair is always a hot seat, as even a steady winner like Davey Johnson discovered. Fair or not, if the undermanned Mets don't start strong, Harrelson figures to take the blame.

BEST NON-NEW YORK SOAP OPERA

Normally placid San Diego had the biggest feud in 1990, because of the clubhouse hazing Tony Gwynn took from Jack Clark. How anyone ever got away with ripping a four-time batting champ and workaholic like Gwynn for not being a team player is one of baseball's greatest mysteries. Then again, San Diego is where Roseanne Barr was permitted the opportunity to screech her way through that disgraceful rendition of the national anthem.

MOST OVERRATED

Peter Ueberroth The ex-commissioner left office amid an avalanche of rave reviews for the way he propped up the game financially, but he no longer looks quite so brilliant. The Collusion I. II and III escapades of baseball management against free agents have left the owners with a settlement tab of about \$280 million, and that's a figure that has to be added to Ueberroth's balance sheet.

Mets of the '80s Now that Strawberry, Hernandez, Gary Carter, and so many other members of the Mets' posse from the '80s have moved on, it's time to add up the results

MATT WILLIAMS

for the team that kept telling us how it was going to dominate the decade. Guess what? One trip to the World Series was all they got, and the only reason they won that one was because a pitiful grounder sneaked through Bill Buckner's legs.

TRADE TO WATCH

A's vice president Sandy Alderson was hailed as a modern-day Branch Rickey for making the late-season deals that brought Willie McGee and Harold Baines to Oakland for what was expected to be a second straight World Series championship. But after getting the broom treatment from Cincinnati, it's time to take another look at the deal that sent Felix Jose to St. Louis for free agent McGee. With the steady stream of injuries that have hit Rickev Henderson and Canseco, Oakland always figures to need an extra outfielder. And Jose (Felix, not Canseco) looked like a budding star. Oakland already suffered having the wrong Jose once in the Series (Rijo, not Canseco). Could it happen again?

THE AL DAVIS VAGABOND AWARD

Forever crying about Candlestick Park and now rejected by Santa Clara voters for a new stadium, Giants owner Bob Lurie is a real estate baron with a personal fortune estimated at \$400 million by Forbes magazine. Yo, Bob. Ever think of building a stadium yourself?

MOST EXCITING NEW STARS

A lot of obvious choices. Statistics like those Ken Griffey Jr. has produced at the age of 20 traditionally have marked the start of careers that conclude with induction at Cooperstown. He's the rare center fielder worthy of wearing Willie Mays's No. 24.

Rookie of the Year Dave Justice, as Lou Piniella said so succinctly, "looks like a young Billy Williams." In a city that has been starved for heroes, Justice's 28 homers indicate he may turn out to be an even more potent heavyweight than that other Atlanta puncher, Evander Holyfield.

Baltimore's Ben McDonald has been on everyone's can't-miss list for a couple of years now, and his 8-5 season and 2.43 ERA with a very average team keeps him there. Chicago White Sox first baseman Frank Thomas also moved into that company with a .330 miniseason, and from the looks of his hulking frame he's only going to improve on his seven homers in 191 at-bats.

Kevin Maas set a bundle of records for most

DARRYL STRAWBERRY Mitchell B. Reibel

homers in fewest at-bats and needed only 110 trips to the plate to smack his first 13. But after finishing with 21 HRs in just 254 at-bats, he almost made the Yankees' beleaguered fans forget all about Don Mattingly's injured back. Given an entire season and Yankee Stadium's short porch in right field, this left-hander figures to further boggle the imagination.

Two others who received less notice but who promise to have fearsome futures are Texas's Juan Gonzalez and Seattle's Tino Martinez. Gonzalez, 20, has been a pro since he was 16. This 6-foot-4 pal of Ruben Sierra has excellent speed, a superb arm, and hits line drives that break fences. Scouts have been hard-pressed to find a part of his game they don't like, especially after his .289 start in 90 at-bats last year. Martinez was a 1988 Olympian who was a disturbing bust at the Class AA level, but who then hit the weights. prospered in Triple A, and merits watching.

LEAST INTERESTING NEW STARS

Deion Sanders The self-titled Prime Time man hit a whopping .158 and drove home nine runs in 133 at-bats. The bottom line is that the Yankees told him good-by.

INTERESTING OFF THE FIELD

Scott Radinsky If you were at Comiskey Park during its farewell season but didn't recognize some of the music that was played between innings, you probably were hearing tunes taped by guitarist Radinsky. This reliever had a 6-1 record for the White Sox, and when he wasn't working as part of that deep bullpen, he performed in a rock band.

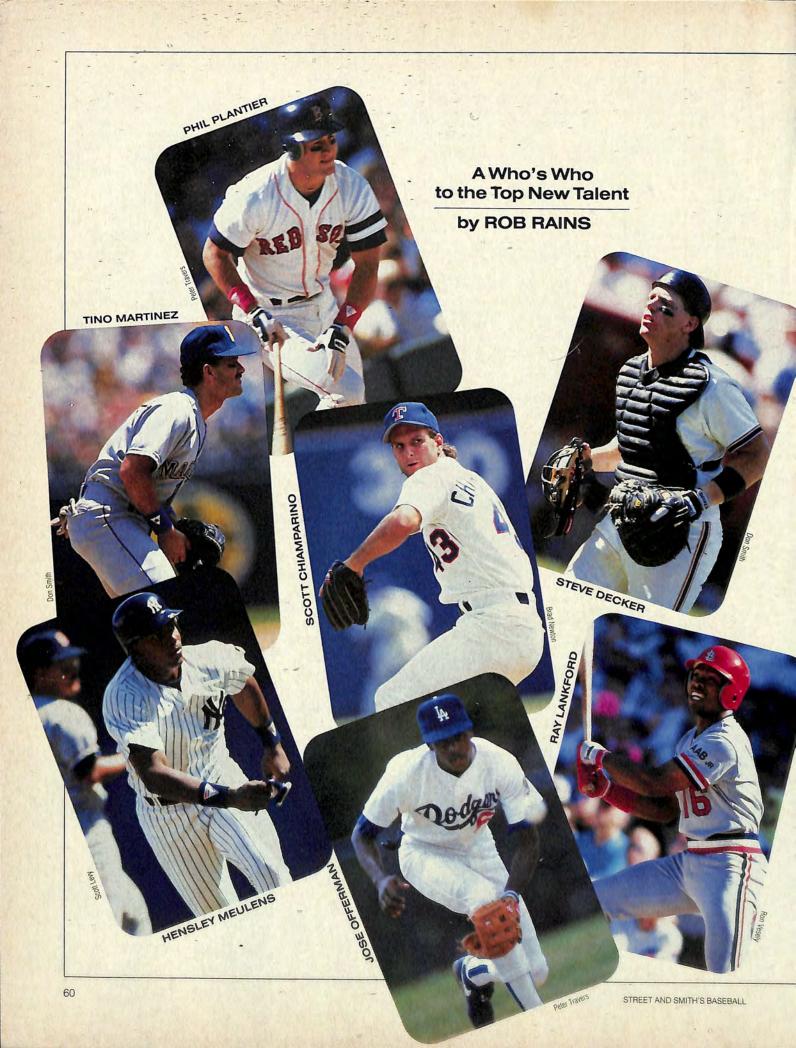

Delino DeShields Bo knows football, but Delino knows some serious hoop. He was Rollie Massimino's No. 1 recruiting choice for Villanova's basketball team, and still is a playground terror. Walter Davis notwithstanding, many folks still rank him as the best high school player in Delaware history, and if not for his 6-foot-1 limitations, he might be splitting time with the NBA.

Randy Myers If you're looking for someone to share a bunker with, this Nasty Boy is your guy. He would have been out of place in the passive '60s, but today he's a man for these militaristic times. A dedicated reader of Soldier of Fortune. Myers keeps a hollowed out hand grenade in his locker.

JUAN GONZALEZ

John Williamson

THE CLASS OF 1991

For Jose Offerman and Tino Martinez, the trip through the minor leagues was brief. And if most scouts, managers, and instructors are correct, it won't be long before the two reach the next step of their baseball careers—stardom.

Offerman rose from the rookie Pioneer League to the Los Angeles Dodgers in three seasons. Martinez delayed his pro career for a year so he could play with the gold medal-winning U.S. Olympic team in 1988, and thus made it to the Seattle Mariners after less than two seasons in their farm system. Both reached the majors last August, and head into the 1991 season as the best of what appears to be a talented group of rookies in the National and American Leagues.

"They are guys who are going to be in the big leagues from now on," said Marv Foley, the manager of Vancouver, who had to face Offerman and Martinez in the Pacific Coast League. "They were heads above all the

other players in the league."

Offerman, 22, a switch hitter, is the latest product of the shortstop factory in San Pedro de Macoris, Dominican Republic. He is expected to move into the Dodgers' starting lineup, where he should become an impact player.

"He's got all the tools except power, but he's a big, wiry kid [6-0, 150] who can drive the ball into the gaps for extra bases," Foley said. "He may develop power in the next

couple of years."

Last year at Albuquerque, Offerman hit .326 with no homers and 56 RBIs. He also had 16 doubles, 11 triples, and a league-leading 60 stolen bases. He was named the Minor League Player of the Year by the Sporting News. Offerman also has great range and a tremendous arm. The only knock on him is that he gets a little careless sometimes and seems to lose his motivation, but that's a problem the Dodgers think he will correct.

"The only drawback I see on him is his intensity, and that's because he is still such a young kid," Foley said. "He doesn't know yet what it takes to be a big-league player,

but he will."

Foley doesn't see any drawbacks to Martinez, who should move into a spot somewhere in the Mariners' lineup. The one question will be if he can remain at his natural position, first base, where Seattle already has Pete O'Brien and Alvin Davis. It's possible Martinez may have to move to the outfield. The 23-year-old left-handed hitter tore apart the PCL at Calgary last season, hitting 320 with 17 homers and 93 RBIs. The Tampa native was named the Minor League Player of the Year by USA Today.

"The kid has got a big-league stroke," Foley said. "To me, he was the best prospect in the league. He's a pure hitter, and he's better than average around the bag. He doesn't have any speed, but he's got all the other tools. He also can hit left-handed pitching, and for a young left-handed hitter, that's very impressive."

Offerman and Martinez aren't the only rookies who should have an impact in 1991. The St. Louis Cardinals are counting heavily on Ray Lankford to take over for the departed Willie McGee in center field. Lankford, 23, is a left-handed hitter with the speed to collect a lot of doubles and triples in spacious Busch Stadium and to get to the balls in the gaps on defense. Playing at Triple A Louisville last year, Lankford hit .260 with 10 homers, 72 RBIs, and 29 stolen bases.

Lankford might be joined in the Cardinals' outfield by another rookie, Bernard Gilkey, who had a better season at Louisville in 1990 but generally is thought to be slightly behind Lankford in his readiness to play in the majors. Gilkey will get the first chance to replace Vince Coleman as the Cardinals' leadoff hitter.

The San Francisco Giants know that it's a big step from Double A to the majors, but they are hoping catcher Steve Decker will be able to make the jump. Decker certainly gave every indication that he was ready when he was called up in September and hit 296 with three homers and 18 RBIs in 15 games. He also threw out seven of 17 potential base-stealers.

"I like his bat," said Jackson's Clint Hurdle, who managed against Decker last season in the Texas League. "He can hit the ball from line to line and has home-run power. He's got good mobility for a big man [6-3, 205] and he handled the staff well. He's got good work habits, and I think he can play in

the big leagues next year."

The Baltimore Orioles are counting on two players being ready to play for them in 1991 first baseman David Segui and third baseman Leo Gomez. Both were International League all-stars at Rochester last year. Segui, a switch hitter, is not a prototype first baseman in that he doesn't hit for much power, but he does make good contact and drives the ball well into the gaps. He also is well above average defensively. Gomez is a power hitter, tying for the league lead with 26 homers. The only knock against him was his defense, but most scouts considered him much improved last season.

Gomez tied for the International League lead in home runs with Hensley "Bam-Bam" Meulens, whom the Yankees hope has as big an impact as rookie Kevin Maas did at first base last year for New York. Meulens has long been considered one of the organization's top prospects, but never really came through in a big way until he was moved from third base to left field early last year. He responded by hitting .285 with 96 RBIs. Like most power hitters, Meulens strikes out too much, but that didn't stop him from winning recognition as the International League's Most Valuable Player.

One of the players Meulens beat out for that award was Pawtucket's Mo Vaughn, who hit .295 with 22 homers and 72 RBIs in just his second professional season. When Vaughn was drafted, some observers thought he might have trouble finding a place to play defensively, but he has worked hard at first base and is improved.

"We thought when we started him at Double A [in 1989] that he might be in over his head, but he handled it well," said Ed Kenney Jr., the director of minor-league operations for the Red Sox. "And this year when he struggled early, we thought maybe he was over his head, but he came back after breaking his hand and really played well."

Phil Plantier, who led all minor leaguers with 33 homers at Pawtucket, could play his way into Boston's outfield in 1991 and his teammate Tim Naehring (.269 at Pawtucket) could be the opening-day shortstop.

Where the Red Sox may receive their biggest boost, however, is from a group of pitchers that spent much of 1990 at Double A New Britain. Some likely will make it to the big leagues in 1991 and some not until 1992, but Rich Gale, the pitching coach at New Britain, has no doubts that they will all eventually make it. "My main goal for the year was to keep from screwing them up," Gale said. "There were five or six legitimate pitching prospects on the team the best of whom were left-handers Kevin Morton and Dave Owen.

"Morton has an above-average curveball and a deceptive fastball," Gale said. "And his change is coming along very well. He had a stretch early in the season when he wasn't pitching well and probably for the first time in his life was experiencing failure. He had a tough time dealing with that. But we had a long, heart-to-heart talk and after that he rebounded and showed me something. I was more proud of him than anybody. He made a lot of progress when he was under a lot of pressure to do well."

Gale also is high on Owen, who was more of an unknown commodity until 1990, when he went a combined 10-11 for New Britain

THE CLASS OF 1991

and Pawtucket but earned rave reviews from a number of scouts.

"He's just got a good, live arm," Gale said. "He throws a heavy ball and especially can throw inside on right-handed hitters. He's a tough kid and a really gritty competitor. All he needs is a little more control with his offspeed pitches."

Left-hander Chris Hammond should replace Danny Jackson in the Cincinnati rotation. He went 15-1 with a 2.17 ERA at Nashville. Other pitchers who could have an effect on their clubs in 1991 are Texas's Scott Chiamparino, San Francisco's Rafael Novoa, Seattle's Mike Gardiner, and three pitchers from Baltimore: Mike Mussina, Anthony Telford, and Arthur Rhodes. The biggest impact, however, could be felt in Minnesota, where 20-year-old Rich Garces will get a chance to work as the Twins' closer, which could allow Rick Aguilera to move back into the starting rotation. Garces blew through the Twins' farm system in 1990, starting out in Class A Visalia in the California League before winding up with the Twins. He saved a a total of 36 games at Visalia and Double A Orlando.

Other position players who will challenge for starting jobs in 1991 are second baseman Mickey Morandini in Philadelphia, third basemen Dave Hansen in Los Angeles and Jeff Bagwell in Houston, outfielders Moises Alou in Montreal and Derrick May with the Chicago Cubs, and first baseman Jeff Conine in Kansas City.

THE CLASS OF 1992

With a prospect as good as Offerman ready for the majors, the Dodgers are justifiably excited about 1991. But they have even more reason to be optimistic about the future when they look farther down the road and see who else is coming along. Trailing Offerman to the major leagues by a year or so should be three other quality players: outfielders Henry Rodriguez and Tom Goodwin and first baseman Eric Karros. All three played and starred at Double A San Antonio in 1990, where the left-handed-hitting Rodriguez was named the Texas League MVP after hitting .291 with a league-leading 28 homers and 109 RBIs; the right-handed-hitting Karros won the batting title with a .352 mark, and Goodwin made the all-star team and led the league with 60 stolen basesdespite not joining the team until May

"Rodriguez and Karros both swing the bat so well," said Hurdle. "They are confident, intelligent hitters who can hit for average, power and hit the ball to the opposite field.

I'd like to have them on my team."

There are two pitchers from Hurdle's staff that most teams would like to have: righthanders Anthony Young and Terry Bross. Young was the best pitcher in the league last year when he went 15-3 with a 1.65 ERA. Bross, a 6-foot-9 ex-baskeball player from St. John's, saved 28 games for Jackson as he developed into an intimidating closer.

"Young is very determined and intense," Hurdle said. "He's the closest thing to Dave

Send Check or Money Order To:

Stewart that I've seen. When he gets on the mound, he gets in a serious focus and he stays right there. He's very unflappable."

Perhaps the most interesting prospect to watch on Hurdle's team is outfielder D.J. Dozier, who has also seen time as a running back for the Minnesota Vikings. Dozier spent much of last season at Port St. Lucie in the Class A Florida State League, but he went to Jackson at the end of the season and made an impression on Hurdle.

"He's got tremendous speed and power, and for someone who was away from the game as long as he was, his baseball skills were not that retarded," Hurdle said. "He picked things up quickly and plays hard."

Four pitchers who likely will repeat at the Triple A level in 1991 and should be ready for the majors in '92 are Houston's Darryl Kile and Randy Hennis, Oakland's Joe Slusarski, and San Diego's Rafael Valdez, a converted shortstop who throws 90-plus and just needs refinement.

"He's got the arm to pitch in the big leagues now, but he still doesn't have a real good idea of what he is doing," said Gary Lance, who was Valdez's pitching coach at Las Vegas last year. "If he gets where he should mentally, he will be a star someday. He has the physical ability.'

Another player to watch for in 1992 is Texas outfielder Kevin Belcher. Playing at Tulsa last season, Belcher hit .293 with 11 homers, 43 RBIs, and 29 stolen bases despite having a sore shoulder much of the year.

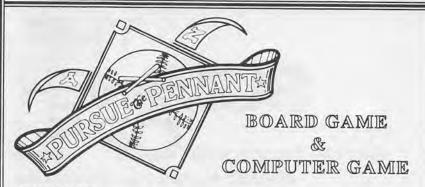

Cleveland fans have been waiting since the 1988 draft for shortstop Mark Lewis to arrive, and their wait should soon be over. Lewis's physical skills have finally caught up with his mental tools, and that should add up to an all-star package for years to come.

Three other players who spent the 1990 season at the Double A level and who figure to be ready to move into the spotlight of the major leagues by '92 are Yankees' outfielder Bernie Williams, Tigers' first baseman Rico Brogna, and Expos' catcher Greg Colbrunn. All are capable defensive players who have put up quality offensive numbers.

Among the players who spent 1990 in Class A, those who appear to have a shot at advancing to the majors in less than two years are Boston outfielder Greg Blosser, who led the Carolina League with 18 homers at the age of 19; Atlanta first baseman Ryan Klesko, who already has earned some comparisons to Dale Murphy; Cubs' third baseman Gary Scott, the Carolina League MVP; Cleveland first baseman Tim Costo, who should be a solid run-producer; and Cincinnati outfielder Reggie Sanders.

The pitchers likely to find themselves competing for a big-league job in 1992 are Detroit's Eric Stone, who is being groomed as a closer; the Dodgers' Jamie McAndrew, Minnesota's Willie Banks, the Cardinals' Mike Milchin, the Astros' Jeff Juden, the Expos' Brian Barnes, and the Yankees' Darrin Chapin, all of whom worked at the Double A level in 1990, and the Blue Jays'

Denis Boucher.

BECAUSE.....

TODAY'S GAME OF BASEBALL DESERVES TODAY'S BASEBALL GAME!!

"The only better baseball game than PURSUE THE PENNANT is played between the foul lines. This is a game that has everything except cold beer and hot dogs." --St. Louis Globe-Democrat

"...PURSUE THE PENNANT is the most lifelike, most intriguing, most enjoyable baseball game yet devised ... " -- The Milwaukee Journal

"If you want simplicity, play Strato. If you want REALISM play PURSUE THE PENNANT." -- Review, Fantasy Baseball

If it's found in baseball.....

It's found in Pursue the Pennant!!!

THE SUMMER Bobby Thomson's OF 5

playoff home run climaxed one of the most dramatic pennant races of all-time.

by JACK LANG

There are certain unforgettable moments in baseball history: Babe Ruth's called shot in the 1932 World Series, Johhny Vander Meer's double no-hitter in 1938, Don Larsen's perfect game in the 1956 World Series, the earthquake that shook the 1989 Series. And the "Shot Heard 'Round the World."

The mention of that phrase evokes memo-

ries of New York City's old Polo Grounds, where in the final playoff game of the 1951 season, Bobby Thomson hit a three-run homer off Brooklyn's Ralph Branca to win the pennant for the Giants. Red Smith described the moment in the New York Times:

"Now it is done. Now the story ends. And there is no way to tell it. The art of fiction is dead. Reality has strangled invention. Only the utterly impossible, the inexpressibly fan-

tastic can ever be plausible again."

Smith summed up not only the stunning ending to the decisive game that October 3 afternoon, but to the entire season. Thomson's home run brought the New York Giants back from a 4-2 deficit in the bottom of the ninth inning, climaxing the greatest comeback in one of the most dramatic pennant races ever.

Oh, yes, the 1914 Miracle Boston Braves ingly insurmountable 131/2-game lead.

Then it started. For the Giants, that is. On August 12, against the Philadelphia Phillies, New York began what was to be a 16-game winning streak and the start of a most memorable final six weeks. When they concluded their regular 154-game slate in Boston on September 30, the Giants had won 37 of their last 44 games. They had erased the 13-game deficit and actually caught the Dodgers two days earlier. In fact, the Dodgers, on the final day of the season in Philadelphia, had to go into extra innings to win and tie the Giants for first place in the National League.

It wasn't just the way the Giants rallied, but that they did it against their most hated rivals. One didn't have to know much baseball history to realize that every game between the intracity opponents was a war. Beanball battles, spikings, and obscene bench-jockeying were the rule rather than the exception when the two teams clashed.

In 1951, it was more intense than ever because of the rival managers. Leo Durocher, who had piloted the Dodgers to the 1941 pennant and was recognized as one of the brilliant field managers in the game, had defected in the middle of the '48 season to the Giants. And the Dodgers, after two and a half years under the stately old Burt Shotton, had switched to the effervescent and cocky Charlie Dressen to lead them in '51. Dressen had been a third-base coach under Durocher in Brooklyn, and upon his return to Ebbets Field was determined to show who was the smarter of the two. And so the tensions between the teams carried over to the two loquacious and swaggering managers, who were always trying to outsmart each other.

When the season began, it was the Giants who were favored to win. A strong second-half finish in 1950 had established them as the team to beat, despite the powerhouse Branch Rickey had assembled in Brooklyn. The Dodgers were not eliminated from the 1950 pennant race until the 10th inning of the final game of the season, after wasting a chance to the '51 season began, it was the Dodgers who clearly established themselves as the best team. After the Giants won two of their first three games, they went into a tailspin and lost their next 11. They ended the skid with an 8-4 victory over Brooklyn, but did not reach .500 until the end of May.

While the Giants struggled early on, the Dodgers prospered. On May 13, they took the league lead and at the end of the month were ahead of the St. Louis Cardinals by two games. The Giants were in fifth place, trailing by four and a half games.

Already regarded as one of the heaviesthitting teams ever, with a lineup that included Roy Campanella, Gil Hodges, Jackie Robinson, Pee Wee Reese, Duke Snider, and Carl Furillo, the Dodgers engineered a trade on June 15 that appeared to sew up the pennant for them. Brooklyn had an off day in Chicago, but general manager Buzzie Bavasi went to Wrigley Field to discuss a trade with Cubs' GM Wid Matthews, who had worked for Brooklyn for many years. When they reached agreement, the Dodgers wound up with perennial all-star outfielder Andy Pafko, veteran left-hander Johnny Schmitz, reserve catcher Rube Walker, and utility infielder Wayne Terwilliger. In exchange, Chicago got four players the Dodgers had no need of: pitcher Joe Hatten, catcher Bruce Edwards, infielder Eddie Miksis, and outfielder Gene Hermanski. Pafko was the big prize.

The Brooklyn press corps was relaxing in the lounge of the Hotel Knickerbocker in midafternoon when word of the deal was relayed to them. "This," said New York Post scribe Arch Murray, raising his glass high, "is a bigger holdup than the Brinks job." Indeed, most of baseball agreed with Murray. Fred Saigh, owner of the contending St. Louis Cardinals, filed a protest with the commissioner's office, demanding the trade be investigated.

Into their already potent lineup, the Dodgers inserted Pafko and his home-run power in the regular slot in left field. With all-stars at seven of the eight field postions and an impressive pitching staff that included Preacher Roe, Don Newcombe, Ralph Branca, and Carl Erskine in the starting rotation and Clyde King in the bullpen, the Dodgers began to roll. They were hotter than the weather by July. An eightgame winning streak that month started with a three-game sweep of the Giants and prompted the cocky Dressen to dismiss Durocher's team as a threat.

"We knocked the Giants out," Dressen boasted. "They'll never bother us again."

Dressen owned the bragging rights in New York when his team continued to overpower the opposition. Another 10-game winning streak and 17 victories in 20 games had the Dodgers on top of the National League pack on the morning of August 11.

And then it started. Blessed with a long home stand at the Polo Grounds, everything began to fall into place for the Giants. Durocher, with nothing to lose, made some dramatic revisions in his lineup. In mid-May the Giants had recalled Willie Mays from Minneapolis, and the rookie's sensational fielding left Bobby Thomson on the bench most of the time. So, in August, Durocher decided to play Thomson at third and move third baseman Hank Thompson to right, where he shared the job with Don Mueller. Dissatisfied with Monte Irvin's fielding at first base, Durocher switched him with left fielder Whitey Lockman.

With those changes, the Giants began to roar. Under the driving Durocher, they won 16 straight games, all but three at the Polo Grounds. When the streak ended, the Giants had cut eight games from the lead of the suddenly lethargic Dodgers. Three of the victories came over the Dodgers at the Polo Grounds on August 14, 15, and 16. In the middle game, with the Giants leading, 3-1, in the eighth inning and Billy Cox on third base for Brooklyn, Furillo lined a shot to deep right center. But from out of nowhere came Mays to snare the ball. Not only was it a marvelous catch, but when he did a 360-degree turn and fired a strike to the plate to nail Cox to complete a double play, the Dodgers were speechless. Except for the disbelieving Dressen, who groaned, "I want to see him do it again.

By September 1, the Dodgers regrouped somewhat and were still seven games in front continued

Sam Andre

when they visited the Polo Grounds again. It was the most memorable series in Don Mueller's 12-year career. Never considered a power hitter, Mueller was nicknamed "Mandrake the Magician" for the many seeing-eye singles he stroked through the infield. But in this series he slammed three home runs in the first game and two in the second, driving in five runs in each. For the season, Mandrake hit 16 homers with 69 RBIs. The Giants won both games to further pressure the Dodgers.

After the two teams split another two-game series in Brooklyn's Ebbets Field the following weekend, both began their final swings through the midwest. The Giants won six of their nine games but still trailed by five games on September 20. The Giants had six more losses than the Dodgers with only seven to play. Brooklyn had 10 games remaining.

By September 24, after the Dodgers lost two out of three to the Phillies and the Giants swept three from the Braves, the Brooklyn lead was down to two and a half games. September 25 was a dark, overcast day in Boston. It became even darker for the Dodgers when they dropped a double-header at Braves Field. Warren Spahn and Jim Wilson beat them while Jim Hearn was hurling the Giants to 5-1 victory over the Phillies. The Dodgers and the Giants won on September 26, but with the Giants off the next day, the Dodgers saw their lead shrink to a half game when they lost to the Braves again.

That was a memorable game for the Dodgers. They lost, 4-3, on a disputed call at home plate when umpire Frank Dascoli ruled that Bob Addis slid in under an obvious tag by Campanella. In the furious argument that ensued, Campanella and coach Cookie Lavagetto were ejected and the heckling Brooklyn bench was cleared. After the game, en route to their clubhouse, the Dodgers passed the umpires' dressing room and someone kicked his foot through the door. Robinson, who was yelling the loudest, was blamed. But actually it was Roe who did the kicking. It was later disclosed he suffered a broken toe which left him helpless in his next start. Roe had a 22-3 record until his final start.

The race went to the final weekend. The Dodgers had three games in Philadelphia starting Friday night. The Giants were off Friday with matinees scheduled for Saturday and Sunday in Boston. Erskine was staked to a 3-0 lead, but could not hold it, and when Andy Seminick homered in the ninth for a 4-3 Philadelphia victory, the Dodgers and Giants were tied with two games remaining. Both teams won Saturday, Sal Maglie blanking the Braves, 3-0, in the afternoon and Newcombe shutting out the Phillies, 5-0, at night.

The Giants applied the pressure on the Dodgers when Larry Jansen bested the Braves, 3-2, in an early, quick game in Boston. The Dodgers had handed the ball to Roe, but with his broken toe he was not going to get the necessary victory. He gave up six runs in the first three innings and the Dodgers were trailing, 8-5, in the fifth when the Giants' victory in Boston was posted on the scoreboard.

Brooklyn stayed alive with a rally that tied the game but then almost lost it in the 12th. Newcombe, who had pitched a complete game the night before, was on in relief in the 12th when the Phillies loaded the bases with two outs. Eddie Waitkus followed with a line drive up the middle that appeared to be the game-winning hit and elimination for the Dodgers until Jackie Robinson made a diving grab behind second base. In so doing, he banged his elbow against his solar plexus and was momentarily unconscious. Robinson recovered, however, insisted on staying in the game, and, in the 14th inning, homered off Robin Roberts to give the Dodgers a 9-8 victory and a tie for the pennant, forcing the nowfamous playoff series.

"Jackie always regarded that home run as one of his greatest thrills in baseball," Rachel Robinson, his wife, would say years later.

The Giants, who had been icing their celebration champagne on a New York Central train heading back from Boston, were temporarily delayed in popping the corks.

The playoff series for the pennant began on October 1. The Dodgers had won the coin toss and elected to open at home. But it didn't help. Pafko's second-inning home run off Hearn gave the Dodgers an early 1-0 lead. But Thomson hit a two-run blast off Branca in the fourth and Irvin delivered a solo homer in the eighth as Hearn and the Giante won 3.1.

er also homered in a 10-0 rout. Labine pitched the shutout.

That left the outcome of the exciting season down to one final game on the afternoon of October 3. The Dodgers took a 1-0 lead off Maglie in the first and a thoroughly fatigued Newcombe blanked the Giants until the seventh, when they tied the score on Thomson's sacrifice fly. But the Dodgers took a commanding 4-1 lead with three in the eighth off Maglie, and in the press box, baseball writers were informed they could pick up their press credentials that night for the World Series starting the next day at Ebbets Field. Newcombe, who told his teammates he was tired and had nothing left, was still on the mound at the start of the ninth. In the bullpen, Labine, Erskine, and Branca were warming up. Robinson, who often ragged Newcombe, insisted he keep going.

The last of the ninth opened with Alvin Dark ripping a hard grounder off the glove of Hodges, the Dodgers' first baseman, who was considered the finest fielder in the league at his position. What happened next was a bit of strategy Brooklyn fans still haven't figured out. Dark's run was meaningless, but for some reason, Hodges held him on. So when Mueller followed with a grounder through the right side, a ball that Hodges normally would have reached but instead trickled through for a base hit, Dark wound up on third. "Two cheap hits." Robinson cajoled Newcombe, who again complained he was tired.

Newcombe then retired Irvin on a pop to Hodges for the first out. Lockman sent Giants' fans into a tizzy when he doubled over the third baseman's head to score Dark. But on the play, Mueller slid into third and tore a tendon in his right ankle. While Mueller was being carried off the field on a stretcher and Clint Hartung went in to run for him, Dressen was out at the mound signaling to the bullpen. He had had a telephone conversation with bullpen coach Clyde Sukeforth before leaving the dugout and decided on Branca to get the final two outs of the season. Branca, who had surrendered eight home runs to the Giants during the season and two more in the first playoff game, threw his eight warmup pitches and then prepared to face Thomson.

Let us here pick up the now famous call of Giants' announcer Russ Hodges:

'Bobby Thomson up there swinging ... He's had two out of three, a single and a double, and Billy Cox is playing him right on the third-base line . . . One out, last of the ninth . . . Branca pitches and Bobby takes a strike on the inside corner . . . Bobby hitting at .292 . . . He's had a single and double and drove in the Giants' first run with a long fly to center . . . Brooklyn leads it, 4-2 . . . Hartung down the line at third, not taking any chances Lockman without too big a lead at second, but he'll be running with the wind if Thomson hits one . . . Branca throws . . . There's a . It's gonna be long drive THE GIANTS WIN THE PENNANT! THE GIANTS WIN THE PENNANT! THE GIANTS WIN THE PENNANT! BOBBY THOMSON HITS INTO THE LOWER DECK OF THE LEFT FIELD STANDS...THE GIANTS WIN THE PENNANT AND THEY'RE GOING CRAZY... YAAAHO-O-O!

In Brooklyn that night, there were several figures in ballplayers' uniforms hung in effigy.

All bore the No. 13 that Branca wore.

Manage Real Big League Baseball Players With The APBA PROFESSIONAL BASEBALL GAME

If you take baseball seriously, you undoubtedly find yourself second-guessing the manager of your favorite team fairly frequently. You may even believe you could do a better job than the man in the dugout. If so, HERE'S YOUR CHANCE TO PROVE IT!

MANAGE EVERY SINGLE BIG LEAGUE TEAM!

Yes, you can manage all 26 clubs with the APBA Professional Baseball Game. This is the original diceactivated personnel baseball board game, and it's been making managers out of fans for forty years.

REALISTIC CHALLENGES FOR APBA MANAGERS

To be a successful APBA manager, you'll need to know the strengths and weaknesses of your ballplayers, because you'll be making the same decisions a real big league skipper does. In the late innings with the score tied, do you pinch-run for a slow runner like Tim Wallach, knowing you'll lose his bat for the remainder of the game? At what point do you replace a dangerous hitter like Pedro Guerrero for a better defensive firstbaseman? Which situations call for your closer — Bobby Thigpen, for example — out of the bullpen?

You'll call for the hit-and-run, sacrifice bunts and in-

tentional walks when you see fit.

APBA managers face other problems as well. At times your players will suffer injuries, and you'll have to find somebody to fill in for a star like Jose Canseco or Eric Davis.

WITH APBA, IN FACT, YOU ARE MORE THAN JUST A MANAGER. YOU CAN MAKE TRADES. YOU CAN ESTABLISH YOUR OWN ALL-STAR TEAMS. YOU CAN EVEN CREATE YOUR OWN LEAGUE AND DRAFT PLAYERS FROM SCRATCH. NO MATTER WHAT YOU DO, YOUR PLAYERS WILL PERFORM JUST AS THEY DO IN REAL LIFE — IN HITTING, FIELDING AND PITCHING.

WE HAVE APBA BASEBALL IN SOFTWARE FORM, TOO

APBA Baseball is available in computer form, too! Get the full story on the software and its hardware requirements. Just check the second block on the coupon at right, or ask for computer baseball information when you call.

NATIONAL LEAGIJE

PREDICTIONS

EASTERN DIVISION 1. Chicago Cubs 2. Pittsburgh Pirates

- 3. Montreal Expos 4. New York Mets 5. Philadelphia Phillies 6. St. Louis Cardinals
- WESTERN DIVISION 1. San Francisco Giants 2. Cincinnati Reds 3. Los Angeles Dodgers
 - 4. San Diego Padres
 5. Houston Astros 6. Atlanta Braves

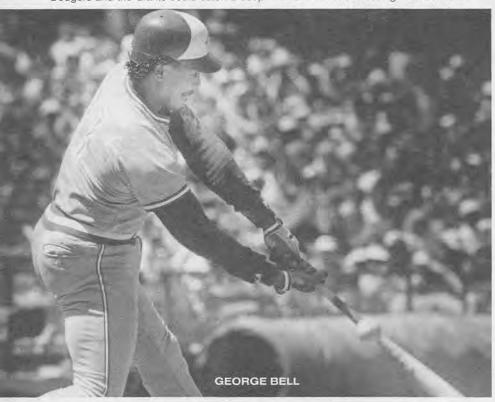

Of all the wondrous events of the 1990 baseball season, the Cincinnati Reds' sweep of the Oakland Athletics will still be reverberating long into the summer heat of 1991. Maybe Lou Piniella did it with mirrors. Maybe he did it with a lot of hustle, some oldfashioned hardball, and a talented group of Nasty Boys. Whatever the complicated reasons for the Reds rushing to victory as the best team in baseball-no matter what classy Dave Stewart said in his no-class sour grapes putdown of the champions-the Reds come into 1991 with those championship rings.

Somebody else should be wearing those diamonds next October because the Reds really aren't that good. After those secondplace finishes under Pete Rose and the fifthplace turmoil of 1989, the Reds snuck up on the league in 1990. They went crazy with a 9-0 start and a 30-11 mark by May 30 before the Dodgers and the Giants could catch a deep

by MAURY ALLEN

breath. Both the Giants and Dodgers did big business in the offseason to muscle up on the Reds this time before anybody jumps out too far. The Reds won by five games in 1990 and the guess is five games may well cover three Western Division contenders-the Giants. Dodgers, and Reds-in 1991.

Darryl Strawberry will be bleeding Dodger blue this year and should have a monster season as he approaches his physical and mental maturity at the age of 29. Tommy Lasorda was born to manage Strawberry. Lasorda can talk the ears off a corn and blow more smoke than the Santa Ana winds. He will outdo himself this season with hurrahs for the Straw man. Strawberry, a sensitive young fellow who never really got many strokes in New York from those suspicious folks, will answer his critics with an MVP season. Strawberry hit 37 homers, knocked in 108 runs, and batted .277. He sat out the last week of the season with a bad back, and if one believes the whispers of Mets' officials and the anger of Mets' apologists, Strawberry should have been carted off in chains for letting his team down.

WESTERN DIVISION

The Giants were swept in the 1989 Series by Oakland and slipped into third place last year, but they will make it back in 1991 after collecting a solid closer in Dave Righetti, a serious starter in Bud Black, and the National League batting champion, Willie McGee, in spirited offseason moves. Al Rosen was as hard-nosed a player as there was in his glorious career with the Cleveland Indians. He takes no prisoners as a GM. He led the Giants to the top in 1989 and will make it two of three this season if Bob Lurie's money holds out. Will (The Thrill) Clark and Kevin Mitchell are still the most imposing slugging twosome in the league. And Matt Williams, batting fifth in that lineup, led the N.L. with 122 RBIs. Look for McGee to score 125 runs in front of those three producers.

The Dodgers came up with another in their endless line of pitching beauties in Ramon Martinez (20-6), a Dominican fireballer more mature than his 23 years of age. The Dodgers quietly rebuilt their staff last year, added the useful Kevin Gross and Bob Ojeda over the winter, and have indications of springing allworld Orel Hershiser on an unsuspecting league this year. Hershiser missed all of 1990 with rotator surgery but has worked out long and hard, has his faith in check, and promises better things again in 1991.

Joe McIlvaine, after years of being promised control in New York, now has his own club in San Diego. He helped build the Mets' champions of 1986 and knows how to discover, develop, and mature talent. The Padres are caught in the bind between fading stars and youngsters not ready for prime time. Benito Santiago (.270, 11 HR, 53 RBI) could still be the best in the league within a year or two. But Roberto Alomar will be hard to replace and Joe Carter (.232, 24, 115) was unhappy and unappreciated in San Diego. Tony Fernandez adds zest to the Padres' infield and Fred McGriff, who hit 35 homers for Toronto, could improve that in the National League, where pitchers challenge stongboys with hard stuff. The Yankees loved that Toronto-San Diego deal: McGriff killed them.

Houston was hurt last year when the club lost Glenn Davis, one of the game's most consistent sluggers, and the promising Gerald Young refused to hit. Eric Yelding may prove to be the shortstop the Astros have hunted for since Dickie Thon suffered that brutal beaning. But Houston traded Davis to Baltimore in

January and lost N.L. ERA leader Danny Darwin to Boston and longtime relief ace Dave Smith to the Cubs via free agency.

David Justice (.282, 28, 78), the Rookie of the Year, gives the Braves somebody to build around now that Dale Murphy's time and talent have passed in Georgia. The Braves have some live young arms, a good deal of speed, new leadership in GM John Schuerholz, and skipper Bobby Cox starting fresh. The trail to the top is still a long way away for the Braves, though. Sid Bream (.270, 15, 57 at Pittsburgh) should hit a few more homers over Atlanta's short porches and Terry Pendleton will be a threat in the offense.

EASTERN DIVISION

The Cubs had the best all-round player in baseball, Ryne Sandberg (.306, 40, 100), in their lineup last year—if you simply agree that second base is a lot tougher to play than the

outfield. Barry Bonds was the league MVP but Sandberg had the kind of year Rogers Hornsby would have been proud of. Now Don Zimmer can deal with the talents and tortures of George Bell on an everyday basis. Bell could carry the Cubs back to the glories of 1984 if he wants to be that good. Zimmer has had some success with temperamental players and he has had some failures. Any man who could survive in Boston with Bill Lee as one of his prime pitchers shouldn't have much trouble nursing Bell through his National League debut. The Cubs added Danny Jackson to a pretty good staff, and he could be the difference between a competitive season in Chicago-possibly a winner-and another in the long list of Northside failures. The Cubs, of course, haven't seen World Series action since 1945. Even if Jackson reverts to his 20game-winning form, the Furies will probably keep the Cubs from more than playoff possibilities. Maybe the Cubs and Red Sox can play a World Series just for the fun of it.

The killer Bees, MVP Barry Bonds and Bobby Bonilla, will provide excitement again in Pittsburgh. Cy Young winner Doug Drabek, as gritty a competitor as the Pirates have seen in years, the return of left-hander Zane Smith, and the bullpen by committee, handled adroitly by Jim Leyland, the Manager of the Year, should keep the Bucs in serious division-race business most of the year.

Dennis Martinez (10-11, 2.95 ERA) and the promising Chris Nabholz (6-2, 2.83) make the Expos a contender. Buck Rodgers can maneuver a bullpen as well as anyone and Tim Wallach gives Montreal one of the game's most dependable and complete players.

The New York Mets of 1986 World Series championship aura are gone. Now the new New York Mets, speed emphasized, will be trying to retain the glory that was theirs with pitching and Vince Coleman. He stole 77 bases with a .292 average, covers acres of ground, and can intimidate pitchers once he is on. He is a singles hitter, so the Mets need more speed if he is to be the impetus they expect. Gregg Jefferies, Howard Johnson, and Keith Miller can all run. They will miss Darryl Strawberry's 37 dingers unless Kevin McReynolds, Hubie Brooks, and Hojo answer with powerful years. Dave Magadan is a batting-title threat and the pitching of Dwight Gooden, David Cone, and Frank Viola-all recent 20-game winners—and the relief pitching of John Franco make the Mets a serious team to watch. What seems to hurt the Mets the most and is least noticed in the large scheme of baseball things are their fielding faults. They simply don't play the game with defensive gusto. If the Mets are to survive the loss of Strawberry and take full advantage of the speed of Coleman, they will have to throw to the right base more often, stop runners from running them out of the park, close up those infield holes, and improve their catching.

Darren Daulton signed back with the Phillies for something over two million dollars a year after hitting his career high of .268 a year after he hit .201. It says a lot about the market-place and even a little about the Phillies. They aren't going anywhere again this year. Their pitching, both starters and relievers, is weak. They don't have much power (only St. Louis, 73, and Houston, 94, had fewer homers), than the Phillies (103). Lenny Dykstra gave them a new look, Dale Murphy gives them an old name, and Roger McDowell gives them a few hot foots. It all adds up to another long season for the City of Brotherly Love.

The St. Louis Cardinals, the National League's most successful team of the 1980s, started the 1990s off in last place. They did it the hard way. They earned it. Gussie Busch is gone, Whitey Herzog is gone, and Vince Coleman. Ken Dayley, and Terry Pendleton are gone for the new-look Cardinals. The look is ugly. The bottom-liners now running the club didn't want to spend enough money to keep Willie McGee, the league's batting champion despite a summer semester at Oakland, last year or the expensive Vince Coleman. Joe Torre will have a tough task in putting some fire and speed into this unit. Ozzie Smith is 36,

Pedro Guerrero is 34, and John Tudor won't pitch here anymore. St. Louis has to worry about Todd Worrell, the toughest loss of last season, and Todd Zeile, a kid catcher who found the National League a bigger adjustment than expected. He may be moved to third base or to the outfield if another catcher can pick up the burden. The Cards think that might help his hitting.

Those days of National League dogfights between the Cards and the Mets are over. Both those clubs will rattle around the bottom while the Cubs, Pirates, and Expos battle for the Eastern Division title. The Giants, Reds, and Dodgers will slug it out until the Giants catch fire in the late summer for the Western honors. The Giants are encouraged. They found out the A's are beatable.

EASTERN DIVISION

CHICAGO CUBS

The baseball gods smirked at the Cubs in 1984 with a division title and then a blown playoff. It hasn't been very easy since. This just may be the year the Cubs do all those wonderful things for the loyal folks, by day and night now, who sit through those chilly Chicago springs and falls, bare it all in the blistering summer, and heave enemy home runs back onto the sacred grass of Wrigley Field.

Nothing sticks in the outfield ivy as much as the frustration of good teams playing badly. The Cubs seem expert at that. There is a feeling that the 1991 team, not the best in personnel, will steal a wide-open division. The Cubs meant business in the offseason when they picked up George Bell, Danny Jackson, and Dave Smith to go along with Ryne Sandberg, Andre Dawson, Shawon Dunston, and Mitch Williams as talented performers who deserve the Series spotlight.

Bell is quite a gamble, a moody Latin, often surly, sometimes witty, always skillful at bat and in the field. The Cubs are reasoning that at the age of 31, Bell knows it is time to put up those big numbers or shut up. The Blue Jays never could make it into the Series because of him or despite him, as the jury might argue, and the Cubs feel they can. The Cubs batted .263 as a team last year and with the addition of Bell, a possible 40-homer hitter in Wrigley Field, they could get over the top in '91.

Jackson was only 6-6 with Cincinnati in 21 starts but has always been a pitcher of enormous potential and determination. Injuries slowed him down, but the Cubs got a clean bill on him and feel he will be a big winner for them in '91. Greg Maddux is clearly made of 20-game stuff. He should anchor this staff and improve on his disappointing 15-15 year last season. He is too good a pitcher to be merely at .500. Mike Harkey (12-6, 3.26), Mike Bielecki, Jeff Pico, and Jose Nunez give the Cubs great depth in their pitching rotation. There is also Rick Sutcliffe, the last pitching hero of the 1984 division winners. He was out most of last season and any contribution from the bearded redhead would be a bonus.

Mitch Williams was a terrible disappointment in the bullpen for Don Zimmer last year with a 1-8 mark and only 16 saves in 59 games. He still pitches as if his hair were on fire, a most apt description of the feisty left-handed reliever. If he comes back to 1989 form, watch out. Long-time Houston fireman

Dave Smith (6-6, 2.39, 23 saves) was signed as a free agent and rookie Heath Slocumb, a fine reliever at lowa, could be ready to help.

Zimmer got production out of young catchers Damon Berryhill and Joe Giradi but would still like more offense from behind the plate.

The infield of Mark Grace, Ryne Sandberg, Shawon Dunston, and Luis Salazar is about as good as it gets these days. Grace (.309, 9 HR, 82 RBI) is one of the most stylish hitters in the game with an equally Grace-ful glove around first base. He could easily be a batting champion with a few flares falling in. His only negative is a lack of home-run power. He might just be ready to improve on that at the age of 26, just about when most hitters learn to turn on the ball. Sandberg (.306, 40, 100) is fast compiling Hall of Fame numbers. Second basemen just don't hit 40 homers very often. Who does? If Cecil Fielder didn't have his 51 for the Tigers, it would have been Sandberg who got the winter home-run awards. Salazar (.254, 12, 47) has become a steady performer, a good example of Zimmer's patience with unspectacular players. He understands them because he was one of them. Rookie Jose Vizcaino is in reserve.

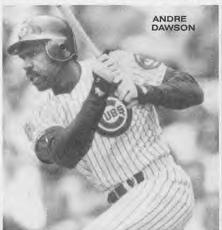

Dunston is a remarkable shortstop, sure of glove and strong of arm. What a pitcher he would have made. Grace catches his throws without a wince, but that big first baseman's glove does take a pounding. Dunston, the kid from Brooklyn who missed the Mets because they liked a pitcher named Gooden in the draft, learned a bit about hitting last year. He had 17 homers, 66 RBIs, and batted .262. He had 17 homers, 66 RBIs, and batted .262. He had of the struck out 87 times, about 30 times too many for a productive hitter. If he makes more contact, he certainly could become a .300 hitter before he turns 29. He is 28.

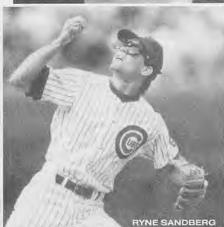

Bell, Andre Dawson, and Jerome Walton give the Cubs a very impressive outfield. Dawson made a strong comeback last year after knee troubles with a .310 season, 27 homers, and 100 RBIs. At 36, he can still run well, play good defense, and throw with anybody in the league. Dwight Smith (.262) slumped from his rookie year and Walton (.263) didn't have the zip he showed in 1989. Both could come back to give the Cubs impressive depth, especially if Dawson's aging knees act up at any time. Derrick May, just 22, had a good year at lowa (.296, 8, 69).

The Cubs were only 77-85 last season and finished 18 games behind the division-leading Bucs. They went out and did a lot about that by adding a solid starter in Jackson, a closer in Smith, and a game-breaker in Bell. If Zimmer could do what Toronto managers Bobby Cox and Cito Gaston hardly ever could—motivate Bell to realize those enormous talents—the Cubs could actually pick up those games.

This is a division that is there for the taking. A hot George Bell and the return to 20-victory form by Jackson and the Cubs could do it. Sandberg could even hit 39 homers and the Cubs might win.

PITTSBURGH PIRATES

The Pirates were supposed to be the team in the World Series last year for the National League. A combination of the Nasty Boys at their Cincinnati best and a putrid playoff by MVP Barry Bonds (.167) and Bobby Bonilla (.190) changed all that. It may encourage the rest of the league that Pittsburgh was simply an overachieving team in 1990.

Bonds's MVP numbers, .301, 33 homers, and 114 RBIs, all accumulated without the strikeout numbers papa Bobby Bonds used to record (Barry had 83), led this team to the division title. Bonds is also an exceptional outfielder who isn't afraid to challenge a runner with his arm, a sure sign of arrogance and confidence, necessary ingredients for stardom.

Running mate Bonilla, with awesome power, hit 32 homers, knocked in 120 runs, batted .280, scored 112 runs, and hardly ever failed to get a good swing. He has a bulky body and if he keeps from putting on too much weight, should challenge for the home-run lead for many years. Bonilla also made a comfortable adjustment to the outfield after a couple of struggling seasons at third base, a position he simply didn't have the reflexes for.

Andy Van Slyke, a smooth fielder and fine clutch hitter, also gives the Bucs a combination of wonderful defense with opportunistic hitting. Assorted nagging injuries allowed him to play only 136 games and kept his power totals down (17 HR, 77 RBI) where the superstars hardly ever fall. If he gets back over 100 runs batted in, the Bucs could repeat as titleholders. Rookie Steve Carter, .303 at Buffalo, is a big guy ready to make this club

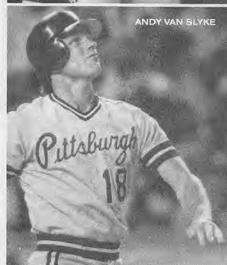

The Bucs have the Cy Young winner, Doug Drabek (22-6, 2.76 ERA) and Zane Smith (12-9, 2.55) as most dependable starters. Drabek, the hard-throwing right-hander, and Smith, the cutesy lefty, give manager Jim Leyland two gamers. After that, Leyland has to reach down for Neal Heaton, Bob Walk, and John Smiley for the depth of his starting staff. Each is capable of a big game but none seems to be the steady 15-game winner necessary to make it easily through the long race.

The Pirates went awfully far last year-a first-place finish (95-67)-in a strange way. They didn't have that eye-catching closer. What they did have were a lot of guys who could give Leyland the key out, left-handed or right-handed, when he needed it. Bill Landrum (13 saves) and Stan Belinda (eight) were the best of the lot, with Bob Kipper, Bob Patterson, and Rick Reed contributing to Leyland's system of shake-well and hope the correct reliever pops out of the genie jar.

Don Slaught, obtained from the Yankees, hit a surprising .300 and Mike LaValliere made a sparkling play to steal a game from Cincinnati in the playoffs. LaValliere has become a fine receiver and a solid contact hitter. He is, however, in the running for the honor of the game's slowest tank. The Pirates have decent team speed, so he doesn't jam things up on the bases. His arm, game-calling, and intensity make him a leader in the Bucs' overall scheme. Dann Bilardello and Tom Prince compete for the third spot.

At .265-and with Wally Backman out of the picture—Jeff King figures to get more playing time at third base and hit more home runs. He has quickly become one of the most dangerous bats in the Pittsburgh offense. He had 14 homers in 127 games with 53 RBIs. If Leyland

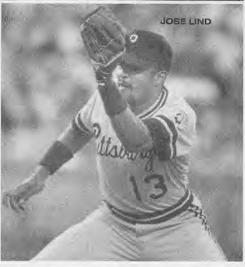

Jay Bell has become the anchor shortstop in the Pittsburgh picture and is a surprisingly tough out. He has good power (7 HR and 52 RBI) for his lean, lanky build. He can make all the plays and has a very strong arm. Acrobatic second baseman Jose Lind, one of the most entertaining players in the game, covers more ground than a frightened rabbit. He can fly with Air Jordan and never understands when he is too off-balance for a good throw. It may be because he never is off-balance. He batted .261 and has the knack of hitting the toughest pitches of the toughest pitchers.

The Pirates lost Sid Bream (.270, 15, 67), to the Braves in free-agency maneuverings and may go with youngsters Scott Little and Orlando Merced at first base. Little is a right-handed hitter and Merced switches. Leyland could use both until one emerges from the competitive battle as capable of handling the job fulltime. There is some talk that the Pirates might move one of their excess outfielders (Carmelo Martinez, Lloyd McClendon, or Gary Redus) into first base or give Van Slyke, who has played some there, the big glove if the youngsters fail to take charge. But Leyland has al-

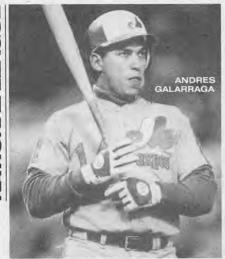

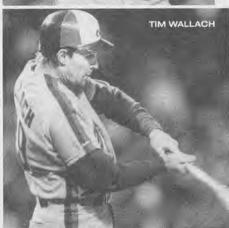

ways made good use of his bench strength and could move several players in and out of the lineup throughout the year.

What makes the 1990 division champions more vulnerable is the lack of bullpen strength and the guess that Drabak had his career year last season. The Pittsburgh club was good enough to win last year but never good enough to dominate. The suspicion is that Manager of the Year Jim Leyland and his staff had as much to do with the victory as Drabek and the Killer Bees. Those kind of tricky championships rarely repeat.

MONTREAL EXPOS

The Expos have tried it every which way. In the earliest days of free agency, they threw money at lots of players and finished a disappointing third or fourth. In recent seasons, they have stayed away from the big-money free agents and finished a disappointing third or fourth. Now skipper Buck Rodgers has a team that finished third last year (85-77) but just might be ready to make a run with homegrown young talent, especially on the mound.

Dennis Martinez and Oil Can Boyd won 10 games apiece last season. Each could add five victories if the Expos, first in the National League in pitching (3.37 ERA) but next to last in batting (.250), give them a little more support. That could give them the division title. Brian Barnes and Chris Nabholz were impressive performers in the late-season rush last year. They were competitive with quality starts, the newest statistical baseball wizardry number, in almost all of their outings. A surprise from among Howard Farmer or Mark Gardner could give Rodgers more than enough pitching depth to sustain fan interest in Montreal through the start of hockey camp.

Tim Burke had 20 saves and a 3-3 mark in 58 games to give Rodgers the needed closer. Barry Jones (11-4, 2.31 in long relief) was obtained with outfielder Ivan Calderon from the White Sox in a trade for Tim Raines. Steve Frey moved up smartly in 1990 with an 8-2 mark, nine saves, and a 2.10 ERA. He is a smallish left-hander, but his poise and confidence were assets for the Expos. Rodgers became comfortable with Frey in late games by mid-

season. Right-hander Bill Sampen (12-7, 2.99) was also impressive.

The catching was disappointing again, as it has been ever since the Expos let Kid Carter move on to New York. Mike Fitzgerald hit .243 after coming back from knee surgery and Nelson Santovenia broke Rodgers' heart with a wimpy .190 in 59 games. Let's face it. The guy didn't hit his weight. He missed by 15 points.

The Expos' infield and outfield have enough talent to put them in the running again. Maybe this year the Expos won't fade in the August heat, as has been their habit the last several seasons. Tim Wallach is a wind-up player. You wind him up and he hits .296, 21 homers,

and 98 RBIs. He also plays third base with aggressive confidence, challenging bunters and bangers with equal aplomb.

Spike Owen (.234) provided some big hits and did a decent job defensively. Montreal would like to see more offense out of the short-stop position, but who wouldn't. Maybe Howard Johnson of the Mets can hit 40 homers, but who else can playing that position? Where have you gone, Ernie Banks? Second baseman Delino DeShields batted .289 with 42 stolen bases and was the runner-up to Atlanta's Dave Justice for Rookie of the Year. Junior Noboa hit .266 with nary a homer in 1990, but the Expos like his glove enough not to worry about that. He has good range, a strong arm, and turns the double play as well as anybody at second.

The player the Expos are most confused about is the big guy at first base: Andres Galarraga. He is a step short of greatness. He

simply strikes out too much (169 times in 579 at-bats). Joe DiMaggio hardly struck out that much in 13 seasons (369). DiMaggio swung hard, too. Galarraga hit 256 with 20 homers and 87 runs batted in, hardly impressive enough numbers to excuse all those strikeouts. It is a problem the Expos, collectively, and Galarraga, individually, have not really dealt with in arranging this team.

Raines hit .287 with 49 stolen bases and is still a wonderful physical specimen at the age of 31. He can still break up a game with his bat or his feet, but the Expos sent him to Chicago, where he'll compete with Oakland's Rickey Henderson for the premier leadoff batter in the American League. Calderon, with more power (.273, 14, 74), takes over his spot in left field.

Mike Aldrete, Dave Martinez, and Moises Alou, scion of that distinguished baseball family, give the Expos good power, speed, and defense in their outfield. Martinez, at 26, may

be ready to put some impressive numbers up on the board. He hit 11 homers with 39 RBIs in a .279 season. Steady play could make him an integral part of the struggling offense. Marguis Grissom (.257, 3, 29, 22 steals) and Larry Walker (.241, 19, 51, 21) each earned a vote in the Rookie of the Year balloting. Rookie Terrell Hansen hit 24 homers at Jacksonville. The Expos hope his time has come in Montreal. Otis Nixon and Rolando Roomes may not be the best players on the Expos but they have the most interesting names, one the same as a president and the other the same as every player in baseball. When ballplayers can't remember a player's name, they call him "Rooms," as in somebody's roommate.

The Expos are probably not going to spend enough money this year in acquiring high-salaried players to put them up over the top. The management situation was in flux, and when that happens budgets tend to tighten. The baseball business is an awful lot like the business of business. Rodgers has never quite had the talent in Montreal that most of the other clubs in the division have had through his tenure in Canada. Somehow he seems to manage with a patch job here and a juggled pitching staff there. The Expos, again, aren't good enough to win but they should certainly be good enough to compete and repeat their third-place finish of a year ago.

By the time they fall out of the N.L. East race, anyway, the Canadiens will already be skating on melting ice.

NEW YORK METS

The Mets traded 37 homers for 77 stolen bases. Well, it didn't actually work that way, but the end of Darryl Strawberry's New York career and the beginning of Vince Coleman's in the Big Apple puts that kind of spin on those free-agent moves.

Mets' fans and Mets' officials were divided on Strawberry almost from the first day he was signed as a gangly kid out of Crenshaw High in Los Angeles with the tag no one could live up to: "the black Ted Williams." Strawberry hit 252 homers in eight seasons in New York. He takes that talent to Los Angeles while the boo birds of Shea turn their attention to Kevin McReynolds, Gregg Jefferies, or maybe the new man in town, Vincent (Van Go) Coleman.

"We are changing the team's image and the approach to the game," GM Frank Cashen advised the public after failing to sign Strawberry and grabbing Coleman.

The Mets won in 1986 on power and pitching. They won the division again in 1988 on a little less power and about the same pitching. Most of that impressive pitching is still there. most of the power left with Strawberry, and now comes a team depending on the ground single, the stolen base, the grounder to second, and the fly ball. What will be a major problem for the Mets after a Coleman hit is getting that ground single and that fly ball. The Mets do not do the fundamental things well. They are not a team that hits behind the runner, hits the clutch fly ball, or bunts very well. Coleman will be sitting on second and third a good part of the year.

The pitching, of course, makes them a threat. Dwight Gooden is 26, coming off a 19-7 year and making free-agent noises for 1992. The loss of his buddy Strawberry may be one of those immeasurable factors until long after the season is history. Frank Viola (20-12, 2.67

beach in the 21st century. Cashen made this deal with the Dodgers, bragged about the steal he got in the left-hander, and now won't admit the guy can't win big in New York.

John Franco, the kid from Brooklyn, had 33 saves and a 5-3 mark in his first season at Shea. He will anchor this bullpen as long as his arm stays strong. It was not strong in September when the Mets let their pennant chances slip away. Alejandro Pena got a big contract after a small season (3-3, 3.20), so he will get more work in '91. Julio Valera and Wally Whitehurst could fight their way into the picture, especially with old hands Ron Darling questionable and Bob Ojeda joining Strawberry in La-La land.

The Mets' catching is not of pennant caliber. Mackey Sasser hit .307 in 100 games but is not a dependable receiver or thrower. Charlie O'Brien can throw and catch. He just can't hit (.162). Todd Hundley is a kid of enviable

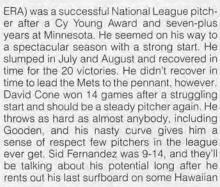

VINCE COLEMAN

68) relearning his favorite position again, and Herr (.261, 5, 60) trying to inject spunk in a flat-footed infield at age 35. Magadan, the cousin of Lou Piniella, has his family strokessmooth and accurate and hits where they ain't. He batted .328 last year but is only average at first, can't run, and doesn't hit enough home runs for a first baseman. Tim Teufel is useful when he gets a shot and Keith Miller could add some spark when he gets playing time. Free-agent pickup Terry Puhl (.293 in 37 games at Houston) adds bench strength.

Now for the no-Strawberry fields. Coleman will play left field, make some sensational catches and lose a few balls in the sun and a few in the lights. McReynolds (.269, 24, 82), counted on to pick up the Strawberry power slack, should be successful in center fieldhis position with the Padres-if the boo birds don't jump on him when he doesn't hit the massive shots made famous by the former right fielder. In right field, in his second term in New York, is Hubie Brooks (.266, 20, 91), acguired from the Dodgers for Ojeda, He'll help replace some of the lost punch and play the position about as well-or badly-as Straw-

defensive talents, but he has never hit anywhere. No Kid Carter among the bunch.

The Mets' infield will do a turnaround this season. Howard Johnson is the shortstop and Kevin Elster isn't. Gregg Jefferies will probably be at third, Tom Herr will be at second. and Dave Magadan will be at first base. Hojo played a brilliant shortstop after Elster went down last season with shoulder woes. He hit .244 with 23 homers and 90 RBIs, a wonderful total for an old-fashioned shortstop. This time he is a third baseman at short and he is down from his 30-30 numbers of 1987.

The defense could suffer with Johnson playing short every day, Jefferies (.283, 15,

berry did. Darryl Boston (.273, 12, 45) was a pleasant surprise and Mark Carreon was injured and rehabbed from alcohol in one long season, Rookie Darren Reed (.265, 17, 74 at Tidewater) could also sneak into the picture.

Manager Bud Harrelson will be starting fresh this time with a team turned away from Davey Johnson's theory about three-run homers and power pitching. If the pitching is overwhelming, if Coleman hits .300 and steals 100, if McReynolds is right, and Johnson plays short like Ozzie Smith and hits like he did at third, the Mets could win.

It all seems too much to ask for even the true believers at Shea.

PHILADELPHIA PHILLIES

It is almost impossible to remember that the Phillies were one of the class teams of the early 1980s, a World Series winner in 1980, and a league champion in 1983. Few organizations have slipped as far in half a dozen years as the Phillies have. They were lucky the Cards slipped even faster last season.

Philadelphia climbed out of the bottom with a 77-85 fifth-place finish. That's about the best they can expect this time around in another long line of rebuilding years. A humdrum pitching staff, a shaky bullpen, not much hitting, little speed, and a woeful lack of power indicate that the Phillies won't do much better in the early '90s than they did in the late '80s.

The Phillies will be hard pressed to find a starter for Opening Day. It's not that manager Nick Leyva will be afraid to hurt some other pitcher's feelings. It is that no pitcher in the Phillies' starting staff is worthy of that honor. Jose DeJesus has promise, but Ken Howell, Bruce Ruffin, Pat Combs, and Terry Mulholand do not inspire the kind of first-game drama offered up by Doug Drabek in Pittsburgh, Dennis Martinez in Montreal, Greg Maddux in Chicago, or Dwight Gooden in New York.

Roger McDowell had 22 saves but a rousing 3.86 ERA, very high for a finisher, and lost eight of 14 decisions. That sinker that used to intimidate batters when he pitched out of the bullpen in New York seems to have gone south. Joe Boever and Charles McElroy could give McDowell some support. The pitching is paper-thin and if McDowell doesn't return to his form of 1986, another angry summer at the Vet is in store for Philly fans.

Darren Daulton, a journeyman at best, got that \$2 million per-year contract. He will be rich but unhappy this year. Daulton will become the focus of the angry fans for being paid so well for doing so little. Either the Phillies' management is wacko or the talent really has thinned that much. Rookie Darrin Fletcher, a power hitter (13 homers and 65 RBI at Albuquerque) is a threat to put the millionaire catcher on the bench.

The infield of Ricky Jordan, Randy Ready, Dickie Thon, and Charlie Hayes does not remind anyone of Tinker to Evers to Chance to Steinfeldt. Jordan hit .241 with five homers and 44 RBIs, numbers that would set a manager's stomach churning. Ready is a role player who will probably wind up at second

base and isn't about to start Hall of Fame voters' hearts afluttering at the age of 31.

Thon, on the other side, was once as good a baseball player as any Phillies' shortstop in this era. The Astros had dreams of stardom for this sure-handed fielder and powerful hitter. An inside fastball thrown by Mike Torrez in 1984 hit Thon in the temple. His life was in danger. His career was irreparably damaged. He fought back bravely enough to salvage his livelihood but he never fulfilled the dreams of the Houston club, later the Philadelphia club, or, more importantly, himself. Thon's beaning is one reason baseball players are supposedly so overpaid. It can all end in an instant. With Thon, it almost did. Thon hit 255 last year in his steadiest season since the beaning.

Charlie Hayes has become the Phillies' third baseman by default. An inconsistent hitter (.258, 10, 57) with an uncertain glove, he is not the successor for life to one Michael Jack Schmidt, who played that position with such distinction for so many years.

The other Hayes, Von, the right fielder, is about the best the Phillies have. He hit .261, slugged 17 homers, knocked in 73 runs, and will never be the player the Phillies thought they bought in 1982 for five players. John Kruk (.291, 7, 67) seems strong enough to hit several dozen baseballs out of the park. He can impress when the fastball is in his zone and he can depress when the slider is out of the strike zone. Dale Murphy was obtained from Atlanta last summer. He finished the season with 24

with a .325 mark, as Willie McGee coasted in by sitting on the Oakland bench, but he gave Philadelphia fans a run for their money. He played 149 games and never once did he bring a clean uniform back to the clubhouse. Pete Rose may no longer be the role model for hustle and aggressiveness in baseball with his troubles. Dykstra is a good substitute because he plays with the flair and enthusiasm so common a generation ago. Now, if he would only stop spitting on national television.

homers and 83 runs batted in, but the two-

The most exciting thing about the Phillies'

season in 1990 was the brave chase by Len

Dykstra for the National League batting title. In

the true image of Richie Ashburn, a former

Phillies' great now ensconced in their broadcast booth, Dykstra maximized his talents for

a wonderful summer run. He wound up fourth,

time league MVP is now 35 years old.

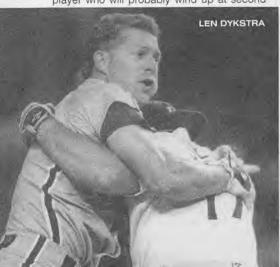

The Phillies have miles to go before they can catch up with the upper reaches of the division. Dykstra is only 28, so there is time for him to show off in another Series, as he did with the Mets in 1986. The Phillies are only half a dozen players away from a World Series triumph again: Schmidt, McGraw, Carlton, Bowa, Maddox, Luzinski, etc.

ST. LOUIS CARDINALS

There he was, sitting in the sunshine in Anaheim, letting others have all the worries, watching the games and imparting his expertise from a television booth, taking handsome money for little work and less aggravation. Joe Torre was a broadcaster for the California Angels when Whitey Herzog decided to give up on this St. Louis club as they had given up on him. For no fathomable reasons, Torre, the former skipper at New York and Atlanta, decided to return to manage one of his favorite teams (as a player) and help restore the Cards to their former greatness.

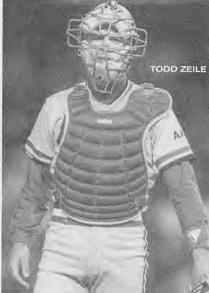

It may take a lot more years and a lot more patience than even someone who went through the leanest of years in New York and Atlanta could expect. The Cards were horrible last year in a last-place 70-92 season, only 25 games behind the division-winning Pittburgh Pirates. It will only get worse in '91.

Vince Coleman ran off to the Mets, Terry Pendleton signed with the Braves, Ken Dayley went to the Blue Jays, and batting champion Willie McGee, who was shuffled off to Oakland last August, is back in the league with San Francisco. The pitching staff still seems straight out of General Hospital, the skill players are slipping fast to the ravages of time, and the farm system hasn't offered much in half a dozen years. Long-time owner Gussie Busch died last year, Herzog left, and the proud franchise with one of the most exciting histories in the game is in serious decline.

Torre will be facing another season without the intimidating pitching of Todd Worrell, one of the most respected relievers in the game, and any solid starters. Worrell was working hard over the winter to come back from shoulder surgery, but reports were not encouraging. Some estimates had him off the mound until August, at least, after he missed all of 1990. Joe Magrane (10-17, 3.59 ERA), Jose DeLeon (7-19, 4.43), Bryn Smith (9-8, 4.27), and Bob Tewksbury (10-9, 3.47) figure as some sort of a rotation for the Cards.

Huge Lee Smith had 27 saves for the Cardinals and a 2.10 ERA in 53 games. He had 70 strikeouts in 68 innings, but seemed to be behind in the count so often he was never an inspiring figure on the mound. At 33, the juice may be flowing out of that large right arm. If Smith loses anything more off his fastball, the Cards may close up shop by June 1. Torre will get some use out of Juan Agosto, Ricky Horton, Scott Terry, Ken Hill, and Frank DiPino. Cris Carpenter won 10 games and Mike Perez saved 31 at Louisville.

Todd Zeile was being talked about a couple of years ago as the next Johnny Bench. He is

only 25, but there are enough doubts about his catching ability to cause serious concerns about the St. Louis receiving situation. Zeile could be moved to third base or the outfield. He showed some power (.244, 15 HR, 57 RBI) but never proved to be the take-charge player Herzog envisioned. The other catchers are Tom Pagnozzi (.277, 2, 23) and rookie Ray Stephens (.221 at Louisville).

Pedro Guerrero will be 35 in June, has been through some brutal injuries, and might just be fading fast. He hit .281 with only 13 homers and 80 RBIs, not the standard this brute was accustomed to compiling as a Dodger. Free agent Gerald Perry from the Royals will back him up. Rex Hudler and Tim Jones will back up Jose Oquendo at second base and youngster Craig Wilson (.279 at Louisville with no power) will get a chance to succeed the departed Pendleton at third base.

Ozzie Smith, the Wizard of Oz, was 36 last December. All good things must come to an end. Smith, the standard by which all shortstops in baseball were measured in the 1980s and maybe forever after, has lost that pre-

cious first step. He is still a good one, still hits respectably (.254), and remains a class act. It just doesn't look like he will be somersaulting at shortstop on the Busch Stadium turf at another World Series opener.

With Coleman and McGee gone, Milt Thompson (.218) is about the only experienced outfielder the Cards have left. Bernard Gilkey, a lithe 24-year-old who did some impressive things (.297) in a late-season preview, and Ray Lankford, a .286 hitter last year, will get the first chances for everyday play in the St. Louis outfield. Felix Jose, from Oakland, and rookie Lonnie Maclin (.330 at three minor-league stops), in the traditional speedboy image of the Cardinals, could work their way into the lineup by midsummer.

Torre said that he understood the Cardinals were in a rebuilding mold when he took over the team last summer. No manager gives up the blue waters of the Pacific and balmy nights without open eyes. What he probably didn't expect was that the Cardinals' purse strings would tighten up, the top players would walk, and the kids wouldn't be ready to handle big-league action for several years. Torre always appears to be unshaven five minutes after he puts down the razor. This year he should grow a beard and hide out.

If not, the fans will start blaming this sorry St. Louis situation on him.

WESTERN DIVISION

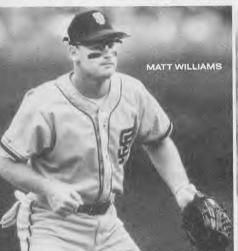

SAN FRANCISCO GIANTS

The Cincinnati Reds caught lightning in a bottle from the git-go last year with a 9-0 start. It shocked the defending champion Giants no end. They played catch-up ball all season.

This is the year they catch up. San Francisco did some impressive business in the freeagent market, signing Dave Righetti, a true closer, Willie McGee, a table-setter par excellence, and Bud Black, a quality pitcher who collects innings along with victories.

Roger Craig, the father of the split-fingered fastball, saw his pitching deteriorate to 10th in the league last season with a cruel combination of illness, injuries, and ineffectiveness. Scott Garrelts, the ERA leader two years back, was 12-11 and Rick Reuschel, a 17-game winner at 40, will be trying to improve at 42.

John Burkett (14-7, 3.79 as a rookie), Don Robinson, the crafty lefty Black (13-11, 3.57). Mike LaCoss, Kelly Downs, and Eric Gunderson give the Giants enough pitching depth, especially if local boy Righetti answers the challenges of the cross-country switch from the Yankees. The left-hander really didn't want to leave New York, but George Steinbrenner couldn't get involved and the new Yankee bosses simply didn't think Rags was worth that much money for that long a commitment.

"When I found out he was available, we jumped right in after him," said GM Al Rosen.

"Closers like Righetti are not available very often." He'll join right-hander Jeff Brantley (5-3, 1.56, 19 saves) in the pen and replace the unsteady Steve Bedrosian, who moved on to the Twins. He had all of 17 saves last year. Rookie Kevin Rogers, 14-5 at San Jose, and his teammate Jim Myers (25 saves) could also figure in the pitching assignments.

The Giants' catching, with Terry Kennedy and Kirt Manwaring, was less than thrilling, but this is an era when good catchers can't be found. It may explain the continuity of the careers of Carlton Fisk and Bob Boone. Yet the Giants have a top prospect in Steve Decker (.293, 15 HR, 80 RBI at Shreveport), who will be given a chance to win the No. 1 job.

The Giants have a couple of big boppers in their infield with RBI leader (122 with 33 HR) Matt Williams and Will Clark, still a potential superstar at the age of 27. Clark hit .295, had 19 homers, and knocked in 95 runs and the San Francisco media and the fans wouldn't let up on him. Clark talks a good game as well as plays one, and that type always has trouble when he has a down year. Williams at 25 (his hair looks 55) seems on the threshold of amassing overwhelming numbers. He has brute strength, learned a little patience last year at the plate, and plays a better than average third base.

The Giants have good defense in the middle of their infield. Righetti should appreciate that after years of pitching in front of tangled Yankee defenses. Robby Thompson (.245) is a steady performer at second base and short-stop Jose Uribe, who had some serious legal and domestic problems over the winter, can often be spectacular. Dave Anderson hit a whopping .350 in a part-time role and should get more playing time in the new season, just to see if he could do that again.

The outfield could be very impressive if it can stay healthy. Kevin Bass played only 61 games after coming over from Houston last spring. A proven quality player, he can add much punch to the Giants' attack if he remains free of injury.

Kevin Mitchell answered all doubters by repeating his fine 1989 season with another sterling performance last year. He hit .290, slugged 35 homers, and knocked in 93. It was only because Matt Williams was knocking in 122 that naysayers were jumping on Mitchell.

The Giants went after Willie McGee in a rush after he decided to leave Oakland. The National League batting leader (.335 in 125 games) is 32 years old. He may be on the down side, but lean players of McGee's type often show less strain in mid-career than the bulky boys do. The guess here is that McGee will be everything Rosen expected when he gave the former Cardinal lots of team owner

Bob Lurie's money. "We have no doubts that he will have another fine season with us back in the National League," Rosen said.

Mark Leonard batted .333 at Phoenix with 19 HRs and 82 RBIs, and Mike Kingery (.295) and Rick Parker (.243) give the Giants some outfield maneuverability, especially if McGee needs a day off here and there after carrying all that money around from place to place in the last few seasons.

The Giants were the National League champions in 1989 and stepped into quicksand last year. They seem to have strengthened the weakest parts of the team—the relief pitching and the bench strength—in astute offseason moves. Craig will have a new cast of pitchers to work with in spring training, so he may leave his proven products alone. Not everyone can master that split-fingered pitch.

The Giants seem a good candidate to win back that title, especially if Righetti, free of the tortures and tensions of New York, has a big year out of the bullpen.

CINCINNATI REDS

The world champion Reds won every game they had to in 1990, never slipped further back to the pack after a 9-0 start than three and a half games, and could win again in 1991. They probably won't because few defending champions do in the National League.

There was a great deal of salary grumbling, arguments over playing time, and unhappiness with the way skipper Lou Piniella handled some of his players last year. Most of it was covered up in the garlands of roses thrown at the Reds for bringing Cincinnati its first glorious season since the Big Red Machine. Anything less than that start might open up some old wounds and cause the Reds to self-destruct before the heat of summer.

The Nasty Boys (Randy Myers, Rob Dibble, and Norm Charlton) collected 44 saves, with Myers being Piniella's short stopper most of the time with 31 saves. That, and a salary well below what he thinks he deserves, made Dibble a very angry young man. He swallowed his tongue during the playoffs and Series but popped off angrily about the Reds, about owner Marge Schott, about Piniella, about Schottzie, and about the entire town and team after the season was history. If it carries over to this year, it could cause serious problems. The Reds need all those fireballers at maximum efficiency coming out of their bullpen.

The Reds' starters were made stronger by the relief corps. Tom Browning, World Series MVP Jose Rijo, and Jack Armstrong give Piniella three dependable starters. Free-agent left-hander Danny Jackson has moved on to the Cubs, but Piniella is confident he can replace him with Scott Scudder, Ted Power, Tim Birtsas, or rookie Chris Hammond (15-1 at Nashville). Browning was 15-9 with a 3.80 mark last year, became a father for the third time, and signed a wealthy contract after the season. He is one of the game's craftiest lefthanders. Rijo, who beat Dave Stewart twice in the Series, arrived as a class pitcher last year with a 14-8 mark and a 2.70 ERA. Juan Marichal's son-in-law also has the arrogance to be a quality starter for many years. He is beginning to pitch almost as good a game as he talks. Armstrong (12-9, 3.42) was an early anchor for the team's quick start, faltered in midseason, and was skipped at the end of the year's rotation. If he can work out his mechanics, he gives the Reds a third solid starter.

Joe Oliver (.231, 8 HR, 52 RBI) proved what a gamer he was last season, especially in getting a winning Series hit against the A's. He needs some defensive improvement but at 25 he should be a worthy successor to the legendary Johnny Bench as Cincinnati's catching hero. Jeff Reed, a left-handed hitter, gives Piniella some maneuverability.

The Reds don't seem to have too many serious holes in their infield or outfield. Hal Morris won the everyday first baseman's job from Todd Benzinger; Bill Doran and Mariano Duncan will handle second. Barry Larkin is the league's premier shortstop now that Ozzie Smith has slipped just enough, and Chris Sabo, whose glasses give him the look of an aging World War II fighter pilot, protects third.

Morris won the job with a fast finish, His Triple A batting title and a .340 mark in 107 games in Cincinnati rewarded Piniella for his Yankee connection with Morris and his patience. Doran hit .300 for Houston and the Reds, is a smooth fielder, and will anchor the position with some help from Duncan. Larkin, an MVP candidate, hit .301, covered enormous ground, showed tremendous poise in

the toughest games, and has become, at 26, the heart of the team. Sabo is no Pete Rose, but he plays with the same intensity, vigor, determination, and caring. His uniform gets as dirty and Sabo seems shocked when any pitcher gets him out. He hit .270, slammed 25 homers, knocked in 71 runs, and had the bruises on his chest to prove how well he guarded the hot corner. Luis Quinones and Billy Bates, who made a postseason running mistake that almost caused Piniella to bite his head off, will be valuable reserves.

Eric Davis (.260, 24, 86) is considered by some the best player in baseball. On certain days he is. Most of last year he wasn't. Davis got off to a woeful start and had to finish with a roar to make it back to respectability. He had a fine playoff and Series but suffered a damaging injury attempting a catch in the last game against Oakland. Davis bruised his kidney and could be a little shaky for a while early in the season. He was also angered by what he saw as a lack of interest in his condition by GM Bob Quinn and owner Marge Schott. That kind of bitterness could make the moody slugger much less a force than he should be.

Paul O'Neill (.270, 16, 78) was platooned with Glenn Braggs (.299, 6, 28) in right and Billy Hatcher, who saved the Reds in center field when Davis went down early, became a solid left fielder and an outstanding example of how far hustle can carry a mediocre player. Chris Jones, a .261 hitter at Nashville, is a promising rookie with enough minor-league experience at the age of 25 to make the ball club.

The Reds, minus Jackson, have about the same team as last year's champions. They just won't do the same things. It rarely happens. If the Reds don't win the first nine, the fans and press will wonder why. After that it becomes a head game. That's where Cincinnati could self-destruct.

LOS ANGELES DODGERS

Love him or hate him, no one will ignore him. If Los Angeles fans thought Kirk Gibson was a colorful character who built his Dodger career on the basis of one World Series homer off Dennis Eckersley, they should catch Darryl Strawberry's act. He may hit a few balls into the Pacific and he may loaf on a few fly balls down the line. He will say outrageous things and he will sulk on occasion. Most importantly, unlike his situation on the Mets, everyone in the Dodgers' organization will be helping him, rooting for him, and applauding him. Manager Tommy Lasorda has clearly been in the forefront of the Strawberry supporters. He knows a guy who has hit 37 homers with 108 RBIs in a scene not conducive to encouragement could hit 57 in L.A. The guess here is that Strawberry will have a boomer year, the Dodgers will be thrilled to have him, and Los Angeles fans will become this generation's imitation of Pittsburgh fans following Ralph Kiner 40 years ago. They will all stay seated until Strawberry's last at-bat.

Free agent Brett Butler (.309, 108 runs, 51 steals) and Kal Daniels (.296, 27 HR, 94 RBI) give the Dodgers one of their strongest outfields in years with the Straw man. Butler and Daniels were fifth and sixth, respectively, in the league in on-base percentage, and Daniels is a home-run threat of distinction, allowing some of the pressures to be removed from

Strawberry's wide shoulders.

Eddie Murray is 35, hit .330, had 26 homers and 95 RBIs, and should be good for another quality season. One of baseball's angriest men, Murray can still intimidate pitchers and press from both sides of the plate. He will also be helped by Strawberry in the lineup.

The rest of the infield isn't much with Alfredo Griffin (.210), Mike Sharperson (.297), Jeff Hamilton, Greg Smith; Juan Samuel, and Lenny Harris (.304) being moved and maneuvered by Lasorda in a vain attempt at tightening up the weak defense and adding some hitting to a poor lower lineup. Waiting in the wings are former Albuquerque teammates, third baseman Dave Hansen (.316,11,92) and shortstop Jose Offerman (.326 and 60 SB).

Mike Scioscia is about as smart a catcher as there is in the game and still a dangerous hitter with a home-run stroke upon occasion. He hit .264 in 135 games with 12 homers and 66 RBIs. Lasorda relies on his judgment in most tough situations. The overly insecure, sensitive Barry Lyons, who couldn't cut it in Tidewater after the Mets sent him down last year, is being given another big-league chance by the Dodgers at the age of 30. He could just recover from that exile well enough to offer Scioscia proper rest.

Orel Hershiser was the best pitcher in baseball in 1988, the unluckiest in 1989 (15-15 with a sparkling 2.31 ERA), and the most damaged in 1990. He sat out with rotator-cuff surgery, from which few return. But few are as determined, spiritually strong, and dedicated as Hershiser is to getting back in the good graces of supportive L.A. fans. No one can predict how pitchers can tolerate surgery or pain. It is a burden each faces in his own way.

The blessing of Hershiser's fall was the discovery of Ramon Martinez. He won 20 games for the Dodgers against six losses, had an ERA of 2.92, struck out 223 in 235 innings, and is just 23 years old. He should be able to anchor this staff if Hershiser can't do it again.

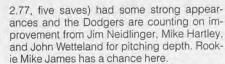

Fernando Valenzuela (13-13, 4.59) was retained and Tim Belcher (9-9, 4.00 ERA) and Mike Morgan (11-15, 3.75) are the kind of pitchers you want for your fourth or fifth starters. When they have to be moved up to second or third, it simply means the staff isn't very good. Lasorda will probably try Kevin Gross (9-12, 4.57 at Montreal) and Bob Ojeda (7-6, 3.66 at New York) as new starters, other pitchers who help you in the back end of a rotation but disappoint you if they are up front.

Jay Howell had 16 saves in 45 games and is 35 years old. The Dodgers have to look elsewhere for their instant closer. Tim Crews (4-5,

MIKE SCIOSCIA

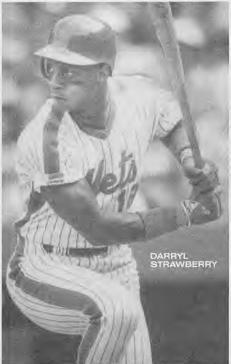

So much of the Los Angeles success in 1991 depends on Lasorda being able to improve his pitching (Hershiser could solve all that with a 1988 season) and increase his defensive efficiency. Too many ground balls squeeze through the Dodger infield, too many fly balls aren't caught, and too many runners advance on Dodger outfielders who often seemed to be aiming at the concessionaire instead of the cutoff man on their heaves.

Strawberry, of course, will be the player most watched as he returns to play in his hometown, where his real dream was once to star for the Lakers. He will probably have that monster year the Dodgers are praying for, but it won't mean much. Strawberry will put on a good show, but the defensive mistakes and short staff will keep Los Angeles from the top.

Strawberry knows this game is just like basketball: Defense wins.

SAN DIEGO PADRES

Ever since the Mets claimed the 1986 World Series, the heir apparent to Frank Cashen's crown as GM of the New Yorkers has been Joe McIlvaine. A former divinity student, minor-league outfielder, and astute judge of baseball flesh on the hoof, McIlvaine waited patiently for the opportunity to run a team of his own. He had to go 3,000 miles away from home to do it.

One of the brightest people in the game, McIlvaine has the unenviable job of rebuilding the fifth-place Padres (75-87) into a contender. Showing the laid-back southern California fans that he meant business, McIlvaine pulled off one of the biggest winter trades in recent history when he acquired slugger Fred McGriff (.300, 35 HR, 88 RBI) as his first baseman and slick fielding Tony Fernandez (.276) as his shortstop in a blockbuster deal for Roberto Alomar and Joe Carter. McGriff is 27 and Fernandez is 28, both young enough to be significant players for the Padres over the next half dozen seasons.

Now, if San Diego can only find some pitching, it might start moving up. Ed Whitson (14-9, 2.60 ERA) is the ace of this staff. That tells you all you want to know about the chances of the Padres to push aside the Reds, Giants, or Dodgers. Bruce Hurst (11-9, 3.14) is on the down side at the age of 33. Whitson is 35. The former Boston lefty and the former Yankee right-hander aren't strong enough to carry this staff. Andy Benes (10-11, 3.60) and rookie Ricardo Bones (6-4, 3.48 at Double A Wichita) might fill out the rotation.

Greg Harris, 8-8 with nine saves in 73 games, and Atlee Hammaker, picked up from the Giants, will help out in the bullpen behind free agent Larry Andersen (1.80 ERA at Houston/Boston) and stopper Craig Lefferts, who was 7-5 with 23 saves in 56 games.

McGriff will add some pop in the infield, but he is the only serious batting threat. Joey Cora, Marty Barrett, or Paul Fairies, a rookie who hit .311 at Las Vegas, will inherit Alomar's second-base spot. Fernandez will take over for Garry Templeton at shortstop, with the veteran moving over to third or to the bench. Bip Roberts (.309) will win the third-base job by default if Templeton isn't there.

Manager Greg Riddoch won't have to put up with the complaints of moody Jack Clark, who signed with Boston as a free agent, but will probably miss the run-producing threat Clark always presented. Phil Stephenson hit .209 with very little power.

Tony Gwynn (.309) didn't win the batting title for a change, but that could change again. He has shown some signs of unhappiness over the lack of appreciation of his skills, not a good sign. Shawn Abner, the kid the Mets once envisioned as their next star, is still only 24 and may yet learn how to hit bigleague pitching after an unimpressive start last season. He wound up with a .245 mark and only a single homer. He will have to have a big spring to hold his spot. Jerald Clark, no relation to the departed Jack, showed some power (5 HR in 53 games) and could sneak into the outfield picture. Two rookies, Thomas Howard, a switch hitter, and Mike Humphries, who hit 17 homers at Wichita, could be ready to make their move on a San Diego job.

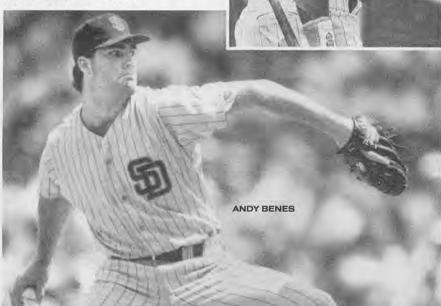

Benito Santiago is finding the road to the Hall of Fame a lot rougher than expected. It was impossible for him to live up to the hype that was heaped on this kid's head a couple of years back. He has a lot to learn about catch-

ing, even though his throwing arm is awesome and still brings respect from every runner in the game. Cut down by assorted injuries, he played only 100 games, batted .270, hit 11 homers, and had 53 RBIs. The Padres think that rookie Tom Lampkin can handle the backup job now with Mark Parent sent to Texas for third baseman Scott Coolbaugh, who throws his average glove and weak stick (.200, 2 HR, 13 RBI) into the crowded San Diego third-base fray.

McIlvaine proved as the No. 2 man in New York that he liked to move bodies around when the need was there. He quickly asserted himself in the flashy deal for McGriff and Fernandez and is probably just starting to hit the trade market. If the Padres can come up with another starting pitcher and a real third baseman from among their assorted candidates, this could be the surprise team of the division.

McIlvaine wears a 1986 World Series ring. That's something he could just wave at the newest of the Padres for inspiration.

STREET AND SMITH'S BASEBALL

HOUSTON ASTROS

This is starting to get serious. The Chicago Cubs have not been in a World Series since 1945. The Houston Astros have never been in one. We're closing in on 30 seasons now. Houston has a way of running its five-year plans into eight or ten. The Astros did have a division title and a fine team in 1986, but Nolan Ryan failed them in a big playoff game, the Mets rallied, and the Houston agony goes on and on like the Texas winds.

If the Giants, Reds, and Dodgers don't all collapse separately or individually this summer, the best the Astros can hope for in 1991 is another fourth-place finish. If the Astros do that again after a fourth-place 75-87 mark last year, they gain permanent possession of the

fourth-place plaque.

Cy Young Award winner Mike Scott won 20 games in 1989 and was 9-13 last year. That's dangerous business for a 35-year-old pitcher. Scott didn't have that bite in his slider and had gone back so far nobody even accused him of doctoring the baseball with sandpaper. Danny Darwin, Jim Deshaies, and Mark Portugal—does everybody in Lisbon root for the Astros?—gave manager Art Howe a presentable, if undistinguished, starting rotation. Darwin won the National League ERA title (2.21) and was 11-4 with 17 starts in 48 games. He earned the right to a full season in the rotation, but he signed with Boston as a free agent.

Dave Smith (6-6, 2.39, 23 saves) is still a formidable relief pitcher, but at the age of 36 doesn't have that high hard one he used so effectively against the Mets in the 1986 playoff. But he, too, left town to join the Cubs. Brian Meyer saved 15 games for Triple A Tucson.

If we are to look back on the real reason the Astros have never made it to the World Series and hardly ever get close, the explanation could well be their ballpark. The Astrodome is a wonderful place for a circus or a concert. It just isn't a baseball park. The deep fences, air conditioned environment, strange sounds,

GERALD

and funny dirt make this a difficult place to play. It's a wonderfully comfortable place to sit in as a fan. It may severely damage a team.

The Astros hit only 94 homers last year with a .242 batting average. They can't be expected to do much better this year. Glenn Davis was their one serious power threat. He had 22 homers and 64 runs batted in with a .251 average in only 93 games. If he had been able to play free of injury, he might have had a truly remarkable season. But his big bat was traded to Baltimore for pitchers Pete Harnisch (11-

11, 4.34) and Curt Schilling (2.54) and out-fielder Steve Finley (.256 and 22 steals).

Casey Candaele (.286, 3 HR, 22 RBI) was a markedly improved player at second base last year. With Bill Doran moved on to Cincinnati, the Astros will give him a full shot at daily action. Rafael Ramirez (.261) and Ken Caminiti (.242) are adequate defensively on the tricky Houston turf. Neither player has much power, which is a common thread that seems to run through all the players who put on that silly orange and blue Houston uniform that glows in the dark. Rookies Andujar Cedeno (.240, 19, 64) and Andy Mota, a line-drive hiter with power (.286, 11, 62), at Columbus and David Rohde (.353) and Mike Simms (.273, 13, 72) at Tucson could help.

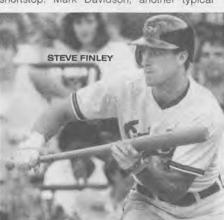

The Astros had disappointing seasons from two young players they had counted on to give them speed, some offense, and lots of spark in their lineup. Eric Anthony hit only .192 with 10 homers and 29 RBIs. He tried too hard too often for the long ball and pitchers began curving him into the dirt. If he doesn't stay off bad pitches, he may find his career in jeopardy. Gerald Young could manage only a .175 average in 57 games. Even a tolerant man like Howe had to admit that this youngster was not doing the job. He stole six bases after stealing 34 in 1989. Eric Yelding (.254 with 64 stolen bases) could become the regular fixture in center field, but the Astros plan to keep him at shortstop. Mark Davidson, another typical

Houston outfielder without power, was able to impress with a .292 mark in 57 games.

The catching is in the capable hands of Craig Biggio, who is a fast learner, has a strong arm, and is active around the plate. He also has improved immeasurably as a hitter with a 19-point jump in his average (.276) over the previous season. Unlike most catchers, Biggio is a fine all-round athlete and has taken his turn in the outfield with satisfactory results. If rookies Terry McGriff or Carl Nichols can come on, the Astros may use Biggio more often in the outfield.

There doesn't seem much hope for any dramatic improvement in the Houston picture over the next couple of seasons. The Astros probably had their chance for a Series shot in 1986. When that one got away, it set the organization back emotionally. You have to win when several of your players have career years and Nolan Ryan is on your side.

The Astros may not have a big summer for the 30th. At least their well-dressed home fans will stay cool.

ATLANTA BRAVES

If the Atlanta Braves are ever to escape last place in the National League West, this should be the year. All those young players the Braves have been bragging about the last three or four seasons now have a year or two of big-league meal money, should know the Braves' secret handshake, and can throw hard, especially the pitchers.

John Śmoltz is only 23 years old, was 14-11 with a 3.85 ERA last year, and has impressed every club he has faced. This could be the kid to build a contending staff around. Manager Bobby Cox said this team would start winning when the young pitchers in the organization were ready. They are supposed to be ready

by now. Tom Glavine is 24 and he was 10-12 last year with a good slider to go with his hard fastball. Veteran Charlie Leibrandt was 9-11 with a 3.16 ERA, and he is a much better pitcher than that. Steve Avery was rushed up at age 19 and proved he wasn't ready yet (3-11, 5.64). Rookies Matt Turner, Pat Gomez, and Steve (Turk) Wendell could break into the rotation for Cox with impressive spring performances. The former Toronto field boss and GM, starting his first full season as the Braves' manager, has always liked young pitchers and experienced, everyday players. Jeff Parrett and Kent Mercker will handle most of the bullpen work.

Greg Olson was one of the most wonderful baseball stories in years last season. He came from a long minor-league career to the top catching job on the Braves, almost by default. Olson is a young 30 because he hasn't been beaten up in the big leagues. He hit .262 in 100 games. He will get some help from Francisco Cabrera, who hit .277 in 77 games.

Atlanta will have two new starters on the infield corners. Free agents Sid Bream (.270, 15, 67 at Pittsburgh) at first base and Terry Pendleton (.230, 6, 58 with St. Louis) at third at least have postseason experience. The Braves are also hopeful Nick Esasky, who broke down in his first season in Atlanta and played just nine games, is fully recovered from shoulder surgery and vertigo. If he can start popping some balls over the short Atlanta Stadium walls, the Braves may be a lot more fun than anybody in Georgia expects.

Second baseman Jeff Treadway and shortstop Jeff Blauser, a player the Yankees once desperately wanted, give the Braves a promising combination up the middle. Treadway hit .283, Blauser hit .269, and both seemed to make the adjustment to daily play with remarkable ease. Andres Thomas, Rafael Belliard, and rookie Vinny Castilla are backups.

The Braves came up with a gem last year in outfielder David Justice, a 24-year-old from Cincinnati who hit .282, had 28 homers, and knocked in 78 runs to win the National League Rookie of the Year Award. He is 6-3, weighs 200 pounds, runs and throws well, and could be the next Dale Murphy: steady, strong, and without a championship to his name over a long career. Ron Gant was one of the best Atlanta pickups in years, a farm-system product who actually delivered the goods. He smacked 32 home runs, had 84 RBIs, and

batted .303 after coming of age last season with regular work. Lonnie Smith is 35 and seems to have found new juice in his old legs with inspired play. He has performed well (.305) in Atlanta, behaved nobly, and deserves all the credit he has gotten for a very strong comeback after straightening out his act. Geronimo Bervota, once a top Toronto prospect, hit .269 with 12 home runs and 80 RBIs for Richmond. Tommy Gregg, Oddibe McDowell, and rookie Keith Mitchell give the Braves more outfield depth than most pretenders have.

Bobby Cox has a long, tough job ahead of him. The Braves have been down so long the team is beginning to believe its own bad clippings. Cox's main job is to restore this team's confidence and pride and give the ability of his players, especially his young pitchers, a chance to take hold.

The Braves won't win anything in 1990, but they may start causing some other clubs to use their best players to beat them. That will be the surest sign of progress.

AMERICAN LEAGUE

PREDICTIONS

EASTERN DIVISION Toronto Blue Jays 2. Boston Red Sox

- 3. Baltimore Orioles 4. Milwaukee Brewers
- 5. Detroit Tigers 6. New York Yankees 7. Cleveland Indians

WESTERN DIVISION 1. Oakland Athletics 2. Kansas City Royals 3. Chicago White Sox 4. Texas Rangers

5. Seattle Mariners 6. California Angels 6. Minnesota Twins

The American League has things to prove-to the world and to itself. It may be able to win All-Star Games, but its Eastern Division is considered the weakest division in the major leagues and the three-time Western Division Oakland A's can't claim a dynasty until they win more than one championship in a row. They were swept in four straight games by the Cincinnati Reds in the World Series and still thought they had the better team. They didn't, and now they're older.

The Kansas City Royals seem in position to make the gargantuan leaps the Baltimore Orioles and Chicago White Sox made the last two years. New general manager Herk Robinson, ignoring the club's failure with free agents last season, gained free-agent, championshipproven veterans in Mike Boddicker, a 17game winner with Boston, and Kirk Gibson from the Los Angeles Dodgers, and is weeding out the older players in an attempt to regain prominence in the A.L. West. The Royals may not have enough, however, to overtake proud Oakland.

The Toronto Blue Jays, needing to win only a few more games in the East, made more moves than any league team. Among their gains were RBI man Joe Carter and infielder

by JOE GODDARD CHICAGO SUN-TIMES

Roberto Alomar from the San Diego Padres. Gone are veterans George Bell and Tony Fernandez and erratic slugger Fred McGriff.

There are individual goals to keep in mind. Rickey Henderson of the A's needs two stolen bases to tie Lou Brock's record of 938, Baltimore's Cal Ripken is more than halfway to Lou Gehrig's consecutive-game record, and California's Bert Blyleven is 21 victories shy of 300.

EASTERN DIVISION

The Blue Jays, frustrated with their Eastern Division bridesmaid roles, put on new makeup with a new attitude. Carter, Alomar, Devon

White, Pat Tabler, Willie Fraser, and Ken Dayley replace Bell, Fernandez, and McGriff, whose attitudes or slumps had worn thin. "I stuck with this group for a long time and it didn't win," general manager Pat Gillick said. "It's time to recharge our batteries."

Jack Clark is the Boston Red Sox' fourth major free-agent signee in two years. Like Tom Brunansky and Nick Esasky before him, Clark is seen as another right-handed-hitting savior in Fenway Park. The division champion Red Sox also added National League ERA champion Danny Darwin to replace 17-game winner Mike Boddicker, plus Matt Young, but they need year-round production from outfielder Mike Greenwell and reliever Jeff Reardon, a boost from rookie Mo Vaughn as Dwight Evans's replacement, and a steady head on the powerful but tendinitis-inclined shoulders of Roger Clemens.

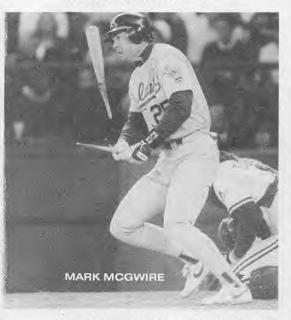

Baltimore thought it had a shot at the Eastern Division title after a dramatic 1989 climb. It didn't. The Orioles faded to fifth. They swung a big trade for Houston slugger Glenn Davis, who will take some offensive pressure off iron man shortstop Cal Ripken. But starters Jeff Ballard and Bob Milacki must recover from disastrous seasons and Randy Milligan from a separated shoulder.

The Milwaukee Brewers hope to keep their ambulance in the garage. They used it frequently last season to take away broken-down pitchers Teddy Higuera and Chris Bosio and, as usual, infielder Paul Molitor. Health for all could inspire 1989 A.L. MVP Robin Yount and closer Dan Plesac to come back from off years and free-agent acquisition Franklin Stubbs to make a new-league adjustment.

The Detroit Tigers will go as far as their pitching takes them, which means another third-place finish may be difficult even with home-run (51), RBI (132), and slugging (.592) champion Cecil Fielder. The staff's 4.39 ERA was the worst in the league and key personnel Jack Morris, Frank Tanana, Alan Trammell, and Lou Whitaker are in their mid-30s. Fielder and free agent Rob Deer will race each other for the strikeout lead.

The New York Yankees had no .300 hitter and no 100-RBI man last year in losing more than 90 games for the first time since 1917. Does that sound like the Yankees? This year, they'll be without suspended owner George Steinbrenner, their best reliever, Dave Righetti, and a steady starter. That doesn't sound like them, either. Thus, manager Stump Merrill will package kids around rehabbing first baseman Don Mattingly and 17-game winner Scott Sanderson from Oakland.

Outhomered, 163-110, and with Cory Snyder and Candy Maldonado gone, the Cleveland Indians pushed their fences back to concentrate on young pitching and the speed of Alex Cole. Manager John McNamara feels this is the fastest team he's ever had, but fast enough for Cleveland's first third-place finish since 1968? Probably not.

WESTERN DIVISION

Oakland manager Tony La Russa will try to milk one more division and league championship from Cy Young Award winner Bob Welch, Most Valuable Player Rickey Henderson,

Kansas City	75	86	.466	271/2
Minnesota	74	88	.457	29

Dave Stewart, Dennis Eckersley, Carney Lansford, and Dave Henderson before they all yield to age. The A's have National League veteran Eric Show to replace 17-game winner Sanderson, and new, veteran fill-ins with outfielder Willie Wilson from Kansas City and infielder Ernest Riles from San Francisco.

Kansas City has applied balm to its 1990 free-agent burnings with starter Boddicker and outfielder-designated hitter Gibson. "When you fall off, you have to get back on the horse," GM Robinson said. "We did not go into this with reckless abandon. We identified a few players we feel can benefit our club." They'll be identified at the top if starters Bret Saberhagen and Mark Gubicza are healthy again, Bo Jackson finally lives up to his potential, and league batting champion George Brett comes out swinging again at age 37.

The Chicago White Sox, who made a big step from sixth place to second, are asking young players Frank Thomas, Robin Ventura, Sammy Sosa, and Alex Fernandez to help them make the final step to the altar along with veteran starter Charlie Hough from Texas and sometime slugger Cory Snyder from Cleveland. Manager of the Year Jeff Torborg has all-stars in record-setting reliever Bobby Thigpen and shortstop Ozzie Guillen, but he cannot afford injuries to his starting pitchers.

The Texas Rangers feel ready to make their move despite few moves in personnel. Manager Bobby Valentine was given a two-year contract extension to see if he can parlay the 1-2 starting punch of Nolan Ryan, age 44, and Bobby Witt with the injury rehabilitation of closer Jeff Russell. The rest of the bullpen is weak, however, and most of last year's batters were underachievers.

The Seattle Mariners pushed back their Kingdome walls to prevent outsiders from outscoring them. They also re-signed Ken Griffey Sr. to provide leadership for an offense that includes his multitalented son but was 13th in the A.L. in scoring. The pitchers, who climbed to third in league ERA, must prevent breakdowns. Six of them had surgery last season and reliever Mike Schooler a sore arm.

California can move up from fourth place if starter Mark Langston rectifies his disappointing first season with the Angels; starter Bert Blyleven, first baseman Wally Joyner, and shortstop Dick Schofield return from injuries; and young players Luis Sojo at second base and outfielder Felix Jose from Toronto tighten a porous defense.

Closing games with either Rick Aguilera or new acquisition Steve Bedrosian isn't a problem for the Minnesota Twins. Opening them is. Completing their spiral to last place after their 1986 world championship, the Twins were unable to compete in the free-agent market, signing no one and losing former All-Star third baseman Gary Gaetti. Remaining veterans Kirby Puckett and Kent Hrbek hope kid pitchers Scott Erickson, Willie Banks, and Rich Garces develop in a hurry.

EASTERN DIVISION

TORONTO BLUE JAYS

The Toronto Blue Jays were under reconstruction over the winter, but they'll be open for business in the spring with fresh faces, a new exterior, and, they hope, a better attitude. Frustrated at again being a division runnerup, the Blue Javs stripped their walls to the plumbing and wiring by trading Tony Fernandez and Fred McGriff, their former Gold Glove shortstop and power-hitting first baseman, respectively, and letting club home-run and RBI record holder George Bell leave via free agency. Coming in are a mix of offensive players, defenders, and pitchers. Someone for everything, "Maybe we'll have everyone come in early and wear name tags," general manager Pat Gillick said.

Joe Carter is already known. He returns from a year in the National League with San Diego to take Bell's left-field spot; Devon White brings a Gold Glove from California to give center field long-needed stability; Roberto Alomar from the Padres stabilizes second base; Pat Tabler from the Mets will do some designated hitting, and Willie Fraser from the Angels and free-agent Ken Dayley from St. Louis should help the pitching.

The addition of Carter and Alomar from San Diego for Fernandez and McGriff allows the Jays to place people where they belong. Manny Lee, unhappy at second base, moves

DAVE STIEB

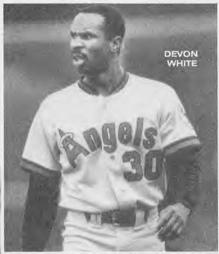

to shortstop, where Fernandez won four straight Gold Gloves, and John Olerud, who had been a designated hitter at age 22, takes over first base from McGriff.

Exciting as the trades were in Canada, the Blue Jays still need a leadoff hitter. Their .328 on-base percentage was ninth in the league last year. However, they led both leagues in runs (767) and home runs (167). Those numbers are expected to fall off from the losses of McGriff and Bell, but Carter was surprisingly effective for a .232 hitter in San Diego. He was third in the league in RBIs (115) for a fourth-place team and hit 24 homers. And Alomar (.287, 6, 60) is capable of 100 runs. He was 24-for-31 in stolen bases.

Manager Cito Gaston's pitching suffered a loss when Bud Black left for San Francisco as a free agent, but Dave "No Hit" Stieb and Jimmy Key are back as arguably the league's best right-left starting combination. Stieb's 18 victories set a club record, and he made his season even more respectable with only six losses and a 2.93 ERA. Key was a 13-7 complement, but a 4.25 ERA was his highest in

five years. David Wells's emergence from the bullpen gives the Javs another lefty. He won 10 games as a starter en route to 11-6, 3.14. He went six or more innings in 20 of 25 starts and allowed just over 11 runners per nine innings. Todd Stottlemyre came of age last season, too, with 13-17, 4.34. Another lefty is ready again in Al Leiter, who pitched well in winter ball after he missed parts of 1989 and '90 with an injury. The Jays also are considering Fraser for their rotation, even though he hasn't started in a few years. Fraser was 5-4. 3.08 with the Angels. The team would prefer to give lefty prospect Denis Boucher a year in Triple A. They'll also look at Ricky Rhodes, drafted from the Yankees' system.

Tom Henke remains a top closer off 2-4, 2.17, and 32 saves, and now he has additional setup help in long-time Cardinals' left-hander Dayley (4-4, 3.56, 2). Dayley joins Duane Ward, whose 2-8 record was disappointing

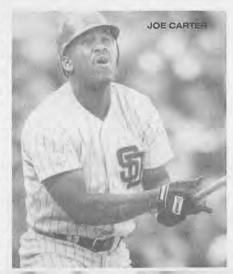

(3.45 ERA, 11 saves), Jim Acker (4-4, 3.83), Frank Wills (6-4, 4.73), Alex Sanchez, and possibly Bob McDonald.

The outfield defense is greatly improved with White, but his offense is a puzzle. He has gone down since his 1987 rookie year of 24 homers and 87 RBIs. Last season, he was .217, 11, 44 with a trip to the minors. He'll be flanked by Carter in left and a possible platoon of Mookie Wilson (.265, 3, 51), Glenallen Hill (.231, 12, 32), or Mark Whitten (.290 at Syracuse) in right. Rob Ducey and Derek Bell hope to break in off .267 and .261 at Syracuse, respectively.

The new double-play combination is Lee (.243, 6, 31) and Alomar, a projected Gold

Glover. Give them time and they should be a good fit. If Lee, who has let it be known he prefers shortstop, can't handle it, then prized prospect Eddie Zosky gets the call. The corners should be fine with Olerud (.265, 14, 48), who's still developing, and Kelly Gruber (.274, 31, 118), the league's premier third baseman. The trades of Nelson Liriano to Minnesota and Luis Sojo to California weaken the bench, but Rance Mulliniks (.289, 2, 16) was re-signed to help Tabler with DHing.

Pat Borders is just about ready for full-time catching after .286, 15, 57. He was 41 percent successful in throwing out would-be base-stealers. The Blue Jays have used nine catchers since Buck Martinez was hurt in 1985. Greg Myers (.236, 5, 22) is recovering from an injury that occurred when Detroit's Lou Whitaker bowled him over.

BOSTON RED SOX

The Boston Red Sox know about winning some and losing some. They won enough games to capture the division last year, then quickly lost to Oakland in the playoffs. They lost 17-game winner Mike Boddicker to free agency, then gained free-agent replacements in National League ERA champion Danny Darwin and workhorse left-hander Matt Young. They let the popular Dwight Evans go free, then took in free agent Jack Clark. And so it goes in Boston, where Roger Clemens gets thrown out of the team's biggest game a month after some players tried to have manager Joe Morgan thrown off the team.

Clark was like a Christmas present to Morgan. He fills a right-handed-hitting void at Fenway Park, where the close left field wall invites sluggers to give it a try. Ellis Burks led the Red Sox in home runs (21) and RBIs (89). When Clark wasn't hurt or complaining in San Diego, he was drawing walks (104 in 115 games). Boston wants him for homers. He has 307 lifetime. "We got a guy who's going to whack 25 or 30," Morgan said. "He can DH, play some first and in the outfield." Clark is happy just to be away from the Padres, for whom he hit .262 with 25 home runs and 62 RBIs. "I've always liked Boston," he said. "I like the team. It's a good fit for me. It's a good place to hit all around, not just the Green Monster. There's not a lot of foul territory.

The air was filled with foul language when Clemens went berserk in the final game of the playoffs and was ejected as Oakland completed a four-game sweep. Clemens remained unhappy when good friend Evans wasn't invited back after 19 years and pitching partner Boddicker took an intentional walk to Kansas City. But he supposedly liked the acquisitions of Clark, Darwin, and Young, and whatever Clemens likes is good enough for

the Red Sox.

Clemens, of course, anchors the pitching staff. He won practically every big game during the pennant drive, even when his shoulder throbbed with tendinitis. His 1.93 ERA led the league, his 21-6 record was third, and his 209 strikeouts were fourth. Darwin, another second-look free agent, jumps into Boddicker's No. 2 spot off 11-4 and the 2.21 earned-run average with Houston. He didn't become a starter until July 1, so he had to last six innings in his last start to qualify for the ERA title. Darwin held right-handed hitters to .164, which makes him perfect for Fenway. Young brings 225 innings from Seattle, but also an 8-18 record (3.51 ERA) and 51-78 for his career. The Red Sox throw a changeup of pace with their fourth starter, getting away from power pitchers to the finesse tosses of lefty Tom Bolton (10-5, 3.38), who was 2-7 before last year. Greg Harris (13-9, 4.00), who threw a onehitter but had knee cartilage removed in December, is the fifth man.

Jeff Reardon, fourth in career saves with 287, was a late-season hero in coming back from a ruptured back disc. He saved the titleclinching game to finish 5-3, 3.16, with 21 saves. Dana Kiecker (8-9, 3.97), who held right-handed hitters to .183 and spelled relief by going into the rotation, returns to the bullpen with Dennis Lamp (3-5, 4.68), Jeff Gray (2-4, 4.44), Joe Hesketh (1-6 with three teams), and Rob Murphy (0-6, 6.32), who was hurt by walks and home runs. Being given chances are Kevin Morton, Dave Owen, Josias Manzanillo, Daryl Irvine, Eric Hetzel, and Jeff Plympton. John Dopson won't return until midseason after elbow reconstruction.

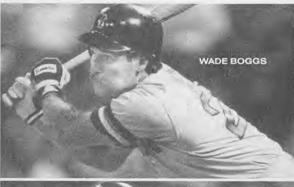

Tony Pena, the fiery ex-National Leaguer who inspired his teammates by calling them "a bunch of quitters" in September, takes a .263 average, seven home runs, and 56 RBIs

behind the plate. Backup John Marzano (.243) is solid defensively.

There's a logiam of candidates for first base. Mo Vaughn will be given every opportunity after .295 and 22 homers at Triple A Pawtucket, but Carlos Quintana (.287, 7, 67), Mike Marshall (.286), and Clark are available. Wade Boggs, who played with a chipped bone in his foot, is at the other corner. He had the lowest average (.302, 6, 63) of his career. failing by 13 hits to tie Wee Willie Keeler with eight straight 200-hit seasons. Marty Barrett was released at second base to allow Jody Reed (.289, 5, 51) full-time duty. Tim Naehring (15 homers at Pawtucket, .271 in Boston), should provide power now that he had a shoe lift to alleviate a back problem from one leg being shorter than the other. Luis Rivera (.225, 7, 45) returns to a utility role.

The outfield is among baseball's finest with Gold Glove and Silver Bat Burks (.296) flanked in center by Mike Greenwell (.297, 14, 73) in left and Tom Brunansky (.267, 15, 71), who had a shoulder problem, in right. Greenwell must avoid slumps. Randy Kutcher (.230) and Kevin Romine (.272) are in reserve. Phil Plantier may need another AAA season.

TONY PENA

BALTIMORE ORIOLES

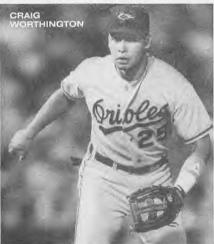

The Baltimore Orioles did a reverse two-step last season, going backward two strides for every one forward. It was a slide from the previous season, when they wrote headlines by improving 26½ games to an 87-75 record.

The team's only headline last year, when it was 76-85, was written, acted, and produced by the remarkable Cal Ripken. He not only extended his consecutive-game streak to 1,411—for second place behind Lou Gehrig's 2,130—but broke the major-league fielding record for a shortstop, with three errors, set the marks for most errorless games (95) and chances (451), became the 12th player in history to hit 20 or more home runs in his first nine seasons, and joined Ernie Banks and Vern Stephens as the sole 200-plus homer shortstops. He also joined second-base brother Billy for the fewest errors by a double-play combination (11).

The only other items of note were negative. Jeff Ballard and Bob Milacki, who totaled 32 victories the previous year, were hurt, along with first baseman Randy Milligan, who was having a career year.

Cal Ripken (.250, 21 HR, 84 RBI) needed help in producing runs for manager Frank Robinson. He'll get some if Milligan (.265, 20, 60) picks up from a shoulder separation where he left off. And he may get more from free agent Dwight Evans. But Evans, who hit .306 in division champion Boston's final 24 games to finish .249, 13, 63, suffers back pain and is 39 years old. Then, in January, the Orioles traded for Houston slugger Glenn Davis (.251, 22, 64 in 93 games).

The Orioles, who had the league's worst record against left-handed starters (24-32), won't be going anywhere in 1991 if Ballard (2-11, 4.93 ERA) and Milacki (5-8, 4.46) don't make complete recoveries from their injuries. Ballard had two elbow operations to tumble from an 18-8 record and Milacki fell from 14-12. But all is not lost on the mound. Big Ben McDonald finally overcame finger blisters by winning his first five major-league starts en route to 8-5 with a 2.43 ERA and opposing batting average of only .205. And the Orioles

are excited about hard-throwing Jose Mesa (3-2, 3.86). Pete Harnisch and Dave Johnson were the only Orioles with double-digit victories, but each had high ERAs. Harnisch was 11-11, but 4.34 and got by with help from his friends, who averaged over six runs a game in his starts. But he and Curt Schilling (2.54 ERA) and outfielder Steve Finley were sent to Houston for Davis. Johnson was 13-10, but 4.10 and 30 home runs allowed, the most in both leagues. Vying for spots are ex-Tiger Jeff

Robinson (10-9, 5.96), who missed seven starts with physical woes, John Mitchell (6-6, 4.64), and Anthony Telford (3-3, 4.95). The Orioles may be tempted to give top 1990 draft choice Mike Mussina a trial.

Gregg Olson, who became the second-youngest pitcher to save a total of 50 games, gave the club a scare with brief elbow misery. He was 6-5, 2.42, and 37 saves. Mark Williamson (8-2, 2.21) was one of the league's best setup men when he, too, went out (broken finger). Kevin Hickey (1-3, 5.13) is the only left-handed reliever, so the club may bring back minor-league veteran Dan Boone and will look at youngsters Mike Linsky, a Baltimore native with a 1.47 ERA at Double A Hagerstown, and Chris Myers. Also in the picture are Jose Bautista and Mike Smith.

Mickey Tettleton, a switch hitter who struck out a major-league record 160 times, was traded to Detroit after much free-agent haggling. He batted .223 with 15 homers and 51 RBIs but had 61 more whiffs than hits. Bob Melvin (.243, 5, 37) has a penchant for two-out hits. Chris Hoiles could make it after .348 and 18 homers at Rochester, but he needs devensive work.

The infield should be solid with Cal and Billy Ripken (.291, 3, 38) up the middle, Davis at first base, and either Craig Worthington snaps back from a .226, 8, 44 skid at third after 15-47 his rookie season or Leo Gomez is ready off 26 homers and 97 RBIs at Rochester. Sam Horn (.248, 14, 45) will share DH with Milligan. David Segui is a coveted prospect. Sidelined for a time with a stress fracture below the knee, Segui is waiting for an opening off .336 at Rochester. Tim Hulett (.255, 3, 16) and Rene Gonzales (.214) are reserves.

Evans feels he's fit for right field, but didn't play a game there last season. He'll do some time in right while helping at first base or sharing detested DH duty. If Evans isn't right in right, Joe Orsulak (.269, 11, 57) is. Mike Devereaux (.244, 12, 49) is the center fielder and Brady Anderson (.231, 3, 24) is in left. All hit left-handed. Luis Mercedes may be ready after winning the Eastern League batting championship (.334) for Hagerstown, along with Chito Martinez from the Royals' system.

MILWAUKEE BREWERS

The Milwaukee Brewers had a fragmented 1990. They broke from the gate with a lead through 36 games, got into fights when the going got tough, were defensive bunglers again, lost starting pitchers Chris Bosio and Bill Wegman to operations, and suffered from slumps by stars Robin Yount, Paul Molitor, and Dan Plesac. The result: sixth place, 14 games under .500.

Although general manager Harry Dalton insists manager Tom Trebelhorn's job is safe, it seems the Brewers need to show immediate 1991 improvement to assure it. Keeping everyone on the same wavelength, including young Gary Sheffield, will help. "We don't have open dissension on the field, but we do have some interesting personalities that don't exactly click off the field," Trebelhorn said in an understatement.

The Brewers were not shy offensively last season but could be this year if: free agent Franklin Stubbs can't make up for the 27 home runs Rob Deer took to Detroit, 1989 American League Most Valuable Player Yount hits in the .240s again, Molitor can't get back into the .300s, closer Plesac isn't more consistent, and two-time Designated Hitter of the Year Dave Parker fails to respond at age 40, which he'll be in June.

The top priority is defense. The Brewers had the worst in baseball for the second straight year. The outfield is especially vulnerable. Yount will have to cover ground that left fielder Greg Vaughn and right fielder Stubbs, a natural first baseman, can't. But Yount's 34 now. He began to hit toward the end of '90, but it was too late and he was too short with a .247 average, 17 home runs, and 77 RBIs. Compare that with his '89 stats of .318, 21, 103. Vaughn's first opportunity was marred by a 1-for-40 skid that jarred his confidence. He finished .220, 17, 61. Stubbs, signed to help Parker from the left side, was a nice surprise for Houston with 23 homers (.261, 71 RBI). Darryl Hamilton (.295, 1, 18) and Mike Felder second baseman Jim Gantner is back for his first full season in two years after major knee reconstruction. He got into 88 games and batted .263. The development of Bill Spiers at shortstop keeps third baseman Sheffield from his favorite position. Spiers was .242, 2, 36. The moddy Sheffield missed the last 19 games with a mysterious ailment that the club passed off as "complete exhaustion," but he still hit .294 (10, 67). Rounding out the infield are Greg Brock (.248, 7, 50), Edgar Diaz (.271, 0, 14), and Dale Sveum, who hit .197 after missing most of two seasons with a broken leg that wouldn't heal. He could squeeze into a starting spot again.

The splendid Parker, who had knee surgery in October, gives Milwaukee the most punch. With career goals of 3,000 hits (he needs 408) and 1,500 RBIs (he needs 66) in mind, Parker has pledged to be around a few more years. He hit .289 last season. His 21 homers and 92 RBIs smashed the club DH records of 12 and 60 by Henry Aaron in 1975.

B.J. Surhoff is back to full-time catching after helping at third base in 1990 out of necessity. A fine defender, Surhoff (.276) seems capable of more than six homers and 59 RBIs. Tim McIntosh, who hit 18 homers for Triple A Denver, will battle Rick Wrona, a six-year minor leaguer from the Cubs, for backup.

The pitching rotation is filled with questions, especially the health of Teddy Higuera, who has had all sorts of breakdowns; Bosio, who had knee surgery; and Wegman, who had

spurs and chips removed from his elbow and a ligament repaired. Higuera had a 4-1 record before an injury. He finished 11-10, 3.76 ERA. Bosio started 3-0, then floundered to 4-9, 4.00. Wegman was 2-2, 4.85. Ron Robinson gives the rotation stability with 12-5, 2.91 after coming from Cincinnati for Glenn Braggs. Jamie Navarro (8-7, 4.46) and Mark Knudson (10-9, 4.12) should improve, and the club is excited about Kevin Brown, a lefty obtained from the Mets. He had a 2.57 September ERA. Dark horses are Narciso Elvira and top 1989 draft choice Cal Eldred.

Plesac is determined not to let 1990 happen again (3-7, 4.43, 24 saves)—especially 10 blown saves. Chuck Crim (3-5, 3.47, 11) was slowed by a rib problem sustained in a fight with Seattle. Julio Machado, another ex-Met, figures in middle relief with free agent Edwin Nunez (3-1, 2.24 at Detroit) and Brandy Vann, drafted from the Angels.

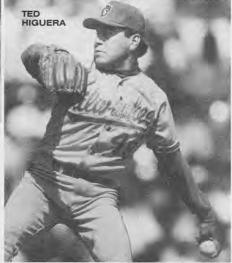

until Stubbs was signed. They still may. Former Seattle outfielder Mickey Brantley (18 homers in Triple A) is available.

The Brewers are praying for infield health. Molitor, who finally has a position in first base, continued his string of disablements with three more to bring his total to 13 in 10 years. Molitor had averaged .327 over the previous three seasons, but missed 59 games, struggled to .285 (12 HR and 45 RBI), and had shoulder surgery after the season. Scrappy

STREET AND SMITH'S BASEBALL

DETROIT TIGERS

The Detroit Tigers made progress in 1990, jumping from last place the previous season to third place by winning 20 more games. But for them to make even more progress this season everyone will have to pitch in. The Tigers added another right-handed batter in Rob Deer to go with Alan Trammell and the powerful Cecil Fielder, plus reserve infielder Tony Bernazard. But with the exception of 32-yearold Bill Gullickson from the National League, they weren't able to do much with their starting pitching. It was last in league ERA and first in walks last season and third in home runs allowed, and Jack Morris, Frank Tanana, and Walt Terrell aren't getting any younger. It's a big problem for a team that led the A.L. in home runs (172), was second in runs scored, and second in turning double plays.

Tigers' fans are waiting for former Michigan football coach Bo Schembechler to do something more meaningful than let Hall of Fame broadcaster Ernie Harwell go after this season and hire his football trainer away from Michigan. They shuddered late last summer when Schembechler pledged to plunge deeper into personnel decisions and minor-league operations. "I know more about what it takes to put a team together and have one compete than anyone else in my position," the Tigers president said. Was that a promise or a threat?

Fans will threaten to boycott if the starting pitchers don't get their ERAs down. Morris, Tanana, and Terrell had a combined 4.94 ERA last year. Their average age this year is 35. Morris won 13 games last season after six the previous summer, but lost 15, had a 4.51 ERA, and was so easy to run on that 43 of 48 runners stole bases. Tanana had a 9-8 record but lost his rotation spot when he couldn't bring his ERA down. He finished 5.31 while giving up 25 homers. Terrell returned to Detroit after a three-year absence to post 6-4, 4.54. Gullickson came back from two years in Japan and was 10-14, 3.82 for Houston, which then let him go. Dan Petry returned to the Tigers after three years and finished with a 10-9 record. The Tigers released Lance McCullers, which may hasten a look at left-hander Scott Aldred (6-15 at Triple A Toledo). Steve Searcy was strong in Toledo (10-5, 2.92), but not in Detroit (2-7, 4.66).

Detroit's bullpen is strong. It had 39 victories and 59 saves for manager Sparky Anderson, who ended up with a right-left closing duo of Mike Henneman (8-6, 3.05, 22 saves) and Jerry Don Gleaton (1-3, 2.94, 13). Setup relievers look good, too, with left-hander Paul Gibson (5-4, 3.05, 3), Clay Parker (2-2, 3.18), and lefty Mike Munoz from the Dodgers. Another possibility is Eric Stone.

The Tigers have a mini Murderers Row with Milwaukee free agent Deer batting behind Trammell, Fielder, and Lou Whitaker. Warning: Deer (.209, 27, 69) and Fielder (.277, 51, 132) spent 40 percent of their time last season either hitting homers or striking out. Fielder led the league in slugging percentage (.592) as well as homers. He joined Hank Greenberg, Rocky Colavito, Norm Cash, and Darrell Evans as the only Tigers with 40 or more homers.

ans as the only Tigers with 40 or more homers. Shortstop Trammell (.304, 14, 89) and second baseman Whitaker combined for 32 homers, with Trammell continuing to win games with late-inning hits. But for the third straight season injuries prevented him from collecting 200 hits and Whitaker (.237, 18, 60)

is recovering from strained knee ligaments. Travis Fryman represents the first wave of Detroit's help from the farm system. The confident third baseman was .297, 9, 29 in 66 games after 10 homers and 53 RBIs at Toledo. Dave Bergman (.278, 2, 26) backs up Fielder and the Tigers hope Bernazard benefited as much as Fielder from a stay in Japan.

Deer, who had 14 assists, takes over right field from veteran Chet Lemon (.258, 5, 32),

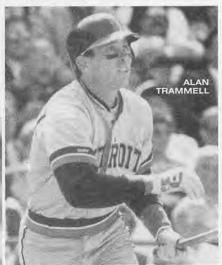

but the other two outfield spots are up for grabs. Milt Cuyler was on target for center field after 52 steals at Toledo, but he seemed slow to respond from a sprained ankle. Lloyd Moseby (.248, 14, 51) is ready if Cuyler isn't. Infielder Tony Phillips is targeted for left field out of necessity after a career-high 55 RBIs (.251, 8 homers). John Shelby (.248, 4, 20) is in the wings with Scott Lusader (.241).

Catcher Mickey Tettleton (.223, 15, 51) was obtained from Baltimore. He had 61 more whiffs than hits, striking out an average of once every 3.6 at-bats en route to the major-league record of 160 for a switch hitter. Also on hand are Mark Salas (.232, 9, 24) and the up-and-coming Rich Rowland (15 minor-league homers). Everyone will take a shot as designated hitter.

NEW YORK YANKEES

The New York Yankees' offense in 1990 was offensive. They were last in league scoring, doubles, triples, slugging, and on-base percentage and second in strikeouts. It was surprising, then, that the club's only winter moves were to extend the contract of Steve Sax, whose average had plunged 55 points, while signing free-agent pitchers Scott Sanderson and Steve Farr, re-signing pitcher Mike Witt, and letting ace reliever Dave Righetti escape to the National League as a free agent.

Is anybody minding the store? Meddlesome general partner Geroge Steinbrenner was forced to resign under orders from commissioner Fay Vincent for consorting with a gambler. Robert "Broadway Bobby" Nederlander took over, but he seems to be a wall decoration as new GM Gene Michael and vice-president George Bradley try to mend the worst Yankee team since the 1912 Highlanders. "We didn't get this way overnight," Bradley said of a 50-102 record under Bucky Dent and Stump Merrill. "It took a few years.

Merrill will be next on the firing line if Don Mattingly doesn't regain the power that he lost from chronic back problems-he hasn't homered since May 20-and the closing committee of the right-hander Farr and the lefthanded incumbent Lee Guetterman isn't the answer to Righetti. It would help if the outfield put the ball in play more often, too. Starters Hensley "Bam Bam" Meulens, Roberto Kelly, and Jesse Barfield have the potential to become baseball's first 500-strikeout outfield.

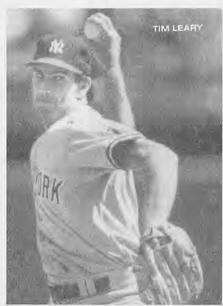

With Mattingly crippled, opponents were able to bomb New York with right-handed pitchers. The Yankees were 39-68 against right-handed starters, compared with 28-27 against lefties. First baseman Mattingly went on a winter exercise program after .256 with five home runs and 42 RBIs in just 102 games. Other left-handed-hitting hopes are Kevin Maas, who had 21 homers in 79 rookie games but only 41 RBIs (.252 average), platoon catcher Matt Nokes (.238, 8, 32), and reserve outfielder Mel Hall (.258, 12, 46). With Mattingly reclaiming first base, Maas will have to be a designated hitter at age 26.

If Mattingly and Sax (.260, 4, 42, and 43 steals) come around, the infield will be sound on the right side. The left is another story. Alvaro Espinoza makes the routine plays at shortstop but can't hit (.224, 2, 20). The Yankees hope he'll respond to new batting coach Frank Howard. Third base was a horror show last season. The players there were a combined .224 with 12 homers, 50 RBI, and 31 errors. Mike Blowers (.188), who made four errors in one game, will vie with Randy Velarde (.210) and Jim Leyritz (.257), but Leyritz may be needed at almost all the other positions. Steve Balboni, who fanned 91 times in 116 games, is a pinch hitter and DH.

Meulens looks ready-at last-as the International League's Most Valuable Player after batting .285 with 26 homers and 96 RBIs (and 132 strikeouts) at Columbus. He's a converted third baseman, so left field could be an adventure. Kelly struck out 148 times but otherwise is fine offensively (.285, 15, 61, and 42 steals), plays a respectable center field, and was the only American Leaguer to play 162 games. Barfield led league outfielders in assists (16) and although he hit only .246 with 150 whiffs, he still hits the long ball (26 HR, 78 RBI). Hall, Velarde, and Leyritz are insurance.

Nokes went to the Instructional League to polish overdue defensive skills. Bob Geren is a fine receiver but doesn't hit much (.213, 8, 31). Leyritz can catch and Bobby Ramos is available.

Right-hander Tim Leary was the No. 1 starter, but he was en route to 20 losses when the Yankees stopped using him. He finished 9-19 with a 4.11 ERA and little support. Left-hander Chuck Cary (6-12, 4.19) is a strikeout artist when his screwball is working. Witt (5-9, 4.00) was re-signed and Scott Sanderson (17-11, 3.88) was added from Oakland, Dave Eiland gets a full-time look after an International League-best 16-5, 2.87. He was buoyed by the development of a sinker. A starting spot remains open for the rehabilitating Pascual Perez, Dave LaPoint, Andy Hawkins, or rookies Steve Adkins and dark horse Wade Taylor. Perez was 1-2, 1.29 when he went out with rotator-cuff surgery. He may not show up until midseason. LaPoint had a slow start after 1989 surgery, but rallied to 7-10, 4.11. Hawkins followed a lost no-hitter with 11 shutout

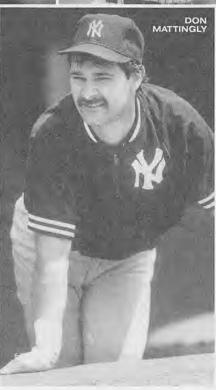

innings, but was 5-12, 5.37. Adkins was 15-7 at Columbus, but went to the Instructional League to work on his control. Taylor was a combined 12-8 with low ERAs at two minorleague stops. Kevin Mmahat was set back by a rotator procedure.

Free-agent Farr signed on from Kansas City (13-7, 1.98, one save) to help the bullpen. He'll team with Guetterman (11-7, 3.39, 2), with former A's Greg Cadaret (5-4, 4.15, 3) and Eric Plunk (6-3, 2.72) the set-up men. Alan Mills seemed ready, but he broke his hand in Venezuela during the winter.

CLEVELAND INDIANS

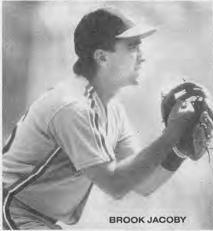

The Cleveland Indians will be baseball's answer to college basketball's Loyola Marymount and to pro football's Detroit Lions. They'll run and shoot. With no heavy artillery, Candy Maldonado having hauled his 22 home runs to free agency and Cory Snyder having taken his 14 homers to the Chicago White Sox in a trade, manager John McNamara will try to run opponents into the ground instead of clubbing them over their heads.

He has the man to get the Indians started in outfielder Alex Cole, who literally will give Oakland's Rickey Henderson a run for the stolen-base title if he can just get on base. If the second half of last season is any indication, he can. The former San Diego farm hand startled Cleveland by not only stealing 40 bases in 49 tries in just 63 games, but by hitting .300 and reaching base 38 percent of the time. He may not be able to keep up that kind of pace, but the team pace will be accelerated this year from necessity.

The Indians are accelerating their young people, too. They put Sandy Alomar, Carlos Baerga, and Steve Olin into the race last season, when they made a run at the first division before settling into fourth place, and seem prepared this year to give infielder Jeff Manto, outfielder Turner Ward, and pitchers Charles Nagy, Sergio Valdez, and perhaps Willie Blair their chances.

McNamara is looking for three starting pitchers to step forward to aid Greg Swindell (12-9) and Tom Candiotti (15-11, 3.65 ERA). Swindell is over his elbow woes, but his ERA swelled to 4.40 because he allowed 27 home

3.41) gives the Indians a more secure feeling in the bullpen despite their troubles against left-handed hitters. Olin, with a submarinestyle delivery, sets up Doug Jones, who, with a cunning changeup, remains one of the game's most underrated relievers. He had 43 saves to go with 5-5, 2.56, and shows no signs of slowing up. Shawn Hillegas, another ex-White Sox pitcher (nine saves, 1.74 ERA at Triple A Vancouver), figures in middle relief with left-hander Jesse Orosco (5-4, 3.90) and Kevin Wickander, who broke his arm in May. Also under consideration are Bruce Egloff, who impressed in his return from surgery with 1.98 and 15 saves at Canton/Akron, and Efrain Valdez (six saves at Colorado Springs), a lefty cousin to Sergio. Control problems could hold Rudy Seanez back.

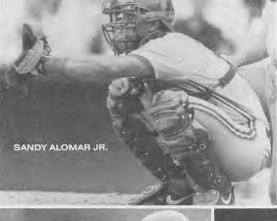

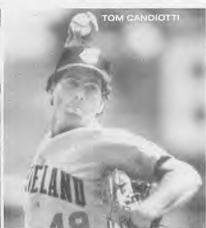

Growing up with the pitchers is Alomar, the first Rookie of the Year catcher since Carlton Fisk in 1972. He hit .290 with nine homers and 66 RBI, but still has to learn when to throw the ball on steals. Joel Skinner (.252), with his strong arm, is the backup and Manto, who hit .297 with 18 homers at Colorado Springs, went to the Instructional League to add catching to his versatility.

McNamara brought Baerga, at age 21, along nicely at third base, where he was .260, (7, 47 in 108 games). Thus, Brook Jacoby (.293, 14, 75), the first Cleveland player to win A.L. Player of the Month in 16 years, moves to first base. The Indians will make a decision on the knee-troubled Keith Hernandez in spring. In the middle are shortstop Felix Fermin, who makes all the plays with good range and is showing signs of hitting (.256, 40 RBI), and second baseman Jerry Browne, a pesky hitter (.267, 6, 50) who is weak on double plays. Manto could do some designated hitting while awaiting his chance at first base.

Cole, who went to Rod Carew's bunting school, is in center field with Chris James in left after being the DH most of last season and Ward in right. James, who replaces Maldonado in the outfield, was hitting .116 on May 6, but became the team's MVP with a final .299, 12, 70 and fiery leadership. Ward adds speed off .299 at Colorado Springs and .348 in 14 Cleveland games. Mitch Webster (.252, 12, 55) is one of the league's better reserves. Stan Jefferson, Beau Allred, and Alan Cockrell will be viewed after fine years at Colorado Springs. The club is concerned, however, with Albert Belle's emotional troubles.

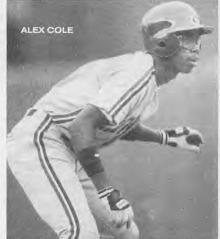

runs. Knuckleballer Candiotti has pitched over 200 innings five straight years and won at least 13 games four times. Eric King brings a 12-4 record and 3.28 ERA from the White Sox, but with a congenital back problem he has to be paced. Nagy and Valdez will be given a chance. Nagy (2-4) zoomed from the 1988 U.S. Olympic team to the major leagues, but he was returned to Double A Canton/Akron to work on a split-fingered pitch. He may be ready now after 13-8, 2.52 there with nine complete games. Released by Atlanta, Valdez had a 3-1 September to finish 6-6, 4.75. Blair was 3-5, 4.06 with the Toronto Blue Jays but may need more seasoning. Other possibilities are former Blue Jays Mauro Gozzo and Steve Cummings (5-3, 3.11), Rod Nichols (12-9 at Triple A Colorado Springs), Jeff Mutis, and Jeff Shaw (3-4, 6.66).

The continuing development of Olin (4-4,

HOW FANS BECOME EXPERTS

The average fan who reads THE SPORTING NEWS doesn't stay average for long. Because he very quickly picks up the facts, insight and analysis that can turn him into an expert.

THE SPORTING NEWS brings you the action like no one else. Every single issue covers all four major sports. Baseball. Football. Basketball. Hockey. All the teams. All the time.

No one can touch THE SPORTING NEWS when it comes to regular in-depth team reports and coverage. Revealing numbers and perspective available nowhere else.

More importantly, you get the stories *behind* the stats. The *whys* behind the wins and losses. Unsurpassed analysis and strategy most fans never know.

And because we cover all four sports 52 weeks a year, you get in on the off-season action — trades, drafts, deals — that can make or break a season.

In fact, the only way to get closer to the game is to get into the dugouts, locker rooms and front offices yourself.

If you want to know the real score, mail the coupon or call the toll-free number now. We'll sign you to a great deal — up to 64% savings off the cover price.

Why wait? Act now and we'll rush you your first issue as soon as possible, so you can get into the coverage that turns fans into experts.

Mail the attached card or coupon, or call toll-free

WESTERN DIVISION

OAKLAND ATHLETICS

The league champion Oakland A's, their pride plundered by Cincinnati with four straight losses in the World Series, added veterans to an already aging team that has led the major leagues in victories for three straight years. Key pitchers Bob Welch and Dave Stewart are 34 and Dennis Eckersley is 36, Rickey Henderson, Harold Baines, and Dave Henderson are 32, and Carney Lansford is 34. The new players: Eric Show, 34, joins the rotation; Willie Wilson, 35, becomes an outfield reserve after starting most of 12 seasons in Kansas City; and Ernest Riles, 30, is an infield reserve. Wilson and Riles are switch hitters. "They'll make a difference in the way teams manage against us because we had a predominately righthanded lineup and bench," manager Tony La

Headed by Executive of the Year Sandy Alderson, the A's are out to regain the world with Most Valuable Player Ricky Henderson and a doctor's clearance for Jose Canseco. But everything starts on the mound, with Cy Young Award winner Bob Welch and ol' reliable Dave Stewart. Their 49 combined victories were the most in the league by teammates since 1944. Welch, who signed back on as a free agent at just under Stewart's pay, broke Catfish Hunter's club record with a 27-6 mark (2.95 ERA). The league hadn't seen that many victories since Denny McClain's 31 for Detroit in 1968, but Welch's career average was only 14-9 prior to that and he's starting his 14th season. Stewart, beginning his 13th year in the majors, has pitched over 1,100 innings the last four seasons. His track record, however, is unparalleled. He was 22-11 (2.56 ERA), the fourth couldn't have been more solid last year. Eck has been around since 1975, but La Russa uses him so selectively that Eckersley, who has walked only 35 batters the last 320 innings, is not expected to slow down. Eckersley's right-left setup help is fine. Gene Nelson had his best season (3-3, 1.57, five saves) and Rick Honeycutt had seven saves (2-2, 270). The A's like the arms of Reggie Harris (1-0, 3.48) and lefty Joe Klink (2.04) and will take a look at Stanford's hard-throwing Steve Chitren, who struck out 19 in 18 late-season innings, and Joe Turek, drafted from the Reds.

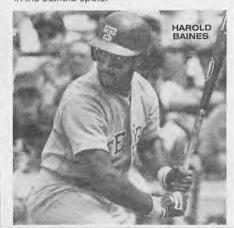

Welch won't have Ron Hassey to catch him anymore, but Terry Steinbach (.251, 9 HR, 57 RBI) rates with the best. The A's re-signed Jamie Quirk (.281, 3, 26) and may keep another Reds' draftee, Eddie Taubensee, to help while Troy Afenir develops. And they can use Scott Hemond (.243 at Triple A Tacoma) if he's kept as an extra infielder.

No infielder hit higher than .265 last year, but that doesn't terribly upset the A's. First baseman Mark McGwire has a productive bat, second baseman Mike Gallego makes up for soft offense with strong defense and shortstop Walt Weiss has stronger knees. But third baseman Lansford, who had a down season, suffered a serious knee injury in a snowmobile accident on New Year's Eve. His status for 1991 was in doubt, so the veteran Vance Law was signed for insurance. McGwire's .235 concerns the A's, but he hit 39 homers to become the first player with 30 in each of his first four seasons. And he drove in 108 runs and had a league-high 110 walks. Gallego should hit higher than .206 now that he's not behind

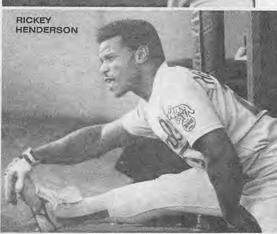

the departed Willie Randolph. Weiss had his average up to .265 (2, 35) before hurting himself. Lansford's .265 was his lowest in 10 years, and he wasn't very productive with three homers and 50 RBIs. Riles should improve on .200 at San Francisco. Hemond has an edge on Lance Blankenship (.191) and Mike Bordick for the other spot.

The outfield is a true strength with A.L. MVP

The outfield is a true strength with A.L. MVP Rickey Henderson in left, the re-signed Dave Henderson in center, and right fielder Canseco, who didn't require offseason back surgery. Rickey's .325, 28 homers, and 61 RBIs were remarkable for a leadoff man. Three more steals and he'll break Lou Brock's record of 938. Dave Henderson (.271, 20, 63) is coming back from a knee-ligament tear. Canseco (.274, 37) reached 100 RBIs for the fourth straight season, but hit only three homers after July 2 because of his back woes. All three regulars may take turns with Harold Baines (.284, 16, 65) at designated hitter with Wilson (.290, 2, 42) and Doug Jennings filling in the outfield spots.

straight season with at least 20 victories. Stewart still hasn't won a Cy Young Award, but is past caring. He does care about another championship ring.

Mike Moore gets a second chance this year after more walks (84) than strikeouts (73) in '90. Falling behind in the count led to a 13-15 record and 4.65 ERA, compared with 19-11, 2.61 in '89. Show fits into the No. 4 spot after slipping to 6-8, 5.76 in San Diego. Coach Dave Duncan likes Show's makeup. The final spot could go, at last, to Todd Burns (3-3, 2.97). He'll compete with Curt Young (9-6, 4.85), the only left-handed starter.

The bullpen, headed by control artist supreme Eckersley (4-2, 0.61, 48 saves).

KANSAS CITY ROYALS

Health comes first for the Kansas City Royals. Projected to make a pennant run in 1990, the Royals were shredded with injuries. They used the disabled list a club-record 18 times with 15 different players. The result was sixth place, 27½ games behind Oakland. Manager John Wathan was grateful, then, to be rehired for another year. "I feel like I've been accepted back into the family."

Everyone should be back this season, including ace starters Bret Saberhagen and Mark Gubicza, and now the Royals have veteran free agents Mike Boddicker for the rotation and Kirk Gibson for mostly designated hitting. It's a new beginning for general manager Herk Robinson, too. He had been with the Royals over 20 years, but in far different capacities than GM. He replaces John Schuerholz, who left after nine years to join Atlanta. "I've had a number of years in the grass-roots level of baseball," said Robinson, who inherited a team that had the league's worst record on grass (22-39) and the franchise's worst mark on the road (30-50).

Robinson decided to take advantage of vast, fast Royals Stadium by returning "to what the Royals do best": pitching, speed, and defense. "I don't know how fast we can do this, but we'll try," Robinson said. The Royals were last in league saves a year ago, 10th in stolen bases, and ninth in fielding. Opposing runners took liberties on all the outfielders until rookie Brian McRae came along.

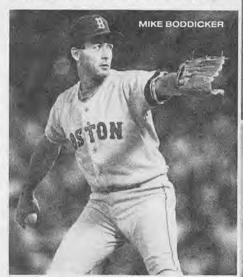

The pitching staff would like to forget 1990. Saberhagen and Gubicza had a combined

YC GEORGE BRETT

38-17 record the previous season, but injuries reduced them to 9-16. Saberhagen (5-9) had an elbow chip removed, yet still managed a 3.27 ERA. He's expected to be fully recovered. Gubicza's recovery from a slight tear in the rotator cuff that left him with 4-7 and 4.50 will take longer, but his rehabilitation progress was excellent. Boddicker, who helped Boston win the Eastern Division with 17-8, 3.36, fits in behind Saberhagen as the second man. Storm Davis was held to 7-10, 4.74 from being on the DL three times. Given the opportunity, Kevin Appier developed quickly. Only 22 last summer, Appier had the league's fifth-best ERA (2.76). He had a 12-8 record despite a lack of support. Tom Gordon (12-11, 3.73) was the only member of the rotation not to miss a start, but if Gubicza is strong again,

Gordon returns to relief, where he dominated in 1989. Luis Aquino, rushed into the crippled rotation, was doing well at 4-1, 3.16 when he, too, was struck with an injury.

Much depends upon the return of closer Mark Davis. To help him along, the Royals hired Pat Dobson, who coached Davis to the 1989 National League Cy Young Award in San Diego, where Davis saved 44 games. His confidence gone from the start in Kansas City, Davis saved only six games while struggling as both a reliever and starter. He finished 2-7, 5.11. The left-hander could share the closing role with righty Jeff Montgomery, an overlooked performer. Montgomery responded to the team's 1990 adversity by saving 24 games en route to 6-5, 2.39. Remaining relievers will come from starters who can't break in, plus veterans Andy McGaffigan (4-3, 3.09), Steve Crawford (5-4, 4.16), and lefty Dan

Schatzeder (1-3, 2.20 with the Astros and Mets). Given shots are Mel Stottlemyre (1.51 ERA at Triple A Omaha), Carlos Maldonado, and dark horse flame thrower Joel Johnston.

The departure of Bob Boone leaves the catching to Mike Macfarlane (.255, 6, 58), who was allowed to stay the whole year. Top prospect Brent Mayne, a left-handed hitter and strong defender, could stick after batting .267 with 61 RBIs at Double A Southern League champion Memphis.

The remarkable George Brett (.329, 14, 87) heads up the infield at first base. His torrid .388 in the second half allowed him to become the first major-league batting champion in three decades. For the first time in 17 years, Brett will not be taking double-play throws from second baseman Frank White. He was let loose to allow Terry Schumpert (.275), who suffered a finger-ligament tear, to take over. Kurt Stillwell (.249, 3, 51) led the league in shortstop errors (24) but has a great arm. Third baseman Kevin Seitzer is a pesky hitter, but .275 was his lowest average in five years. Bill Pecota (.242) is a fine utility man. Firstbase prospects Jeff Conine or Bob "Hammer" Hamelin could stick as a DH.

Bo Jackson brings his team-high 28 homers back to left field along with .272 and 78 RBIs, but he struck out 128 times in 111 games. McRae (.286 in 46 games) will challenge Seattle's Ken Griffey Jr. as the American League's best center fielder of the '90s, Danny Tartabull (.268, 15, 60) is shaky in right field from a history of injuries. If he can't make it, Jackson could shift from left with Jim Eisenreich (.280, 5, 51) or speedster Gary Thurman (.331 at Omaha) taking over.

CHICAGO WHITE SOX

The Chicago White Sox, whose 24½-game improvement was the best in the major leagues last season but not enough to catch the league champion Oakland A's, hope their additions will offset their subtractions. New general manager Ron Schueler thinks leadoff hitter Tim Raines from Montreal will generate more runs, Cory Snyder from Cleveland will help make up for the slugging loss of Ivan Calderon to the Expos, and free-agent Charlie Hough from Texas will retrieve the 12 victories Eric King took to the Indians.

Schueler feels Raines, a .301 career hitter who averages 63 steals a year, is the final piece in the offensive puzzle. "My main concern was finding a leadoff man, and Raines is one of the best ever," Schueler said. "Check the World Series the last three-four years, you'll see every team had a good leadoff hitter. He adds a new excitement to our team."

Schueler gained Raines, Snyder, and Hough without totally disrupting his nucleus of the record-breaking battery of catcher Carlton Fisk and reliever Bobby Thigpen, Gold Glove shortstop Ozzie Guillen, 14-game winners Jack McDowell and Greg Hibbard, and budding stars Frank Thomas, Robin Ventura, Sammy Sosa, and Alex Fernandez. Manager of the Year Jeff Torborg did lose Calderon, who led the team in RBIs, runs, and doubles, but batting coach Walt Hriniak feels Snyder will respond to his unique hitting style after tailing to .233, 14 home runs, and 55 RBIs in Cleveland. Torborg, though, has to find a set-

up man to replace Barry Jones, who went to Montreal with Calderon for Raines.

The White Sox, who leaped from last place in '89 to second last season, cannot afford the loss of Hough, McDowell, Hibbard, Fernandez, or Melido Perez in their rotation. The experienced Hough gives the young starters someone to follow. The major leagues' second-oldest player (43), the knuckle-balling Hough was not pursued by Texas after a 12-12 record and 4.04 earned-run average. Mc-Dowell and the left-handed Hibbard learned how to win off an identical 14-9 record and 3.82 and 3.13 ERAs, respectively. Perez, however, has stepped backward from his 12-10 rookie season in 1988. He was 13-14, 4.61. Fernandez, college baseball's Pitcher of the Year at Miami Junior-Dade, is expected to get a grip on No.5 off 5-5, 3.80. If he's not ready, Torborg will choose among Adam Peterson (2.09 ERA at Triple A Vancouver, but 4.55 in Chicago), Jerry Kutzler, Roberto Hernandez, and lefties Grady Hall and Wilson Alvarez.

The bullpen appears steady despite Jones's absence. Thigpen and a cast of others led the major leagues in combined victories (29) and saves (68). Thigpen shattered the major-league record with 57 saves. The White Sox were 65-12 when Thigpen pitched. He may, however, miss the set-up work of good friend Jones, who had an 11-4 record and 2.31 ERA. Torborg will use a committee of Donn Pall (3-5, 3.32, two saves), Wayne Edwards (5-3, 3.22, 2), Ken Patterson (2-1, 3.39, 2), Scott Radinsky (6-1, 4.82, 4), and perhaps Steve Rosenberg (eight Vancouver saves), Brian Drahman, Rich Scheid, or Jeff Carter, who came in the Raines trade. He was 8-3, 1.84 with 15 saves at Double A Jacksonville.

Fisk, 43, had arthroscopic cleansing of both knees and may not start the opener, but the splendidly conditioned veteran who broke Johnny Bench's major-league career record for homers by a catcher is expected to build on last season's .285, 18 homers, and 65 RBIs. The position is in good hands with Ron Karkovice (.246, 6, 20), whose arm may be the best among league catchers.

All eyes will be on the trained eyes of first baseman Thomas, who drew 110 walks in just 109 Double A Birmingham games while hitting 323 with 18 homers and 71 RBIs. With the White Sox he was .330, 7, 31. Guillen, who flirted with .300 for half a season before settling on .279, 1, 59, finally won his Gold Glove at shortstop. He slipped in steals, however, with 13 (for 30) after 36 in 1989. He'll team again with double-play partner Scott Fletcher (.242, 4, 56), who may feel the heat from Cesar Bernhardt (30 steals at Birmingham). Ventura impressed more with his glove at third base than with his bat, but he rallied from an 0-for-41 drought in April to finish .249, 5, 54. The Sox hope to get more utility production from Carlos Martinez, who slid from .300 to 224, Steve Lyons (.192), and Craig Grebeck (.168). Matt Stark (109 RBI at Birmingham) will

challenge for DH.
Raines, who hit .287 for Montreal with nine home runs, 62 RBIs, and 49 steals, and Sosa (.233, 15, 70, and 32 steals) will flank Lance Johnson (.285, 36 steals) in center. Snyder is seen as a man for all reasons in the outfield and infield, and will also share DH duties with Dan Pasqua (.274, 13, 58).

TEXAS RANGERS

With Nolan Ryan still around, the Texas Rangers remain a traveling road show. But how far the team travels in 1991 depends upon the elbow recoveries of two pitchers. Starter Kevin Brown almost duplicated his 1989 season by going 12-10 with a 3.60 ERA, but for the second straight year he was shut down in September with elbow "stress" symptoms and spent the winter on a rehab program. Jeff Russell, who had led the league with 38 saves in 1989, had eight bone chips removed late in May of '90 and didn't return until September to finish 1-5 and 4.26 with 10 saves.

"I hope Russell will be available for 162 games," said manager Bobby Valentine, who was given a two-year contract extension. "Last year was the year of the reliever, and I was without one."

The remarkable Rvan, of course, heads the rotation. At age 43, Ryan (13-9, 3.44) threw his sixth no-hitter last season, topped the A.L. in strikeouts with 232 in 204 innings while allowing just 134 hits, and was the league's toughest pitcher to hit (.188). He's coupled with Bobby Witt, who finally realized his potential (17-10, 3.36). Witt's 222 strikeouts gave the league its first 1-2 leaders on the same team since 1976, when Ryan and Frank Tanana were on the California Angels. Scott Chiamparino, a possible steal from the Oakland A's in the Harold Baines trade, will try to fill the void left by the departure of Charlie Hough, who was allowed to go free after establishing club career records in every major category. The Rangers haven't had a quality fourth starter in some years, but Chiamparino showed promise with a 2.63 ERA in six starts late last season. The left-hander Kenny Rogers (10-6, 3.13) comes out of the bullpen to try to solve

the No. 5 spot. Last year's fifth starters were a combined 6-19, 5.08. Rogers saved 15 games in Russell's absence. Jose Guzman is coming back from two years out with rotator-cuff surgery, but Brian Bohanon (0-3, 6.62) and Gerald Alexander may need another year of Triple A seasoning.

Setup relief is a problem. Brad Arnsberg (6-1, 2.15) had five saves but none in his last 37 appearances. John Barfield (4-3) and Mike Jeffcoat (5-6) could be a good right-left combination if they get their ERAs down from the mid 4.50s. Joe Bitker also is in the picture.

The Rangers have two Achilles' heels, and catching is one of them. Last year's group had more passed balls (45) than RBIs (35) for the second straight year. Geno Petralli (.255) has the edge, but he hit no home runs and had just 21 RBIs. Mark Parent was obtained from San Diego (.222, 3 HR, 16 RBI). Chad Kreuter was only .223 at Triple A Oklahoma City. Mike Stanley (.249) and John Russell (.273) could be brought back.

The infield has some offense on the right side and confusion and questions on the left. By hitting the weights and using all fields, first baseman Rafael Palmeiro finished third in league hitting with .319 and had career highs in homers (14) and RBIs (89). The left-handed hitter batted .335 against lefties and was .322 with runners in scoring position. All-Star Game MVP Julio Franco missed .300 for the first time in five years but won a Silver Bat at second base with .296, 11, 69, plus 31 steals. His defense, however, suffered with 19 errors.

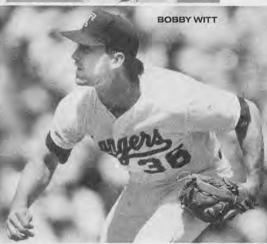

Shortstop is the other problem area. Jeff Huson (.240, 0, 28) came from Montreal to help but hit only .199 in his last 75 games. Gary Green could move in, but he, too, suffers offensively. Jeff Kunkel dropped 100 points to .170 (3, 17) and Monty Fariss lacked at shortstop in the minor leagues with 47 errors. Third base belongs to Steve Buechele, provided his wrist is sound after a fractured bone. He hit .215 (7, 30).

The state is watching to see how Valentine fits Juan Gonzalez into a deep outfield. Gonzalez, whose natural position is right, played just enough to lose his rookie status while hitting .289 in 25 games after 29 homers and 101 RBIs at Oklahoma City. If his back problems

recur, he could be the designated hitter-at age 21. Right fielder Ruben Sierra, who felt cheated in being the 1989 American League MVP runner-up, dropped from .306 to .280 and from 29 homers and 119 RBIs to 16 and 96. His defense needs dramatic improvement, too. Gary Pettis in center won his fifth Gold Glove, but although he led the team in stolen bases, with 38, he hit exactly as expected, which wasn't much (.239, 3, 31). Pete Incaviglia's lessons with coach Davey Lopes didn't completely take. He had an outstanding RBI ratio of 1-for-6.2 at-bats with 24 homers and 85 RBIs, but he batted .233 with 146 strikeouts. Kevin Reimer (.260) and swift Kevin Belcher fill in, with Dan Peltier and Tony Scruggs developing. Third baseman/outfielder Jack Daugherty (.300, 6, 47) is designated for most of the DHing.

SEATTLE MARINERS

Jeff Smulyan, entering his second year as coowner of the Seattle Mariners, calls himself "a risk-taker." Maybe, but not during the winter. He signed no free agents and general manager Woody Woodward made few changes on a team that hasn't finished .500 in its history. Last year's squad made first-division noises with vastly improved starting pitching and its first duo of .300 hitters in the league's top ten in Ken Griffey Jr. and Edgar Martinez. But it finished with a 77-85 record and 26 games behind Oakland, the exact deficit from the previous year.

Blame it on injuries and blame it on themselves. The Mariners used the disabled list a club-record 15 times and the offense was 13th in runs. No wonder manager Jim Lefebvre said. "See this bald spot on the back of my

head? Stranding runners is why.

Lefebvre should have known an ill wind was blowing when top starter Scott Bankhead went out for shoulder surgery only four starts into the season. The injury had a domino effect. Brian Holman lost time, too, along with pitchers Gene Harris, Mike Jackson, and closer Mike Schooler. Also missing were outfielder

Jay Buhner for two-thirds of the season, shortstop Omar Vizguel for half, and first baseman Pete O'Brien and catcher Dave Valle for more than a month each. Suffering through slumps were O'Brien, Valle, first baseman Alvin Davis, second baseman Harold Reynolds, and outfielders Jeffrey Leonard and Grea Briley. Leonard wasn't retained.

Knowing they need leadership as well as health, the Mariners re-signed Ken Griffey Sr., who responded from his release by the Cincinnati Reds at age 40 to hit .377 in 21 games in Seattle. With Leonard gone, Griffey Sr. probably will help Davis with designated hitting while helping his son become baseball's Player of the Decade. A brilliant center fielder, Griffey Jr. hit .300 with 22 home runs and 88 RBIs, and he's only 21! Third baseman Martinez led the team with .302 and had 11 homers, but he drove in only 49 runs. Further, his 27 errors (including four in one game) led the major leagues.

Seattle's reputation begins on the mound, especially if Bankhead and the other pitchers are healthy. If they are, the loss of free agent Matt Young's 225 innings will not be dearly missed. Bankhead led the team in all major categories in 1989, so his return would take the big-game pressure off the still-developing Eric Hanson, Randy "No Hit" Johnson, Holman, and Billy Swift. Hanson led the team in victories (18-9), including three over the A's, and had a 3.24 ERA. Johnson, who no-hit Detroit, had a run of bad luck after the All-Star Game, but still finished 14-11, 3.65. Holman needed elbow chips removed after 11-11, 4.03, and an almost perfect game over Oakland. Swift (6-4) moved from the bullpen to lead the team in ERA (2.34). Left-handed Russ Swan (2-3, 3.64) is expected to replace Young, who went to Boston. He retired the first 21 Tigers in his debut. Hoping to break in big are Rich DeLucia, who had low ERAs in four organizational stops, and Mike Gardiner, who had 12 victories and a 1.90 at Double A Williamsport. An outside hope is Mike Walker.

Schooler's return from shoulder fatigue is just as important as Bankhead's. Schooler had converted 30 of 34 opportunities before he was hurt. The Mariners feel they have potentially fine set-up men in Jackson (5-7, 4.54) and Harris (1-2, 4.74), but again, health is a factor. Brent Knackert (1-1, 6.55), Dave Burba, veteran Keith Comstock, and rehab-

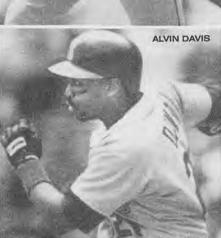

bing Clint Zavaras could help.

Valle (.214, 7, 33) continues to improve behind the plate, but he has played more than 100 games only once in five years because of injuries. The versatile Scott Bradley (.223, 1, 28) took a refresher course at third base in the

Instructional League.

Good health extends all the way to the outfield. Left fielder Briley fell off from 13 homers his rookie season to five while hitting .246 with 29 RBIs. Right fielder Buhner, who followed an injured ankle in spring training with a broken right arm in June, managed seven homers and 33 RBIs in just 51 games. Play-everywhere Henry Cotto (.259, 4, 33 with 21 steals) is arguably one of the game's best No. 4 outfielders. Tracy Jones also is returning. He hit .302 in 25 games before going out.

Reuniting the double-play combination of Vizguel and Reynolds is important to the infield. Vizquel (.247, 2, 18) sprained a knee ligament in spring training and lost shortstop to Mike Brumley and Brian Giles, who no longer are around. Reynolds won a Gold Glove, but the Mariners are worried about his skidding offense (.252, 5, 55) and declining stolen-base percentage (31 for 47). Veterans Davis (.283, 17, 68) and O'Brien (.224, 5, 27) are clogging up first base for former Olympian Tino Martinez (.320, 93 RBI at Calgary). Jeff Schaefer (.206) is a reserve.

CALIFORNIA ANGELS

California Angels' manager Doug Rader was a combination of Dr. Kildare and Dr. Spock at the end of last season. He tried to find cures for injured starters Bert Blyleven and Kirk McCaskill, first baseman Wally Joyner, and shortstop Dick Schofield, and had to nurse Mark Langston, Devon White, Jack Howell, and Chili Davis through chilling slumps. Nothing worked. The team spun its wheels, finishing 80-82 after 91-71 the previous year.

The Angels didn't even bother to call up their young players in September, but began to rebuild before the season was over by starting at the top. Owner Gene Autry stepped down as president and Rader was rehired for two more years. "Without a two-year commitment, I don't think we could have gotten things headed in the right direction," Rader said. "We need to be more far-sighted. We need to form specific goals. We need to have a plan."

The Angels began their plan by trading the disappointing White and pitcher Willie Fraser to Toronto for center fielder Junior Felix and second baseman Luís Sojo, by gaining Dave Gallagher as an outfield reserve, and by signing former major leaguer Floyd Bannister to a

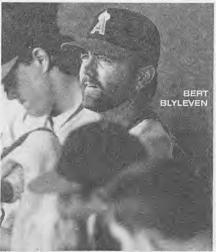

LANCE PARRISH

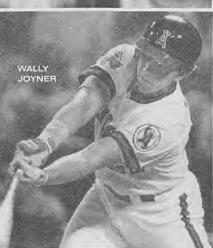

"make-good" contract for left-handed middle relief. Still to be addressed are their reputations as base-line plodders and defensive bunglers despite leading the major leagues in double plays (186).

The Angels need help for ace starter Chuck Finley and closer Bryan Harvey. That means a return to health for Blyleven (8-7, 5.45 ERA) and McCaskill (12-11, 2.35) and better luck for Langston (10-17, 4.40), who received little offensive support but didn't help himself much, either. Blyleven, who will be 40 opening day, is 21 victories from 300. Achieving that goal won't be easy. He had arthroscopic shoulder surgery for a small tear. McCaskill had his elbow cleansed of particles after the season. If everyone is healthy, the rotation is all-star Finley (18-9, 2.40), McCaskill, Langston, Blyleven, and Jim Abbott (10-14), whose 4.51 ERA was inflated by a few bad outings. Langston's 16 losses were the most by an Angels' left-hander since Frank Tanana's 19 in 1974. Waiting in the wings if there are problems are Mike Fetters (1-1, 4.12) and Joe Grahe (3-4, 4.98) as well as Scott Lewis (13-11 at Triple A Edmonton).

The bullpen is as weak in left-handers as the rotation is strong with Finley, Langston, and Abbott. The four lefty relievers last year had no saves in 59 appearances. Thus, Bannister was signed after missing most of last season in Japan following shoulder surgery he had in 1989 in Kansas City. Veterans Bob McClure (2-0) and Scott Bailes (2-0) could help, but each had ERAs above 6.00. In charge from the right-hand side is Harvey (4-4, 3.22, 25). He was out a bit last year with elbow woes. Mark Eichhorn (2-5, 3.08, 13) backs Harvey up. Jeff Richardson could be used off 5-0, 1.86, and 10 saves at Edmonton.

Catching is in the good hands of all-star Lance Parrish, whose .268, 24 home runs, and 70 RBIs earned him a Silver Bat. He did, however, slip offensively again in the second

half. The release of Bill Schroeder allows John Orton and Ron Tingley to move up.

First base is getting a little crowded with Joyner coming back from a kneecap fracture. He wasn't producing much when he went out (.268, 8, 41). Lee Stevens started swiftly as Joyner's replacement, but slumped to finish .214, 7, 32. Sojo gives the team much needed range at second base over Johnny Ray (.277, 5, 43), who will play in Japan. Sojo hit only 224 in limited play for Toronto, but was .296 at Triple A Syracuse. He'll team with Schofield (.255, 1, 18), who missed so many games from injuries again that he appeared in only 99. Howell is at third, but almost by default. He mysteriously went from an average of almost 20 homers over three seasons to eight last year while dropping to .228 with 33 RBIs. Donnie Hill (.264, 3, 32), Kent Anderson (.308), and Rick Schu (.268) round out the infield.

Felix will have to cover a lot of ground in Anaheim's vast center field. Flanking him are the adventurous Luis Polonia in left and Dave Winfield, age 39, in right. The switch-hitting Felix was .263, 15, and 64 for Toronto, where he played right field. Polonia was a pleasant offensive acquistion from the Yankees with .336 (2, 32). Winfield was headed for one of his worst seasons after a year's layoff with a back injury, but rallied to finish .275, 19, 72. A degenerative back disc probably will keep Chili Davis (.265, 12, 58) from returning. The club may give all the DHing to Dante Bichette (.255, 15, 53) after trying him at third base in the Instructional League. Gallagher and Max Venable provide outfield help.

MINNESOTA TWINS

The Minnesota Twins appear to be a team in disarray, having deteriorated from their World Series championship in 1987 to last place a year ago. They may have been fooled into thinking they were on the right track in May when they had a 21-7 record, but it was a mirage. They were 7-21 in June and finished with only one double-digit pitching winner and one .300 hitter, and had more errors (101) than home runs (100). Thus, the basement for the first time since 1981.

"I've been in the majors nine full years and we've gone full circle, from worst to first to worst again." Kent Hrbek said.

Fielding wasn't the problem—they were third in the A.L.—pitching and power were. The pitchers were the easiest to hit in the league (.275) and the hitters were tied for last in home runs (100). Kirby Puckett, Hrbek, and Gary Gaetti, who had combined for 93 homers in '87, totaled just 50.

With that in mind, the Twins did little during the winter except gain a veteran reliever for their young pitching staff. The question for manager Tom Kelly now is, what to do with Steve Bedrosian, the 1987 National League Cy Young Award winner with a then-record 40 saves for the Phillies? Put him into a setup role for Rick Aguilera or move Aguilera back to the

RICK

rotation? It shouldn't be too difficult. Aguilera had 18 saves and a 1.64 ERA by June 26, but wound down to 32 and 2.76 at the end with a 5-3 record and a sore shoulder. Bedrosian, whose concentration was broken in San Francisco last summer with an illness to his young son, Cody, was 9-9 with 17 saves. He was expendable when the Giants signed Dave Righetti. "I'm confident in both pitchers and I'm sure they'll do whatever I ask," Kelly said.

Kelly has a potentially exciting rotation in Kevin Tapani (12-8, 4.07 ERA), Allan Anderson (7-18, 4.45), and blooming youngsters Mark Guthrie (7-9, 3.79) and Scott Erickson (8-4, 2.87). Tapani was among the league's best pitchers until injuries slowed him, but opposing managers were impressed. Anderson, the league's winningest pitcher over the two previous seasons, was so confused over a 2-11, 5.63 start that he sought a psychiatrist for mental rehabilitation. He rallied before time ran out. Guthrie and Erickson could form a formidable left-right punch. Guthrie came back from two trips to Triple A Portland to pitch into the seventh inning in 14 of his 15

starts. He was tied with Tapani for strikeouts (101). No league pitcher was better in September than Erickson, who went 5-0, 1.40. The fifth spot is up for grabs.

If Bedrosian is the closer, the Twins still must come up with middle relievers. Terry Leach (2-5, 3.20) pitches well at times, but David West is still struggling (7-9, 5.10). Rich Garces, who won't be 20 until mid May, could break in after a combined 36 saves and 97 strikeouts in 72 innings at two lower-level minor-league stops. Others in the running are Tim Drummond (3-5, 4.35), Paul Abbott (0-5, 5.97), Gary Wayne, and Larry Casian. Watch for the promising Denny Neagle.

Brian Harper, who estimates he has moved 55 times in his career, now has a home behind the plate. His 25-game hit streak was the longest in the league in '90, He hit .294 with six homers and 54 RBIs. Backing him is another veteran, Junior Ortiz, who rallied from an 0-for-13 start to hit .335 and keep Derek Parks and Lenny Webster in the background.

The outfield is familiar with Puckett and Dan Gladden, but now there's Shane Mack, whose development is complete after .326, 8, 44 in only 313 at-bats. His timing is good because Puckett dropped from the league batting title of .339 in '89 to .298 (12, 80). Puckett didn't hit a homer after July 15, so right field, which isn't as demanding, might be his position after four straight Gold Gloves in center. Gladden's .314 on-base percentage to go with .275, 5, 40 is not conducive to a leadoff hitter, but the Twins don't have much choice. He may be challenged by 21-year-old Pedro Munoz, who hit a combined .319 at two Triple A stops. Randy Bush (.243) is back, but Carmen Castillo will need to hit better than .219. The infield needs stabilization. First base-

The infield needs stabilization. First baseman Hrbek (.287) had fewer home runs (22) and RBIs (79) than the previous season, when he missed almost two months. Nelson Liriano (.234, 1, 28) from Toronto is the fifth second baseman since 1987 (after Steve Lombardozzi, Tommy Herr, Wally Backman and Fred Manrique). Third baseman Gaetti was granted new-look free agency. Although Gaetti slumped to .229, his departure would leave a huge void at third. Greg Gagne remains an underrated shortstop, but he dropped 36 points to .236 (7, 38). Gene Larkin (.269, 5, 42) has a grip on DH unless Paul Sorrento (.302, 19 homers at Portland) takes it away.

The championship series matched the Oakland Athletics, with the best pitching in the American League (3.18 ERA), against the Boston Red Sox, who led the A.L. in hitting (.272).

Oakland won its third division title in as many years and its ninth overall, posting baseball's best record (103-59) for the third straight season. The A's had lost three players from their 1989 World Series championship team (pitcher Storm Davis, designated hitter Dave Parker, and infielder Tony Phillips), but signed free-agent pitcher Scott Sanderson last winter and acquired infielder Willie Randolph from Los Angeles in May and DH Harold Baines from Texas and center fielder Willie McGee from St. Louis in late August. Consistent throughout the season, the A's won 51 games in the first half and 52 in the second and finished 10 games ahead of the Chicago White Sox in the West.

Boston captured its second division title in three years and its third in five years after holding off the Toronto Blue Jays in the East. The Red Sox added a winning attitude when they signed free-agent catcher Tony Pena and reliever Jeff Reardon and obtained sluggers Tom Brunansky from St. Louis and Mike Marshall from the New York Mets and reliever Larry Andersen from Houston. Those five players contributed 10 years of

postseason experience.

The A's swept the series in four games—outscoring (20-4), outhitting (.299-.183), outpitching (1.00 ERA to 4.50), outfielding (.993-.967), and overpowering the Red Sox—just as they did in their previous meeting in 1988, extending their winning (and Boston's losing) streak in the postseason to 10 games. It was the third consecutive pennant for Oakland and the 16th in the history of the franchise.

GAME 1 Oakland 9, Boston 1

The series opened in Fenway Park and featured two of the premier pitchers in baseball in Dave Stewart and Roger Clemens, Stewart achieved a career high in victories (22-11 record) and a career-low ERA (2.56), threw a no-hitter on June 29, and became the first pitcher since Jim Palmer in 1975-78 to win 20 games four years in a row. Four of those victories in 1990 came at the expense of the Red Sox, three against their ace, Clemens (21-6), who posted a league-low 1.93 ERA. Clemens was unbeaten in August, with four shutouts, then sat out most of September with tendinitis in his right shoulder. In his absence, a 61/2-game Boston lead in the A.L. East evaporated. Clemens did return to throw six shutout innings against Toronto during a climactic series on the final weekend of the season.

Clemens held the A's scoreless in the opener before tiring and having to leave the game after six innings. His 1-0 lead (thanks to a Wade Boggs home run in the fourth) disappeared immediately when five Boston relievers surrendered nine hits, five walks, and nine runs. Larry Andersen, who provided solid relief for the Red Sox after being acquired from the Houston Astros on August 31, walked Mark McGwire to open the seventh. Walt Weiss forced McGwire at second base, went to third on a pinch-hit single by Jamie Quirk, and scored the tying run on a sacrifice fly by Rickey Henderson. When An-

dersen issued a leadoff walk to Jose Canseco in the eight, he was replaced by Tom Bolton, who was greeted by cleanup hitter Harold Baines's first sacrifice bunt since 1984. Jeff Gray came in to pitch to Carney Lansford, who watched Canseco steal third base before sending him home with a single on an 0-2 count.

The A's sent 11 batters to the plate, seven of whom scored, in the ninth inning to break open the game. Stewart, who yielded just three singles after the fourth inning, picked up his ninth straight victory over the Red Sox and raised his career record against Clemens to 7-1.

GAME 2 Oakland 4, Boston 1

In an apparent mismatch, Boston sent 29year-old rookie Dana Kiecker (8-9, 3.97) against Oakland's Bob Welch, whose 27 victories were the most in the American League since Denny McLain's 31 in 1968, While Welch set a playoff record with his seventh start, Kiecker became the first Boston rookie

to start a postseason game since Gary Waslweski in 1967. Yet Kiecker acquitted himself well, departing a 1-1 game in the sixth inning. It was the Boston bullpen which was overmatched, for the A's reached three relievers for six hits and three runs in the final three innings.

The Red Sox scored their run in the third when Luis Rivera doubled, took third on a groundout, and scored on a sacrifice fly by Carlos Quintana.

The A's answered immediately when Mark McGwire led off the fourth inning with a dou-

ble and Harold Baines singled. They went ahead in the seventh. Singles by Mike Gallego and Rickey Henderson chased Greg Harris. Larry Andersen induced a grounder from Willie McGee to force Henderson at second. Jose Canseco walked to load the bases and Baines hit a hard grounder inside the first-base line. Quintana smothered the ball and got the out at first base while Gallego crossed the plate.

The A's added a pair of runs against Jeff Reardon in the ninth on a bunt single and stolen base by McGee, a walk to Canseco, a double by Baines, and a single by McGwire. Welch received relief help in the eighth from Rick Honeycutt and Dennis Eckersley, the latter of whom picked up his ninth postseason save, breaking a record he had shared with Tug McGraw and Rollie Fingers.

GAME 3 Oakland 4, Boston 1

The series shifted to Oakland, where the A's moved within one game of the pennant with their second straight 4-1 victory.

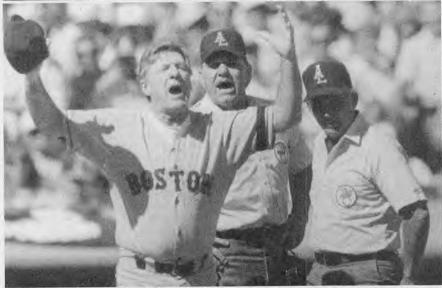

Oakland manager Tony La Russa made a number of changes in his lineup. With Walt Weiss sidelined by a sprained knee suffered in Game 2, Mike Gallego shifted to shortstop and Willie Randolph played second base. Dave Henderson, who missed 27 games after hurting his knee in August, replaced Willie McGee in center field. The adjustments paid off for Oakland as Randolph and Henderson, with eight years of postseason experience between them, combined for three hits and three RBIs.

Boston manager Joe Morgan stayed with the same lineup he had used in the first two games but looked to reverse his team's for-

Dave Stewart (left) won two games and the A.L.C.S. MVP; Terry Steinbach scored the final run in Game 3.

tune with Mike Boddicker (17-8, 3.36), who was unbeaten in his final nine regular-season starts. "I like big games. I enjoy pitching in them," admitted Boddicker. "I'd rather be pitching than sitting there watching." Moreover, Mike Moore, the A's starter, had lost his last six decisions to Boston.

The Red Sox, for the third straight time, scored first, with a solo run in the second inning. But as happened in the two previous games, it was to be their only run. Mike Greenwell drew a one-out walk, went to third on a single to center by Dwight Evans and home on a sacrifice fly by Tom Brunansky.

The A's got a pair of runs in the fourth.

The A's got a pair of runs in the fourth. Jose Canseco led off with a walk and took second on a single by Harold Baines. Both players advanced on a double steal—catcher Tony Pena's throw to third hit the base—as Mark McGwire struck out. Henderson delivered a sac fly and, following a walk to Terry Steinbach, Randolph blooped a single to right-center field.

The A's closed out the scoring with two unearned runs in the sixth. Baines reached

first when shortstop Luis Rivera misplayed his grounder. Greenwell then reached over the left-field fence to steal a home run from McGwire, with Baines moving to second after the catch. Henderson was hit by a pitch but forced out at second on a grounder by Steinbach, as Baines took third. Randolph bounced a single over Boddicker's head and into center field, sending Baines home and Steinbach to third. With Gallego at bat, Randolph broke for second base; he stopped midway after Pena threw to Jody Reed, who then returned the throw home, catching Steinbach on the delayed double steal. But Steinbach jarred the ball loose from Pena for the final run.

Three Oakland relievers—Gene Nelson, Rick Honeycutt, and Dennis Eckersley—shut out Boston over the last three innings.

GAME 4 Oakland 3, Boston 1

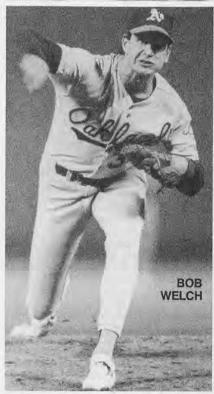

In an attempt to stave off a playoff sweep by Oakland, Boston sent Roger Clemens against Dave Stewart in a rematch of opening-game pitchers. Clemens, whose shoulder injury caused him to miss more than three weeks of action in September, had shut out the A's in his previous start before tiring and leaving the game after six innings. But in Game 4 it was a lack of control and composure rather than stamina that prevented Clemens from finishing what he began. He was ejected in the second inning by umpire Terry Cooney, at whom Clemens directed personal remarks in a disagreement over the strike zone.

The A's reached Clemens for a run prior to his departure. With one out in the second, Carney Lansford singled to center, raced to third on a single to left by Terry Steinbach (who took second on outfielder Mike Greenwell's error), and scored on a fielder's choice groundout by Mark McGwire. Willie Randolph followed with a walk, which prompted the acrimony from Clemens and the banishment by Cooney.

"It's like throwing Joe Montana out of the Super Bowl!" cried Boston's Marty Barrett, who was ejected after throwing containers from the dugout onto the field in protest.

Mike Gallego greeted the hastily summoned reliever Tom Bolton with a double to score McGwire and Randolph.

Stewart shut out the Red Sox on two singles (by Wade Boggs) through the first eight innings. When he surrendered a leadoff double to Ellis Burks and a single to Jody Reed (Boston's first hit of the series with a runner in scoring position), he was replaced by Rick Honeycutt, who preserved the second victory of the series and the seventh overall in postseason play for Stewart, who was named the Most Valuable Player.

NATIONAL LEAGUE Cincinnati Reds vs. Pittsburgh Pirates

After monopolizing the playoffs during the 1970s, with six division titles apiece, the Cincinnati Reds and the Pittsburgh Pirates were the only two National League teams to fail to qualify for postseason play in the '80s. But they met each other last October for the first time since 1979.

The Reds, first in hitting (.265) and fielding (.983) and second in pitching (3.39) in the N.L., led the West from opening day. They raced to a 10-game lead in early June and a 50-29 mark at the All-Star break before stumbling in the second half of the season (41-42), holding on to beat the Los Angeles Dodgers by five games.

The Pirates, fifth in hitting (.259), eighth in fielding (.979), and third in pitching (3.40), were more consistent, with 49 victories in the first half and 46 in the second. They took possession of first place for good on August 4 and edged the New York Mets in the East by four games.

The Reds split the first two playoff games at home, took two of three in Pittsburgh and Game 6 back in Cincinnati for their first pennant since 1976 and their ninth overall. The bullpen, so instrumental in the Reds' success throughout the season, permitted just nine Pirate hits and one earned run in 18½ innnings. Randy Myers, with three saves, and Rob Dibble, with one, shared Most Valuable Player honors.

GAME 1 Pittsburgh 4, Cincinnati 3

Having used his ace, Doug Drabek, to secure the division title just four days earlier, Pittsburgh manager Jim Leyland sent Bob Walk (7-5, 3.75) opposite Jose Rijo (14-8, 2.70), Cincinnati's best pitcher, in the opener. Walk had postseason experience, having started Game 1 of the 1980 World Series as a rookie with Philadelphia. And he was unbeaten in four career decisions at Cincinnati's Riverfront Stadium. But Walk ran into trouble immediately against the Reds, who scored three runs in their first at-bat. Barry Larkin walked, went to second on a sacrifice by Billy Hatcher, and raced home on a single by Hal Morris. Eric Davis doubled in Morris and took third on right fielder Boby Bonilla's bobble, then scored on a double by Paul O'Neill. But Walk shut down Cincinnati on one single over the next five innings before turning the game over to the Pittsburgh bullpen (Stan Belinda, Bob Patterson, and Ted Power), which permitted just one hit.

The Pirates got a run in the third on a walk to Mike LaValliere and a triple by Jose Lind and tied the game an inning later when, with two out, Barry Bonds walked and Sid Bream homered—after nine pickoff attempts by Rijo. The Bucs passed the Reds in the seventh, against reliever Norm Charlton, thanks to a pinch-hit single and stolen base (Gary Redus), another two-out walk (Jay Bell), and a misplay in left field by Davis, who back-pedaled after Andy Van Slyke's fly ball that bounced on the warning track and over the fence for a ground-rule double.

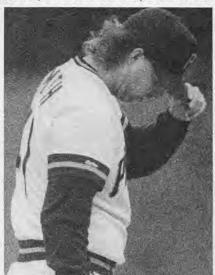

The Reds threatened in the ninth, putting the first two batters on base (pinch-hit single by Todd Benzinger and walk to Davis). Ron Oester bunted back to the pitcher, Patterson, who got the first out at third. Bill Bates ran for Oester and Power relieved Patterson. The Reds then attempted a double steal. Davis took third base but LaValliere, the Pittsburgh catcher, threw out Bates at second. Chris Sabo struck out to end the game.

GAME 2 Cincinnati 2, Pittsburgh 1

Pittsburgh sent its best pitcher, Doug Drabek (22-6, 2.76), against Cincinnati's biggest winner, Tom Browning (15-9, 3.80). A clutch performer in the heat of the pennant race, Drabek won 14 of his last 16 decisions; Browning enjoyed success earlier in the season and faltered in the stretch, with five victories against four losses. But it was Browning, with relief help from Rob Dibble and Randy Myers, and offensive and defensive contributions from right fielder Paul O'Neill, who earned the win.

For the second night in a row, the Reds struck in the first inning. Barry Larkin walked, stole second, went to third on a single by Herm Winningham, and scored on a bloop single by O'Neill.

The Pirates tied the game when Jose Lind led off the fifth with a home run (the fifth of his career). But Cincinnati recaptured the lead

Paul O'Neill (above right) drove in both runs in Game 2 for the Reds; Pittsburgh's Zane Smith (above) gave up five runs in Game 3.

in their half of the inning. Larkin singled with one out, then was forced at second on a grounder by Winningham, who promptly stole second. O'Neill followed with a long drive to left. Outfielder Barry Bonds, fighting the late-day sun, could not catch the ball, which hit the base of the fence for a runscoring double.

O'Neill made the defensive play of the game in the top of the sixth. Leadoff singles by Andy Van Slyke and Bobby Bonilla put Pirate runners on first and second. Bonds flied out to right field to O'Neill, who threw a strike to third base to overtake Van Slyke, who had tried to advance after the catch.

GAME 3 Cincinnati 6, Pittsburgh 3

The playoffs moved to Pittsburgh, where Cincinnati gained the advantage with its second victory. Two left-handers opposed each other: the Reds' Danny Jackson (6-6, 3.61), who thrived in the postseason in 1985 with Kansas City, and Zane Smith (12-9, 2.55), who won six of eight decisions (with a 1.30 ERA) after Pittsburgh acquired him in August from Montreal. Smith surrendered eight hits and five runs in five innings. Jackson barely outlasted him, leaving after 51/3 innings with a lead the bullpen protected.

The Reds received a boost from two unlikely power sources. Billy Hatcher provided a two-run homer in the second inning and Mariano Duncan a three-run homer in the fifth. In between those blows the Pirates had struck for a pair of runs in the fourth on two doubles (Jay Bell and Carmelo Martinez) sandwiched around a walk (Andy Van Slyke) and a single (Bobby Bonilla). The Pirates added an unearned run in the eighth against Norm Charlton on an infield single (Barry Bonds), a walk (Don Slaught), a fielder's choice, and a throwing error by Duncan. But Duncan atoned for his misplay in the ninth with his third hit and fourth RBI of the day. Randy Myers struck out the side in the bottom of the ninth for his second save.

GAME 4 Cincinnati 5, Pittsburgh 3
In his rematch with Bob Walk, Jose Rijo received offensive support from Paul O'Neill and Chris Sabo, who supplied home runs, and defensive excellence from outfielders Billy Hatcher and Eric Davis, who threw out

two Pittsburgh base runners, as the Reds won their third straight game.

The Pirates reached Rijo for a run in the first on a double by Wally Backman and groundouts by Jay Bell and Andy Van Slyke.

The Reds went ahead in the fourth. With one out, O'Neill homered, Davis and Hal Morris singled, and Sabo hit a sacrifice fly. But the Pirates tied the game in their half of the inning on a single and stolen base by Van Slyke and a double by Sid Bream. Following an intentional walk to Mike LaValliere, Jose Lind singled to center field. When Bream tried to score, he was cut down at home on a strong throw by Hatcher.

The Reds regained the advantage in the seventh on a single by Morris and a home run by Sabo. When the Pirates cut that lead in half in the eighth on a leadoff home run by Bell, Cincinnati manager Lou Piniella went to his bullpen. Left-hander Randy Myers retired Van Slyke but surrendered a double to Bobby Bonilla to left-center field. When Bonilla tried to stretch the hit into a triple, he was thrown out at third base by Davis. A subsequent single by Barry Bonds thus was harmless and Bream struck out to end the inning.

Randy Myers (below) shared MVP honors in the N.L.C.S. with Rob Dibble (far left).

Cincinnati added a run in the ninth on a double by Morris (his third hit of the night), a single by Sabo, an intentional walk to Todd Benzinger, and a sac fly by Luis Quinones.

Rob Dibble set down the Pirates in order in the ninth for the save.

GAME 5 Pittsburgh 3, Cincinnati 2 The Pirates won their second game, behind Doug Drabek, to send the championship series back to Cincinnati.

Drabek surrendered a run in the first inning on a leadoff double by Barry Larkin, who took third on Drabek's errant pickoff throw and scored on Herm Winningham's sacrifice fly. But over the next six innings, Drabek gave up just two singles and did not allow a runner to reach second base. In the eighth, Mariano Duncan singled with one out and was forced at second on a grounder by Luis Quinones, who went to second on Drabek's wild pitch and scored on Larkin's second double of the game.

The Pirates, in the meantime, had collected a pair of runs off Tom Browning in the first when Jay Bell was hit by a pitch, Andy Van Slyke tripled, Bobby Bonilla walked, and Barry Bonds grounded out. They got their

third run in the fourth on a walk (Bonds), a hit-and-run single (R.J. Reynolds), and a sac fly (Don Slaught).

The Reds mounted a threat in the ninth. Paul O'Neill and Eric Davis singled and Hal Morris advanced them with a sacrifice bunt. Bob Patterson replaced Drabek and issued an intentional walk to Chris Sabo to load the bases. Jeff Reed then bounced a grounder between third and shortstop that was cut off by Bonilla, who threw to second for the start of a game-ending double play.

GAME 6 Cincinnati 2, Pittsburgh 1

The series returned to Cincinnati, where Danny Jackson, Norm Charlton, and Randy Myers one-hit the Pirates and Luis Quinones delivered a tie-breaking pinch hit in the seventh inning that gave the Reds their first pennant in 14 years.

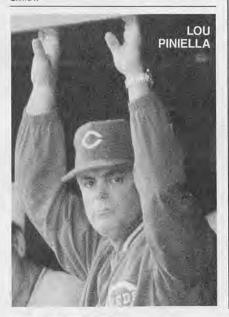

The Pirates started right-hander Ted Power, whose 42 appearances during the regular season had all been in relief, rather than left-hander Zane Smith, the scheduled starter, who had been hit hard in Game 3.

Power, through a lack of defensive support, yielded a run in the first inning. Barry Larkin reached base when his ground ball was bobbled by shortstop Jay Bell, stole second and continued to third on catcher Don Slaught's throwing error, and scored on a fielder's choice.

Pittsburgh tied the game in the fifth when Barry Bonds (the first Pirate base runner) walked and Carmelo Martinez doubled.

Cincinnati regained the lead in the seventh against Smith, who had replaced Power in the third inning. Ron Oester opened with a single, Larkin popped up a bunt, and Billy Hatcher singled. Manager Lou Piniella then removed his leading hitter, Paul O'Neill (.417), for Quinones, who lined a 3-2 pitch to right field to score the tie-breaker.

The Pirates mounted a final challenge in the ninth. With one out, Bonds walked. Martinez drove a fastball by Myers to right field, where Glenn Braggs, inserted for O'Neill an inning earlier, made a leaping catch in front of the fence to rob Martinez of an apparent two-run homer. Don Slaught struck out to end the series.

Barry Larkin slid home with the Reds' third run in Game 1.

The 87th World Series featured the Oakland Athletics, who swept the Boston Red Sox in four games to win their third consecutive American League pennant, against the Cincinnati Reds, National League champions for the first time in 14 years after they defeated the Pittsburgh Pirates in six games.

In their first postseason meeting since 1972, the Reds made short work of the A's, overpowering them in four straight games. So dominant was the Cincinnati pitching that it held the Oakland offense to eight runs in all and none after the third inning. Center fielder Billy Hatcher, who had an unprecedented seven straight hits in the Series, also set a record for highest average (four games)-.750. But it was his teammate, right-hander Jose Rijo, with victories in Games 1 and 4, who won the Most Valuable Player honors.

GAME 1 Cincinnati 7, Oakland 0

It couldn't match the drama provided by Kirk Gibson in the opening game of the 1988 World Series, but Eric Davis stunned the Oakland A's with a first-inning home run, propeling the Reds to a 7-0 victory.

Seeking to become the first team since the 1977-78 New York Yankees to win back-toback Series titles, Oakland started its ace, Dave Stewart, who had won seven of his eight postseason decisions with a 1.98 ERA. But Stewart lacked his customary control, repeatedly falling behind in the count. He walked Billy Hatcher in the first inning; one out later, Davis became the 22nd player to hit a home run in his first Series at-bat. Stewart walked Barry Larkin to lead off the third inning. Hatcher then lined a run-scoring double (the first of his three hits) to left field and took third when shortstop Mike Gallego's relay throw sailed over home plate. Hatcher scored on a high chopper to the mound.

Cincinnati broke the game open with three runs off reliever Todd Burns in the fifth on a double (Hatcher), a walk (Paul O'Neill), a groundout, and a single (Chris Sabo). The Reds' starter, Jose Rijo, shut out his ex-teammates-he was traded in 1987-for seven innings before entrusting the game to Rob Dibble and Randy Myers.

A frustrated Rickey Henderson struck out twice in Game 4; Billy Hatcher set a Series record with seven straight hits.

GAME 2 Cincinnati 5 Oakland 4

Billy Hatcher, who went 3-for-3 in the opening game, set a World Series record with his seventh straight hit, and four Cincinnati relievers shut out Oakland over the final 71/3 innings. But it took three consecutive singles off Dennis Eckersley in the tenth inning to give the Reds their second victory in one of the more exciting Series games in recent years.

Oakland struck immediately against Danny Jackson, the only Cincinnati player with any previous World Series experience (1985 Kansas City Royals). Rickey Henderson singled, stole second base, went to third on a sacrifice by Carney Lansford, and scored on a groundout by Jose Canseco.

The Reds countered in their half of the first inning with two runs off Bob Welch, baseball's biggest winner in 1990 (27-6). Barry Larkin led off with a ground-rule double and scored on a double by Hatcher, who tagged up and advanced to third after Paul O'Neill flied out, then scored on a groundout by Eric Davis.

The A's chased Jackson in the third, scoring three runs on a homer (Canseco), a single (Mark McGwire), two walks (Dave Henderson and Willie Randolph), a sac fly (Ron Hassey), a throwing error by catcher Joe Oliver, and a single (Mike Gallego). But the A's managed just four harmless singles against Scott Scudder, Jack Armstrong, Norm Charlton, and Rob Dibble the rest of the way.

Cincinnati crept closer to Oakland with a run in the fourth on a double by Oliver and a pinch-hit RBI-single by Ron Oester. The score remained 4-3 until the eighth-a positive sign for the A's, who were 91-2 in games they led after seven innings. But Hatcher led off with his record seventh consecutive hit, a drive to right field that glanced off Canseco's glove for

a triple. O'Neill walked and Davis flied out, after which Rick Honeycutt replaced Welch. Glenn Braggs, batting for Hal Morris, grounded to shortstop; when the A's could not turn the double play, Hatcher scored the tying run.

The game went to extra innings, the first in the World Series since 1986, and the Reds got some improbable heroics against Dennis Eckersley in the tenth. Bill Bates, on the postseason roster for the injured Bill Doran, batted for reliever Rob Dibble and beat out an infield single. It was his first hit for Cincinnati after being obtained from the Milwaukee Brewers in June. Chris Sabo singled to left field and Oliver collected the third hit in a row, a bouncer inside the third-base line that scored Bates with the winning run.

GAME 3 Cincinnati 8, Oakland 3

The World Series went west, where Oakland had won 51 games during the regular season. But the change of scenery did not help the

Attenby Harold Baines, then fell behind again for good when the Reds hit for the cycle and scored seven runs in the third: two singles (Billy Hatcher and Eric Davis) sandwiched around an error by first baseman Mark McGwire, Sabo's second homer, a single (Todd Benzinger), a wild pitch by Scott Sanderson, a double (Joe Oliver), a single (Mariano Duncan), and a triple (Barry Larkin).

Rickey Henderson's home run in the bottom of the third closed out the scoring.

GAME 4 Cincinnati 2, Oakland 1

The Cincinnati Reds survived the loss of outfielders Billy Hatcher and Eric Davis and extended their World Series winning streak to nine games (they won Game 7 in 1975 and four straight in '76) as they swept the Oakland A's to gain the fifth championship in the history of their franchise

Eric Davis homered in Game 1 off Dave Stewart (top), who lost twice to Series MVP Jose Rijo (right).

aStruck out for Gallego in seventh, bStruck out for Bordick in ninth. Errors—McGwire. Oliver Double plays—Gallego, Randolph and McGwire; Randolph and McGwire. Left on base—Cincinnati 9, Oakland 6. Two-base hits—D. Henderson, Oliver. Three-base hit-Larkin. Home runs-Sabo 2, Baines, R. Hender son, Stolen bases—Duncan, O'Neill, R. Henderson, Randolph, Wild pitches—Sanderson, Burns, Umpires—Quick (N.L.) plate, Hendry (A.L.) first base, Marsh (N.L.) second base, Froemming (N.L.) third base, Pulli (N.L.) left field, Roe (A.L.) right field. Time—3.01. Attendance—48,269.

Dibble (W)

Jose Rijo, who won the opener, surrendered a run in the first inning on a double by Willie McGee and a single by Carney Lansford. He then retired the next 20 A's before turning the game over to Randy Myers.

Dave Stewart, Rijo's opponent in Game 1, shut out Cincinnati for the first seven innings, but he made a costly late error that led to two runs and his second Series setback. Barry Larkin led off the eighth with a single. Herm Winningham, a first-inning replacement for Hatcher, who was hit on the hand by a pitch, then dropped an 0-2 bunt between home and the mound and beat catcher Jamie Quirk's throw to first for a hit. Paul O'Neill bunted the next pitch back to Stewart, whose throw to first pulled Willie Randolph off the base. Glenn Braggs, subbing for Davis, who was injured when he attempted to make a diving catch in the first inning, grounded into a 6-4 force as Larkin scored the tying run. Hal Morris followed with a sacrifice fly.

In the ninth, Rijo struck out Dave Henderson before being removed for Myers. Jose Canseco, benched at the start of the game, batted for Harold Baines and grounded out and Lansford fouled out to end the Series.

So real... it's awesome!

Call 1-800-63-STATS

MONEY BACK GUARANTEE

Bill James, Baseball's top analyst, has devised a game that is so real, about all that's missing is the hot dog vendor! All you need to play is a love for baseball and the desire to have fun by managing your team to the 1991 World Series! You're just a phone call away. It's that easy!

You have daily access to fantasy experts, a 7-day, 24-hour "hot line," even a computer online. Join fans of all ages by calling 1-800-63-STATS or write Bill James Fantasy Baseball, 7366 N. Lincoln, Lincolnwood, IL 60646 for your FREE info kit. Start your 1991 Season now!

STATBOOK FANTASY

Statbook Fantasy Baseball is the software solution to maintain your fantasy stats. Choose from over seventy statistics for your scoring categories including user-defined stats. Easy input of player stats or if desired automatic input from online sources such as Computer Sports World. Advanced reporting features including team standings, team/player stats, free-agent player pool, team leaders, transaction summaries and more. Easy drafting of players and recording of transactions for the releasing/waiving, disabling, reserving, signing and trading of players. Price \$59.

BASEBALL STATBOOK

Find out what hundreds of satisfied customers have alread found out: that The Baseball Statbook is simply the most advanced baseball software stat system money can buy. There is no limit to the number of teams or players you can maintain. Keeps over seventy system-defined stats plus support of additional user-defined stats. Print out player stats and team or league leaders for both lifetime and year-to-date totals. In addition to the many system-defined reports, supports unlimited user-defined reports. Price \$69.

ORDERING INFO: IBM PC or comaptible. To order by phone, call 203-878-0376. To order by mail, send order to: RJL Systems, 106 New Haven Ave., Milford, CT 06460. MasterCard/Visa or check accepted. For additional information call or write.

Finally!

WANTED... a fantasy competition that is casual and inexpensive, but still a true test of my skills at managing a team...

The Baseball Forecaster Challenge is a competition for the intelligent fan. Fantasy baseball with a few strategic twists. It's for fans who...

- Know the players, the numbers and the trends... Those who do the best job of projecting performance will finish ahead of the pack. Period.
- Enjoy a challenge that gives them complete control... It's a competition that requires planning, strategy and timing. You must weigh the benefits and the costs of every move you make.
- Want to set their own level of participation... casual or aggressive.
 Either approach can work just as well.
 So, there's no need to put your marriage, job or bank account on the line.

The Baseball Forecaster Challenge -- The Thinking Fan's Competition!

MINOR LEAGUES

by BOB SNYDER SYRACUSE HERALD-JOURNAL

Now that you have read all about the talent at the highest level in baseball and our projections on the incoming rookie class, we offer this preview of the Minor Leagues. For all you fantasy league operatives and/or prospective general managers, we have selected the Street & Smith's Baseball Minor League All-Star Teams, one for each level: Triple A, Double A, and Class A.

One problem: what to do with a kid such as Alex Fernandez? How does one classify a pitcher who worked 121 innings at Miami-Dade South, 49½ innings for Chicago's Rookie and Class A teams in Sarasota and Birmingham, and then split 10 decisions over 87½ innings for the White Sox in 1990? Guess we just call him a major leaguer and try to classify those players who stayed more rooted to the minors last season.

Sangers Ta With that in mind, and knowing how so few minor leaguers spend an entire summer with one affiliate, here are our position-by-position selections of the best young talent. A number of last year's brightest stars have already made a mark with the parent club.

TRIPLE A

Catcher

Tim McIntosh, Milwaukee (.288, 18 HR, 74 RBI, 16 SB at Denver) A converted outfielder, McIntosh has much to learn behind the plate. He committed 19 errors at Denver; in his major-league debut, he was charged with a run-scoring passed ball and a throwing error that allowed another run to score. But he can hit, possesses a quick, short swing, and makes consistent contact. First Base

Tino Martinez, Seattle (.320, 17, 93 at Calgary) This 1988 Olympian hits line drives from the left side and is good around the bag. Martinez gets the nod narrowly over Baltimore's David Segui (.336 at Rochester), a switch hitter who had just two home runs. Second Base

Todd Haney, Seattle (.339, 16 SB at Calgary) The most difficult position to select in Triple A. Haney is the choice over Paul Faries of the San Diego Padres (.311, 109 runs, 47 stolen bases at Las Vegas).

Third Base

Leo Gomez, Baltimore (.277, 26, 97 at Rochester) The International League RBI leader plays hard all the time. He's been the most productive power hitter in the Orioles' system for the past three full seasons. Shortstop

Jose Öfferman, Los Angeles (.326, 11 3B, 60 SB at Albuquerque) An easy decision. An

ideal leadoff man, Offerman is a switch hitter who led the Pacific Coast League in stolen bases. Yes, he made 36 errors in 117 games, but Offerman has a gun for an arm and has more range than most shortstops. Outfield

Hensley Meulens, New York Yankees (.285, 26, 96 at Columbus) He's always had a reputation as a power hitter. And now, after flunking defensively at third base, he's found a home in left field and is making great improvement with the glove.

Juan Gonzalez, Texas (.258, 29, 101 at Oklahoma City) When a Triple A rookie leads the American Association in home runs and RBIs, you dismiss his modest batting average, particularly because he started slowly at the plate. Gonzalez has all the tools and displayed them at the Triple A AII-Star Game, when he won the home-run-hitting contest and then homered in the ball game.

Mark Whiten, Toronto (.290, 14 HR, 14 SB at Syracuse) O.K., so he drove in only 48 runs. Whiten did spend a lot of time with the Blue Jays. A switch hitter, he can throw, run, and hit the long ball. The best of the rest was Boston's Phil Plantier (.253, 33, 79 at Pawtucket), who must elevate his defense and cut down on his strikeouts.

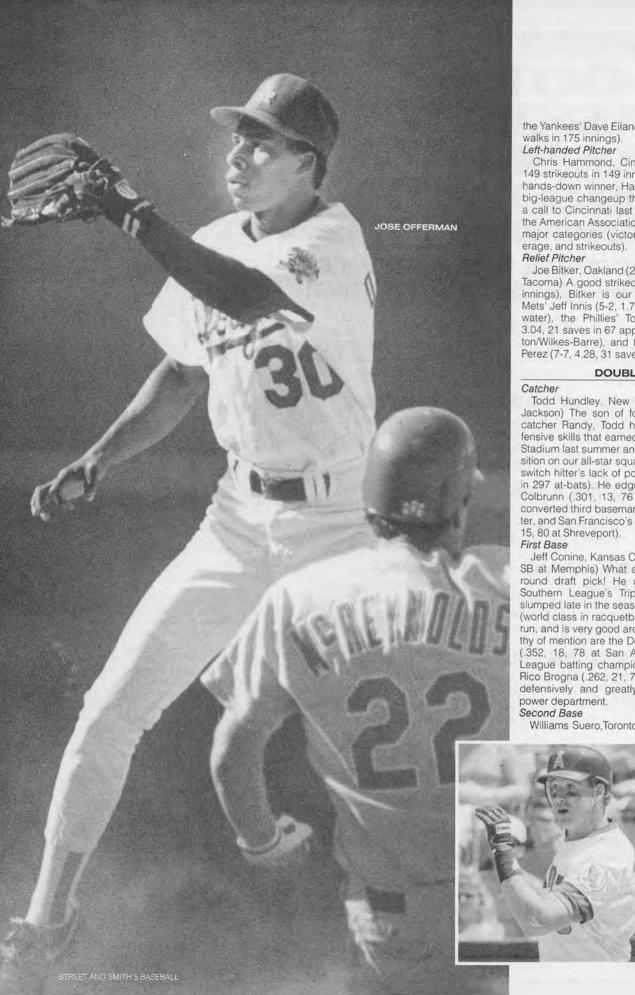

Designated Hitter

Chris Hoiles, Baltimore (.348, 18 HR at Rochester) His bat took him to the big leagues. And it will have to keep him there because as catchers go, Hoiles is either a future first baseman or a full-time DH. But can he hit! Those 18 homers came in just 247 at-bats. Also worthy of note was San Francisco's Mark Leonard (.333, 19, 82 at Phoenix), whose defensive skills in the outfield are suspect

Right-handed Pitcher

Scott Chiamparino, Texas (13-9, 3.28 ERA at Tacoma) Those stats may not turn heads, and the A's did trade him to the Rangers. But only because they wanted Harold Baines for the stretch run last season. Chiamparino was the choice here by a slim margin over

the Yankees' Dave Eiland (16-5, 2.87, just 32

Chris Hammond, Cincinnati (15-1, 2.17, 149 strikeouts in 149 innings at Nashville) A hands-down winner, Hammond displayed a big-league changeup that helped earn him a call to Cincinnati last season. He still led the American Association in a starter's three major categories (victories, earned-run av-

Joe Bitker, Oakland (2-3, 3.20, 26 saves at Tacoma) A good strikeout pitcher (52 in 56 innings), Bitker is our selection over the Mets' Jeff Innis (5-2, 1.71, 19 saves at Tidewater), the Phillies' Todd Frohwirth (9-7, 3.04, 21 saves in 67 appearances at Scranton/Wilkes-Barre), and the Cardinals' Mike Perez (7-7, 4.28, 31 saves at Louisville).

DOUBLE A

Todd Hundley, New York Mets (.265 at Jackson) The son of former major-league catcher Randy, Todd has exceptional defensive skills that earned him a call to Shea Stadium last summer and the first-string position on our all-star squad. That despite the switch hitter's lack of power (one home run in 297 at-bats). He edged Montreal's Greg Colbrunn (.301, 13, 76 at Jacksonville), a converted third baseman who is a better hitter, and San Francisco's Steve Decker (.293,

Jeff Conine, Kansas City (.320, 15, 95, 21 SB at Memphis) What a year for the 58thround draft pick! He challenged for the Southern League's Triple Crown until he slumped late in the season. A terrific athlete (world class in racquetball), Conine can hit, run, and is very good around first. Also worthy of mention are the Dodgers' Eric Karros (.352, 18, 78 at San Antonio), the Texas League batting champion, and the Tigers' Rico Brogna (.262, 21, 77), who is topnotch defensively and greatly improved in the

Williams Suero, Toronto (.263, 16, 60, 40

MINOR LEAGUES

SB at Knoxville) Suero has good power for a little guy and finished one shy of the Southern League stolen-base title. He rates a slight edge over Minnesota's Chuck Knoblauch (.290, 23 SB at Orlando).

Third Base

Jeff Bagwell, Houston (.333, 61 RBI at New Britain) In his first full pro season, Bagwell was the Eastern League's MVP and its No. 2 hitter. The Red Sox traded him last summer (for Larry Andersen), but he's a future big leaguer for the Astros.

Shortstop
Mark Lewis, Cleveland (.272, 10, 60 at Canton) A No. 1 prospect, Lewis plays like a seasoned veteran. He hit over .300 the last

of recognition are Toronto's Eddie Zosky (.271 at Knoxville), a defensive whiz with a powerful arm, and Pittsburgh's Carlos Garcia (.277, 12 SB at Harrisburg), another standout with the glove.

Outfield

Henry Rodriguez, Los Angeles (.291, 28, 109 at San Antonio) The Texas League homer/ribby champ, he's destined for the Dodgers as an outfielder or first baseman.

Bernie Williams, Yankees (.281, 39 SB at Albany) A switch hitter, he returned to the Eastern League in 1990 and displayed fine

coverage in center field.

Tom Goodwin, Los Angeles (.278, 60 SB at San Antonio) His power is zip (not a home run in 428 at-bats), but Goodwin produced a minor-league-high 82 stolen bases (20 earlier at Bakersfield) in his first full year as a pro. His offense is still in the potential category, but he can run, on the bases and in the outfield, where he has shown acrobatic skills. Also: San Diego's Mike Humphreys (.276, 17, 79, 27 SB at Wichita).

Designated Hitter

Frank Thomas, White Sox (.323, 18, 71 at Birmingham) If Offerman wasn't 1990's best minor leaguer, Thomas was. Chicago's first pick in '89 nearly made the parent club last spring, tore up Double A (.545 slugging, .476 on-base percentage, 112 walks in 109 games), and finally joined the Sox for 60 games (.330, 7 HR, 31 RBI, 44 walks).

Right-handed Pitcher

Anthony Young, Mets (15-3, 1.65 ERA, 6.6 hits per 9 innings) Another in a long line of talented pitchers developed by New York,

STREET AND SMITH'S BASEBALL

Young led the Texas League in victories and ERA. His stuff, athleticism, and competitive nature make one wonder why he was just a 38th-round draft pick. Also: Seattle's Mike Gardiner (12-8, 1.90 at Williamsport), a member of Canada's 1984 Olympic team, has excellent control; Minnesota's Scott Erickson (8-3, 3.03), who jumped to the big leagues after 15 starts in Double A.

Left-handed Pitcher

Brian Barnes, Montreal (13-7, 2.77, 9.55 strikeouts per 9 innings at Jacksonville) Only 5-foot-9 and 170 pounds, Barnes showed his strength in his first full pro season by leading the Southern League in strikeouts (213) and innings (201). He is only the second pitcher to fan more than 200 in the S.L. since 1973. Barnes is also polished enough to throw off-speed pitches regardless of the count. He gets our nod over the Mets' Pete Schourek (11-4, 3.04 at Jackson), who won 16 games on three levels.

Relief Pitcher

Terry Bross, Mets (3-4, 2.64, 28 saves at Jackson) At 6-foot-9 and sporting a Fu Manchu mustache, the ex-St. John's basketball player was far more intimidating on the

mound than he was on the court. The righthander led the Texas League in saves. Also: Milwaukee's Chris George (8-3, 1.78, 13 saves at El Paso), who spent some time in Triple A last summer.

CLASS A

Catcher

Ivan Rodriguez, Cubs (.287 at Charlotte) Just a teen-ager, Rodriguez drew rave notices from Florida State League managers for his maturity and his arm. He projects as a good hitter. Also promising is the Dodgers' Bryan Baar (.285, 20, 71 at Bakersfield). First Base

First Base
Ryan Klesko, Atlanta (.274 at Durham)
First, he blistered the South Atlantic League.
Then, after a slow start in the Carolina
League, the free-swinging Klesko showed
why he's potentially a terrific hitter. Also:

STREET AND SMITH'S BASEBALL

If You Think Playing Games Should Be Fun, Then You'll Want To Play The Baseball Game

'MOST FUN TO PLAY'

Imagine a quick-playing, diceactivated tabletop baseball game so much fun to play that it features:

All 26 Major League Ballparks with play results affected by stadium dimensions, a wind factor, astroturf.

Defensive positioning of players so precise that you can actually adjust where each fielder plays to within 15 feet -- in, out, left, or right against pull hitters, bunts, plays at the plate, etc.

Umpires who rule on close plays, throw out players, and sometimes even disagree among themselves.

Injuries and freak events including serious mishaps both on and off the field; rainouts, rundowns, unusual errors and crazy plays like deflected hits, broken bat singles, power failures.

Add complete managerial control of 800+ players and you'll understand why our game is always the 'most fun to play.' You decide when to call for a count pickup, when to attempt a pick-off, when to bunt, swing away, and more. You even can try to roll for a rain out!

Each player is statistically rated for important offensive and defensive skills

including batting average, home runs, triples, clutch hits, speed, walks, strikeouts, times hit by pitch, errors, throwing arm, fielding range, etc. Pitchers are rated for innings of effectiveness, earned run average, K's and base-on-balls, ability to relieve, righty vs. lefty and lefty vs. right-handed batters, gopher balls allowed, and hit batsmen.

MINOR LEAGUES

Kansas City's switch-hitting Rich Tunison (.300, 86 RBI, 31 SB at Appleton) and Milwaukee 's Bo Dodson (.272 at Stockton), a defensive dandy.

Second Base

Tim Howard, Mets (.323, 10, 89, 30 SB at Columbia) Howard runs well (11 triples) and led the S.A.L. in batting and ribbies. He moved to third base during the season, yet most observers project him as a second baseman. He edged Toronto's Jeff Kent, who had a solid effort at Dunedin in the Florida State League (.295, 12, 70, 16 SB), for the spot on our all-star team.

Third Base

Gary Scott, Cubs (.295, 12, 70, 16 SB at Winston-Salem) Despite plenty of errors and a promotion to Double A, Scott earned Carolina League MVP honors. His offense was the reason. Seattle's Frank Bolick (.324, 18, 102 at San Bernardino) led the California League in runs batted in.

Shortstop

Royce Clayton, San Francisco (.267, 71 RBI, 33 SB at San Jose) A much improved offensive threat, Clayton has impressive defensive ability. Best of the rest; the Mets' Tito Navarro (.314, 50 SB at Columbia), Montreal's Willie Greene (.258, 11 HR at Augusta), who was traded by the Pirates in the Zane Smith package; and Atlanta's switch-hitting Ramon Carabello (.290, 14 triples, 41 SB at Burlington), whose big-league future could be as a second baseman.

Outfield

Reggie Sanders, Cincinnati (.285, 17, 63, 40 SB at Cedar Rapids) Displaying speed and power, Sanders made the switch from shortstop to the outfield with ease.

Greg Blosser, Boston (.282, 18, 62 at Lynchburg) While his defense needs work, Blosser—in high school in '89—has time to remedy that weakness. Right now, his prodigious home runs will carry him.

Kenny Lofton, Houston (.331, 62 SB at Osceola) Lofton earned a spot because he's a marvelous athlete. He played on the University of Arizona's Final Four basketball

ALEX FERNANDEZ

team in '89. But he needs to improve defensively. Also, Cincinnati's Scott Bryant (.264, 14 HR at Cedar Rapids). Had he spent more time in Class A, he might have won a spot, but Bryant advanced to Double A after just 212 at-bats in the Midwest League.

Designated Hitter

Nikco Riesgo, Mets (.298, 14, 94, 46 SB at St. Lucie) Because of his speed and his questionable play at first base, Riesgo could be tried in the outfield. San Diego's Dave Staton (.290, 64 RBI at Riverside) earned a promotion to Double A after smashing 20 homers in less than four months.

Right-handed Pitcher

Johnny Johnstone, Mets (15-6, 2.24 at St. Lucie) A 20th-round draft pick with 90 mph-plus heat and good control, Johnstone led the Florida State League in complete games. The Yankees' Frank Seminara (16-8, 1.90 at Prince William) led the Carolina League in victories and ERA. Also: San Diego's Tim Pugh (15-6, 1.88 at Charleston), San Francisco's Dan Rambo (12-2, 2.19 at San Jose), and Seattle's Roger Salkeld (11-5, 3.40 at San Bernardino).

Left-handed Pitcher

Randy Marshall, Detroit (20-2, 2.02 at Fayetteville/Lakeland) Marshall dominated the South Atlantic League (13-0, 1.33), walking just nine batters in 101 innings, then was 7-2, 3.00 in the Florida State League. He had a five-to-one strikeout/walk ratio. Best of the rest: Minnesota's Alan Newman (13-5, 1.75 at Kenosha/Visalia) struck out over 200 in over 190 innings in the Midwest and California Leagues and the Dodgers' Jason Brosnan (12-4, 3.11 at Bakersfield).

Relief Pitcher

Rich Garces, Minnesota (2-2, 1.81, 28 saves at Visalia) The premier performer in the California League, Garces had 75 strikeouts and 16 walks in 55 innings. Promoted to Double A, he added eight saves at Orlando. Yankee lefty Mike Gardella (4-3, 2.01, 31 saves at Prince William) averaged almost 11 strikeouts per nine innings.

ATLANTA BRAVES

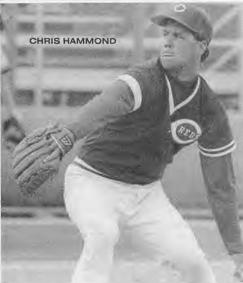

Known for their hard-throwing pitching prospects, the Braves-considered by some managerial pundits to have more future big leaguers than any organization-may have to find a spot in the rotation for a sinker-slider pitcher and former British-born military "brat." Paul Marak has fashioned earnedrun averages of 2.68, 3.03, and 2.49 at his last three stops up the minor-league ladder. Last season at Richmond (9-8), he won the ERA title, completing five of 16 starts and working 16 times in relief. His major-league debut was impressive (two earned runs in 71/3 innings), and a couple of starts later, he worked six shutout frames. Southpaw Steve Avery (5-5, 3.50 at Richmond) made 13 International League starts before going up to Atlanta. With his pitching tools all he needs now is experience. Behind the plate, the Braves are sold on the potential platoon of Kelly Mann (.316, 7 HR in 155 at-bats at Greenville in AA) and the left-handed-hitting Jay Kremers (.232 at Richmond in AAA). Lefty-swinging first baseman Mike Bell (.291, 10 stolen bases in AA) was a good

contact hitter at Greenville. Players for the future: No. 1 is clearly lefty-hitting first baseman Ryan Klesko (combined .315, 17, 85, 23 SB at Sumter in the South Atlantic League and Durham in the Carolina League). Preston Watson was 10-6, 2.42, 3 saves as a starter-reliever at Durham. Lefty Roger Haley (10-1, 1.94 at Sumter) has eye-popping numbers across the board: seven innings per start, 126 strikeouts, only 46 walks and 66 hits in 120 innings.

CHICAGO CUBS

Left-handed-hitting outfielder Derrick May (his father, Dave, played the outfield in the big leagues) is an '86 first-round pick who's been right on schedule climbing the farm-

system ladder. Last season in Triple A, he batted .296 and had 69 RBIs in the American Association, the fifth time in as many pro seasons he's hit at least .295. His fellow lowa outfielders—Brad Bierley (.296, 16, 71) and lefty-swinging singles hitter Cedric Landrum (.296, league-leading 46 SB)—also had productive AAA seasons; ditto, switchhitting middle infielder Greg Smith (.291, 26 SB), who was traded to the Dodgers, and reliever Dave Pavlas (8-3, 3.26, 8 saves).

Lefty-swinging catcher Rick Wilkins (.227, 17, 71 at Charlotte) didn't hit for average but exhibited power in the Southern League. Southpaw Kevin Coffman was 7-3, 2.03, five complete games in 14 starts in AA and 2-5. 3.43 in AAA, allowing a very respectable combined total of 120 hits over 153 innings. Players to watch: No. 1 on the Cubs' list is last season's first-round draftee. Lance Dickson, the University of Arizona lefty who enjoyed a whirlwind debut as a pro at shortseason Geneva, Class A Peoria, and Double A Charlotte (combined numbers of 7-3, 0.94, 111 strikeouts in 76 innings). Tired and finding his stuff not the same in the majors (0-3. 7.24), Dickson was dated to stop back in AAA, but an infection in his lower leg ended his season. His future really isn't far away-it may even be in '91. Carolina League MVP and all-star third baseman Gary Scott (.295, 12, 70, 16 SB) had a big year at Winston-Salem. Promoted, Scott batted .308 in 143 AA at-bats at Charlotte.

CINCINNATI REDS

A world championship notwithstanding, the Reds have two topnotch prospects who'll be hard pressed to keep down on the farm this season. First baseman Terry Lee had a terrific year in '90. His combined numbers at Chattanooga (AA) and Nashville (AAA) were .313, 23, 87. In 260 AAA at-bats, Lee produced 15 homers and drove in 67 runs while batting .304. He spent September with the parent club but had only 19 at-bats. Southpaw Chris Hammond was perhaps even more spectacular. Hammond was the Triple A pitcher of the year (15-1, 2.17 ERA, 149 strikeouts in as many innings), leading the American Association in victories, ERA, and whiffs. And he allowed a measly 5.6 hits per nine innings. With the Reds, however, he lost his two decisions. Scott Scudder, of course, made it to the big club last season after spending enough time in Triple A to post stats of 7-1, 2.34. Cincy's Midwest League team in Cedar Rapids, which played .657 ball, will provide a few players for the future. No. 1 is Reggie Sanders (.285, 17, 63, 40 SB), the league's MVP, who made the switch from shortstop to the outfield. Also, fellow outfielder Scott Bryant (.264, 14 homers) earned a promotion to Double A. Other future Reds could be two South Atlantic League all-stars, playing for Charleston, WV. Tim Pugh (15-6, 1.88) led the S.A.L. in victories, was second in ERA, and tossed a pair of shutouts during the playoffs. Leftyhitting outfielder Scott Pose packs no punch, but he batted .298, drew 114 walks, and stole 49 bases.

HOUSTON ASTROS

Talk about making an immediate impression. That's what Randy Hennis did after being promoted to the Astros following his Triple A season at Tucson (10-8, 4.41). In his first three major-league appearances, Hennis pitched nine innings of no-hit ball. He wound up working 9% scoreless innings, allowing just one hit. Southpaw Al Osuna won both his decisions in relief for the Astros, after going 7-5, 3.38 with six saves in 60 AA appearances for Columbus. Osuna struck

ROTISSERIE® BASEBALL STAT SERVICE

Doesn't your league deserve to have its reports done by real pros?

No other stat service provides you with as much meaningful information. And, our reports are presented in a clear, intelligent format.

- ☆ Five year record of accurate, timely and reliable service.
- ☆ Basic Service still only \$45 per team.
- ☆ FREE unlimited roster changes.
- ☆ Free Agent Pool with season totals and previous week's stats.
- A Reports sent by first class mail, fax, or modem.
- ☆ FREE Position Eligibility Listings, with 1989 and 1990 statistics.
- Flexible scoring options.

MINOR LEAGUES

out 82 batters in 691/3 innings in the Southern League. First baseman Luis Gonzalez is considered a pure hitter, and he has the tools to play first or third base as well as the outfield. Gonzalez tied for the Southern League home-run title (24), batting .265 with 89 RBIs and 27 steals, 46 percent of his hits going for extra bases. Second baseman Andy Mota (.286, 11, 62, 17 SB) has a .305 career batting average in the minors. If he has a drawback, it's on defense. Acquired from the Cincinnati Reds' organization in the Bill Doran deal, lefty Butch Henry (8-8, 4.22 at Chattanooga) could contend for a starting spot before year's end. Also acquired in the Doran deal, Keith Kaiser (9-11, 5.74, 5.7 walks per 9 innings) needs to throw strikes with more consistency. Lefty-hitting outfielder Karl Rhodes (.275, 11 triples, 24 SB in 28 attempts in the Pacific Coast League) has base-stealing ability, a fine arm, and gained big-league experience with the Astros last season (,244 in 86 at-bats). Lefty-swinging outfielder/first baseman Jose Tolentino put up solid Triple A numbers (.308, 21, 78) and his 30-game hitting streak was the longest in pro ball in '90. Terry Clark won 11 straight decisions after an 0-4 start, and compiled a 3.54 ERA, third-best in the P.C.L. Andujar

Cedeno is a power-hitting shortstop (.240, 19, 64 at Columbus) who had 51 extra-base hits, including a Southern League-leading 11 triples. *Player to watch*: lefty-hitting out-fielder Kenny Lofton. The former University of Arizona basketball player batted .331 with 62 stolen bases at Class A Osceola of the Florida State League.

LOS ANGELES DODGERS

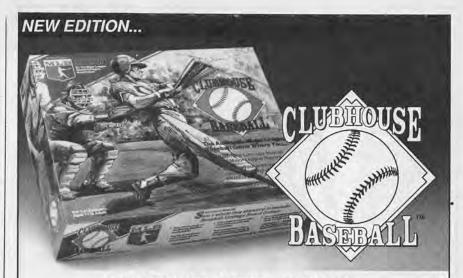

Jose Offerman. He's the man the Dodgers expect to be at shortstop for years to come. He was called up in mid-August following a performance in Triple A which earned him MVP honors in the Pacific Coast League. The strong-armed, switch-hitting Offerman (.326, 11 triples, 56 RBI, league-leading 60 stolen bases at Albuquerque) was considered the premier player in AAA last season. Albuquerque teammate Dave Hansen, a lefty-swinging third baseman who can make the sensational play and possesses the strong arm to complete it, is a line-drive hit-

STREET AND SMITH'S BASEBALL

ter who put up fine numbers (.316, 11, 92) and had the best walk-strikeout ratio of any P.C.L. hitter (90 walks, 50 strikeouts in 487 AB). Reliever Darren Holmes (12-2, 3.11, 13 saves), who fanned 99 in 92 innings, had a fine year in AAA. The Dodgers had all sorts of talent spread over their top four farm clubs, which combined to win 103 games more than they lost. In addition to having the premier player in the P.C.L., the Dodgers also had the No. 1 everyday performer in the AA Texas League in lefty-swinging outfielder Henry Rodriguez (.291, 28, 109), who led the T.L. in homers and ribbies. Other highlyrated Double A players include first baseman Eric Karros (.352, 18, 78, 45 doubles). who led the league in batting and two-base hits, and lefty-hitting outfielder Tom Goodwin, a singles hitter who can scoot (.278, league-leading 60 SB). Outfielder Jerry Brooks (.302) was among only five hitters batting over .300 in the Texas League. Right-hander Jamie McAndrew, son of ex-Met Jim, was 17-6, 2.17 at Bakersfield/San Antonio, and southpaw Jim Poole (6-7, 2.40, 16 saves), who was traded to Texas, did a good job in relief at San Antonio, where he struck out 77 in 63 innings. Players for the future: Lefty Jason Brosnan (12-4, 3.11, 157 strikeouts in 136 innings at Bakersfield) is a power pitcher who'll need time to improve his control. Also, California League batterymate Bryan Baar had a fine year in A ball (.285, 20, 71). Outfielder Brett Magnusson (.311, 23, 85) was Bakersfield's third California League all-star.

MONTREAL EXPOS

Don't let his lack of size fool you. When you think of strikeouts, names such as Roger Clemens and Nolan Ryan come immediately to mind. But professional baseball's strikeout king in 1990 was Brian Barnes, the 5-9, 170-pound southpaw who fanned 236 batters last season. Barnes had a fantastic year in Double A (13-7, 2.77 at Jacksonville), fanning 213 and allowing just 144 hits over 201 innings. Up with the Expos, he made four starts-all against N.L. East teams-going 1-1, 2.89, with 23 strikeouts and just seven walks in 28 innings. In two years as a pro in five cities (including Montreal), he's fanned 323 batters in 2941/3 innings and compiled a 2.36 ERA. Barnes's first major-league effort was a three-hit complete-game against the Phillies. Can the Expos keep him out of the '91 rotation, despite his having just a single Triple A appearance in '89? Among everyday players, the top prospect is outfielder Moises Alou, whose family has a big-league ring (father Felipe, uncles Matty and Jesus). Alou batted .264 and stole 13 bases in AAA at Buffalo and Indianapolis after hitting .295 in Double A at Harrisburg. The second player picked overall in the '86 draft, Alou was traded last August by the Pirates in the Zane Smith deal. Lefty-hitting outfielder Eric Bullock (.281, 40 SB) displayed good speed in Triple A, where Scott Anderson was 12-10, 3.31. Barnes's Southern League all-star batterymate, Greg Colbrunn (.301, 13, 76), made great defensive strides after being converted from a third baseman. Outfielder

MAJOR LEAGUE ACTION!

Baseball Fans...here's a Major League Baseball Game designed with you in mind! A game that sets a whole NEW STANDARD in realistic baseball board games...play a 9 inning game in 30 minutes in FULL COLOR with unbelievable statistical accuracy!

Using the same statistical data base that many of the Big League teams use, Clubhouse Baseball TM PRECISELY RECREATES the performances of all 624 Major League Baseball Players. In Hitting, Pitching, Fielding and Base Running...every player performs for YOU EXACTLY as he does in real life baseball...YOU are OWNER, MANAGER and COACH of all the teams and players of Big League Baseball.

Unlike Any Baseball Game You've Ever Played

More control for More realistic play action...Lefty vs Righty, Two out Hitting, Pitching and Hitting in varying base situations...Ball Park effects...Fielding range, errors and throwing ability for all fielders...Bunting...HitandRun...Stretching baserunners or playing it safe...Base stealing...Pickoff/Pitchout...Pitcher stamina...Wildplays...Defensive positioning of infield and outfield...and more...

Send for FREE Brochure: Clubhouse Games, Inc. P. O. Box 7438 Buffalo Grove, IL 60089

Packed with Features

- · Replay accuracy and realism are second to none.
- Play results occur on the playing field, NOT on charts or cards.
- Interaction between Hitter and Pitcher occurs with every at bat, NOT just part
 of the time like other games.
- Your managerial decisions make a difference...you're in control of all situations.
- ♦ PLAYER CARDS UPDATED YEARLY.

SERIOUS FANTASY FANATICS

Move up to realism in 1991!

JOIN ROBOT FANTASY BASEBALL!

So much more than ordinary fantasy or rotisserie:

- * You set weekly batting order, bench, rotation, builden-even minor league roster.
- * TRUE head-to-head, game-by-game competition in 16-team (4 division) perpetual leagues.
- * Experience RB's 150 game pennant race. Actual boxscores for every game,
- * Free unlimited trades, sales and signings—No hidden or extra costs.
- Your players have salaries...defense counts...league playoffs...inter-league Robot Superclash.
- * Transactions processed quickly by state-of-the-art scanners...24-hour hotline...free fantasy yearbook.

Robot Baseball's full-fledged <u>realism</u> is <u>unmatched</u>. RB's games use the actual <u>daily</u> performance of each individual major league hitter and pitcher. We DO NOT use probabilities. Nor do we use artificial point-totaling, phony stat-accumulation or bogus "simulations."

MINOR LEAGUES

Terrel Hansen (.260, 24, 83) had a good power season in Double A. Could anyone figure out the year Chris Nabholz had? He's already had 11 big-league starts, but they came after pitching well in Double A (7-2, 3.03) and not so well in Triple A (0-6, 4.83). Then he went 6-2, 2.83 for the Expos and figures to remain a solid member of the rotation. Player for the future: southpaw Chris Pollack (13-2, 2.05 at West Palm Beach).

NEW YORK METS

When it comes to the Mets, why does the future-not to mention the present-turn to pitching? And so it is again this year. The players with the best chance to make the big club this spring are both pitchers. Julio Valera was a modest 10-10 at Tidewater, but he hurled nine complete games, had a 3.02 ERA, and struck out 133 while walking only 39 in 158 innings. Terry Bross was not known as a hard-nosed player while on the basketball court for Looie Carnesecca's St. John's Redmen, Now, at 6-foot-9 and donning a Fu Manchu, he scared enough Texas League batters into recording a leagueleading 28 saves. He was 3-4, 2.64. Outfielder Darren Reed had a solid Triple A season (.265, 17, 74, 15 SB at Tidewater). There's plenty of talent another year away from Shea. Among them: left-hander Pete Schourek, who climbed the A/AA/AAA ladder last season, combining for a 16-5 record, mostly at Jackson, where he was 11-4, 3.04; switch-hitting outfielder Terry McDaniel (.286, 19 SB in 67 games in AA), who missed half the season with a pulled hamstring; lefty-swinging third baseman Chris Donnels (.272, 12 HR, 111 walks in AA), a former No. 1 draft pick; Texas League pitcher of the year Anthony Young (15-3, 1.65 at Jackson), who played in the Cotton Bowl as a defensive back for the Houston Cougars; lefty Blaine Beatty, out all last year following elbow surgery, but who pitched winter ball in Puerto Rico; and outfielder D.J. Dozier, the former Penn State All-America and Minnesota Viking running back who posted combined stats at St. Lucie/Jackson of .303, 15, 80, 36 SB, 10 triples. An arm for the future is Johnny Johnstone (15-6, 2:24, 9 complete games in the Florida State League).

PHILADELPHIA PHILLIES

After switching from shortstop to second base and beginning to feel comfortable, lefty-swinging Mickey Morandini started to hit. He wound up batting .261 in Triple A, stealing 16 bases for Scranton/Wilkes-Barre. He batted .291 and committed just three errors following the International League All-Star break. He hit .241 in 79 atbats for the Phils. Outfielder Wes Chamberlain, acquired late in the seaon from the Pittsburgh Pirates' organization, hit .250 at Buffalo and stole 14 bases. With the Phils, he hit .283 in 46 at-bats. Lefty-hitting catcher Darrin Fletcher was a late-season acquisition from the Los Angeles Dodgers' chain (.291, 13, 65 in AAA at Albuquerque), but he only went 3-for-23 with the Phils. Lefty Chuck McElroy (6-8, 2.72, 7 saves, 78 whiffs in 76 innings in Triple A) was knocked around in

16 relief appearances for the big club. Best of the Phillie chattels playing in AA at Reading last season were Andy Ashby (10-7, 3.42), who authored 30 consecutive scoreless innings in August and may just be a changeup away, and fiery shortstop Kim Batiste (.276, 28 SB). And then there's Chuck Malone. He was in Triple A last season, starting and relieving in the International League, where his numbers were very good and very bad. Can't be both? Well, the 6-7, 250-pounder was 4-3, allowing just 5.6 hits per nine innings and striking out 79 in 76 innings. But what about that 6.39 ERA and 78 walks? He won his only decision with the Phils. If he can just throw the breaking ball for strikes. Players for the future: lefty-swinging outfielder Tony Longmire, whose broken left wrist in winter ball limited him to 24 games at Harrisburg (.297), and switch-hitting outfielder Julio Peguero (combined .277 at Harrisburg/Reading), both of whom came from the Pirates' chain in the Carmelo Martinez deal last summer.

PITTSBURGH PIRATES

For the most part, the Bucs are standing pat with a winning hand. But there are pitching prospects who could take the mound at Three Rivers Stadium this summer. Although he was in Double A last season, Joe Ausanio (3-2, 1.83, 15 saves at Harrisburg) has good control and allowed just six hits per nine innings. Reliever Jeff Neely was a combined 5-5 in A/AA/AAA, spending most of the year at Harrisburg (4-4, 1.78, 9 of his 12 saves in '90). Vicente Palacios was outstanding in seven relief appearances with no decisions for the Bucs (0.00, 3 saves, only 4 hits allowed in 15 innings). He'd gone 13-7, 3.43 as a Triple A starter with Buffalo, Blas Minor was 6-4, 3.06, five saves, 98 strikeouts in 94 innings in the Eastern League. Lefty-swinging outfielder Steve Carter (.303, 12 triples at Buffalo) will have a tough time cracking the lineup for the Bucs, whose strength is in the outfield. Mike York (8-7, 4.20 in AAA) split a pair of decisions for the Pirates, posting a 2.84 ERA. Third baseman John Wehner (.288, 62 RBI, 24 SB at Harrisburg) had a good year in Double A. Player for the future: switch-hitting catcher Mandy Romero (.291, 17, 90), who had 37 percent of his hits go for extra bases and offers power where there is none at the big-league level.

ST. LOUIS CARDINALS

Both can run and they hit well for the big club during their stints in St. Louis last season after being AAA teammates in Louisville. Outfielders Ray Lankford and Bernard Gilkey seem ready for the Cards, who, after last season, seem ready for anyone with ability. These guys have that. The lefty-swinging

Lankford (.260, 10, 72, 29 SB) spent six weeks with the parent Redbirds (.286 in 126 AB), going 2-for-4 In his major-league debut. Gilkey had American Association stats of .295, 45 SB, only 49 strikeouts in 499 atbats. Then he hit .297 in 64 at-bats for the Cards. Between them in AAA and St. Louis, the duo of Gilkey (51) and Lankford stole 88 bases. On the mound, Louisville had a couple of standouts in addition to Ken Hill, who was promoted in midseason. He was 1-1, 2.92 for the Cards. Omar Olivares was 10-11, 2.82 in AAA. Mike Perez had a high ERA (4.28) but also a 7-7 mark and league-leading 31 saves, plus a victory in his lone bigleague decision. Cris Carpenter, the former first-round draft pick from Georgia, was 10-8, 3.70 in Triple A, displaying remarkable control (21 walks in 1431/3 innings). Switchhitting second baseman Geronimo Pena (.249, 24 SB in AAA) needs to make more contact. Lefty-swinging first baseman Rod Brewer had stats of .251, 12, 83 at Louisville, where switch-hitting third baseman Luis Alicea found his year of A/AA/AAA ball shortened to just 68 games (and an average of 288). Catcher Ray Stephens (,221 in AAA) became the first Card to homer for his first major-league base hit since '76. Player for the future: Lefty-hitting outfielder Lonnie Maclin climbed the minor-league ladder and had stats of .330, 18 SB.

Fantasy Baseball Fans!

How are you coping with the mountain of stats needed to run your "Fantasy" League? Don't pay hundreds of dollars to a stat "service"! Don't waste endless hours with a spreadsheet, or doing the stats by hand! TNA Software -the provider of the finest in Sports Software since 1984 - is proud to introduce StatsMaster Baseball, the IDEAL software package to run your League on any IBM PC or Macintosh!

With StatsMaster Baseball, YOU set the League and Team size! Keep up to 100 players per team and track up to 26 different team stat categories! Easy data entry, or use stats from any on-line source (CSW, USA Today, etc.)! Add and drop players, use the DL, make trades! Rank your teams on year-to-date, or weekly performance! Print Stats, Standings, Free Agents, Transactions, and more, all at the touch of a key! All in just 15 to 30 minutes each week!!!

Find out what *thousands* of "Fantasy" Baseball enthusiasts already have! For your copy of **StatsMaster Baseball**, just send your check or money order in the amount of \$110 to:

STREET AND SMITH'S BASEBALL 143

MINOR LEAGUES

SAN DIEGO PADRES

Second baseman Paul Faries (.311, 64 RBI, club-record 47 stolen bases) had a Triple A all-star season. He had a hit in his first majorleague at-bat and played on the left side of the infield. Just as impressive was switchhitting outfielder Thomas Howard (.328, 27 SB), who had a fine year despite early-season arthroscopy on his knee. Shoulder and elbow trouble shortened the season for the promising, hard-throwing Rafael Valdez, who, despite stats of 4-7, 4.92, impressed folks in the Pacific Coast League. At the Double A level, the Padres got a Texas League all-star season from outfielder Mike Humphreys (.276, 17, 79, 37 SB), lefty-hitting second baseman Dean Kelley (.271, 10 HR), and hurler Ricky Bones (6-4, 3.48) at Wichita. Players for the future: Third baseman/first baseman Dave Staton (.290, 20, 64 at Riverside), who added six homers in 164 at-bats while hitting .305 when promoted to AA. Lefty-swinging outfielder Darrell Sherman is a singles hitter who earned California League all-star honors, batting .290 and stealing 74 bases.

SAN FRANCISCO GIANTS

Mark Leonard is in a bind. He can hit (.333, 19, 82 at Phoenix), and he always has (.311 in '89 at Shreveport, .345 with 50 doubles and 118 RBI in '88 at San Jose). But the lefty-

swinging Leonard is 26. More important, he's no high-speed outfielder. But move the P.C.L. all-star to first base? A fella named Will Clark won't budge. Also, Leonard struck out eight times in 17 at-bats with the Giants last year. So, next up is catcher Steve Decker (.293, 15, 80 at Shreveport), a Texas League all-star. A big, old-school-style backstop, he looms as the heir apparent to veteran Terry Kennedy. Decker, who has always hit well but greatly hiked his power numbers in '90, did a capable job handling a pitching staff which posted a 1.85 ERA in postseason play as Shreveport won the T.L. title for the first time in 35 years. And Decker surely helped himself by hitting three homers and driving in eight runs in 54 atbats with the Giants. Outfielder Darren Lewis comes over from the Oakland A's organization, where he hit well in AA (.296 at Huntsville) and AAA (.291 at Tacoma), stealing a total of 37 bases. Reliever Mark Dewey was a combined 3-8 at Shreveport/Phoenix but had ERAs of 1.88 in AA and 2.67 in AAA and a total of 21 saves. The year before, he notched 30 saves. Dewey, who has excellent control, split a pair of National League decisions, posting a 2.78 ERA, not giving up a run in 10 of 14 appearances. Switch-hitting shortstop Andres Santana is a singles hitter with speed (.292, 31 stolen bases at Shreveport). Johnny Ard comes over from the Minnesota Twins' organization (12-9, 3.79 at Orlando). *Arms for the future:* Jim Myers (5-8, 3.21, 25 saves in A ball) and San Jose teammate Kevin Rogers (14-5, 3.61), a lefty who fanned 186 in 172 innings.

BALTIMORE ORIOLES

Most of the Orioles' top prospects have logged time at Memorial Stadium but are still in the rookie category. The top guy is catcher Chris Hoiles, who was called up to the bigs on three occasions. The first time, he was leading the International League in hitting (.394), and wound up batting .348 with 18 homers and 56 RBIs in just 247 at-bats at Rochester. He hit .190 in 63 at-bats for the Birds. Hoiles was an I.L. and Triple A all-star, and his bat is his primary weapon, so designated hitter could be his future. A pair of switch-hitting infielders-shortstop Juan Bell (.285, 16 SB) and first baseman Dave Segui (.336, 28 doubles in just 307 AB)-as well as Triple A all-star third baseman Leo Gomez (.277, 26, 97) put up impressive numbers at Rochester. And Gomez, whose glovework had come under question, greatly improved as the season progressed. Jose Mesa was 3-2, 3.86 for the Birds, after going 5-5, 3.42 in Double A (Hagerstown) and 1-2, 2.42 in Triple A. Anthony Telford split six decisions with the Orioles after posting impressive numbers in A/AA (4-2, 1.68 at Freder-

PRO SPORTS CUT, INC.

PRO SPORTS CUT. INC. • 123 Salem Street • Boston, MA 02113

ick; 10-2, 1.97 at Hagerstown). Lefty Mike Linskey won 14 games (7-1, 1.47 in AA; 7-9, 3.58 in AAA). Jeff Tacket was the No. 1 catcher at Rochester, where he batted .239. Outfielder Luis Mercedes had a fine year in AA (.334, 38 SB). Francisco De la Rosa was hard to hit at Hagerstown, where he was 9-5, 2.06, allowing only 97 hits in 131 innings. Players for the future: Reliever Todd Stephan (8-2, 1.32, 17 saves, 102 strikeouts in 82 innings), Mike Oquist (9-8, 2.81, 170 Ks and only 48 walks in 1661/3 innings), and Zachary Kerr (14-7, 2.94). The three were teammates at Frederick.

BOSTON RED SOX

In 1989, Mo Vaughn was tearing up the Big East Conference before the pride of Seton Hall became a first-round draft pick of the Bosox. Despite missing some playing time with hand and leg injuries, the left-handedhitting first baseman produced impressive stats in Triple A (.295, 22, 72 at Pawtucket). Improved glovework and a bat which packs power has Vaughn on call for Fenway. Allstar shortstop Tim Naehring (.269, 15 HR) spent a good deal of time with the '90 Sox. Lefty-hitting Phil Plantier (.253, 33, 79) led the International League in home runs. Striking out 148 times (in 430 at-bats) gave him another I.L. title he doesn't covet. Plantier must close the holes in his swing and tighten his heretofore loose defensive play if he's to make it to Beantown as other than a powerhitting DH. The Sox dealt their top AA prospect (third baseman Jeff Bagwell) to the Astros last summer for Larry Andersen. But lefty-hitting first baseman Mike Twardoski, a singles hitter who shared the Eastern League lead in doubles with Bagwell (34), batted .293, walked 95 times, and makes contact. Lefty reliever Dan O'Neill (7-0, 0.72, 11 saves at New Britain) has fine control. Players for the future: Like Vaughn, outfielder Greg Blosser was in school in '89. In Blosser's case, high school, He played for Sarasota (FL) High, one of the nation's premier prep teams, then was the 16th player chosen in the draft. Last season, he was considered the top prospect in the Carolina League (.282, 18, 62 at Lynchburg), which he led in homers. His defense needs work, but the youngster's bat suggests a rapid climb to the majors. Al Sanders was 7-7, 2.30, 113 strikeouts in as many innings for a Winter Haven team which lost 94 of 134 games in the Florida State League.

CALIFORNIA ANGELS

Lee Stevens has pop in his bat and can play all three outfield positions as well as first base, A .247 hitter in the Pacific Coast League in 1989, the left-handed-hitting Stevens, a first-round pick in '86, was a much

better hitter in '90 in Triple A at Edmonton (.293, 16, 66, 31 doubles), where his season was halted after 90 games because he was called up to replace the injured Wally Joyner. Stevens should be ready to be a fulltime major leaguer. Switch-hitting outfielder Ruben Amaro (that name has a majorleague ring!) batted .289 and stole 32 bases in AAA. At Midland (AA Texas League), where the Angels led the minors with players of one name-a trio of Davises-outfielder Mark Davis displayed plenty of power. And he carried it to Edmonton. His combined AA/ AAA stats were .294, 21, 75, 23 SB, 119 strikeouts. Lefty-swinging DH Wiley Lee (.297, 45 SB in AA) showed he has plenty of speed. Players for the future: Shortstop Damion Easley (.274, 10 HR, 24 SB at Quad City) displayed progress at the plate en route to Midwest League all-star honors. His double-play partner, all-star second baseman Chad Curtis (.307, 14, 65, 63 SB), led the league in hits and was second in stolen bases. And Mike Hook was the Midwest League's premier left-handed fireman. Hook (6-3, 1.89, 7 saves) allowed a mere 18 hits in 38 innings during 30 appearances and struck out 66 batters.

CHICAGO WHITE SOX

Southpaw Grady Hall (13-8, 4.24) pitched well in Triple A, where he gained Pacific

145 STREET AND SMITH'S BASEBALL

MINOR LEAGUES

Coast League all-star honors. Lefty Tom Drees, who gained notoriety for prior no-hit performances, was 8-5, 3.98 at Vancouver. O.K., so maybe they don't want labels as prospects. Neither have they logged all that much time in the majors. And both sat out a year recently. Matt Stark was the Blue Jays' opening-day catcher in '87, went 1-for-12, hurt his shoulder, and it was all downhill from there. He missed the '89 season, then led all Double A players in RBIs (.309, 14, 109 at Birmingham). He was the Southern League all-star DH. Having turned 30, Jerry Willard could be considered a graybeard. The leftyswinging catcher, who sat out '88 and batted .276 for Vancouver in '89, earned P.C.L. all-star honors in '90 with Triple A stats of .279, 20, 76. But when it comes to prospects, first baseman/DH Frank Thomas is the man. The Southern League and Double A player of the year, Thomas (.323, 18, 71, 112 walks, .545 slugging percentage) made it to Comiskey in his second pro season. His power potential could be a factor in the A.L. West this season. Also in AA, good seasons were turned in by second baseman Cesar Bernhardt (.279, 82 RBI, 30 SB) and outfielder Willie Magallanes (.291, 16, 65), who did strike out 139 times. Players for the future: second baseman Javier Ocasio (.292, 45 SB at Sarasota), Midwest League batting champ/first baseman Scott Cepicky (.312, 77 RBI, 12 SB), and pitcher Len Brutcher (11-4, 2.74 at South Bend).

CLEVELAND INDIANS

The Indians' farm system excelled last season, one of only two organizations to qualify its top three minor-league clubs for the playoffs. And there was a good deal of talent, which figures to help big-league fortunes the next few years. The Indians' premier prospect is shortstop Mark Lewis, who jumped from Double A (.270, 10, 60 at Canton/Akron) to Triple A (.306 at Colorado Springs). A mature player for a 21-year-old, Lewis exhibits all the tools necessary and added weight has helped produce more power, He's always been rated at or near the top of his league since he was the No. 2 player selected in the '88 draft. If he's not the starting shortstop in April, he'll be in Cleveland beforetoolong ... and for a long time. Eastern League teammate Charles Nagy was 13-8, 2.52. He lost his first four big-league decisions but won his last two. Third baseman Jeff Manto (.297, 18, 82 at Colorado Springs) hit .224 in 76 at-bats with the Indians. Pacific Coast League all-star outfielder Alan Cockrell (.323, 17, 71) had a solid year in Triple A. Switch-hitting outfielder Turner Ward (.299, 65 RBI) stole 22 bases but was thrown out 15 times in Triple A. Ward was a sensation with the big club (.348, 10 ribbies in 46 AB). The book is still out on young outfielder Albert Belle. His 24-game stint in AAA (.344, 5 HR, 19 RBI) suggests the Indians' top power-hitting prospect can make a lot of noise in Cleveland if his personal battle is won. Outfielder Mike Huff (.325, 11 triples, 84 RBI, 27 SB in the P.C.L.) was drafted from the Dodgers. Lefty-swinging catcher Al Liebert (.244 in the Eastern League) is highly

regarded. Players for the future: Tim Costo, drafted eight overall last June, made his debut as a pro by hitting .316 in the Carolina League. After struggling at shortstop, the position he played as an lowa Hawkeye, he moved to first base and became a run producer (32 RBI in 206 AB at Kinston). From the Miami campus, Oscar Munoz had an 8-1 mark at Watertown and Kinston. Ty Kovach, a stringbean 6-7 fastballer, appeared headed for 20 wins in his first full year as a pro. He was 12-3, 2.56 at the Carolina League all-star break, then was lost for the season with a stress fracture in his right shin.

DETROIT TIGERS

There's a long road for the Tigers to travel in returning to respectability. And there's not a lot of help to be found from last year's Triple

A personnel. At Toledo's basement ball club, lefty Steve Searcy was a standout (10-5, 2.92, 105 strikeouts and just 71 hits in 105 innings). Searcy had problems in Detroit (2-7, 4.66), but over his last five starts was 1-2. 2.03. Switch-hitting outfielder Milt Cuyler (.258, 60 RBI) led the International League with 52 stolen bases in 66 attempts. He hit .255 in 51 at-bats for the Tigers. International League all-star shortstop Travis Fryman showed why he'll be a Tiger infielder for years to come, hitting .257 with 10 homers and 53 runs batted in at Toledo. Promoted to the majors in July, he surprised the Tigers with his bat (.297 with 9 HR in 59 games, 45 of those at third base). Mike Schwabe was 6-5, 3.83, five saves at Toledo, where third baseman Scott Livingstone batted .272. At Double A, left-handed-hitting first baseman Rico Brogna showed greatly increased power (.262, 21 HR, 77 RBI at London), earning Eastern League all-star honors.

Mike Wilkins (13-5, 2.42) also had an outstanding year, as did David Haas (13-8, 2.99) and pinpoint control pitcher Rusty Meacham (15-9, 3.13) and outfielder Steve Peques (.271 and 17 stolen bases). Players for the future: In an organization that is down, the premier prospect after Fryman, who has already arrived, is Randy Marshall, considered the top pitcher in A ball last season, when he was a 20-game winner. At Fayetteville (South Atlantic League), Marshall was the league's top lefty (13-0, 1.33 ERA). Moved up to Lakeland (Florida State League), he was 7-2, 3.00. And he averaged just 1.2 walks per nine innings. If there's any question about Marshall at the highest level, it's whether he'll be sufficiently overpowering. Left-handed-hitting first baseman Ivan Cruz (.286, 11, 73 at Lakeland) also was impressive in the F.S.L.

KANSAS CITY ROYALS

Jeff Conine was drafted in the 58th round of the 1987 draft. Three years later, he was a Triple Crown threat in the Southern League, winding up with Double A all-star numbers (.320, 15, 95, 21 stolen bases). A worldclass racquetball player, he may not be far away from making his mark in baseball at the highest level. In addition to Conine, the S.L.'s Most Valuable Player, lefty-swinging catcher Brent Mayne (.267) was a solid hitter for Memphis, where he proved to be a good contact and situation hitter, and displayed outstanding skills as a receiver. Outfielder Harvey Pulliam (,268, 16, 72) was a consistent performer for Omaha's American Association and Triple A Alliance champs. Mel Stottlemyre Jr. was 2-1, 1.51, with 13 saves in AAA. Hector Wagner (12-4, 2.03 at Memphis) was second in ERA among Southern League pitchers. He has good control, throws a forkball, and only needs more seasoning. Sean Berry (.292, 14, 77) earned S.L. all-star honors at third base, showing line-drive hitting skills made for Royals Stadium. Designated hitter Stu Cole (.308, 20 SB), a singles hitter, and outfielder Bobby Moore (.303, 27 SB) were also among the S.L.'s top 10 hitters. Lefty Jim Campbell (5-5, 2.44 in AA) was 2-2, 1.32 in four starts at the AAA level. And outfielder Brian McRae, a name known to Royals' fans, earned Southern League all-star honors (.264, 10, 64, 21 SB), Players for the future: reliever Joel Johnston (2-4, 4.88, 7 saves at Baseball City), who throws hard but is still wild (60 Ks. 49 walks in 551/3 innings); outfielder Jacob Brumfield (.336, 47 SB), who led the Florida State League in batting; and fireman Mark Parnell (2-2, 1.86, 17 saves in the F.S.L.).

MILWAUKEE BREWERS

Catcher Tim McIntosh is a converted outfielder. Defensively, he's in the learning stage. Offensively, he's obviously learned a great deal (.288, 18, 74 at Denver). An American Association all-star, McIntosh can handle the bat and makes good contact. Also named to the all-star team was third baseman Joe Redfield (.274, 17, 71, 34 SB, 10 triples). At Double A, fireman Chris George (8-3, 1.78, 13 saves at El Paso) chal-

lenged Texas League batters with his fastball and slider. DH Jesus Alfaro (.301, 16, 88) earned all-star honors in the Texas League, where lefty-swinging outfielder Dee Dixon batted .286 with 61 RBIs and 53 steals. Lefty reliever Ed Puig was 1-0, 1.14, eight saves in Double A, 2-0, 3.38 in Triple A. He struck out 48 batters in 49 minor-league innings. Players for the future: lefty-swinging first baseman Bo Dodson (.272 at Stockton) displayed nifty glovework in the California League, where switch-hitting catcher Dave Nilsson batted .290, Chris Johnson was 13-6, 2.98 and lefty reliever Angel Miranda was 9-4, 2.66, 24 saves, 138 Ks in 108 innings. In the Midwest League, lefty-swinging outfielder Troy O'Leary (.298, 62 RBI, 12 SB) has room to improve defensively. Third baseman John Byington produced good power numbers (.263, 17, 89).

MINNESOTA TWINS

The Twins' help doesn't figure to come from Triple A, although Mike Cook (6-8, 3.20 at Portland) led the Pacific Coast League in ERA and outfielder Alonzo Powell (.322, 62 RBI, 23 SB) had a fine year. Also in the P.C.L., DH Bernardo Brito (.282, 25, 79) and lefty-swinging first baseman Paul Sorrento (.302, 19, 72) hung up some quality offensive numbers. But the best may be down below. In Double A, Orlando had the Southern League's best record. The team's strength was pitching. Scott Erickson (8-3, 3.03) jumped to the parent club after 15 AA starts. No minor-league hurler had won 20 in a season since '86, but southpaw Denny Neagle was a 20-game winner in '90. After going 8-0, 1.43 for Class A Visalia (California League), Neagle went 12-3, 2.45 in Double A, where lefty Doug Simons (15-12, 2.54) displayed sharp control. Second baseman Chuck Knoblauch handled the switch from shortstop, batted .290, stole 23 bases, and was tough to strike out at Orlando. Players for the future: Look to pitching. Rich Garces (2-2, 1.81, 28 saves, 75 strikeouts in 55 innings at Visalia) was the best reliever in the California League, probably in all of Class A ball. And when he went up to AA, Garces was 2-1, 2.08, 8 saves. Southpaw Alan Newman led the Midwest League in ERA (1.64) and averaged more than one strikeout per inning. Include his time at Visalia and Newman's Class A stats were 13-5, 1.75, 200 strikeouts in 190 innings. Southpaw George Tsamis (17-4, 2.21) led the California League in victories. Lefty-swinging outfielder J.T. Bruett (.307, 50 SB, 101 walks at Visalia) lacks power but not speed. Lefty-hitting first baseman Steve Dunn (.297, 10, 72, 13 SB) had a solid year in the Midwest League. Switch-hitting outfielder Pat Howell (.264, 79 SB, 111 strikeouts at Columbia) was drafted from the Mets' organization.

NEW YORK YANKEES

Perhaps the embarrassment that was the final years of the Steinbrenner Yankees has come to a close. .. in more ways than one. There was talent in Triple A at Columbus. And some of it has to show up at Yankee Stadium in '91. Hensley "Bam Bam" Meu-

STREET AND SMITH'S BASEBALL

MINOR LEAGUES

lens, whose offense has been his meal ticket, couldn't cut it as a third baseman but may have found a home in left field. He had an all-star season with the bat in the International League (.285, 26, 96), where he was selected MVP. Dave Eiland (16-5, 2.87) won't overpower hitters, but his poise and knowledge of pitching, even without his best stuff, has him ticketed for the bigs after being selected the league's top hurler. Lefty Steve Adkins (15-7, 2.90) was among the LL,'s best pitchers. At Double A, switch-hitting center fielder Bernie Williams (.281, 39 SB). second baseman Pat Kelly (.279, 31 SB), and catcher Mitch Lyden (.296, 17, 63) were all offensive cogs for Albany's Eastern League regular-season champs, Lyden hit just .224 when up in AAA, but added seven HRs in 147 at-bats. And Darrin Chapin (3-2, 2.73, 21 saves, 61 strikeouts in 52 innings) was Albany's ace in the pen. Outfielder Gerald Williams had A/AA stats of .265, 20, 101, 37 steals. Players for the future: Third baseman Russ Davis hit only .249 at Prince William, but he led the Carolina League in doubles (37) and had 16 homers and 71 RBIs. Lefty reliever Mike Gardella had fantastic stats in Class A (4-3, 2.01, 30 saves and 86 strikeouts in 71 innings). Southpaw Sterling Hitchcock, a ninth-round draft pick in '89. may be a long shot. He pitched better than his 12-12 record last season at Greensboro.

Hitchcock had a 2.91 ERA and league-high 171 strikeouts in 173½ innings (only 122 hits allowed) in the South Atlantic League. He also had a no-hitter among five shutouts. He'd made his debut as a pro with 9-1, 1.53 short-season stats in '89.

OAKLAND ATHLETICS

There aren't many job openings on the roster of the three-time American League champions. Pitcher Scott Sanderson took his 17 victories to the New York Yankees as a free agent, so his spot in the rotation must be filled. Eric Show, from the San Diego Padres, will get first crack at it. But if he falters. there are a number of other candidates from the farm system. Dan Eskew won 14 of his 17 decisions at Huntsville and posted a 3.34 ERA. Reggie Harris was 0-2, 3.03 at Huntsville, where he struck out 34 batters in 29% innings, then won his only decision in 16 games with Oakland. Stanford's Steve Chitren is a strikeout pitcher. He fanned 61 in 53% innings at Huntsville, where he was 2-4 with a 1.68 ERA and 27 saves. Then he struck out 19 in 18 late-season innings in Oakland. Joe Tureck, from the Reds, had a solid season in Cedar Rapids (13-6, 2.34). The A's won't have Ron Hassey to catch anymore, so Troy Afenir (.249, 15, 47 at Tacoma), Eddie Taubensee (.259, 16, 62 at Cedar Rapids), or the versatile Scott Hemond (.243, 8, 35) could get the call. Player for the future: 19-year-old right-hander Todd Van Poppel, the A's top draft choice, struck out 49 in 37% innings at two stops in the low minors last summer. The Texas schoolboy is one of the most highly esteemed prospects in years. Infielder Scott Brosius has made steady progress. He batted .296 with 94 runs, 23 homers, and 88 RBIs at Huntsville.

SEATTLE MARINERS

Complicating an already overcrowded situation at first base in Seattle (with Alvin Davis and Pete O'Brien) is the fact that 1988 Olympian Tino Martinez is now ready for the big leagues. The 23-year-old left-handed hitter batted .320 with 17 home runs and 93 ribbies in 128 games at Triple A Calgary and was named the Minor League Player of the Year by USA Today. He might have to join all-star Ken Griffey Jr. in the Mariners' outfield. Calgary teammates Dave Burba (10-6, 4.67) and Jose Melendez (11-4, 3.90, 9 saves) could see a promotion to the majors, where Mike Gardiner lost his two decisions after winning 12 of 20 decisions with a 1.90 ERA at Williamsport. Rich Delucia had 12 victories at three minor-league stops and one with the parent club. Second baseman Todd Haney batted .339 with 16 stolen bases at Calgary. Outfielder Pat Lennon batted .291 with 13 homers and 52 RBIs at San

Bernardino/Williamsport. Roger Salkeld was 11-5 with a 3.40 ERA at San Bernardino. Player for the future: Third baseman Edgar Martinez led the Mariners in batting (.302), but also in errors (27) and he had just 49 runs batted in. More offensive production could be on the way in the person of the switch-hitting Frank Bolick, who split the 1990 season between Stockton and San Bernardino and led the California League in RBIs (102) while hitting .324 with 100 runs and 18 homers.

TEXAS RANGERS

You might not expect a .258 hitter to be the top prospect in a Triple A league. But that was the consensus of American Association observers who saw power-hitting outfielder Juan Gonzalez start slowly, then take off at the Triple A All-Star Game and never stop. Gonzalez became only the third Association player since '84 to drive in 100 runs (he had a league-leading 29 homers, 101 RBIs). And he has a terrific arm. Gonzalez's tools figure to be on display for the Rangers for years to come. Overcoming shoulder problems, outfielder Kevin Belcher (.293 11 HR, 29 SB at Tulsa) is an outstanding fastball hitter. Catcher Bill Hasselman (.319, 18, 80) was a Texas League all-star who led the league in doubles (38). Also producing good offensive numbers at Double A were lefty-swinging first baseman Rob Maurer (.300, 21, 78) and outfielder Dan Rohrmeier (.305, 10, 62, 13 SB). Reliever Wayne Rosenthal was 2-2, 2.40 in AA, 3-4, 3.00 in Triple A with a total of 18 saves. Players for the future: Teen-age catcher Ivan Rodriguez (.287 at Charlotte) has an arm and all-round defensive skills to make a rapid climb to the majors. He was joined on the Florida State League all-stars by reliever Barry Manuel (1-5, 2.88, 36 saves), who allowed just 39 hits while striking out 60 in 56 innings. Robert Brown (8-5, 1.90, 4 saves) was not in the closer's role, but he led the F.S.L. in ERA. Third baseman Fred Samson (.286, 12 SB) was an all-star in the F.S.L. Lefty Brian Romero (16-4) had fabulous combined Class A numbers at Gastonia (South Atlantic League) and Charlotte. In the S.A.L., Romero was 9-2, 1.48; in the F.S.L. the figures were 7-2, 1.70. Overall, he struck out 159 batters and allowed only 119 hits in 165 innings. For offensive power, there's first baseman Mike Burton (,272, 17, 80 at Gastonia).

TORONTO BLUE JAYS

Switch-hitting outfielder Mark Whiten is the prototype of what one looks for in an every-day player. He hits for average and for power, runs, throws, and fields well. In addition to an International League all-star season at Syracuse (.290, 14, 48, 14 stolen bases), he

hit .273 in 88 at-bats with the Blue Jays. Figure Whiten as the Jays' right fielder for the 1990s. Left-handed-hitting outfielder Rob Ducey, a Canadian, hit .267 with 32 doubles and 13 stolen bases at Syracuse, and hit .302 in 53 at-bats with the Jays. He's in Toronto to stay. A third outfielder, Derek Bell, has had big-league prospect written all over him, and he had a solid season in Triple A (.261, 20 SB). Lefty Dennis Boucher was 8-5, 3.85 in Triple A after going 7-0, 0.75 in Class A at Dunedin. One reason the Javs could make middle-infield trades was because they felt shortstop Eddie Zosky (.271 in AA), who has a great arm, and second baseman Williams Suero (.263, 16, 60, 40 SB at Knoxville) were not far removed from big-league status. The Javs can back up Kelly Gruber at third with minor-league power, namely Ed Sprague (.239, 20, 75 in Triple A) and Tom Quinlan (.258, 15 HR in Double A). Southpaw reliever Bob McDonald was very effective in the Southern League (1-2, 1.89, 15 saves). Players for the future: second baseman Jeff Kent (.277, 16, 60, 17 SB at Dunedin), reliever Mike Timlin (7-2, 1.43, 20 saves in A ball, then 1-2, 1.73, 8 saves in AA), catcher Jason Townley (.292, 11, 63 at Dunedin), plus Myrtle Beach pitchers Mike Ogliaruso (14-9, 2.52, 160 strikeouts in 164 innings) and lefty Rob Blumberg (13-4, 2.16, 128 strikeouts in 129 innings).

Fantasy Sports Inc. (FSI) is proud to throw out the first pitch of the year...

No More Stat Input!

"AutoStat" by FSI is a revolutionary menu driven stat keeping software package that saves you time and money by automating stat input! With baseball season just around the corner now is the time to get ready to enjoy a spectacular season. FSI makes receiving stats as easy dialing the phone. With access to FSI on-line stat service you simply download stats to "AutoStat" software which does all the statistical calculations, rankings, and reporting in a matter of seconds. No more waiting for newspaper stats, no more hand entry, no more sorting data and no more paying 100's of dollars a year to a service bureau.

- * Complete Stats in 10 Minutes
- * Weekly Stats on Monday
- * User Defined League & Team Size
- * Up to 13 Hitting Categories
- * Up to 11 Pitching Categories
- * On-Line Stats \$50. a year

FSI's "AutoStat" Software will give you back the time to enjoy what playing Fantasy Baseball is really about....managing your baseball team, analyzing free agent moves and making those blockbuster trades that take you to the pennant!

Call or write to receive a free copy of FSI's Player Ratings when you order FSI's Demo Disk for only \$7.00 or "AutoStat" software for the introductory price of \$79.95.

SPORT AMERICANA BASEBALL ADDRESS LIST \$ 12.95 plus postage & handling

THE AUTOGRAPH HUNTER'S **BEST FRIEND & HANDBOOK**

The Baseball Address List contains the mailing addresses of all big leaguers who played in their first game from 1910 to the pre-sent. Special sections highlight Hall of Fame members, coaches and umpires. Obituary data is given for deceased players. The proper, courteous and successful method for obtaining autographs through the mail is discussed. A section in the latest edition lists Perez-Steele and Hall of Fame autograph prices.

REPLAY Three great games. One great tradition.

With Replay you're always part of the action!

The original Replay.

Now in its third decade, the original Replay is the ultimate baseball board game, the one that sets the standard for accuracy and realism. Replay uses state-of-the art computer programming to include all of the statistics, and all the routine -- and not-so-routine -- plays, making the games very realistic!

Replay emphasizes fun and action — instead of calculations! Setting up the game is easy. You can field one of the current big league teams or you can be a general manager and put together your own team through drafts and trades. You can choose from more than 800 players — at least 30 from each big league team — to assemble your "dream team."

Be a field manager and match your strategy against the best baseball minds in the game today. Set your starting line-up, including defensive alignments and pitching. Replay a game, a series or a season and see how your decisions affect the outcome.

The unique Replay Chart Book and Rare Plays Booklet make play smooth and fast-paced! With one roll of the dice, your fantasy game comes to life! As situations come up, you decide on hitters, pitchers, runners and fielders, then see what the outcomes are.

Replay Games uses the most accurate and complete statistics in developing its board game and computer games. That's why Replay is one of the most popular games in the country!

Replay Tabletop PC Baseball.

Replay Tabletop PC Baseball is the perfect game for Replay baseball board game fans, computer-game fans and baseball fans in general.

If you are a true fan of Replay baseball board games, Replay Tabletop PC Baseball is for you! All of the Replay features have been faithfully reproduced in a computer-based game. You can see the hitters and pitchers cards, and see the roll of the Replay dice. With our split-screen format you can see the Replay Chart Book and Rare Plays Book. The computer plays the game flawlessly, recording and displaying all of the plays with lightningfast computer speed and accuracy. Replay Tabletop PC Baseball produces a truly big-league box scores and tracks individual, team and league statistics.

And, Replay Tabletop PC Baseball can be played strictly as a computer game. Start with our special Commissioner's Disk to make trades, draft players and create leagues. Use our unique Pre-Game Program to set line-ups, pitching rotations and strategies for all of the teams. You can schedule up to 1,500 games, with up to 30 hitters and 20 pitchers on each team. It's all here, with no "extras" to buy later!

Replay Computer Baseball.

Replay Computer Baseball has been developed for the baseball fan with a special interest in computers or computer games.

With Replay Computer Baseball you can do it all! Be an owner, a general manager or a field manager. You have players from all the big league teams virtually at your fingertips. Use the existing big-league teams or create your own fantasy teams through a draft and trades. Be a field manager and put together starting line-ups and pitching match-ups for each team. You can pick your entire staff, from starters to set-up men and "closers."

You decide how fast to play the games. Use the *Automatic Play* feature and Replay Computer Baseball will play a full season in a matter of hours. Or, use the *Speed Screen* to play up to ten games at once. You can get inning-by-inning scores, as well as updates on homeruns and pitching match-ups, and league standings. Use the *Play-By-Play Screen* and play one game at a time, with a fast-flowing radio-style narrative and a visual playing field. And, when you use any of these three options you can pause periodically (up to eight times) to look at statistics and box scores.

TO ORDER

Replay Baseball Board Game, Replay Tabletop PC Baseball or Replay Computer Baseball, call

REPLAY GAMES at 1-800-637-2733

Replay baseball board games are \$45 each. Replay Tabletop PC Baseball and Replay Computer Baseball are \$79.95 each. *Master Card and Visa are accepted*.

Introducing the most complete baseball game available:

Fantom Manager

Computer Baseball Simulation

The ONLY game that features a Programmable Computer Manager

for IBM & Compatibles, Macintosh, and Amiga Computer Systems

But is there a need for another computer baseball simulation game? The designers of Fantom Manager say YES! They have developed the first Programmable Computer Manager. This feature was designed with mail leagues and solitaire players in mind. And because of all the situational statistics utilized in Fantom Manager, player performance will more closely reflect reality (and "player abuse" will be limited; i.e. the infamous "lefty pitcher syndrome"). That pitcher who gives up a lot of baserunners, but is tough as nails with men in scoring position; those batters who always seem to come up with the big hits with men on base; etc. are all accurately reproduced in Fantom Manager. This game has it all!

The following features are all included:

· Complete Rosters for Every Team

Every player from the 1990 big league season, including breakdowns for those players who played for two teams.

· Statistics Compiler

Automatically update the stat files and print a boxscore after each game. Compiles all situational stats used in the game. A single keystroke calls up a player's season stats.

Programmable Computer Manager

The Computer Manager uses sabermetric principles to determine how to set the lineup and when to call the strategies based on the team's personnel and the situation at hand. The Manager can be also be programmed by you!

· Mail League Play

The Programmable Computer Manager is especially good for mail leagues. Send your opponent a disk which instructs the computer manager on how to manage your team. The stats for each game are automatically updated on that disk. Have the disk sent back and your season stat file can be automatically updated. No more paperwork, no more typing in "road" stats, no more mismanaging of your team by opponents.

· Quick Auto Play

Especially good for Solitaire Players intent on playing a full season. Plays all of the games remaining on the day's schedule. You decide which games you want to manage in and let the computer manager take care of the rest.

· General Manager

Draft & trade players. Make that big deal for the stretch run. Trades can be made quickly and easily.

Fantom Manager is easy to use and it is not copy-protected (nor does it require you to enter any codes before you start each game). It's user interface is the "friendliest" on the market (you'll be playing games in minutes!).

Compare what you get with any other game. Fantom Manager includes all of the above and is competitively priced at \$75.

Fantom Manager is the most statistically sophisticated game on the market!

- Situational Statistics
- vs. LH pitchers/batters
 vs. RH pitchers/batters
- Leading Off an Inning
- . Bases Empty, not leading off
- Man on First Only
- Men in Scoring Position
- · at Home
- · on the Road
- · Base Stealing

Attempts, Pickoffs, & Success Ratios for Pitchers, Catchers, and Baserunners

Baserunning

Attempts to take the extra base, Success Ratio

Defense

Fielding Percentage & Range (for all players), Throwing ability (for Outfielders), Double Play ability (for Infielders), Throwing ability & Passed Balls (for Catchers)

· Ball Park Effects

Singles, Doubles, Triples, Home Runs, Strikeouts, Walks, Foul Outs, Errors

Strategies

Bunting, Hit & Run, Stealing Bases, Stretching Base Hits, Sending Runners Home, Pinch Hitting, Pinch Running, Defensive Replacements, Handling the Bullpen, Infield Placement and more!

Accessories Available Separately (\$25 each)

- Old Timer Disk 1 (Pre-1941)-approximately 1000 players from the prewar era, using lifetime stats(situational breakdowns are estimated using historical trends).
- · Old Timer Disk 2 (Post-1941)-approximately 1000 players from postwar era, using lifetime stats (situational breakdowns are estimated using historical trends).
- · Projected 1991 Players Disk-play the "future" instead of the past; uses sabermetric principles to project what each player will hit in the current year; includes all of the hot rookie prospects.
- · Stat Cards-the situational statistical breakdowns for each player are reproduced on card stock. A handy reference tool while playing the game or trading players.

Fantom Manager does not use up valuable memory on fancy Graphics or Sounds. It was designed for the serious fan, searching for the most sophisticated simulation of professional baseball (particularly for those who want to play a solitaire season or in a mail league). If this sounds like you, then FANTOM MANAGER IS YOUR GAME!

THE SOLITAIRE STRATEGY GAME!

Your season ticket to major league fun!

Experience the action and excitement of a real pennant race! Transform your tabletop into a field of dreams!

Winning Inning! is the perfect solitaire game! Easy-play Basic Rules make Winning Inning! an ideal introductory game! Advanced Rules satisfy players requiring increased options, challenge and realism!

Winning Inning! covers all the bases! Power hitters slug more homers! Cunning speedsters swipe more sacks! Ace pitchers hurl with more control! And smart managers win more

All Solitaire Tabletop Games are specially designed to enhance solo play! Our fast-format completes most games in 10 minutes, yet doesn't sacrifice realism! From bunts to balks, beanballs to bloopers, Winning Inning! has it all!

Winning Inning! gives you extras no other game can! Our unique Simulated Season Plan allows full league replays in a fraction of the usual time, and yields full player statistics, too!

The Winning Inning! 1991 Edition rates 700+ current players on all 26 teams! The Classic Edition provides 27 great past teams with 725 + players rated! The Deluxe Game Set combines the 1991 Edition and Classic Edition!

To order, send \$24.95 (1991 Edition or Classic Edition) or \$39.95 (Deluxe Game Set) to:

Solitaire Tabletop Games 4440 Harriet Avenue Scall.
Minneapolis, Minnesota 55409 Or write for our free brochure and fact sheet!

All New for 1991! Make Your Play Winning Inning!
